LIMITED REVIEW REPORT FOR THE INTERIM FINANCIAL INFORMATION

To the Board of Directors of Türkiye Garanti Bankası A.Ş.

Introduction

We have reviewed the accompanying statement of financial position of Türkiye Garanti Bankası A.Ş. ("the Bank") as at 30 June 2015, and the income statement, statement of income and expense items under shareholders' equity, statement of changes in shareholders' equity and statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Bank management is responsible for the preparation and fair presentation of the accompanying interim financial information in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the Banking Regulations) and Turkish Accounting Standard 34 "Interim Financial Reporting", except for the matters regulated by the BRSA Accounting and Reporting Regulations. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Independent Auditing Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As of the balance sheet date, the accompanying interim financial statements include a general reserve amounting to TL 450,000 thousands, TL 35,000 thousands of which was charged to the income statement as expense in the current period, provided by the Bank management in line with conservatism principle considering the circumstances which may arise from any changes in the economy or market conditions.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee ("DTTL"), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as "Deloitte Global") does not provide services to clients. Please see www.deloitte.com/about for a more detailed description of DTTL and its member firms.

Qualified Conclusion

Based on our review, except for the effect of the matter referred in the preceding paragraph on the financial statements, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not present fairly, in all material respects, the financial position of Türkiye Garanti Bankası A.Ş. as at 30 June 2015, and of the results of its operations and its cash flows for the six-month period then ended in accordance with the BRSA Accounting and Reporting Regulations and Turkish Accounting Standard 34 "Interim Financial Reporting", except for the matters regulated by the BRSA Accounting and Reporting Regulations.

Additional paragraph for English translation:

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Bank's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

1 General Information

1.1 History of the bank including its incorporation date, initial legal status, amendments to legal status

Türkiye Garanti Bankası Anonim Şirketi (the Bank) was established by the decree of Council of Ministers numbered 3/4010 dated 11 April 1946 and its "Articles of Association" was issued in the Official Gazette dated 25 April 1946. The Bank provides banking services through 997 domestic branches, nine foreign branches and three representative offices abroad. The Bank's head office is located in Istanbul.

1.2 Bank's shareholder structure, management and internal audit, direct and indirect shareholders, change in shareholder structure during the year and information on bank's risk group

As of 30 June 2015, the group of companies under Doğuş Holding AŞ that currently owns 24.23% shares of the Bank, is named the Doğuş Group (the Group).

On 22 December 2005, Doğuş Holding AŞ had completed the sale of 53,550,000,000 shares composing 25.5% of the Bank's issued share capital to "GE Araştırma ve Müşavirlik Limited Şti" of General Electric (GE) Group. Accordingly, GE acquired a joint control on the Bank's management.

GE Araştırma ve Müşavirlik Limited Şti had sold 9,765,000,000 shares of Türkiye Garanti Bankası AŞ at a nominal value of TL 97,650 each to Doğuş Holding AŞ, representing 4.65% of the issued share capital of Türkiye Garanti Bankası AŞ on 27 December 2007.

Number of shares representing 20.85% ownership of GE Araştırma ve Müşavirlik Limited Şti increased to 87,571,249,898 subsequent to the capital increase through issuance of bonus shares. The company sold 83,371,249,899 shares at a total nominal value of TL 833,712 thousands representing 19.85% ownership in Türkiye Garanti Bankası AŞ, to GE Capital Corporation on 29 December 2010, and the remaining 1% ownership in the stock exchange market on 11 December 2012.

On 22 March 2011, Banco Bilbao Vizcaya Argentaria SA ("BBVA") acquired;

- 78.120.000.000 shares of the Bank owned by GE Capital Corporation at a total nominal value of TL 781,200 thousands representing 18.60% ownership, and
- 26.418.840.000 shares of the Bank owned by Doğuş Holding AŞ at a total nominal value of TL 264,188 thousands representing 6.29% ownership.

BBVA, holding 24.89% shares of the Bank, had joint control on the Bank's management together with Doğuş Group.

On 7 April 2011, BBVA acquired additional 503.160.000 shares at a nominal value of TL 5,032 thousands and increased its ownership in the Bank's share capital to 25.01%. As per the agreement between Doğuş Holding AŞ and BBVA, if any of the parties acquires additional shares during the next five years, it is required to offer half of the acquired shares to other party, in case that other party does not accept to purchase the offered shares, usufruct rights shall be established on the voting rights of such shares in favour of other party. Accordingly, although BBVA has acquired additional shares in April 2011, this does not affect their joint control on the Bank's management.

Doğuş Group

The Doğuş Group that was established in 1951 initially for investments in construction sector, operates in seven sectors namely financial services, automotive, construction, real estate, tourism, media and energy with 132 companies and more than 30 thousand employees.

The major worldwide joint ventures of the Group are; Volkswagen AG and TÜVSÜD in automotive, CNBC, MSNBC and Condé Nast in media and, Hyatt International Ltd and HMS International Hotel GmbH (Maritim) in tourism.

The major investments of the Group in financial sector are; Türkiye Garanti Bankası AŞ, Garanti Bank International NV, Garanti Bank Moscow, Garanti Bank SA, Garanti Finansal Kiralama AŞ, Garanti Faktoring Hizmetleri AŞ, Garanti Yatırım Menkul Kıymetler AŞ, Garanti Portföy Yönetimi AŞ, Garanti Emeklilik ve Hayat AŞ, Doğuş Gayrimenkul Yatırım Ortaklığı AŞ and Volkswagen Doğuş Tüketici Finansmanı AŞ.

BBVA Group

BBVA is operating for more than 150 years, providing variety of wide spread financial and non-financial services to over 47 million retail and commercial customers.

The Group's headquarter is in Spain, where the Group has concrete leadership in retail and commercial markets. BBVA adopting innovative, and customer and community oriented management style, besides banking, operates in insurance sector in Europe and portfolio management, private banking and investment banking in global markets.

BBVA that owns a bank being the largest financial institution in Mexico, the market leader in South America, and one of the largest 15 commercial banks in United States, operates in more than 30 countries with more than 100 thousand employees.

CEO and Executive Vice Presidents:

The top management listed above does not hold any unquoted shares of the Bank.

1.4 Information on the bank's qualified shareholders

| Name / Company | Shares | Ownership | Paid-in Capital | Unpaid Portion |
|------------------------------------|-----------|-----------|--------------------|----------------|
| Doğuş Holding AŞ | 857,315 | 20.4123% | 857,315 | - |
| Banco Bilbao Vizcaya Argentaria SA | 1,050,420 | 25.0100% | 1,050,420 | - |

According to the decision made at the "General Assembly of Founder Shares Owners" and the "Extraordinary General Shareholders" meetings held on 13 June 2008, the Bank repurchased all the 370 founder share-certificates issued in order to redeem and exterminate them, subsequent to the permissions obtained from the related legal authorities, at a value of TL 3,876 thousands each in accordance with the report prepared by the court expert and approved by the Istanbul 5th Commercial Court of First Instance. A total payment of TL 1,434,233 thousands has been made to the owners of 368 founder share-certificates from "extraordinary reserves", and the value of remaining 2 founder share-certificates has been blocked in the bank accounts.

Subsequent to these purchases, the clauses 15, 16 and 45 of the Articles of Association of the Bank have been revised accordingly.

1.5 Summary information on the bank's activities and services

Activities of the Bank as stated at the third clause of its Articles of Association are as follows:

- All banking operations,
- Participating in, establishing, and trading the shares of enterprises at various sectors within the limits setforth by the Banking Law;
- Providing attorneyship, insurance agency, brokerage and freight services in relation with banking activities,
- Purchasing/selling debt securities, treasury bills, government bonds and other share certificates issued by Turkish government and other official and private institutions,
- Developing economical and financial relations with foreign organizations,
- Dealing with all economic operations in compliance with the Banking Law.

The Bank's activities are not limited to those disclosed in that third clause, but whenever the Board of Directors deems any operations other than those stated above to be of benefit to the Bank, it is recommended in the general meeting, and the launching of the related project depends on the decision taken during the General Assembly which results in a change in the Articles of Association and on the approval of this decision by the Ministry of Industry and Commerce. Accordingly, the approved decision is added to the Articles of Association.

