

We Grow Together

2015
Annual Report

INTRODUCTION

“If we did all the things we are capable of, we would literally astound ourselves,” said Thomas Edison, the man who substantially molded the 20th century living with his inventions... Our lives have changed considerably since Edison. Today, change no longer results from the idea, skill or creativity of only a single person. In our day, both innovation and creativity are expressed on the basis of a participative and sharing culture.

Change takes place in every field, and the Finance and Banking industry is no exception in this regard. The definition of financial services offered by a bank evolves every day, whilst expectations also vary. The whole world is talking about having a healthy financial structure or being individually and institutionally financially healthy. This can be achieved by making all stakeholders a part of this change. Organizations that listen to their employees and customers carefully, identify their needs accurately, and build upon their experiences pave the way together. Just like Garanti does...

Garanti recognizes its responsibilities to all of its stakeholders, listens to them carefully, and grows based on a transparent, clear and responsible approach surrounding its products and services. While moving forward, Garanti aims to create not just economic value, but also a permanent value to the lives of all of its stakeholders. This approach finds its representation in the statement Garanti makes in its 2015 Annual Report: *“We Grow Together”*.

Garanti creates value for, and with, all of its stakeholders with its human-centric approach, participative and sharing culture, and solution-oriented and attentive business conduct. The Bank welcomes both retail customers and SMEs, as well as all entrepreneurs, women and men alike! Going above and beyond economic contribution, Garanti supports and strengthens them. On another front, Garanti blends technology with products and services to make life easier and to create more value, and embeds itself in the lives of its customers through every channel, bringing them innovative products and services through the Internet, mobile channel and social media.

All the while, Garanti keeps in mind its responsibility to the society and the world, and aims to contribute benefits by creating value for communities.

Garanti is in the league of constantly learning and improving companies, and uses these same means to attain healthy growth. The Bank’s *2015 Annual Report* presents highlights of its practices built upon this motto, in combination with their footprints in the world and in Turkey.

Valuing the penetration of SMEs to broader markets, and their acquiring competitive and productive characteristics through technology, Garanti has long been working to support the SMEs. A quick reminder: Garanti has become the first private bank in Turkey in 1996 to launch an SME support initiative under the business owner package.

Since 2006, Garanti addresses women entrepreneurs, the new power of national economy, as a separate segment. The first private bank undertaking initiatives regarding women entrepreneurship, Garanti created its Women Entrepreneurs Support Package the same year. Yet, economic support does not entirely define the attention Garanti pays to women. Being the first Turkish bank to become a signatory to UN Women’s Empowerment Principles, Garanti is also conducting a number of initiatives to support women’s participation in social and economic life.

Believing in the importance of entrepreneurship for economic growth, Garanti regards it as a key responsibility and mission to support the entrepreneurial ecosystem. To this end, Garanti is working to extend financial support to more entrepreneurs, to turn their dreams into reality and to give opportunity to entrepreneurs who will author Turkey’s success stories. The pride the Bank takes grows larger as does the number of successful initiatives!

WORKING HARD FOR A SUSTAINABLE WORLD

projects represents a significant opportunity with respect to action against climate change. Being the greatest supporter of the wind energy industry, Garanti is the leader in the Turkish wind energy installed capacity with **35%** market share... Also, Garanti has been giving momentum to the financing of small-scale solar energy systems. Garanti is thrilled and proud to be the pioneering supporter of the wind and solar energy that will be the up-and-coming-stars in the action against climate change!

To protect against the devastating effects of climate change, the whole world must turn to renewable energy sources for energy generation. This is an undeniable fact. To Garanti, financing renewable energy

Teachers are cardinal for everyone since they undertake the crucial mission of educating the children, e.g. the future generations regarded as the guarantee of the future. They are cardinal for Garanti, as well. Along this line, Garanti established the Teachers Academy Foundation (ÖRAV), the only civil society organization in Turkey that focuses on teachers. To date, the Foundation has contributed to the development of **120,000** teachers in **81** provinces. These teachers employ the innovative teaching techniques they acquire with the help of ÖRAV to educate millions of students. Garanti strongly believes that those who will sign their names under major changes of the future are among those students - a belief that is also a source of great delight for the Bank!

MAKING LIFE EASIER WITH DIGITAL SOLUTIONS!

Do you remember when internet first came on the scene? Some of you probably may not; but it is impossible to imagine life without it from now on. The so-called “digital customers” transacting via Internet Banking and Mobile Banking number **4** million at Garanti, which is a pioneer of online banking. **91%** of all non-cash financial transactions occur through digital channels at the Bank. These figures offer remarkable clues about the ever-accelerating digitization. Garanti works non-stop to present innovative products and services to its continually increasing number of digital customers.

LEADING THE SECTOR WITH INNOVATIVE APPLICATIONS

Mobile phones are our essential communication tool. These smart devices that we carry everywhere, grow in terms of functionality as they get smaller in size, and are practically our chief assistants that help us organize our lives. Garanti, keeping a close eye on the developments in the world and authoring innovative applications and products, is also the lead bank in adapting to the mobile era...It has pioneered the sector in Turkey and in the world with its applications. The examples are many, but here is just one: Did you know that Garanti was the first bank in the world to launch quick money transfer via mobile phones with its CepBank mobile banking application in 2005?

Mobile phones are our essential communication tool. These smart devices that we carry everywhere, grow in terms of functionality as they get smaller in size, and are practically our chief assistants that help us organize our lives.

SUCCESS IS A JOURNEY, NOT A DESTINATION

What we presented above is most certainly not exhaustive of the things Garanti does for, and with, its customers, employees, investors and all the other stakeholders in the society... *Believing that success is not a destination, but a journey*, Garanti keeps making a difference, learning, and using its learnings to further drive its growth.

Garanti, keeping a close eye on the developments in the world and authoring innovative applications and products, is also the lead bank in adapting to the mobile era...It has pioneered the sector in Turkey and in the world with its applications. The examples are many, but here is just one: Did you know that Garanti was the first bank in the world to launch quick money transfer via mobile phones with its CepBank mobile banking application in 2005?

Independent Auditor's Report on the Management's Annual Report

To the Board of Directors of Türkiye Garanti Bankası A.Ş.

Report on the Audit of Management's Annual Report in accordance with Independent Auditing Standards

We have audited the annual report of Türkiye Garanti Bankası A.Ş. ("the Bank") and its consolidated subsidiaries (together will be referred as "the Group") for the period ended 31 December 2015.

Management's Responsibility for the Annual Report

The Bank Management is responsible for the preparation and fair presentation of the annual report which is consistent with financial statements prepared in accordance with "the Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Regulations" including the regulation on "The Procedures and Principles Regarding Banks' accounting Practices and Maintaining Documents" published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standards for the matters not legislated by the aforementioned regulations ("the financial statements") in accordance with the Article 514 of the Turkish Commercial Code No. 6102 ("TCC") and the regulation on "Preparing and Publishing the Annual Report by Banks" published in the Official Gazette dated 1 November 2006 and No. 26333, and for such internal control as management determines relevant to the preparation and fair presentation of such annual report.

Auditor's Responsibility

Our responsibility is to express an opinion on the Bank's annual report based on our audit conducted in accordance with the provisions of the Article 397 of the TCC and the regulation on "Independent Auditing of Banks" published in the Official Gazette dated 2 April 2015 with No. 29314. Our audit involves whether the financial information provided in the annual report are fairly presented and consistent with the financial statements based on our audit report dated 2 February 2016.

We conducted our audit in accordance with independent Auditing Standards, which is a part of Turkish Auditing Standards issued by the Public Oversight Accounting and Auditing Standards Authority ("POA"). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial information provided in the annual report are fairly presented and consistent with the financial statements and are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the historical financial information. The procedures selected depend on the auditor's judgment.

We believe that the audit evidence we have obtained sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial information provided in the Management's annual report, in all material respects, are fairly presented and consistent with the audited financial statements.

Other Legal and Regulatory Requirements

In a accordance with paragraph three of the Article 402 of the TCC, nothing significant has come to our attention that may cause us to believe that the Bank may not continue its activities for the foreseeable future in accordance with Independent Auditing Standard 570 "Going Concern".

AMENDMENTS TO THE ARTICLES OF ASSOCIATION OF T. GARANTİ BANKASI A.Ş.

CURRENT TEXT

CAPITAL AND SHARES

Article 7 - :

A) The Bank has accepted the registered capital system under the permission of the Capital Markets Board no. 83/1049 dated August 25th, 1999. The Bank's registered capital amounts to 10.000.000.000 TL and its issued capital amounts to 4.200.000.000 TL.

B) The Bank's issued capital has been divided into 420.000.000.000 shares each having a nominal value of 1 Kr; and 182 shares of them are bearer shares and the remaining 419.999.999.816 shares are registered shares. The issued capital amount of 4.200.000.000 TL has been fully paid-up. The permission of the registered capital ceiling that was granted by the Capital Market Board is valid between the years 2008 and 2012 (5 Years). At the end of 2012, even though the permitted registered capital ceiling has not been reached, in order for the Board of Directors to adopt a resolution regarding the capital increase, it is mandatory to obtain a permission from the Capital Market Board for the ceiling that was previously permitted or for a new ceiling amount and to receive an authorization from the General Assembly for a new time period. If such authorization could not be obtained, it shall be deemed that the Bank has been removed from the registered capital system. The Board of Directors shall be authorized, without being bound by the provisions of the Turkish Commercial Code regarding the increase in the capital stock, to increase the paid-in capital stock up to the registered capital stock ceiling mentioned hereinabove by issuing new shares between the years 2008 and 2012, in accordance with the provisions of the Capital Market Law. The Board of Directors shall also be authorized to resolve to issue shares above the nominal value and to restrict the rights of shareholders for obtaining new shares. Shares representing the capital of the Bank shall be kept in book entry form and in cash within the frame of the dematerialization principles. Holders of 184 bearer shares not converted into registered shares shall not use any shareholding right excluding the right to dividends. The shareholding rights of these shares except the right to dividends shall be utilized by the Savings Deposit Insurance Fund until these shares shall be converted to registered shares.

WE GROW TOGETHER

WORKING HARD FOR A SUSTAINABLE WORLD

Being the greatest supporter of the wind energy industry, Garanti has allocated approximately USD 2.3 billion in funds for more than 55 wind energy projects with an aggregate installed capacity of 1,789 MW since 2006. Garanti retained its leadership in the Turkish wind energy installed capacity with 35% market share in 2015.

"We are like tenant farmers chopping down the fence around our house for fuel when we should be using Nature's inexhaustible sources of energy - sun, wind and tide.. I'd put my money on the sun and solar energy. What a source of power! I hope we don't have to wait until oil and coal run out before that."

Fossil fuels currently account for almost 80% of the world's primary energy supply. This trend must be overturned to limit the global temperature rise to +2 C maximum as part of the action against climate change... Continued use of fossil fuel power plants to meet the growing energy demand will result in a global warming near or above +4 C. Should this scenario become real, we will be looking at a severely rattled global economy suffering from increased abnormal climate phenomena such as floods and hurricanes. To protect against the devastating effects of climate change, the whole world must turn to renewable energy sources for energy generation.

To Garanti, financing renewable energy projects represents a significant opportunity with respect to action against climate change. Hence, Garanti extends maximum support to wind energy projects as they serve to reduce current deficit and bear minimum social impact.

Being the greatest supporter of the wind energy industry, Garanti has allocated approximately **USD 2.3 billion in funds** for more than 55 wind energy projects with an aggregate installed capacity of circa 1,789 MW since 2006.

Having retained its **leadership** in the Turkish wind energy installed capacity with **35% market share** in 2015, Garanti has been giving momentum to the financing of small-scale solar energy systems.

Efforts have been underway for a while to find a way of fulfilling the man's needs while preserving the environment and looking

WORKING HAI SUS

beyond the scarce resources. A number of innovative and Thomas Edison environmentally caring people and organizations have been carrying out some initiatives for many years. One such project is the photovoltaic (PV) technology, which is widely used in generating electric power using the sunlight...

The history of photovoltaics, in fact, goes back 170 years. Alexandre Edmond Becquerel, a French physicist, was the first to conduct a scientific study on PV technology in 1839. The first PV cell was manufactured as early as in 1888 in the United States, and Albert Einstein actually won the Nobel Prize in 1922 for his paper on PV.

Electric power generation from the sun, which is an infinite energy source, will be the turning point for a sustainable world - we believe that from the bottom of our hearts. Commercially used since 1955, the worldwide installed capacity of solar power reached 200 GW by the end of 2014. Today, Germany single-handedly claims 40 GW of the installed solar power capacity.

Although enjoying a 30% higher radiant flux than Germany, Turkey has merely 8 thousandth of the installed power as compared with this country... A solar power plant about half the size of Lake Van would, in fact, meet the electricity demand for the whole of Turkey; and covering the Mediterranean Region would suffice to respond to the world's need...

Solar energy is doubtlessly the up-and-coming star in the action against climate change. And we get very, very excited thinking that it will be high on Turkey's agenda in the coming period!

"We are like tenant farmers chopping down the fence around our house for fuel when we should be using Nature's inexhaustible sources of energy - sun, wind and tide.. I'd put my money on the sun and solar energy. What a source of power! I hope we don't have to wait until oil and coal run out before we tackle that."

CORPORATE PROFILE

Established in 1946, Garanti Bank is *Turkey's second largest private bank* with consolidated assets of USD **96.2** billion as of December 31, 2015.

Garanti is an *integrated financial services group* operating in every segment of the banking sector including corporate, commercial, SME, payment systems, retail, private and investment banking together with its subsidiaries in pension and life insurance, leasing, factoring, brokerage, and asset management besides international subsidiaries in the Netherlands, Russia and Romania.

As of December 31, 2015, Garanti provides a wide range of financial services to approximately **13.9** million customers with **19.7** thousand employees through *an extensive distribution network* of **971** domestic branches; **7** foreign branches in Cyprus, one in Luxembourg and one in Malta; **3** international representative offices in London, Düsseldorf and Shanghai with **4,504** ATMs, an award-winning Call Center, internet, mobile and social banking platforms, all built on *cutting-edge technological infrastructure*.

Moving forward to maintain sustainable growth by creating value to all its stakeholders, Garanti builds its strategy on the principles of always approaching its customers in a *"transparent", "clear" and "responsible"* manner, *improving customer experience continuously* by offering products and services that are tailored to their needs. Its *competent and dynamic human resources*, unique technological infrastructure, *customer-centric* service approach, *innovative products and services* offered with strict adherence to quality carry Garanti to a leading position in the Turkish banking sector.

Following *the best practices in corporate governance*, Garanti is controlled by two powerful entities, *Banco Bilbao Vizcaya Argentaria S.A. (BBVA)* and *Doğuş Group* with shares of **39.9%** and **10.0%**, respectively. Having shares publicly traded in Turkey, *depository receipts in the UK and the USA*, Garanti has an *actual free float* of **50.02%** in Borsa Istanbul as of December 31, 2015.

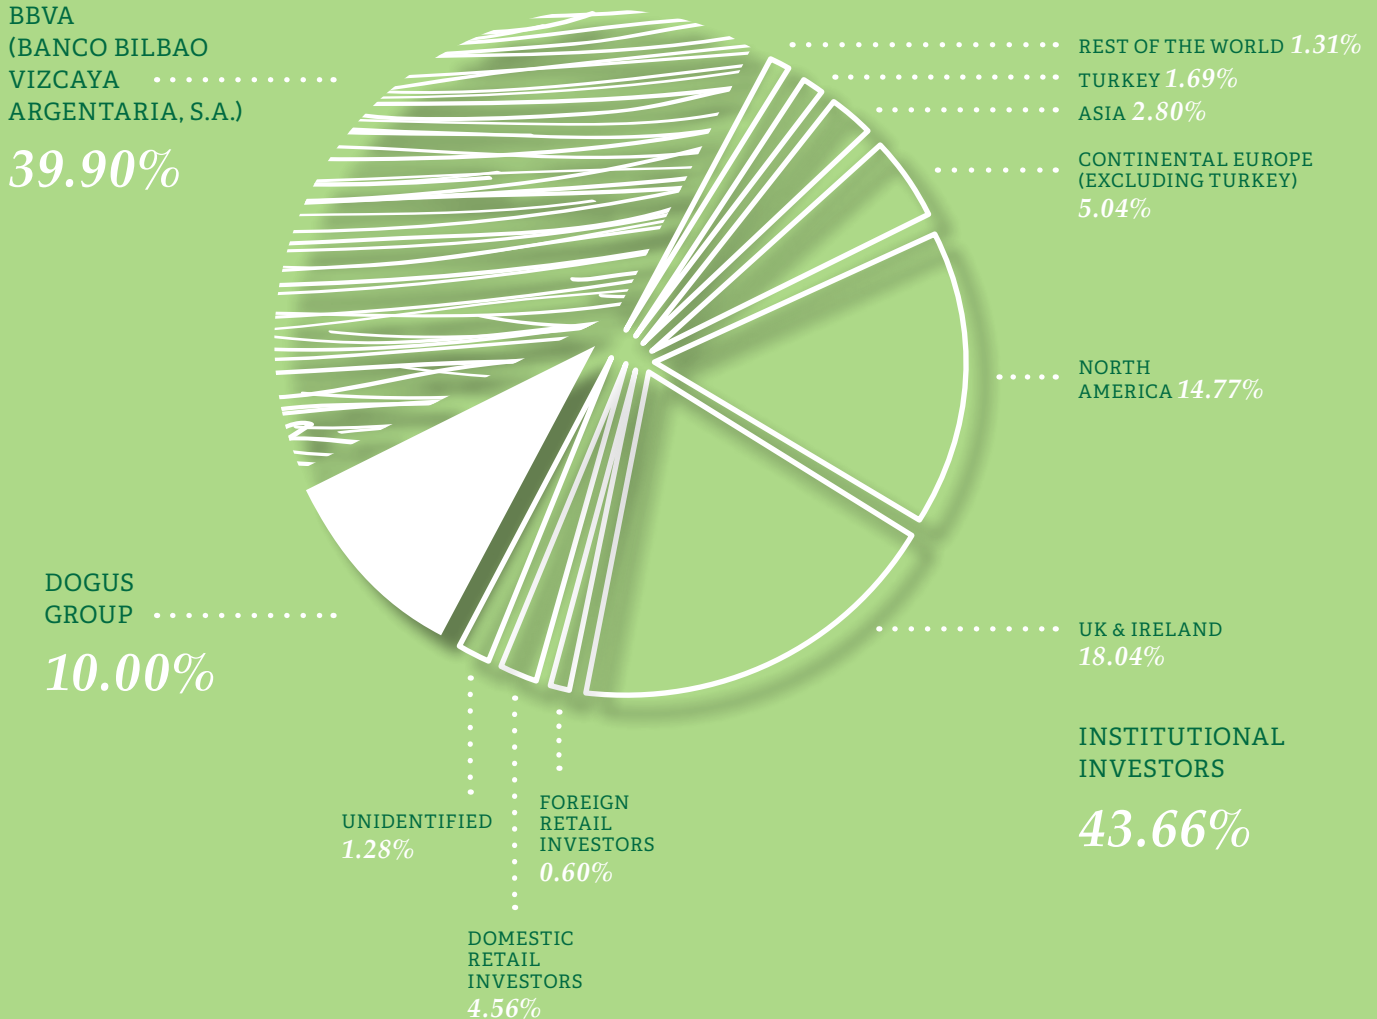

With its dynamic business model and superior technology integrated to its innovative products and services, Garanti continues to differentiate itself and facilitate the lives of its customers. Its *custom-tailored solutions* and *wide product*

variety play a key role in reaching USD **75.9** billion cash and non-cash loans. The *high asset quality* attained through advanced risk management systems and established risk culture place Garanti apart in the sector.