The Bank is not a specialized bank but deals with all kinds of banking activities. Deposits are the main sources of the lendings to the customers. The Bank grants loans to companies operating in various sectors while aiming to maintain the required level of efficiency.

The Bank also grants non-cash loans to its customers; especially letters of guarantee, letters of credit and acceptance credits.

1.6 Current or likely actual or legal barriers to immediate transfer of equity or repayment of debts between the bank and its affiliates

None.

3 Accounting policies

3.1 Basis of presentation

The Bank prepares its accounting records, unconsolidated financial statements and accompanying explanations and notes in accordance with Turkish Accounting Standards published by the Public Oversight Accounting and Auditing Standards Authority except for the matters regulated by the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006 and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the Banking Regulation and Supervision Agency.

The accompanying unconsolidated financial statements are prepared in accordance with the historical cost basis except for financial instruments at fair value through profit or loss, financial assets available for sale, investments in associates and affiliates that are either quoted on the stock exchanges or in foreign currencies which are presented on a fair value basis.

The accounting policies and the valuation principles applied in the preparation of the accompanying financial statements are explained in Notes 3.2 to 3.24.

3.2 Strategy for use of financial instruments and foreign currency transactions

3.2.1 Strategy for use of financial instruments

The liability side of the Bank's balance sheet is intensively composed of short-term deposits in line with the general trend in the banking sector. In addition to deposits, the Bank has access to longer-term borrowings via the borrowings from abroad.

In order to manage the interest rate risk arising from short-term deposits, the Bank is keen on maintaining floating rate instruments such as government bonds with quarterly coupon payments and instruments like credit cards and consumer loans providing regular cash inflows.

A portion of the fixed-rate securities and loans, and the bonds of the Bank are hedged under fair value hedges. The fair value risks of such fixed-rate assets and financial liabilities are hedged with interest rate swaps and cross currency swaps. The fair value changes of the hedged fixed-rate financial assets and financial liabilities together with the changes in the fair value of the hedging instruments, namely interest rate swaps and cross currency swaps, are accounted under net trading income/losses in the income statement. At the inception of the hedge and during the subsequent periods, the hedge is expected to achieve the offsetting of changes in fair value attributable to the hedged risk for which the hedge is designated, and accordingly, the hedge effectiveness tests are performed.

The Bank may classify its financial assets and liabilities as at fair value through profit or loss, at the initial recognition in order to eliminate any accounting inconsistency.

The fundamental strategy to manage the liquidity risk that may incur due to short-term structure of funding, is to expand the deposit base through customer-oriented banking philosophy, and to increase customer transactions and retention rates. The Bank's widespread and effective branch network, advantage of primary dealership and strong market share in the treasury and capital markets, are the most effective tools in the realisation of this strategy. For this purpose, serving customers by introducing new products and services continuously and reaching the customers satisfaction are very important.

Another influential factor in management of interest and liquidity risks on balance sheet is product diversification both on asset and liability sides.

Exchange rate risk, interest rate risk and liquidity risk are controlled and measured by various risk management systems, and the balance sheet is managed under the limits set by these systems and the limits legally required. Asset-liability management and value at risk models, stress tests and scenario analysis are used for this purpose.

Purchase and sale of short and long-term financial instruments are allowed within the pre-determined limits to generate risk-free return on capital.

The foreign currency position is controlled by the equilibrium of a currency basket to eliminate the foreign exchange risk.

3.2.2 Foreign currency transactions

Foreign exchange gains and losses arising from foreign currency transactions are recorded at transaction dates. At the end of the periods, foreign currency assets and liabilities evaluated with the Bank's spot purchase rates and the differences are recorded as foreign exchange gain or loss in the income statement.

The Bank started to apply fair value hedge accounting as at 1 January 2009 by designating the exchange rate risk of these foreign investments that are recognized under fair value accounting as hedged item, in compliance with "TAS 39 *Financial Instruments: Recognition and Measurement*". Accordingly, the effective portion of the foreign exchange differences is recorded under income statement in the current period.

3.3 Investments in associates and affiliates

The unconsolidated investments in associates and affiliates are accounted for in accordance with the Turkish Accounting Standard 39 (TAS 39) "Financial Instruments: Recognition and Measurement". Investments in companies quoted in organized markets and for which their fair values can be reliably determined, are valued at their fair values. Others are valued at costs reduced by provisions for impairment losses, if any, in the accompanying financial statements.

The Bank does not consider the bonus shares received through capital increases of its affiliates from their own equities as income in accordance with TAS 18, as such capital increases do not create any differences in the financial position or economic interest of the Bank and it is not certain that there is an economic benefit associated with such transactions that will flow to the Bank.

3.4 Forwards, options and other derivative transactions

As per the Turkish Accounting Standard 39 (TAS 39) "Financial Instruments: Recognition and Measurement"; forward foreign currency purchases/sales, swaps, options and futures are classified as either "hedging purposes" or "trading purposes".

3.4.1 Derivative financial instruments held for trading

The derivative transactions mainly consist of foreign currency and interest rate swaps, foreign currency options and forward foreign currency purchase/sale contacts. There are no embedded derivatives.

Derivatives are initially recorded in off-balance sheet accounts at their purchase costs including the transaction costs. Subsequently, derivative transactions are valued at their fair values and the changes in their fair values are recorded on balance sheet under "derivative financial assets held for trading" or "derivative financial liabilities held for trading", respectively depending on the fair values being positive or negative. Fair value changes for trading derivatives are recorded under income statement.

The spot legs of currency swap transactions are recorded on the balance sheet and the forward legs in the offbalance sheet accounts as commitment.

3.4.2 Derivative financial instruments held for risk management

The Bank enters into interest rate and cross currency swap transactions in order to hedge the change in fair values of fixed-rate financial instruments. While applying fair value hedge accounting, the changes in fair values of hedging instrument and hedged item are recognised in income statement. If the hedging is effective, the changes in fair value of the hedged item is presented in statement of financial position together with the fixed-rate loan, and in case of fixed-rate financial assets available for sale, such changes are reclassified from shareholders' equity to income statement.

The Bank enters into interest rate and cross currency swap transactions in order to hedge the changes in cash flows of the floating-rate financial instruments While applying cash flow hedge accounting, the effective portion of the changes in the fair value of the hedging instrument is accounted for under hedging reserves in shareholders' equity, and the ineffective portion is recognised in income statement. The changes recognised in shareholders' equity is removed and included in income statement in the same period when the hedged cash flows effect the income or loss.

The Bank also applies fair value hedge to manage the foreign exchange rate risk resulted from its investments in foreign operations. The effective portion of the foreign exchange differences are recognised in income statement.

The Bank performs effectiveness test at the beginning of the hedge accounting period and at each reporting period. The effectiveness tests are carried out using the "Dollar off-set model" and the hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortised to income statement over the life of the hedged item from that date of the hedge accounting is discontinued. While discontinuing cash flow hedge accounting, the cumulative gains/losses recognised in shareholders' equity and presented under hedging reserves are continued to be kept in this account. When the cash flows of hedged item are recognised in income statement, the gain/losses accounted for under shareholders' equity, are recognised in income statement.

3.5 Interest income and expenses

Interests are recorded according to the effective interest rate method (rate equal to the rate in calculation of present value of future cash flows of financial assets or liabilities) defined in the Turkish Accounting Standard 39 (TAS 39) "Financial Instruments: Recognition and Measurement".

In case an interest was accrued on a security before its acquisition, the collected interest is divided into two parts as interest before and after the acquisition and only the interest of the period after the acquisition is recorded as interest income in the financial statements.

The accrued interest income on non-performing loans are reversed and subsequently recognised as interest income only when collected.

3.6 Fees and commissions

Except for certain fees related with certain banking transactions and recognized when received, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted under accrual basis of accounting. The income derived from agreements or asset purchases from real-person or corporate third parties are recognized as income when realized.

3.7 Financial assets

3.7.1 Financial assets at fair value through profit or loss

Such assets are valued at their fair values and gain/loss arising on those assets is recorded in the income statement. Interest income earned on trading securities and the difference between their acquisition costs and amortized costs are recorded as interest income in the income statement. The differences between the amortized costs and the fair values of such securities are recorded under trading account income/losses in the income statement. In cases where such securities are sold before their maturities, the gains/losses on such sales are recorded under trading income/losses.