Building on the Bank's core values, Garanti Bank defines *sustainability* as a *commitment to build a strong and successful business for the future*, while minimizing negative environmental and social impacts, and sharing long-term values with its customers, staff, shareholders and the communities it operates in. Garanti further strengthens its sustainable banking approach through community investment programs in a variety of topics ranging from sports to education, arts to nature and informing the business world.

GARANTI BANK OWNERSHIP STRUCTURE

Insider Holdings

The chairman, members of the Board of Directors, the CEO and the Executive Vice Presidents are allowed to own publicly-traded shares of Garanti Bank; their transactions in Garanti Bank shares are publicly disclosed pursuant to Capital Markets Board regulations.

Note: Institutional shareholder and foreign individual shareholder composition data based on IPREO Shareholder ID Analysis dated January 2016; the actual free float ratio and the share of local individual shareholders are all based on Central Agency Registry Agency data.

Our Vision

is to be *the best bank* in Europe.

our Mission

is to *continuously* and *noticeably* increase the value we create for our customers, shareholders, employees, the society and the environment by utilizing our influence, agility and organizational efficiency.

OUR STRATEGY

is to always approach our customers in a *“transparent”, “clear”* and *“responsible”* manner, improve customer experience continuously by offering products and services that are tailored to their needs, maintain *sustainable growth* by creating value for all our stakeholders.

OUR CORE VALUES

“OUR CUSTOMERS...”

- » Are at the center of all our operations and efforts.
- » We always strive to satisfy our customers above and beyond their expectations.
- » Towards our customers, we are always clear, courteous, helpful, solution-oriented and pleasant.

“GARANTI BANK AND ITS EMPLOYEES HAVE HIGH MORAL VALUES”

- » We conscientiously follow rules and regulations without exception.
- » Clear individual and organizational conscience is of paramount importance.

“THE MOST IMPORTANT ELEMENT FOR US IS THE HUMAN FACTOR”

- » We continuously invest in our utmost valuable human resources.
- » Our quality is driven and ensured by our employees.
- » We put emphasis on delegating responsibilities and encourage our employees to take initiative.
- » We notice and value the recognition of good work and exemplary behavior.
- » We are energetic, we support each other, we share information and experience.
- » We are excited about our work and leaders in our field.

CONTINUOUS PROGRESS

- » We sustain our quality through continuous improvement.
- » Investing in our people and technology to achieve continuous progress is an inseparable element of our policy.
- » Our approach to improving quality is proactive; we aim to identify the needs and expectations of our customers even before they are voiced and strive to provide solutions.

OUR ENVIRONMENTAL AND SOCIAL RESPONSIBILITIES

- » We undertake every effort to be beneficial to the society, the environment and humankind.
- » We believe the environmental and social values Garanti creates for its stakeholders will set an example not only for the banking sector but also for the entire economy and provide significant contributions to our national development.

TEAMWORK

- » We believe in effective teamwork and open lines of communication.
- » We work in collaboration towards common goals and produce results.
- » We are opposed to strict layers of hierarchy.
- » To realize our vision, we work as a single-heart and a single-mind.
- » We are always well-mannered and respectful in our speech and behavior among each other.

MAIN PILLARS OF OUR STRATEGY

CUSTOMER CENTRICITY

- » High quality service via custom-tailored and innovative products
- » Clear, swift and plain business processes
- » Customer satisfaction constitution

FOCUS ON COMPETENT HUMAN RESOURCES

- » Empowering the competent workforce through continuous investment
- » Focus on employee satisfaction
- » Management policy based on performance and internal promotion

FOCUS ON THE CONTINUITY OF TECHNOLOGICAL INNOVATION

- » The best and the fastest technological equipment that is constantly upgraded and integrated with business segments
- » The most up-to-date IT infrastructure

FOCUS ON OPERATIONAL EFFICIENCY

- » Effectiveness and efficiency of the business model and processes
- » Cost and revenue synergies

FOCUS ON DISCIPLINED GROWTH

- » Real banking principle driven sustainable growth
- » Strong asset quality
- » Effective use of capital

FOCUS ON STRONG DELIVERY CHANNELS

- » Extensive and efficient branch network
- » Excellent customer experience via omni-channel strategy
- » Continuous investment and leadership in digital platforms

FOCUS ON SUSTAINABLE BANKING

- » Commitment to corporate governance, ethics and corporate values
- » Minimizing environmental and social impacts of the Bank's activities, products and services
- » Playing an active role in establishing high standards for social development and environmental protection with an approach toward creating value for the society and the environment

FOCUS ON RISK MANAGEMENT AND AUDIT

- » Measurement of risk using international standards
- » Portfolio-based risk management that associates risk with return and leads to optimal allocation of economic capital
- » Proactive audit systems

miles tones

1946

- » Founded in Ankara.

1990

- » Went public; its shares began trading on the ISE.

1995

- » First bank to work during lunch time.
- » Introduced the first Cash Management Account in Turkey (E.L.M.A.).

1983

- » Joined Doğu Group, a conglomerate operating in finance, industrial and services sectors.

1993

- » First Turkish company to issue shares in international markets.

1996

- » First private bank to launch “Business Owner Package” dedicated to support SMEs.
- » First bank in Turkey to establish a dedicated Cash Management Department.

2000

- » Introduced Bonus Card, Turkey’s first chip-based and multibranded credit card.
- » Introduced Shop&Miles, Turkey’s first credit card that earns miles while shopping.

1999

- » The first bank to offer “Virtual P.O.S.” system.
- » Launched Turkey’s first e-trade website (eticaret.garanti.com.tr)
- » First bank in the world to issue trade payment rights securitization.

1997

- » Became the first multi-branch private bank in Turkey to offer real-time online services.
- » The first Turkish bank to offer internet and telephone banking together.
- » Offered Turkey’s first Direct Debit System.

2001

- » Merged with Ottoman Bank, another banking subsidiary of Doğu Group.

2002

- » Established Turkey’s first interbank card platform with Bonus Card.

2003

- » Offered Turkey’s first Online Direct Debit System.

2005

- » First bank in the world to offer SMS-based money transfer via CepBank.
- » First Turkish company to receive the Investors in People (IIP) achievement certificate for the quality of its human resources practices.
- » Turkey’s first cardless bill payment and money deposit transactions through ATM.

- » General Electric and Doğu Group became equal strategic partners in Garanti Bank.

2007

- » Partnership agreement with one of the prominent insurance companies in Europe, Eureko B.V. (the Netherlands) to transfer 80% of shares in Garanti Insurance and 15% of shares in Garanti Pension.

- » Integrated the Beacon technology, which offers a unique shopping experience by communicating with nearby devices, into banking via iGaranti.
- » Launched a groundbreaking initiative with the Voice Control feature developed by iGaranti, which allows users to transfer money to the accounts of people in their social networks by voice, as well as browsing within the application.
- » International Finance Corporation (IFC) published a report evaluating Garanti’s model of supporting women entrepreneurs and its efforts in this field, which is referenced as a case study in the international arena.

SUSTAINABILITY

SUSTAINABILITY POLICY STATEMENT

Purpose and Scope

To strengthen its vision to be the best bank in Europe, and its mission of increasing the value it creates for customers, shareholders, employees, the society and the environment by utilizing its influence, agility and organizational efficiency, Garanti Bank acknowledges the importance of conducting its business activities in a responsible manner, and aims through this Policy Statement to ascertain the guiding principles for its Sustainability strategy and efforts. The principles support Garanti Bank in effectively defining and addressing material Sustainability risks and opportunities facing the Bank in Turkey.

This Policy Statement, covering the Bank's business activities in Turkey, has been developed in line with the corporate regulations and legislations, and is entered into effect by a prior approval of the Board of Directors.

OVERALL SUSTAINABILITY VISION

Sustainability issues are gaining importance within the Turkish society, and are increasingly impacting the banking sector. Garanti Bank strongly believes that operating sustainably is a key driver to the long-term success of the Bank, and aims to be the leader in introducing and implementing sustainable banking to Turkey.

Building on the Bank's core values, Garanti Bank defines Sustainability as a commitment to build a strong and successful business for the future, while minimizing negative environmental and social impacts, and sharing long-term values with its customers, staff, shareholders and the communities it operates in.

Garanti Bank aspires to achieve its aim of sustainable banking through technological innovations, managing the environmental footprint of its operations and developing sound environmental & social risk assessment as part of its risk management framework. The Bank also recognizes the importance of an effective organizational structure and strong corporate governance to maintain ongoing development and successfully deliver its sustainability objectives.

Furthermore, Garanti Bank is aware of the need to collaborate and engage with its peers and suppliers on a global level to identify new opportunities, capture emerging best practices and products and remain a sustainability leader in Turkey.

SUSTAINABILITY PRINCIPLES

Garanti Bank focuses on improving the basics of banking by integrating sustainability into its operations. The below principles, highlight the measures Garanti Bank will be taking to achieve this aim:

1 - Focusing on Customers through Sustainable Finance

- » Introduce new practices to Turkey that go beyond common practices and compliance to relevant national laws and regulations;
- » Enhance E&S risk processes across the Bank and its subsidiaries to minimize the negative impact of lending and investment activities;
- » Educate customers on Sustainability and become a trusted advisor in supporting and facilitating customers to minimize their own footprint;
- » Develop products and services that help catalyze the transition towards a more sustainable economy, increase financial inclusion and commit to ethical marketing and selling.

2 - Focusing on Managing Environmental Impact of Operations

- » Measure and monitor the Bank's environmental footprint, and implement measures to increase resource and energy efficiencies;
- » Set targets to reduce emissions and resource usage in targeted areas and increase cost-effectiveness;
- » Work closely with suppliers to benefit from the latest environmentally friendly solutions and expand sustainability across the supply chain.

3 - Focusing on Communities

- » Invest in communities through direct contributions and development of mutually beneficial partnerships;
- » Build on Garanti Bank's current philanthropy and sponsoring activities to further increase the wellbeing and lifestyle of Turkish communities.

SUSTAINABILITY STRATEGY

HR:

Enhance employees knowledge and lifestyle

Environmental Footprint:

Enhance operational efficiency

Governance:

Enhance integration of sustainability within the bank

Impact

Business Financial Communities Individuals Systems

Stakeholders

- » Develop and implement a financial education program,
- » Engage with stakeholder and build partnership,
- » Support philanthropic programs with a focus on material issues for society.

Corporate & Commercial Clients

- » Advise our corporate clients to help them make their businesses more sustainable .
- » Extend E&S risk framework and management systems across the bank, local and international subsidiaries.

WE GROW TOGETHER

“No one will doubt that the legislator should direct his attention, above all, to the education of youth;

standing by

the teachers

who educate

our children!

Through ÖRAV, Turkey's only civil society organization focusing on teachers it has set up in 2008, Garanti supports the teachers educating the future generations and contributes to their professional and personal development. Employing the innovative teaching techniques they acquire with the help of ÖRAV, teachers educate millions of students.

According to the results of Barem Research Company's 2015 research on confidence in professions, teachers are the most trusted professional group among the ten professions measured in the survey. 74% of Turkey's population stated that they trust the teachers.

Teachers are cardinal for everyone since they undertake the crucial mission of educating the children, e.g. the future generations regarded as the guarantee of the future. Embracing the same belief, Garanti established the *Teachers Academy Foundation (ÖRAV)*, the only civil society organization in Turkey that focuses on teachers.

Along with the project No Limits in Teaching, which currently runs under the name "Learning and Leading Teacher", the Foundation has contributed to the training and development of 120,000 teachers in 81 provinces through "High School – Learning and Leading Teacher", "Result Oriented Communications", "The Chemistry of Teaching", "Program for the Development of Education Executives", "Unlabeled Education" and "Creative Child, Creative Mind" projects. ÖRAV cooperates with the Ministry of National Education (MNE) under a protocol.

According to MNE's 2014/2015 National Education Statistics, 889,695 teachers are serving in primary schools, secondary schools and secondary education across Turkey. The number of students per teacher is 18 in primary school level, 17 in secondary school level and 14 in secondary education.

WE GROW TOGETHER

“No one will doubt that the legislator should direct his attention, above all, to the education of youth; for the neglect of education does harm the constitution.”

Aristo

While Turkey is still in the process of designing education and training, and testing different systems, some countries have taken significant distance in this field. Finland is one such country that presents the most amazing model in the world. The Finnish education system enables high academic achievement with short school hours. Based on an education concept heeding individuality and independence, it asks the students to take self-responsibility for creating their own educational program, leaving plenty of free time and blending the learning experience with fun.

The Finnish curriculum is about a simple, general guideline. Students are entitled to mold their own learning and education program in line with their needs and interests. There are no mandated standardized tests. They only take a nationwide test at the age of 16. Teachers have four classroom hours a day on average and they allocate two hours per week to attend professional development programs. The maximum number of students per teacher is 12. All teachers have a master's degree at a minimum and they are selected from the top ten percent of the nation's university graduates. The high education level of the teachers is the key enabling them to observe all aspects of the children's development and to create flexible solutions. According to the statistics, 30% of children on average receive special program support through the first nine years of their academic lives.

Based on OECD 2011 High School Graduation Rates by Country, 98% of the Finns graduate from high school, whereas this rate is 88% in Canada and 78% in the US. An average of 82% of young people in OECD countries complete at least high school education.

2015 MACROECONOMIC OVERVIEW

Developments in Turkey in 2015

MODERATE PERFORMANCE DESPITE CHALLENGES

In 2015, Turkey's economic performance remained resilient and converged to its potential despite increased volatility in domestic and overseas financial markets, and despite the uncertainties resulting from the renewal of elections. On the global front, while growth lacked pronounced recovery, decelerated Chinese economy, plummeted oil and other commodity prices, and the strong appreciation of the US Dollar fuelled concerns in financial markets, driving capital flows in a direction to the detriment of emerging economies.

GLOBAL GROWTH LAGGING BEHIND THE TREND

In spite of the limited acceleration of developed economies in the reporting period, global growth lost pace due to emerging economies. While the US economy nearly matched its growth rate of the previous year, growth in the Euro zone picked up. On the part of emerging economies, economic slowdown led by China resulted in continued high volatility in global markets, combined with sustained portfolio outflows from these countries throughout the year. As global markets were engulfed in a yearlong discussion about the US Federal Reserve's (the Fed) liftoff, the Fed raised interest rates in December, thus initiating the normalization process. As weak global growth, appreciated Dollar and absence of supply-driven problems pulled commodity prices down, the same situation aggravated the concerns for commodity exporting countries.

While the bad weather in the US in the early months of the year had a negative impact on growth, the recovery in subsequent months brought the unemployment rate down to 5% at the end of the year. Low commodity prices coupled with the appreciated US dollar resulted in a year-end inflation of 0.7%, notably below the 2% inflation target. The Fed, despite low inflation, projected that the inflation would converge to the targeted levels in the medium term, and increased the rates by 25 basis points to the 0.25%-0.50% band in its December meeting.

Although economic growth gained momentum in the Euro zone as compared with the previous year, unemployment rates remained high. As inflation stood at a low 0.2% at the end of the

year, the European Central Bank (ECB) disclosed new steps for loosening its monetary policy further in its December meeting. Accordingly, ECB announced a 6 month extension of its monthly asset-purchasing program of USD 60 billion to March 2017, and further lowered the already negative deposit rate.

The developments in the Chinese economy were the other important factors that aggravated the volatility in global markets in 2015. While the transformation intended to drive consumption in the economy brought about lower growth rates, steps aimed at the liberalization of financial markets resulted in rigorous sales, in turn leading to a deteriorated risk perception towards emerging economies. Although the Chinese government devaluated its currency, Yuan, in August, 2015 was the scene to the weakest portfolio inflow to emerging economies after 2008.

According to the IMF World Economic Outlook projections revised in January 2016, global growth slipped down from 3.4% in 2014 to 3.1% in 2015. As growth rate dropped from 4.6% to 4.0% in emerging economies led by the Chinese economy, developed economies showed a limited acceleration from 1.8% to 1.9%.

REMARKABLE IMPROVEMENT IN CURRENT ACCOUNT DEFICIT

Despite the deteriorated risk perception towards emerging economies and although it has occasionally decoupled negatively from its peers due to political and geopolitical developments, the Turkish economy continued to perform moderately owing particularly to the support from consumption. Economic growth was 3.4% year-over-year in the first three quarters of 2015. While growth was completely driven by domestic demand, external demand contributed minus 0.7 points to growth due to the economic problems experienced by our export partners such as Iraq and Russia, in spite of weak imports and the positive contribution of stronger EU demand to exports. While the declined euro/dollar parity resulted in feeble exports throughout the year, low oil prices produced a sustained downtrend in current account deficit during the course of the year. Cumulative current account deficit, which stood at USD 46.5 billion at the end of 2014, descended to about USD 32 billion in 2015. After going down from 5.8% at year-end 2014 to 5.5% as at the third quarter of 2015, the ratio of current account deficit to GDP slid down to nearly 4.5% at the end of 2015. The reason behind this

decline was the reduction in the net energy bill by roughly USD 16 billion (ratio to GDP: 2.2%).

RIGID INFLATION

Inflation remained high throughout the year due to food prices that floated at high levels despite favorable weather conditions, combined with the strongly depreciated Turkish Lira as a result of domestic and external uncertainties, and the secondary exchange rate effects that persisted. Having completed 2014 at 8.2%, inflation rose to 8.8% at the end of 2015. Core inflation that excludes food and energy prices, on the other hand, picked up remarkably to reach 9.5% by year-end 2015 with the effect of exchange-rate pass-through, after declining from 8.7% at end-2014 to 7.0% during the course of the year. Food inflation and energy inflation were 10.9% and 3.2%, respectively, at year-end. Inflation remained high in spite of the positive impact of declined energy prices, thus further impairing long-term inflation projections, and resulting in a more remarkably rigid inflation.