The Bank classifies certain loans and securities issued at their origination dates, as financial assets/liabilities at fair value through profit or loss in compliance with TAS 39. The interest income/expense earned and the difference between the acquisition costs and the amortized costs of financial instruments are recorded under interest income/expense in income statement, the difference between the amortized costs and the fair values of financial instruments are recorded under trading account income/losses in income statement.

3.7.2 Investments held-to-maturity, financial assets available-for-sale and loans and receivables

Financial assets are initially recorded at their purchase costs including the transaction costs.

Investments held-to-maturity are financial assets with fixed maturities and pre-determined payment schedules that the Bank has the intent and ability to hold until maturity, excluding originated loans and receivables.

There are no financial assets that are not allowed to be classified as investments held-to-maturity for two years due to the tainting rules applied for the breach of classification rules.

Investments held-to-maturity are measured at amortized costs using internal rate of return after deducting impairments, if any.

Financial assets available-for-sale, are financial assets other than assets held for trading purposes, investments held-to-maturity and originated loans and receivables.

Financial assets available-for-sale are measured at their fair values subsequently. However, assets for which fair values can not be determined reliably, are valued at amortized costs by using discounting method with internal rate of return for floating-rate securities; and by using valuation models or discounted cash flow techniques for fixed-rate securities. Unrecognised gain/losses derived from the difference between their fair values and the discounted values are recorded in "securities value increase fund" under the shareholders' equity. In case of sales, the gain/losses arising from fair value measurement under shareholders' equity are recognized in income statement.

The real coupon rates for government bonds indexed to consumer price index are fixed throughout maturities. As per the statements made by the Turkish Treasury on the dates of issuance, such securities are valued taking into account the difference between the reference index at the issue date and the reference index at the balance sheet date to reflect the effects of inflation.

Purchase and sale transactions of securities are accounted at delivery dates.

Loans and receivables are financial assets raised by the Bank providing money, commodity and services to debtors.

Loans are financial assets with fixed or determinable payments and not quoted in an active market.

Loans and receivables are recognized at cost and measured at amortized cost using the effective interest method. Duties paid, transaction costs and other similar expenses on assets received against such risks are considered as a part of transaction cost and charged to customers.

3.8 Impairment of financial assets

Financial asset or group of financial assets are reviewed at each balance sheet date to determine whether there is objective evidence of impairment. If any such indication exists, the Bank estimates the amount of impairment.

Impairment loss incurs if, and only if, there is an objective evidence that the expected future cash flows of financial asset or group of financial assets are adversely effected by an event(s) ("loss event(s)") incurred subsequent to recognition. The losses expected to incur due to future events are not recognized even if the probability of loss is high.

If there is an objective evidence that certain loans will not be collected, for such loans; the Bank provides specific and general allowances for loan and other receivables classified in accordance with the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables (the Provisioning Regulation) published on the Official Gazette no.2633 dated 1 November 2006. The allowances are recorded in income statement of the related period.

Provisions made during the period are recorded under "provision for losses on loans and other receivables". Provisions booked in the prior periods and released in the current year are recorded under "other operating income".

3.9 Netting and derecognition of financial instruments

3.9.1 Netting of financial instruments

In cases where the fair values of trading securities, securities available-for-sale, securities quoted at the stock exchanges, associates and affiliates are less then their carrying values, a provision for impairment is allocated, and the net value is shown on the balance sheet.

The Bank provides specific allowances for non-performing loan and other receivables in accordance with the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables. Such allowances are recorded under "loans" as negative balances on the asset side.

Otherwise, the financial assets and liabilities are netted off only when there is a legal right to do so.

3.9.2 Derecognition of financial assets

The Bank derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Bank neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Bank recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Bank retains substantially all the risks and rewards of recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in income statement.

In case an existing financial asset is replaced with another financial asset from the same counterparty where the terms on the initial financial asset are substantially modified, the existing financial asset is derecognized and a new financial asset is recognized. The difference between the carrying values of the respective financial assets is recognized in income statement.

3.10 Repurchase and resale agreements and securities lending

Securities sold under repurchase agreements are recorded on the balance sheet in compliance with the Uniform Chart of Accounts. Accordingly, government bonds and treasury bills sold to customers under repurchase agreements are classified as "Investments Subject to Repurchase Agreements" and valued based on the Bank management's future intentions, either at market prices or using discounting method with internal rate of return. The funds received through repurchase agreements are classified separately under liability accounts and the related interest expenses are accounted for on an accrual basis.

Securities purchased under resale agreements are classified under "interbank money markets" separately. An income accrual is accounted for the positive difference between the purchase and resale prices earned during the period.

3.11 Assets held for sale and discontinued operations

A tangible asset (or a disposal group) classified as "asset held for sale" is measured at lower of carrying value or fair value less costs to sell. An asset (or a disposal group) is regarded as "asset held for sale" only when the sale is highly probable and the asset (disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively marketed at a price consistent with its fair value.

A discontinued operation is a part of the Bank's business classified as sold or held-for-sale. The operating results of the discontinued operations are disclosed separately in income statement. The Bank has no discontinued operations.

3.12 Goodwill and other intangible assets

The Bank's intangible assets consist of softwares, intangible rights and other intangible assets.

Goodwill and other intangible assets are recorded at cost in compliance with the Turkish Accounting Standard 38 (TAS 38) "Intangible Assets".

The costs of the intangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. The intangible assets purchased after this date are recorded at their historical costs. The intangible assets are amortised by the Bank over their estimated useful lives based on their inflation adjusted costs on a straight-line basis.

Estimated useful lives of the Bank's intangible assets are 3-15 years, and amortisation rates are 6.67-33.3%.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) " Impairment of Assets" and if the recoverable amount is less then the carrying value of the related asset, a provision for impairment loss is provided.

3.13 Tangible assets

The cost of the tangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. The tangible assets purchased after this date are recorded at their historical costs.

Tangible assets are recorded at cost in compliance with the Turkish Accounting Standard 16 (TAS 16) "Tangible Assets".

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) " Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is provided.

Gains/losses arising from the disposal of the tangible assets are calculated as the difference between the net book value and the net sale price.

Maintenance and repair costs incurred for tangible assets, are recorded as expense.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods. The depreciation rates and the estimated useful lives of tangible assets are:

| Tangible assets | Estimated useful lives (years) | Depreciation Rates (%) from 1 January 2009 | Depreciation Rates (%) from 1 January 2005 | Depreciation Rates (%) before 1 January 2005 |
|-----------------------|--------------------------------------|--|--|--|
| Buildings | 50 | 2 | 4 | 2 |
| Vaults | 50 | 2 | 4 | 2 |
| Motor vehicles | 5-7 | 15-20 | 30-40 | 15-20 |
| Other tangible assets | 4-20 | 5-25 | 10-50 | 5-25 |

In prior periods, the tangible assets are depreciated over their estimated useful lives based on their inflation adjusted costs on a straight-line basis. The tangible assets purchased since 1 January 2005 are depreciated based on the declining balance method which is one of the accelerated depreciation methods. The straight-line depreciation method is in use for the tangible assets purchased since 1 January 2009.

The depreciation of an asset held for a period less than a full financial year is calculated as a proportion of the full year depreciation charge from the date of acquisition to the financial year end.

Investment properties

Land and buildings that are held to earn rentals or for capital appreciation or both rather than for use in production, supply of goods or services, administrative purposes or sale in the ordinary course of business are clasified as investment property and carried at cost less accumulated depreciation under the cost method. Depreciation is provided on investment property (except land) on a straight-line basis.

Investment properties are reviewed for impairment losses. Where the carrying value of an investment property is greater than the estimated recoverable value, it is written down to its recoverable value. The recoverable value of an investment property is higher of discounted net future cash flows from the use of the related investment property or net sale price.

3.14 Leasing activities

Leased assets are recognized by recording an asset or a liability. In the determination of the related asset and liability amounts, the lower of the fair value of the leased asset and the present value of leasing payments is considered. Financial costs on leasing agreements are expanded in lease periods at a fixed interest rate.