VOLATILE FINANCIAL MARKETS

The Central Bank of the Republic of Turkey (CBRT) reduced the one-week repo rate (policy rate) by 75 basis points to 7.50% in the first quarter, in view of the developments in inflation, for which it had revised its projections positively given the rapidly declining energy prices at the onset of the year. Due to the subsequently increased volatility in domestic and external financial markets and deteriorated outlook of inflation, however, the CBRT kept the interest rates constant in the rest of the year. The Central Bank preserved the width of the interest rate corridor, keeping the borrowing rate (lower band) at 7.25% and the lending rate (upper band) at 10.75%. On the other hand, the CBRT paved the way for a higher average funding rate by way of liquidity management and caused higher borrowing costs overall. Having declined to even 7.62% in the first quarter, the CBRT average funding rate topped 8% as of April and climbed to 8.8% at the end of the year.

Aiming to simplify its monetary policies, the CBRT issued a roadmap in August, which stated that it would monitor global monetary policies and narrow the width of the interest rate corridor around the policy rate. In its December meeting, the CBRT indicated that it had a second prerequisite to initiate these steps: persistence of the decline in volatility observed in the markets following the Fed's decision. Hence, the Central Bank adhered to its tight monetary stance discourse, paying regard to elements that would drive inflation upwards such as the minimum wage hike enforced as of the start of 2016 and other price increases.

The developments in the world economy and the CBRT's actions have been determinant on the market interest rates. After dropping down to 6.8% at the end of January 2015, two-year benchmark bond rate hiked to 10.8% at the end of the year, as a result of the uncertainties in the second half of the year occasioned particularly by the renewal of the elections and the increased volatility in global markets triggered by China. Besides, TL depreciated by 25% against the US Dollar and by 13% against the EUR-USD currency basket on average throughout the year.

SOUND BUDGET AND DEBT STOCK FIGURES

In 2015 that realized two general elections, the public finance performance did not exhibit a significant change as compared with 2014.

The realization of the central government budget in 2015 turned out to be more positive than the targets in the Medium Term Plan (MTP) revised in October. The budget deficit was TL 22.6 billion, remaining below the MTP target of TL 24.5 billion, while the primary surplus was TL 30.4 billion, which was above the MTP target of TL 29.5 billion. In a year of high tax revenue performance, the ratio of the central government budget deficit to the GDP was circa 1.2%, whereas the ratio of the primary surplus to the GDP was about 1.6%.

On the other hand, the ratio of EU-defined public debt stock to the GDP, although showing an uptrend during the course of the year, declined in the last quarter of 2015 according to the Government's projections and registered 32.6%. The ratio was 34.6% as of September 2015.

LETTER FROM THE CHAIRMAN

I believe that the technology-oriented and dynamic business model has an important role in the sustainability of Garanti's success. Rapid adaption of innovative and customer oriented products are the basis of Garanti's service provision approach. In other words, technology-oriented service approach lies within the "DNA" of Garanti. We continued to serve with this understanding and vision in 2015.

Dear Stakeholders,

2015 turned out to be a year in which risks were at the forefront and global economic growth was rather moderate. Among advanced countries, strengthening US economy was accompanied by Europe, which was somewhat recovered compared to 2014. As has been the case in recent years, the emerging market economies continued to lose momentum in 2015 as well. Strengthening US Dollar, the decline in the commodity prices led by oil, the slowdown of the Chinese economy and geopolitical risks were among the main items of the global economic agenda in 2015.

The “rebalancing process” of the Turkish economy, which is a net energy importer, continued in 2015 especially with the help of the rapid decline in the oil prices. Turkish economy is estimated to have left behind 2014 with a growth rate well above 3% despite the global developments, external financing conditions and geopolitical risks. I think that was an important growth performance and I believe that Turkish economy will show a stronger performance in terms of the main economic indicators in 2016.

We have left behind a year in which the impact of the market conditions was felt very much on the growth and profitability of our banking sector. Credit growth has slowed down markedly since the middle of the year. Despite the decline in the profitability, strong capital adequacy ratio, high asset quality and low NPL ratio has proven once again the strength and flexibility of our banking sector.

With its strong capital structure and successful balance sheet management, Garanti Bank has shown its capacity and experience in adapting to all kind of market conditions in 2015 as well. Garanti sustained its healthy growth process in 2015 and shown once again its difference in the sector. Despite the external financing and market conditions, Garanti was successful in terms of funding transactions. Thus, we further increased our contribution to the Turkish economy in 2015 with an approximately 20% loan growth.

I believe that the technology-oriented and dynamic business model has an important role in the sustainability Garanti’s success. Rapid adaption of innovative and customer oriented products are the basis of Garanti’s service provision approach. In other words, technology-oriented service approach lies

within the “DNA” of Garanti. We continued to serve with this understanding and vision in 2015.

Its qualified human resources is undoubtedly another important factor behind the outstanding success of Garanti in the banking sector. Our investments to enhance the qualifications and skills of our colleagues continued in 2015 in line with our core value of “investing in human resources for sustainable growth”.

Garanti Bank progressively continued its activities in 2015 that are based on our principle of “giving back to society”. Being aware of our responsibilities to the society that we belong as an institutional member, we will continue to move forward in line with our sensitivity to contribute to education, sports, arts-culture and environment.

As has been the case so far, Garanti will continue to strive for operating even more successfully with the experience of the BBVA as one of the important players of global banking. Taking this opportunity, I would like to thank first and foremost my devoted colleagues as well as our esteemed clients, shareholders, and all other stakeholders for their continuous support and confidence.

Sincerely,

FERİT F. ŞAHENK
Chairman

LETTER FROM THE CEO

Over the years, we established a deep-rooted corporate culture and a solid strategy. Our strategy has been tested many times over the last 15 to 20 years and proved its success. Based on our dynamic and innovative business model, our strategy plays an important role in differentiating Garanti. Preserving our sustainability focus in 2016, we will continue to work towards creating value for our customers, employees, shareholders, society, environment and country.

Dear Stakeholders,

Albeit the optimism in the beginning of the year, 2015 has been a challenging year of continued uncertainties. Global markets had to deal with a burdensome agenda that covered the FED's rate hike decision, growing turmoil in Syria, growth pressure on developed economies, decelerated growth in China and the downtrend in oil prices. Turkey, on the other hand, lived a year of two elections and exchange rates peaked due to global turbulence.

Turkish banking sector was not at all immune to this heavy agenda. While the sector is growing at lower rates compared to the past, it is struggling to preserve its profitability levels amid newly imposed regulations. Suppressed consumer loan & credit card revenues due to the regulatory changes as well as the increased costs for the sector stemming from fee rebates caused the Turkish banking sector to post the lowest profitability levels of the last decade.

In spite of the challenging circumstances of 2015, as Garanti Bank, we continued to deliver the highest profitability rates among private banks in the sector, capitalizing on our dynamic business model, technology and scale advantage. While maintaining our commercial-loan driven growth, we strengthened our leadership position in consumer loans in the sector. We have built our growth strategy on prioritizing risk-return balance and we have been successful. Today, we are the sector's strongest private bank in terms of common equity Tier-1 ratio and this strength puts us in a position to support consistent growth.

On the funding side, while maintaining our focus on customer deposits, we continued to successfully tap international funding sources. In a year of fierce competition in TL deposits that reflected on prices, our demand deposit base expanded **20%**. Demand deposits currently correspond to nearly one fourth of our TL deposits. We are proud to be the preferred bank of customers.

Sound cost control and expense management became increasingly critical due to suppressed profitability in the recent years. The world is changing and technology is advancing. In turn, we need to adapt our business models according to the new developments and we need to work more efficiently. To this end, we keep investing in people and in efficient delivery

channels. With nearly **20** thousand employees, we are offering uninterrupted banking experience through our omni-channels to almost **14** million Garanti customers. Our digital customers currently constitute **48%** of our customer portfolio. Our Internet banking has **51%** and mobile banking has **29%** share in non-cash financial transactions. In the period ahead, we will witness digitalization gaining speed and digital channels taking a more prominent role in increasing operational efficiency.

At Garanti, our purpose goes beyond creating economic value; we aim to contribute to the environment and the society by partaking in voluntary social initiatives that increase value.

The year 2015 is marked by intensified global efforts in the areas of sustainable development and climate change. In our Climate Change Action Plan released October 2015, we are concentrating our support and efforts under the four main headings; carbon pricing and prioritizing renewable energy investments, reducing deforestation, managing water risks through climate change adaptation, and establishing green office standards. In addition, we became the first Turkish bank to sign the Caring for Climate (C4C) initiative encouraging private sector action against climate change, and the Business Leadership Criteria on Carbon Pricing. Both are led by UN Global Compact.

The total amount of financing we have provided for renewable energy investments topped USD **4** billion by the end of 2015. We preserved our **35%** market share in Turkey's installed wind power capacity. Meanwhile our new loan product designed to encourage efficient irrigation systems in the agricultural industry is taking our support to climate change mitigation to a whole new level. Our approach to the adaptation of climate instability impacts on water cycle, was presented in the UN components' report entitled "The Business Case for Responsible Corporate Adaptation: Strengthening Private Sector and Community Resilience". We are the only Turkish company and one of the **2** banks in the world presented in the report.

Garanti Anatolian Meetings, at which we offer guidance to the SMEs and share sector and province oriented solutions, entered its **13th** year in 2015. Visiting **3** cities in 2015, Muş, Kocaeli and Uşak, we have held **100** meetings in **68** provinces to date.

We have reached out to **6,662** women through Women Entrepreneurs Meetings co-organized with the Women Entrepreneurs Association of Turkey (KAGİDER) since 2008; with the objective of supporting participation of women in economy

and empowering women entrepreneurs in developing economies such as Turkey.

Being a bank attaching great importance to corporate responsibility initiatives, we have launched a new project in 2015 as part of our commitment to create permanent value in the field of education. Collaborating with the Educational Volunteers of Turkey (TEGV), we began sponsoring the educational program “Math and Science Learning with Fun”. We aim to equip primary education students in grades two through eight with basic math and science knowledge and skills, thereby helping raise generations with scientific thinking and problem solving skills, embracing a positive attitude towards science. We are planning to reach approximately 100 thousand children in the course of 3.5 years with this program, which will be offered at TEGV locations in 37 provinces across Turkey.

In 2015, 19 exhibitions showcased at SALT Galata, SALT Beyoğlu and SALT Ulus under the roof of SALT, our gift to Turkey’s cultural and intellectual life, attracted 509 thousand art lovers.

On the other hand, we hosted almost 41 thousand music enthusiasts in 79 concerts organized in 2015 within the frame of our “Garanti Jazz Green” sponsorship that has been ongoing for 18 years with the motive of sharing jazz music with large audiences.

Basketball is another field we are proud to support and sponsor. We have been the main sponsor of the Turkish National Women’s Basketball Team and the Turkish National Men’s Basketball Team for 15 years. A total of 55 thousand students received basketball training in 81 centers at the 12 Giant Men Basketball Schools that we have been supporting since 2002. Our efforts to contribute to the social life of individuals with disabilities continued with our support to wheelchair basketball.

Based on our “Disabled-Friendly Banking” notion, we rendered Garanti Internet Banking and Mobile Banking accessible to visually impaired customers with the use of software that can read out screen content. The project “İşe Katıl Hayata Atıl” (Join the Workforce Join Life), which we have launched under the patronage of the Ministry of Family and Social Policies in a bid to help people with disabilities gain professional skills and to create employment opportunities for them, continued and further expanded in 2015.

In the past years, open communication and cooperation with our stakeholders has been a major contributor in improving our sustainable banking vision, by keeping it dynamic. On the back of all these endeavors, Garanti became the only Turkish company to qualify for the Dow Jones Sustainability Index, one of the world’s most prestigious sustainability indices, in 2015. This offers further evidence that we have embedded sustainability throughout the entirety of our banking operations. I am more

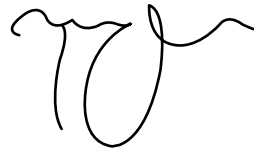

than happy to be sharing these facts with you, all of which demonstrate the communication we have established with our stakeholders on the principles of accuracy, transparency, fairness, accountability and responsibility, and the value we attach to the society.

Dear Stakeholders,

I am honored and delighted to have taken over CEO post as of September 2015. Over the years, we established a deep-rooted corporate culture and a solid strategy. Our strategy has been tested many times over the last 15 to 20 years and proved its success. Based on our dynamic and innovative business model, our strategy plays an important role in differentiating Garanti. We share the same approach and priorities as BBVA, which has become our major shareholder with the agreement dated July 2015: human-centered organization, customer-centric approach, technology-focus and efficiency-focus. I believe that the shared culture, values and goals with BBVA will further contribute to our value creation.

Our wish, as always, is to earn the appreciation of all our stakeholders.

Sincerely,

ALİ FUAT ERBİL
President & CEO

2016 OUTLOOK

Garanti will speed up its initiatives in an effort to create long-term value; yet, it will continue to closely monitor its costs and keep the operating expenses under control. Standing out with its robust capitalization, Garanti will retain this quality and move forward in 2016. To such a backdrop, the Group will preserve its ability to generate sustainable profit on the back of its differentiated business model.

During 2015, although the Turkish economy occasionally decoupled negatively from its emerging peers due to domestic political and geopolitical developments, it sustained its moderate performance despite the deteriorated risk appetite towards EMs. Gross Domestic Product (GDP) growth was above the projections, mainly due to the support from consumption. In addition to the food prices that floated at high levels for the whole year, depreciation of Turkish Lira due to domestic and external uncertainties, caused inflation to remain high throughout the year. The Central Bank of the Republic of Turkey (CBRT) maintained its tight stance in an environment of ongoing global and domestic uncertainties and volatility. In a year of two general elections, the public finance performance did not show a significant change in 2015 compared to 2014.

In 2016, the GDP growth is anticipated to be slightly above its 2015 level based on the assumption that domestic demand will remain high and external demand will have a positive contribution. After being above expected levels despite the low commodity prices in 2015 (8.8%), no clear improvement in inflation is expected in 2016 due to stickiness and worsening inflation expectations (8%). While the current account balance is expected to improve due to declining commodity prices, only a limited increase is anticipated in the “budget balance/GDP ratio”. With the assumption of the continuation of the US Federal Reserve’s (the FED) rate hike which began in December 2015, borrowing costs will remain high worldwide in 2016 that is expected to be year of prevailing global uncertainties and volatility. In such a year, the CBRT is anticipated to maintain its tight stance in monetary policy, and the weighted average funding cost is forecasted to increase by nearly 110 basis points.

In the coming year, Garanti Bank’s asset growth is anticipated to be driven by loans. The securities portfolio, on the other hand, will be composed in such a way to support the further strengthening of the hedging position against inflationary pressures. Profitability focus and moderate growth of ~15% will be sustained in total loans. TL loan growth will be ~15%. While business banking loans are expected to be the main drivers of the lending growth, pace consumer loan growth is targeted to be preserved. After a stagnant year due to volatility and uncertainties, FC loan growth expected to pick up pace and grow by 3%, in line with sector.

Garanti will preserve its comfortable liquidity level with increasing contribution from deposits and longer-term alternative funding sources in 2016. Deposit growth will be in line with the loan growth, and demand deposits will continue to account for more than **20%** of total deposits. The Bank will keep tapping alternative funding resources in order to support its funding base. Consequently, utilization of bond issuances in domestic markets, securitizations and syndications will continue. Garanti will also be opportunistic on repo funding and interbank money market borrowings.

In 2016, Garanti aims to further strengthen its asset quality on the back of its proactive approach to risk assessment. The NPL ratio is projected to be **3.1%**, slightly above its 2015 level. Yet, there is an upside risk of **30** basis points on the NPL ratio due the potential changes in global circumstances. NPL coverage ratio will be maintained at **81%**.

In the year ahead, net interest margin will be preserved with the support of dynamic assets and liabilities management, despite the pressure that will come from funding costs. Loans to deposits spread suppression will be countered with the growing contribution of CPI linkers.

Net fees and commissions income will draw near its regular growth momentum in 2016 and will be at **9%**, following significant repressive effects in 2015, which resulted from the new arrangements within the scope of the consumer protection law. Net fees and commissions income will be supported by diversified businesses. The areas of growth that will gain the foreground in 2016 will include payment systems fees, money transfer fees and non-cash loan fees.

It is estimated that the operating expenses of Garanti will increase in parallel to the inflation rate in 2016. After a year of investments in initiatives aimed at enhancing employee satisfaction and loyalty, the rate of increase in personnel expenses will revert to regular levels. On the other hand, non-personnel expenses will continue to be restrained.

During 2015, contribution of foreign subsidiaries was repressed because of their increased caution. The subsidiaries' contribution to the Bank's profitability is anticipated to climb back to **15%** in 2016. Within this context, primary contributors will probably be Garanti Pension, Garanti Leasing, Garanti Romania, GarantiBank International and Garanti Factoring.

2016 will likely see continued volatilities in global markets. Despite challenging market conditions, Garanti is targeting to sign its name under new success stories drawing upon its differentiated dynamic business model and its strategies targeted at sustainable profitability.

EXPECTATIONS REGARDING THE GROUP IN 2016

Garanti operates as an integrated financial services group through its leading financial subsidiaries offering services in life insurance and pension, leasing, factoring, brokerage and asset management in Turkey, along with its international subsidiaries operating in Romania, the Netherlands and Russia. Garanti aims to make sure that the synergy captured with its subsidiaries is powerfully sustained in 2016, and the subsidiaries are expected to increase their shares within the Group's net income, while profitability also rises.

In 2016, the Group will keep making headway with profitability as the risks and uncertainties stemming from the economic and political conjuncture diminish and as the preparations for regulatory alignment bear their fruits in Romania and the Netherlands where its subsidiaries pursue their banking operations. The 2016 goals include upgrading the strong balance sheet structure in a bid to preserve the asset quality, and boosting and sustaining the profit generation capability.

With respect to its operations in Turkey, the Group kept its losses in terms of the number of participants and total funds at a minimum despite the new market entrants and substantially preserved its market share in the Private Pension System (PPS) in 2015. Parallel to its targets, it was the most profitable company in the sector according to the latest data that was available as of this writing. The rise in total funds and profitability on the private pension front is anticipated to persist in 2016, and to affect the operating results positively, while solid premium production is projected to continue and keep supporting profitability in the life insurance department. The Group also envisages continued outperformance of the sector's average in leasing, which should reflect on 2016 results. The positive contribution expected to be lent by stock, derivatives and FX trading volumes to commissions will, in turn, drive profitability.