In cases where leased assets are impaired or the expected future benefits of the assets are less than their book values, the book values of such leased assets are reduced to their net realizable values. Depreciation for assets acquired through financial leases is calculated consistently with the same principle as for the tangible assets.

In operating leases, the rent payments are charged to the statement of operations in equal installments.

3.15 **Provisions and contingent liabilities**

In the financial statements, a provision is made for an existing commitment resulted from past events if it is probable that the commitment will be settled and a reliable estimate can be made of the amount of the obligation. Provisions are calculated based on the best estimates of management on the expenses to incur as of the balance sheet date and, if material, such expenses are discounted for their present values. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

3.16 Contingent assets

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Bank. If an inflow of economic benefits to the Bank has become probable, then the contingent asset is disclosed in the footnotes to the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

3.17 Liabilities for employee benefits

Severance indemnities and short-term employee benefits

As per the existing labour law in Turkey, the Bank is required to pay certain amounts to the employees retired or fired except for resignations or misbehaviours specified in the Turkish Labour Law.

Accordingly, the Bank reserved for employee severance indemnities in the accompanying financial statements using actuarial method in compliance with the Turkish Accounting Standard 19 (TAS 19) "Employee Benefits" for all its employees who retired or whose employment is terminated, called up for military service or died. The major actuarial assumptions used in the calculation of the total liability are as follows:

| | 30 June 2015 | 31 December 2014 |
|-----------------------------|--------------|------------------|
| | % | % |
| Net Effective Discount Rate | 2.36 | 2.36 |
| Discount Rate | 8.60 | 8.60 |
| Expected Rate of Salary | 7.60 | 7.60 |
| Inflation Rate | 6.10 | 6.10 |

The above rates are effective rates, whereas the rates applied for the calculation differ according to the employees' years-inservice.

The Bank provided for undiscounted short-term employee benefits earned during the financial periods as per services rendered in compliance with TAS 19.

The actuarial gains/losses are recognised under shareholders' equity as per the revised TAS 19.

Retirement benefit obligations

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee (and his/her dependents) will receive on retirement.

The Bank's defined benefit plan (the "Plan") is managed by "Türkiye Garanti Bankası Anonim Şirketi Memur ve Müstahdemleri Emekli ve Yardım Sandığı Vakfı" (the Fund) established as per the provisional article 20 of the Social Security Law no.506 and the Bank's employees are the members of this Fund.

The Plan is funded through contributions of both by the employees and the employer as required by Social Security Law numbered 506. These contributions are as follows:

| | 30 Jun | 30 June 2015 | | | |
|-------------------------------|--------------|--------------|--|--|--|
| | Employer Emp | | | | |
| Pension contributions | 15.5% | 10.0% | | | |
| Medical benefit contributions | 6.0% | 5.0% | | | |

The Plan is composed of a) the contractual benefits of the employees, which are subject to transfer to Social Security Foundation ("SSF") as per the Social Security Law no.5754 ("the Law"), and b) other social rights and medical benefits provided by the Bank but not transferable to SSF.

a) Benefits transferable to SSF

The first paragraph of the provisional article 23 of Banking Law no.5411, published in the Official Gazette on 1 November 2005, no.25983, which requires the transfer of the members of the funds subject to the provisional article 20 of the Social Security Law no.506, and the persons who are paid under insurance coverage for disablement, old-age and mortality and their right-holders to the SSF within three years following the effective date of the related article was cancelled with the decision of the Constitutional Court dated 22 March 2007, no.2007/33. The reasoned ruling regarding the cancellation of the Constitutional Court was published in the Official Gazette no.26731, dated 15 December 2007. The Constitutional Court stated that the reason behind this cancellation was the possible loss of antecedent rights of the fund members.

Following the publication of the verdict, the Turkish Grand National Assembly ("Turkish Parliament") started to work on the new legal arrangements by taking the cancellation reasoning into account and the articles of the Law no.5754 regulating the principles related with such transfers were accepted and approved by Turkish Parliament on 17 April 2008, and enacted on 8 May 2008 after being published in the Official Gazette no.26870.

As per the Law, the present value of post-employment benefits as at the transfer date for the fund members to be transferred, are to be calculated by a commission composing from the representatives of the SSF, the Ministry of Finance, the Undersecretariat of Treasury, the Undersecretariat of State Planning Organisation, the BRSA, the Savings Deposit Insurance Fund, the banks and the funds, by using a technical discount rate of 9.80% taking into account the funds' income and expenses as per insurance classes and the transferable contributions and payments of the funds including any salary and income differences paid by the funds above the limits of SSF for such payments. The transfers are to take place within the three-year period starting from 1 January 2008. Subsequently, the transfer of the contributors and the persons receiving monthly or regular income and their right-holders from such funds established for employees of the banks, insurance and reinsurance companies, trade chambers, stock markets and unions that are part of these organizations subject to the provisional article 20 of the Social Security Law no.506 to the SSF, has been postponed for two years. The decision was made by the Council of Ministers on 14 March 2011 and published in the Official Gazette no. 27900 dated 9 April 2011 as per the decision of the Council of Ministers, no.2011/1559, and as per the letter no. 150 of the Ministry of Labor and Social Security dated 24 February 2011 and according to the provisional article 20 of the Social Security and Public Health Insurance Law no.5510.

On 19 June 2008, Cumhuriyet Halk Partisi ("CHP") applied to the Constitutional Court for the cancellation of various articles of the Law including the first paragraph of the provisional Article 20. At the meeting of the Constitutional Court on 30 March 2011, it was decided that the first paragraph of the provisional Article 20 of the Law is not contradictory to the Constitutional Law, and accordingly the dismissal of the cancellation request has been denied with the majority of votes.

Before the completion of two-years period set by the Council of Ministers on 14 March 2011, as per the Article no. 51 of the law no. 6645, published in the Official Gazette no. 29335 dated 23 April 2015, the Article no. 20 of the law no. 5510 was amended giving the Council of Ministers the authority to determine the date of transfer without defining any timeline.

b) Other benefits not transferable to SSF

Other social rights and payments provided in the existing trust indenture but not covered through the transfer of the funds' members and their right-holders to the SSF, are to be covered by the funds and the institutions that employ the funds' members.

The actuarial gains/losses are recognised under shareholders' equity as per the revised TAS 19.

3.18 Taxation

3.18.1 Corporate tax

Effective from 1 January 2006, statutory income is subject to corporate tax at 20% in Turkey. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductable expenses and allowances for tax purposes. If there is no dividend distribution planned, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions no.2009/14593 and no.2009/14594 of the Council of Ministers published in the Official Gazette no.27130 dated 3 February 2009, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the nonresident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the nonresident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25^{th} of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

The tax applications for foreign branches;

NORTHERN CYPRUS

According to the Corporate Tax Law of the Turkish Republic of Northern Cyprus no.41/1976 as amended, the corporate earnings (including foreign corporations) are subject to a 10% corporate tax and 15% income tax. This tax is calculated based on the income that the taxpayers earn in an accounting period. Tax base is determined by modifying accounting income for certain exclusions and allowances for tax purposes. The corporations cannot benefit from the rights of offsetting losses, investment incentives and amortisation unless they prepare and have certified their balance sheets, income statements and accounting records used for tax calculations by an auditor authorized by the Ministry of Finance. In cases where it is revealed that the earnings of a corporation were not subject to taxation in prior years or the tax paid on such earnings are understated, additional taxes can be charged in the next twelwe years following that the related taxation period. The corporate tax returns are filed in the tax administration office in April after following the end of the accounting year to which they relate. The corporate taxes are paid in two equal installments in May and October.

MALTA

The corporate earnings are subject to a 35% corporate tax. This rate is determined by modifying accounting income for certain exclusions and allowances for tax purposes. The earnings of the foreign corporations' branches in Malta are also subject to the same tax rate that the resident corporations in Malta are subject to. The earnings of such branches that are transferred to their head offices are not subject to an additional tax. The prepaid taxes are paid in April, August and December of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings. The excess part of the corporate tax that is not covered by such prepayments is paid to the tax office in September.

LUXEMBOURG

The corporate earnings are subject to a 21% corporate tax. This rate is determined by modifying accounting income for certain exclusions and allowances for tax purposes. An additional 7% of the calculated corporate income tax is paid as a contribution to unemployment insurance fund. 3% of the taxable income is paid as municipality tax in addition to corporate tax. The municipalities have the right to increase this rate up to 200%-350%. The municipality commerce tax, which the Bank's Luxembourg branch subject to currently is applied as 7.50% of the taxable income. The tax returns do not include any tax amounts to be paid. The tax calculation is done by the tax office and the amount to be paid is declared to corporate through an official letter called Note. The amounts and the payment dates of prepaid taxes are determined and declared by the tax office at the beginning of the taxation period. The corporations whose head offices are outside Luxembourg, are allowed to transfer the rest of their net income after tax following the allocation of 5% of it for legal reserves, to their head offices.

3.18.2 Deferred taxes

According to the Turkish Accounting Standard 12 (TAS 12) "Income Taxes"; deferred tax assets and liabilities are recognized, using the balance sheet method, on all taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base, except for the differences not deductible for tax purposes and initial recognition of assets and liabilities which affect neither accounting nor taxable profit.

If transactions and events are recorded in the income statement, then the related tax effects are also recognized in the income statement. However, if transactions and events are recorded directly in the shareholders' equity, the related tax effects are also recognized directly in the shareholders' equity.

The deferred tax assets and liabilities are reported as net in the financial statements.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

3.18.3 Transfer pricing

The article no.13 of the Corporate Tax Law describes the issue of transfer pricing under the title of "Disguised Profit Distribution by Way of Transfer Pricing". "The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing" published at 18 November 2007, explains the application related issues on this topic.

According to this communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm's length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As stated in the "7.1 Annual Documentation" section of this communiqué, the taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Entities and Thin Capitalization" form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices.

3.19 Funds borrowed

The Bank, whenever required, generates funds from domestic and foreign sources in the form of borrowings, syndications, securitizations, and bill and bond issuances in the local and international markets. The funds borrowed are recorded at their purchase costs and valued at amortised costs using the effective interest method.

In cases where such funds are valued at their amortised costs and such application results in measurement or accounting inconsistencies due to having the relevant financial instruments valued using different methods or the related gains or losses are recorded differently, such fundings are valued and recorded at their fair values as per TAS 39 in order to minimise or prevent such inconsistencies.

3.20 Share issuances

None.

3.21 Confirmed bills of exchange and acceptances

Confirmed bills of exchange and acceptances are realized simultaneously with the customer payments and recorded in off-balance sheet accounts as possible debt and commitment, if any.

3.22 Government incentives

As of 30 June 2015, the Bank does not have any government incentives or grants.

3.23 Segment reporting

The Bank operates in corporate, commercial, retail and investment banking. Accordingly, the banking products served to customers are; custody services, time and demand deposits, accumulating deposit accounts, repos, overdraft facilities, spot loans, foreign currency indexed loans, consumer loans, automobile and housing loans, working capital loans, discounted bills, gold loans, foreign currency loans, eximbank loans, pre-export loans, ECA covered financing, letters of guarantee, letters of credit, export factoring, acceptance credits, draft facilities, forfaiting, leasing, insurance, forward, futures, salary payments, investment account (ELMA), cheques, safety boxes, bill payments, tax collections, payment orders. GarantiCard, BonusCard, Miles&Smiles Card, FlexiCard, MoneyCard, BusinessCard under the brand names of Visa and Mastercard, virtual cards and also American Express credit cards and "Paracard" debit cards with Maestro, Electron, Visa and Mastercard brand names, are available.

The Bank provides service packages to its corporate, commercial and retail customers including deposit, loans, foreign trade transactions, investment products, cash management, leasing, factoring, insurance, credit cards, and other banking products. A customer-oriented branch network has been built in order to serve customers' needs effectively and efficiently. The Bank also utilizes alternative delivery channels intensively.

The Bank provides corporate banking products to international and national holdings in Turkey by coordinating regional offices, suppliers and intermediaries, utilizing cross-selling techniques. Mainly, it provides services through its commercial and mixed type of branches to export-revenue earning sectors like tourism and textile and exporters of Turkey's traditional agricultural products.

Additionally, the Bank provides banking services to enterprises and their employees working in retail and service sectors through product packages including overdraft accounts, POS machines, credit cards, cheque books, Turkish Lira and foreign currency deposits, investment accounts, internet banking and call-center, debit cards and bill payment modules.

Retail banking customers form a wide-spread and sustainable deposit base for the Bank. Individual customers' needs are met by diversified consumer banking products through branches and alternative delivery channels.

4 **Financial position and results of operations**

4.1 Capital adequacy ratio

As per the revised "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" effective from 1 July 2012, the Bank's unconsolidated capital adequacy ratio is 14.28% as of 30 June 2015 (31 December 2014: 15.23%).

4.1.1 Risk measurement methods in calculation of capital adequacy ratio

Capital adequacy ratio is calculated within the scope of the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks (the "Regulation")", "Regulation on Credit Risk Mitigation Techniques" and "Regulation on Calculation of Risk Weighted Amounts for Securitisations" published in the Official Gazette no.28337 dated 28 June 2012 and the "Regulation on Equities of Banks" published in the Official Gazette no.28756 dated 5 September 2013.

In the calculation of capital adequacy ratio, the data prepared from accounting records in compliance with the current legislation are used. Such accounting data is included in the calculation of credit and market risks subsequent to their designation as "trading book" and "banking book" according to the Regulation.

The items classified as trading book and the items deducted from the equity are not included in the calculation of credit risk. In the calculation of risk weighted assets, the assets subject to amortisation or impairment, are taken into account on a net basis after being reduced by the related amortisations and provisions.

In the calculation of the value at credit risk for the non-cash loans and commitments and the receivables from counterparties in such transactions are weighted after netting with specific provisions that are classified under liabilities and calculated based on the "Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables". The net amounts are then multiplied by the rates stated in the Article 5 of the Regulation, reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in the article 6 of the Regulation and weighted as per Appendix-1 of the Regulation.

In the calculation of the value at credit risk for the derivative financial instruments and the credit derivaties classified in the banking book, the receivables from counterparties are multiplied by the rates stated in the Appendix-2 of the Regulation, reduced as per the Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in the article 6 of the Regulation and weighted as per Appendix-1 of the Regulation.

As per the article 5 of the Regulation, the "counterparty credit risk" is calculated for repurchase transactions, securities and commodities borrowing agreements.

Unconsolidated Financial Report as of and for the Six-Month Period Ended 30 June 2015 (Thousands of Turkish Lira (TL))

4.1.2 Capital adequacy ratio

| Current Period | Risk Weights | | | | | | | | 1 |

4.1.6 Approaches for assessment of adequacy of internal capital requirements for current and future activities

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

4.2 Credit risk

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

4.3 Market risk

The Bank's risk management activities are managed under the responsibility of the board of directors in compliance with "the Internal Systems and Internal Capital Adequacy Assessment Processes of Banks".

In order to comply with the regulations, the Bank set its activities related with market risk management in accordance with "the Internal Systems and Internal Capital Adequacy Assessment Processes of Banks" published in the Official Gazette no. 29057 dated 11 July 2014.

The top management is responsible for applying risk policies, principles and application procedures approved by the board of directors, ensuring timely and reliable reporting to the board of directors about the important risks identified, assessing internal control, internal audit and risk reports prepared for departments and either eliminating risks, deficiencies or defects identified in these departments or taking the necessary precautions to prevent those, and participating in determination of risk limits.

The board of directors monitors the effectiveness of risk management systems through audit committee, related other committees and top management, and in the light of various risk reports and the assessments made by the audit committee.

The risk policies and application procedures have been approved by the board of directors and regularly revisited. The market risk is also managed by risk mitigations through hedging transactions beside measuring the risks in compliance with international standards, limiting such risk and allocating capital accordingly.