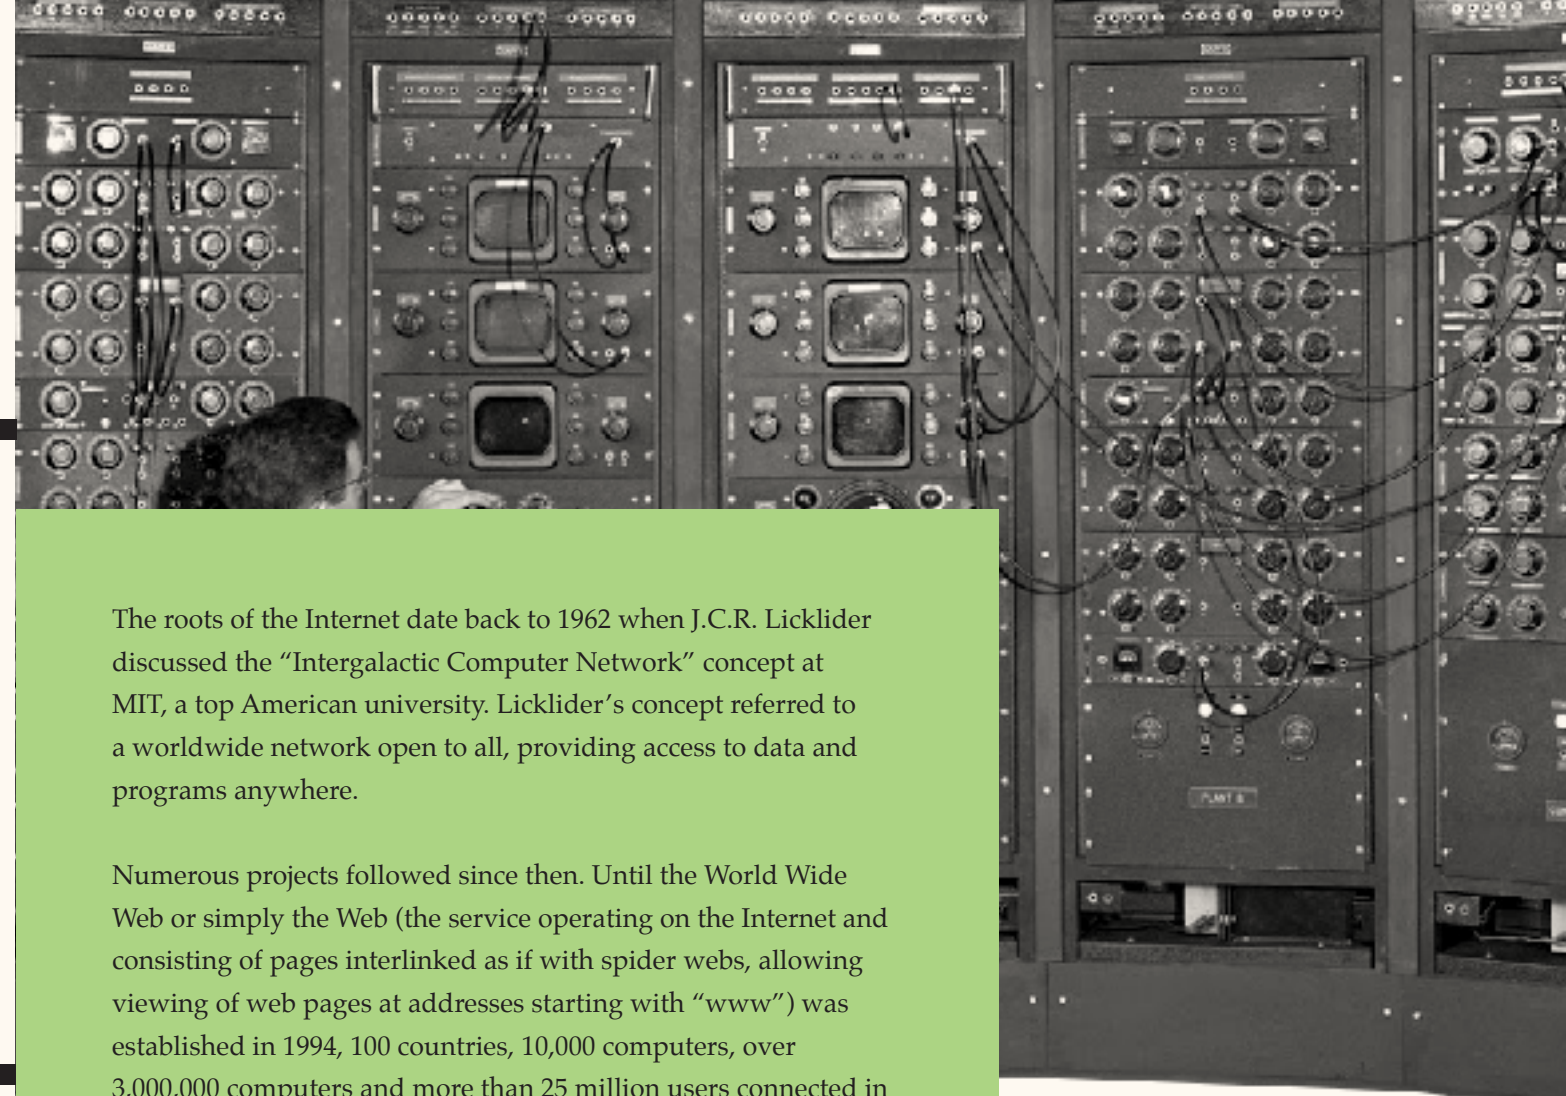

In a macro-economic atmosphere that will be mainly defined by the central banks in 2016, the Group aims to adhere to its efficiency-focused, profitable growth strategy that generates capital. The strong share of loans within the assets structure will be maintained, and the powerful collection performance will help preserve the sound asset quality, despite increased risks. In spite of the inflationist pressure, the Group aims to maintain its cumulative net interest margin on the back of an active assets and liabilities management. Net fees and commissions income will go up in defiance of all the risks, and remain as one of the significant income generation items for the Group. The Group will restrain its expense items through active management, and will keep concentrating on designing its business model to put potential growth areas in the focal point. In 2016, the Group will speed up its initiatives in an effort to create long-term value; yet, it will continue to closely monitor its costs and keep the operating expenses under control. Standing out with its robust capitalization, the Group will retain this quality and move forward in 2016. To such a backdrop, the Group will preserve its ability to generate sustainable profit on the back of its differentiated business model.

WE GROW TOGETHER

MAKING LIFE EASIER WITH DIGITAL SOLUTIONS!

The so-called “digital customers” transacting via Garanti Bank Internet/Mobile Banking number 4 million. 91% of all non-cash financial transactions occur through digital channels at the Bank.

The roots of the Internet date back to 1962 when J.C.R. Licklider discussed the “Intergalactic Computer Network” concept at MIT, a top American university. Licklider’s concept referred to a worldwide network open to all, providing access to data and programs anywhere.

Numerous projects followed since then. Until the World Wide Web or simply the Web (the service operating on the Internet and consisting of pages interlinked as if with spider webs, allowing viewing of web pages at addresses starting with “www”) was established in 1994, 100 countries, 10,000 computers, over 3,000,000 computers and more than 25 million users connected in various ways to the Internet. This number boomed to 60 million in 1995 when the web page concept was introduced. Today, there are more than 3 billion Internet users worldwide.

In Turkey, computer and Internet usage of individuals aged 16-74 was 55.9% in April 2015 according to TurkSTAT’s ICT Usage Survey on Households.

April 2015 data show that mobile or smart phone ownership rate in households was 96.8%, whereas desktop computer, portable computer and TV sets with Internet connection ownership rates were 25.2%, 43.2% and 20.9%, respectively.

ASSESSMENT OF FINANCIAL POSITION, PROFITABILITY AND DEBT PAYMENT CAPABILITY

2015 has been a year of continued volatility in the financial markets due to the uncertainties relating to global monetary policies and concerns over growth. The slowing trend ongoing since 2014 in global economic activity persisted in 2015, in a more pronounced fashion particularly in China and some other emerging countries. The weak global economic activity led to declines in commodity prices. In this period, emerging countries were significantly influenced by the fluctuations. While portfolio flows towards these countries were feeble, exchange rate volatility remained high.

The repercussions of the tides in global markets were also observed on the Turkish economy in 2015. The uncertainties stemming from the renewal of elections, coupled with the increased geopolitical tensions led to fluctuations in financial indicators. In this period, the Central Bank of the Republic of Turkey (CBRT) maintained its tight monetary policy stance in view of the inflation outlook, and took steps to support financial stability and to balance FC liquidity. On another hand, Turkey's economic performance remained resilient and closed in on its potential in this period that both external and domestic financial markets were challenged.

In 2015, the Turkish banking sector was still repressed by the regulations, in addition to the volatility resulting from global and macroeconomic uncertainties, combined with geopolitical and political developments. In a year of tough market conditions, Garanti once again proved its ability to perform strongly under any market condition. The primary contributors to this performance included the comfortable liquidity level, focus on disciplined and selective growth, emphasis placed on risk-return balance, successful margin management, capability to generate the highest customer-driven revenues, and sound solvency.