Market risks arising from trading portfolios are measured as per "standard" and "value at risk (VaR)" methods. The measurements as per the standard method are performed on a monthly basis, and taken into consideration in the calculation of capital adequacy. Whereas, the measurements as per VaR method are performed on a daily basis. The Bank takes the historical VaR results as the basis for the internal management of market risk and determination of limits. In the VaR calculation, one year historical market data set is used, and 99% confidence interval and one-day retention period (10 days for legal capital calculation) are taken into account. In order to test the reliability of the VaR model, back tests are performed. Stress tests and scenario analysis are also applied in order to reflect the effects of prospective severe market fluctuations in the VaR calculations. Beside the VaR limits, the limits on transaction, dealer, desk, stop-loss approved by the board of directors for trading portfolio are also applied for limiting the market risk.

Unconsolidated Financial Report as of and for the Six-Month Period Ended 30 June 2015 (Thousands of Turkish Lira (TL))

4.3.1 Value at market risk

| | | Current Period | Prior Period |
|-------|---|----------------|--------------|
| (I) | Capital Requirement against General Market Risk - Standard Method | 81,437 | 74,413 |
| (II) | Capital Requirement against Specific Risks - Standard Method | 34,449 | 34,142 |
| | Capital Requirement against Specific Risks of Securitisation Positions- Standard Method | _ | |
| (III) | Capital Requirement against Currency Position Risk - Standard Method | 181,468 | 130,923 |
| (IV) | Capital Requirement against Commodity Risks - Standard Method | 11,027 | 2,115 |
| (V) | Capital Requirement against Clearing Risks - Standard Method | - | - |
| (VI) | Capital Requirement against Market Risks of Options - Standard Method | 130,489 | 110,476 |
| (VII) | Capital Requirement against Counterparty Credit Risks - Standard Method | 28,826 | 15,275 |
| (VIII |) Capital Requirement against Market Risks of Banks applying Risk Measurement | - | - |
| (IX) | Total Capital Requirement against Market Risk (I+II+III+IV+V+VI+VII) | 467,696 | 367,344 |
| (X) | Value-At-Market Risk ((12.5*VIII) or (12.5*IX)) | 5,846,200 | 4,591,800 |

4.3.2 Monthly average values at market risk

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

4.3.3 Quantitative information on counterparty risk

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

4.4 **Operational risk**

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

4.5 Currency risk

Foreign currency position limit is set in compliance with the legal standard ratio of net foreign currency position. As of 30 June 2015, the Bank's net 'on balance sheet' foreign currency short position amounts to TL 11,756,495 thousands (31 December 2014: TL 7,867,042 thousands), net 'off-balance sheet' foreign currency long position amounts to TL 10,656,914 thousands (31 December 2014: TL 6,276,952 thousands), while net foreign currency short position amounts to TL 1,099,581 thousands (31 December 2014: TL 1,590,090 thousands).

The foreign currency position risk of the Bank is measured by "standard method" and "value-at-risk (VaR) model". Measurements by standard method are carried out monthly, whereas measurements by "VaR" are done daily. The foreign currency exchange risk is managed through transaction, dealer, desk and stop-loss limits approved by the board of directors for the trading portfolio beside the foreign currency net position standard ratio and the VaR limit.

The Bank's effective exchange rates at the date of balance sheet and for the last five working days of the period announced by the Bank in TL are as follows:

| | USD | EUR |
|--|--------|--------|
| Foreign currency purchase rates at balance sheet date | 2.6550 | 2.9586 |
| Exchange rates for the days before balance sheet date; | | |
| Day 1 | 2.6640 | 2.9705 |
| Day 2 | 2.6400 | 2.9408 |
| Day 3 | 2.6290 | 2.9422 |
| Day 4 | 2.6530 | 2.9670 |
| Day 5 | 2.6520 | 2.9661 |
| Last 30-days arithmetical average rates | 2.6703 | 2.9961 |

for the Six-Month Period Ended 30 June 2015 (Thousands of Turkish Lira (TL))

(*) The foreign currency-indexed loans amounting TL 5,243,889 thousands included under TL loans in the accompanying balance sheet are presented above under the related foreign currency codes.

(**) Other liabilities include gold deposits of TL 1,204,077 thousands.

4.6 Interest rate risk

The interest rate risk resulting from balance sheet maturity mismatch presents the possible losses that may arise due to the changes in interest rates of interest sensitive assets and liabilities in the on- and off-balance sheet. Interest sensitivity of assets, liabilities and off-balance sheet items is evaluated during the weekly Assets-Liabilities Committee meetings taking into consideration the developments in market conditions.

The Bank's interest rate risk is measured by the standard method, value at risk (VaR), duration-gap and sensitivity analysis.

Measurements for standard method are carried out monthly using the maturity ladder table, while measurements for VaR calculations are done daily. The duration-gap and sensitivity analysis are run every two weeks period.

During the daily VaR calculations, the interest rate risks of the Bank's TL and FC trading and investment securities available for sale and off-balance sheet position are measured. These are supported by scenario analysis and stress testing.

In the duration-gap analysis used for the quantification of market risk arising from maturity mismatches of assets and liabilities, the present values of interest sensitive asset and liability items are calculated based on their cash flows and yield curves developed from market interest rates. The results are supported by the sensitivity and scenario analysis performed periodically due to the possible instabilities in the markets. Furthermore, the interest rate risk is monitored according to the limits approved by the board of directors.

4.6.3 Interest rate risk on banking book

4.6.3.1 Nature of interest rate risk resulting from banking book, major assumptions on early repayment of loans and movements in deposits other than term deposits and frequency of measuring interest rate risk

The interest rate risk resulting from the banking book is assessed in terms of repricing risk, yield-curve risk, base risk and option risk, measured as per international standards and managed through limitations and mitigations through hedging transactions.

The interest sensitivity of assets, liabilities and off balance-sheet items are evaluated at the weekly Asset-Liability Committee meetings considering also the market developments.

The measurement process of interest rate risk resulting from the banking book, is designed and managed by the Bank on a bank-only basis to include the interest rate positions defined as banking book by the Bank and to consider the relevant repricing and maturity data.

Duration gaps, gaps by maturity brackets and sensitivity analysis are used in monitoring of repricing risk resulting from maturity mismatch. The duration gap and sensitivity analysis are carried out every two weeks.

In the duration gap analysis, net present values of the interest-rate sensitive assets and liabilities are calculated by using yield curves developed from the market interest rates. In case of instruments with no maturities, the maturity is determined as per interest rate fixing periods and customer behaviors. Such results are supported by sensitivity and scenario analysis applied periodically for possible fluctuations in the markets.

The interest rate risk resulting from the banking book is measured legally as per the "Regulation on Measurement and Evaluation of Interest Rate Risk Resulting from Banking Book as per Standard Shock Method" published in the Official Gazette no.28034 dated 23 August 2011, and the legal limit as per this measurement is monitored and reported monthly. The capital level is maintained considering the interest rate risk resulting from the banking book.

The interest rate risk on the interest-rate-sensitive financial instruments of the trading portfolio is evaluated as part of the market risk.

The market risks of branches and business lines are transferred to the Asset Liability Management department through transfer pricing. This department applies a centralised market risk management and uses the balance sheet (long-term borrowing) and off balance sheet (derivative instruments) methods.

4.8 Liquidity risk

The liquidity risk of the Bank is defined as the risk of being unable to pay its liabilities ontime due to not having enough cash sources or cash inflows to finance its cash outflows fully and ontime due to cashflow instabilities.

In order to overcome the liquidity risk, the Bank diversifies its funding sources considering their short and long term liquidity requirements, through instruments such as customer deposits, repurchase transactions, bond issuances and foreign borrowings. Besides, in order to secure the maturity match between the assets and liabilities, the strategies for maturity extension of fundings exist. The liquidity needs in different currencies are also managed through transactions such as currency swaps. In order to meet the cash outflow requirements during crises periods, high-liquid asset reserves are maintained.

In the management of TL and foreing currency liquidity, the cashflows of existing assets and liabilities are monitored and the liquidity needs in future maturities are estimated. The necessary actions are taken for liquidity requirments by monitoring stress positions.

An emergency action plan that covers the solutions to prevent the increase in liquidity risks under the ordinary activities and the possible scenarios of liquidity constraints under different positions and stress levels, exist. As per this plan, the liquidity risk is monitored through possible actions and scenarios at various stress levels of liquidity risks and early warning signals.

4.8.1 Contractual maturity analysis of liabilities according to remaining maturities

(*) Certain assets on the balance sheet that are necessary for the banking operations but not convertable into cash in short period such as tangible assets, investments in associates and affiliates, stationary supplies, prepaid expenses and loans under follow-up, are included in this column.

(**) Loans amounting to TL 197,120 thousands (31 December 2014: TL 201,385 thousands) classified under "financial assets at fair value through profit or loss" in the accompanying balance sheet, are included above under "Loans".

(***) Shareholders' equity is included in "other liabilities" line under "undistributed" column.

4.9 Securitisation positions

None.

4.10 Credit risk mitigation techniques

The Bank applies credit risk mitigation according to the comprehensive method that includes risk mitigation calculations considering the volatility-adjusted values of financial collaterals in compliance with the article 34 of the "Regulation on Credit Risk Mitigation Techniques".

In the credit risk mitigation, cash and cash equivalent items and high-credit-quality debt instruments are used.

The volatility adjustments regarding the receivables, collaterals and currency mismatch of the collaterals are made as per the standard volatility-adjustment approach defined in the article 37 of the above mentioned regulation.

In cases, where there are maturity mismatches resulting from shorter remaining life of collateral than of receivables, the value of collateral is considered as the volatility-adjusted value.

| <i>Current Period</i> Exposure Categories | Amount ^(**) | Financial Collateral | Other/Physical Collateral | Guaranties and Credit Derivatives |

(**) Includes total risk amounts before the effect of credit risk mitigation and liquidity conversions.

4.11 Risk management objectives and policies

The Risk Management Strategy of the Bank includes the optimum allocation of the capital and the realisation of growth framework, maintaining risk-return balance, measuring the risks by methods in compliance with international standards and local regulations in paralel with its activities and under its sustainable and value-creating growth strategy.

The Bank determines the necessary approaches in order to update, revise, apply and manage its policies set for the proper assessment and management of risks considering changes in conditions.

The top management is responsible of managing, developing the risk management strategies, policies and application principles approved by the board of directors, reporting of major risks that the Bank is facing to the board of directors, assessment of internal control, internal audit and risk reports of departments and either eliminating risks, deficiencies or defects identified in these departments or taking the necessary precautions to prevent those, and participating in determination of risk limits.

The risk management activities are structured under the responsibility of the Bank's board of directors. The top management is responsible to the board of directors for monitoring and managing of risks. Besides, the following departments participate in monitoring of risks, independent from the departments having operational activities; Internal Control, Risk Management, Fraud, Compliance and Internal Audit.

The risks are evaluated on a continuously developing structure that is managed by internationally accepted applications and in compliance with the Bank's policies and procedures, and the international and local regulations.

The risks are also managed through risk mitigations using hedging transactions beside measurement, limitation and capital allocation techniques. The data of the Bank and the market are regularly monitored for better risk monitoring and management. As part of limitation of risks, internal limits are also set beside the legal limits. The possible changes in economic conditions and the risks that can be faced under extraordinary conditions are taken into consideration.

4.12 Fair values of financial assets and liabilities

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

4.13 Transactions carried out on behalf of customers, items held in trust

None.

| Balances at End of Period | 20,735,216 | 21,014,502 |

In the prior period,

^(*) The Bank reclassified private sector bonds with "credit linked notes" with a total face value of USD 425,000,000 from financial assets available-for-sale portfolio to investments held-to-maturity portfolio.

(**) As per the regulation on capital adequacy (Basel II) effective from 1 July 2012, the risk weight of securities in foreign currencies issued by the Turkish Treasury increased from 0% to 100%. As allowed by the relevant accounting standards (TAS 39) for the sale or reclassification of securities originally classified under the securities held-to-maturity in cases where the capital requirement increases due to regulatory changes, and as per the letter of the Public Oversight, Accounting and Auditing Standards Authority no. 602 dated 20 February 2013, in the prior period the Bank reclassified its eurobonds with a total face value of USD 248,209,999 to its available-for-sale portfolio.

In the current period,

(**) As per the exceptions set out in the relevant accounting standards (TAS 39) for the sale or reclassification of securities originally classified under the securities held-to-maturity before maturity, certain credit linked notes with a total face value of USD 300,000,000 were sold.

Unconsolidated Financial Report as of and for the Six-Month Period Ended 30 June 2015 (Thousands of Turkish Lira (TL))

5.1.12 Tangible assets

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

5.1.13 Intangible assets

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

5.1.14 Investment property

| <i>Current Period</i> Real Estate Type | Cost | Accumulated Depreciation (-) | Impairment Losses | Intend of Use |
|---|---------|---------------------------------|----------------------|-------------------|
| Building | 191,021 | (45,847) | - | Operational lease |
| Land | - | - | - | - |

| <i>Prior Period</i> Real Estate Type | Cost | Accumulated Depreciation (-) | Impairment Losses | Intend of Use |
|---|---------|---------------------------------|----------------------|-------------------|
| Building | 191,020 | (43,555) | - | Operational lease |
| Land | - | - | - | - |

5.1.15 Deferred tax asset

As of 30 June 2015, the Bank has a deferred tax asset of TL 259,403 thousands (31 December 2014: TL 372,090 thousands) calculated as the net amount remaining after netting of tax deductible timing differences and taxable timing differences.

The Bank does not have any deferred tax assets on tax losses carried forward or tax deductions and exemptions as of 30 June 2015. However, there is a deferred tax asset of TL 538,616 thousands (31 December 2014: TL 550,271 thousands) and deferred tax liability of TL 279,213 thousands (31 December 2014: TL 178,181 thousands) presented as net in the accompanying financial statements on all taxable temporary differences arising between the carrying amounts and the taxable amounts of assets and liabilities on the financial statements that will be considered in the calculation of taxable earnings in the future periods.

For the cases where such differences are related with certain items on the shareholders' equity accounts, the deferred taxes are charged or credited directly to these accounts.

| | Curren | t Period | Prior Period | | |
|--|-----------|------------------------|---------------------|------------------------|--|
| | Tax Base | Deferred Tax Amount | Tax Base | Deferred Tax Amount | |
| Provisions ^(*) | 707,347 | 141,469 | 656,754 | 131,351 | |
| Differences between the Carrying Values and Taxable Values of Financial Assets ^(**) | 629,367 | 113,441 | 964,681 | 191,276 | |
| Other | 22,467 | 4,493 | 247,317 | 49,463 | |
| Total Deferred Tax Asset, Net | 1,359,181 | 259,403 | 1,868,752 | 372,090 | |

^(*) Consists of reserve for employee benefits, provision for promotion expenses of credit cards and other provisions.

(**) Calculations are performed at the relevant tax rates applicable in the country of the foreign branches' financial assets.

As of 30 June 2015, TL 199,416 thousands of deferred tax expense (30 June 2014: TL 196,590 thousands of deferred tax income) and TL 86,729 thousands of deferred tax income (31 December 2014: TL 116,413 thousands of deferred tax expense) are recognised in the income statement and the shareholders' equity, respectively.

| General Provision for | 2,725,159 | 2,434,629 |
| Loans and Receivables in Group I | 2,349,457 | 2,105,409 |
| - Additional Provision for Loans and Receivables with Extended Maturities | 110,805 | 82,754 |
| Loans and Receivables in Group II | 232,238 | 188,973 |
| - Additional Provision for Loans and Receivables with Extended Maturities | 65,063 | 56,332 |
| Non-Cash Loans | 143,464 | 140,247 |
| Others | - | - |

5.2.7.2 Provisions for foreign exchange differences on foreign currency indexed loans and financial lease receivables

| | Current Period | Prior Period |
|----------------------------|----------------|--------------|
| Short-Term Loans | 7,687 | 13,320 |
| Medium and Long-Term Loans | 5,930 | 11,208 |
| Total | 13,617 | 24,528 |

Foreign exchange differences on foreign currency indexed loans are netted with loans on the asset side.

5.2.7.3 Provisions for non-cash loans that are not indemnified or converted into cash

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

5.2.7.4 Other provisions

5.2.7.4.1 General reserves for possible losses

| | Current Period | Prior Period |
|--------------------------------------|----------------|---------------------|
| General Reserves for Possible Losses | 450,000 | 415,000 |

5.2.7.4.2 Other provisions

| | Current Period | Prior Period |
|--|----------------|--------------|
| Reserve for Employee Benefits | 537,207 | 497,565 |
| Provision for Promotion Expenses of Credit Cards (*) | 88,318 | 82,436 |
| Provision for Lawsuits | 40,575 | 30,062 |
| Other Provisions | 43,252 | 123,394 |
| Total | 709,352 | 733,457 |

(*) The Bank provides full allowance for the committed promotion expenses of credit cards as of the balance sheet date.

Recognized liability for defined benefit plan obligations

The Bank obtained an actuarial report dated 22 December 2014 from an independent actuary reflecting the principles and procedures on determining the application of transfer transactions in accordance with the Law and it is determined that the assets of the Plan are above the amount that will be required to be paid to transfer the obligation and the asset surplus amounts to TL 2,086,877 thousands at 31 December 2014 as details are given in the table below.

Furthermore, an actuarial report was prepared as of 31 December 2014 as per the requirements of the Law explained in Note 3.17, the accounting policies related with "employee benefits" for the benefits transferable to the SSF and as per TAS 19 for other benefits not transferable to the SSF and arising from other social rights and payments covered by the existing trust indenture of the Fund and medical benefits provided for employees. Based on the actuary's 22 December 2014 dated report, the asset surplus over the fair value of the plan assets to be used for the payment of the obligations also fully covers the benefits not transferable and still a surplus of TL 1,287,303 thousands remains as of 31 December 2014 as details are given in the table below.

The Bank's management, acting prudently, did not consider the health premium surplus amounting TL 512,563 thousands as stated above and resulted from the present value of medical benefits and health premiums transferable to SSF as of 31 December 2014. However, despite this treatment there are no excess obligation that needs to be provided against.

| | 31 December 2014 |
|--|------------------|
| Transferable Pension and Medical Benefits: | |
| Net present value of pension benefits transferable to SSF | (528,752) |
| Net present value of medical benefits and health premiums transferable to SSF | 512,563 |
| General administrative expenses | (29,291) |
| Present Value of Pension and Medical Benefits Transferable to SSF (1) | (45,480) |
| Fair Value of Plan Assets (2) | 2,132,357 |
| Asset Surplus over Transferable Benefits ((2)-(1)=(3)) | 2,086,877 |
| Non-Transferable Benefits: | |
| Other pension benefits | (538,185) |
| Other medical benefits | (261,389) |
| Total Non-Transferable Benefits (4) | (799,574) |
| Asset Surplus over Total Benefits ((3)-(4)=(5)) | 1,287,303 |
| Net Present Value of Medical Benefits and Health Premiums Transferable to SSF – but not considered acting prudently (6) | (512,563) |
| Present Value of Asset Surplus/(Defined Benefit Obligation) ((5)-(6)) | 774,740 |

The major actuarial assumptions used in the calculation of other benefits not transferable to SSF in compliance with TAS 19 are as follows:

| | 31 December 2014 |
|----------------------------------|---------------------|
| Discount Rate ^(*) | 8.80 |
| Inflation Rate ^(*) | 6.10 |
| Future Real Salary Increase Rate | 1.5 |
| Medical Cost Trend Rate | 40% above inflation |
| Future Pension Increase Rate (*) | 6.10 |

(*) The above rates are effective rates, whereas the rates applied for the calculation differ according to the employees' yearsin-service.

Assumptions regarding future mortality are based on published statistics and mortality tables. The average life expectancy of an individual retiring at age 60 is 17 for males, and at age 58 for females is 23.

5.2.8 Tax liability

5.2.8.1 Current tax liability

5.2.8.1.1 Tax liability

As of 30 June 2015, the Bank had a current tax liability of TL 26,809 thousands (31 December 2014: TL 426,915 thousands) after offsetting with prepaid taxes.

5.2.8.1.2 Taxes payable

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

5.4.2.7 Interest expenses on factoring payables

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

5.4.3 Dividend income

Not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

5.4.4 Trading income/losses (Net)

| | Current Period | Prior Period | |
|--|----------------|---------------------|--|
| Income | 45,826,436 | 13,850,131 | |
| Trading Account Income | 326,899 | 114,143 | |
| Gains from Derivative Financial Instruments | 6,530,524 | 2,585,109 | |
| Foreign Exchange Gains | 38,969,013 | 11,150,879 | |
| Losses (-) | 46,089,305 | 13,916,891 | |
| Trading Account Losses | 75,976 | 391,165 | |
| Losses from Derivative Financial Instruments | 7,805,518 | 2,775,813 | |
| Foreign Exchange Losses | 38,207,811 | 10,749,913 | |
| Total | (262,869) | (66,760) | |

TL 1,415,173 thousands (30 June 2014: TL 572,292 thousands) of foreign exchange gains and TL 1,315,664 thousands (30 June 2014: TL 594,635 thousands) of foreign exchange losses are resulted from the exchange rate changes of derivative financial transactions.

The Bank enters into interest rate swap agreements in order to hedge the change in fair values of its fixed rate financial instruments due to fluctuations in market interest rates. In this respect, the Bank applied fair value hedge accounting for the fixed rate eurobonds issued in 2011 with a total face value of USD 500,000,000, maturity of 10 years and maturity date of 20 April 2021 which were priced at 6.375% originally and had a coupon rate of 6.25%, by designating interest rate swaps with the same face value amount and conditions. In June 2012, the Bank ceased to apply hedge accounting and accordingly fair value calculations for these bonds. The accumulated fair value differences incurred starting from the date of hedge accounting up to the date on which it was ceased, are amortized as per the effective interest-rate method in compliance with TAS 39.

The Bank also enters into interest rate and cross currency swap agreements in order to hedge the change in cash flows of floating rate financial instruments due to fluctuations in market interest rates. In this respect, the Bank applied cash flow hedge accounting for its eurobonds with a total face value of USD 310,000,000, funds borrowed amounting to USD 107,766,486 and EUR 47,368,422, securitization borrowings amounting to USD 175,000,000 and EUR 228,531,278 by designating cross currency swaps with the same face value amount and conditions, and for the collateralised borrowings amounting to TL 1,000,000 thousands and commercial loans amounting to USD 500,000 by designating interest rate swaps with the same face value amount and conditions. Accordingly, in the current period, gains of TL 64,563 thousands (30 June 2014: TL 832 thousands) and TL 10,216 thousands (30 June 2014: TL 12,977 thousands) resulting from cross currency and interest rate swap agreements were recognised under shareholders' equity, respectively.

The Bank also applied fair value hedge accounting for its fixed-rate loans with a total principal of TL 256,048 thousands and USD 628,870,792 and for its bonds with a total face value of TL 1,325,000 thousands and USD 32,900,000 and fixed-rate coupons by designating interest rate swaps with the same face values and terms. Accordingly, in the current period, a gain of TL 39,799 thousands (30 June 2014: TL 36,906 thousands) and a loss of TL 27,848 thousands (30 June 2014: a gain of TL 34,321 thousands) resulted from the related fair value calculations for the hedged loans and bonds were accounted for under net trading income/losses in the income statement, respectively.

In addition, the Bank also entered into cross currency swap agreements in order to hedge its fixed-rate bonds issued for a total principal value of AUD 175,000,000, RON 85,500,000 and CZK 423,000,000 with the same face value amount and conditions. Accordingly, a loss of TL 13,007 thousands (30 June 2014: TL 5,221 thousands) resulted from the fair value changes of the securities issued and funds borrowed subject to hedge accounting were accounted for under trading income/losses in the income statement.

5.4.5 Other operating income

The items under "other operating income" consists of collection or reversals of prior year provisions, banking services related costs charged to customers and income in custody services.

In the current period, a part of non-performing receivables of the Bank amounting to TL 79,276 thousands were sold for a consideration of TL 14,765 thousands. Considering the related provision of TL 79,087 thousands made in the financial statements, a gain of TL 14,573 thousands is recognized under "Other Operating Income".

5.4.6 **Provision for losses on loans or other receivables**