Garanti sustained its leadership in branch efficiencies in 2015, while continuing with investments in delivery channels, giving the priority to easy and instant access to its banking services from all channels and aiming to offer an embedded banking experience to customers. At the end of 2015, Garanti was serving more than **13.9** million customers through a robust distribution network covering nearly **1,000** branches, **4,504** ATMs, Turkey's largest financial Call Center, and state-of-the-art mobile and

internet banking platforms. Possessing a massive payment systems infrastructure consisting of over **18** million debit and credit cards, and **601,000** POS terminals, Garanti manages Turkey's largest merchant network via its innovative products and services.

Garanti's total assets increased by **16%** year-over-year in 2015, and reached TL **280** billion. As Garanti focused on customer-driven asset growth, the share of lending to total assets surpassed **60%**.

In 2015, Garanti displayed a disciplined and moderate expansion in its lending. Cash loans increased by **19%** on an annual basis. TL loans were the key driver behind the loan expansion of Garanti. While TL loans increased by **18%** on an annual basis, this growth figure went above the budget target set at the start of the year. TL business banking loans grew nearly **30%** in 2015, leading the TL loan growth. Garanti maintained its focus on retail loans, which create high yields as well as cross-sell opportunities. Registering growth rates of **21%** in mortgage loans and **19%** in auto loans, the Bank further cemented its leading position in total consumer loans, mortgage loans and auto loans. Garanti consolidated its pioneering position in payment systems, backed with its command of the largest merchant network and its leadership in the use of commercial credit cards. The ongoing domestic and overseas volatilities and uncertainties in 2015 led to the postponement of some investments that were expected to be launched during the year to coming periods, and as such, prevented the targeted growth in FC lending from materializing. However, in 2016, we are anticipating positive support to the FC loan growth in the form of project finance and investment loans from these investments, which are intended to be rolled out in the coming periods.

Garanti's asset quality was further strengthened with the proactive approach pursued with an eye on potential changes in global circumstances in risk assessment. In keeping with the projections of early 2015, the NPL ratio was registered as **3.2%** and NPL coverage ratio as **76%**. Solid collection performance eased the negative effect of new NPL inflows.

Garanti preserved its liquid balance sheet composition in 2015. Funding base of the Bank is dynamically managed and

continued to be largely composed of deposits. The growth in customer deposits, at **18%**, was aligned with the loan expansion in 2015. Garanti deliberately avoided pricing competition in line with the priority placed on effective cost management, and chose to base the expansion in deposit base on sustainable banking relationships. Demand deposits grew by more than **20%** on an annual basis and their share to total deposits went above **24%**. Garanti kept diversifying its funding structure by actively tapping alternative funding sources, with the aim of managing asset-liability duration gap and optimizing funding costs.

In 2015, Garanti kept taking successful steps, placing sustainable growth and profitability in its focus. The Bank pursued operations by further strengthening its solid capitalization on the back of internal funds created. Garanti maintained its capital ratios, which are Basel III compliant, at strong levels in spite of the significant depreciation in Turkish lira, the dividend payout during the reporting period, continued repressive effects stemming from regulatory requirements, and the negative effect originating from the market value changes in securities due to the volatile markets. At **13.5%**, the capital adequacy ratio stayed well above the minimum regulatory ratio of **8%** and of the recommended ratio of **12%**. At Garanti, common equity corresponds to **95%** of total shareholders' equity. With a common equity Tier 1 ratio of **12.9%** at year-end 2015, Garanti boasts the highest core capital ratio in the sector.

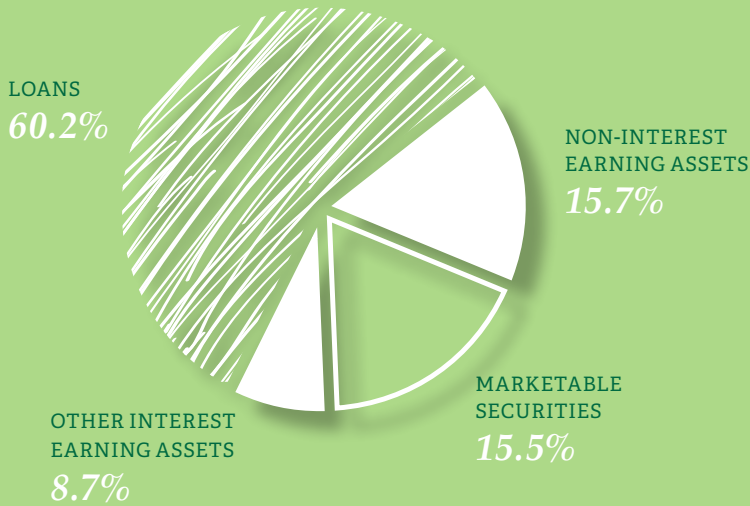

Garanti's recurring strong performance comes not as a result of ad-hoc steps, but of a long-lived and well-planned journey. The differentiating business model of Garanti supports the continuity of its successful performance. On the back of dynamic balance sheet management, Garanti successfully broadened its net interest margin, preserved its solid net fees and commissions base, and effectively managed its operating costs by maintaining its focus on efficiency even in a challenging year dominated by economic uncertainties and volatilities, and of ongoing repressive effects of regulations upon banking revenues. Garanti registered a return on average equity (RoAE) of **14.5%** and a return on average assets (RoAA) of **1.6%**, excluding nonrecurring items.

Also in the period ahead, Garanti will be making decisions with an eye on the needs of future generations, and will keep fulfilling its share of the responsibility for a sustainable future. The Bank will move ahead with its vision of being the best bank in Europe, while remaining adhered to the outlines of its existing strategy.

KEY FINANCIAL INDICATORS AND RATIOS

Garanti, with its long-term sustainable growth strategy aimed at continuous value creation reached a consolidated asset size of TL 279.6 billion in 2015. Garanti's liquid balance sheet, sound asset quality, and strong capitalization are the reflections of its differentiated business model.

GARANTI BANK SHARE

Garanti Bank initially offered its shares to public in 1990 and has become *the first Turkish company to offer its shares on international markets in 1993*.

Garanti's *Depository Receipts* are listed on the *London Stock Exchange Main Market* and OTC (Over-The-Counter) Markets in the USA. In 2012, Garanti participated in the prestigious tier of the U.S. Over-The-Counter (OTC) market, *OTCQX International Premier*, where companies traded must meet high financial standards and an effective disclosure process. Having qualified in 2014 to join *OTCQX® ADR 30 Index* launched by OTC Markets Group Inc. in cooperation with the Bank of New York Mellon, Garanti has established itself among the top 30 Depository Receipts traded on the OTCQX marketplace, selected based on their market capitalization, volume and liquidity. Also in 2015, Garanti has been named to the 2015 *OTCQX® Best 50*, a ranking of 50 top performing companies traded on the OTCQX marketplace. With its superior performance in 2014, Garanti stands as the only Turkish company among the best 50 companies of OTCQX.

Garanti Bank has a market capitalization of TL **30 billion** (USD **10 billion**) as of the end of 2015 and is the most valuable company in Turkey. With a free float ratio of **50.02%** and TL **15 billion** floating market capitalization, Garanti also has the highest free float in BIST 100.

Garanti Bank share (GARAN) is *the most traded stock* with an *average daily* turnover of TL **836 million** (USD **307 million**) and has BIST 100 turnover market share of **22%** in 2015. With a total foreign transactions turnover of USD **34 billion** and having weight of around **10%** in BIST 100 and **11%** in BIST 30 makes GARAN the most traded stock by foreign investors.

Garanti's *Depository Receipts* program reached a size of **116 million shares** as of 2015 year-end. *Foreign investors share* in Garanti's actual free float of **50.02%** is **88%** with a composition that is spread to around **40** countries.

The institutional shareholder structure of Garanti by region is **18.0%** UK and Ireland, **14.8%** North America, **5.0%** Europe, **2.8%** Asia and **1.7%** Turkey. Garanti has more than **57** thousand individual shareholders that are registered in Turkey.

Garanti works towards continuously and noticeably increasing the value created for its stakeholders. During 2015, Garanti Investor Relations took part in **25** national and international investor conferences held in **12** cities in Asia, USA and Europe with the participation of the administrative team, in addition to one-on-one meetings with **811** international investment funds. Garanti organized live webcasts/teleconferences bringing its senior management together with the investor community in 2015, and made presentations on its financial results four times a year, as well as on its operating plan that described its future projections. The podcasts of these teleconferences were posted on the Investor Relations website. *Investor Relations website* and *iPad application* prepared both in *Turkish and English* for the convenience of Garanti's investors from all around the world enabling easy access to all the information they need, plays an important role in the proactive and transparent communication between Garanti and its stakeholders.

In 2015, Garanti became *the only Turkish company* to qualify for the *Dow Jones Sustainability™ Emerging Markets Index*. Garanti successfully integrated sustainability into all of its activities and banking operations by having qualified for the Dow Jones Index, on top of having qualified for the *BIST Sustainability Index* and *BIST Corporate Governance Index* in 2014 and successfully preserving its place this year after evaluation processes.

Note: Geographical distribution of institutional shareholders is based on IPREO Shareholder Analysis Report dated January 2016; the actual free float ratio, the share of foreign investors and the number of local shareholders are all based on MKK (Central Securities Depository).

You may find detailed information about Garanti's credit ratings in the consolidated financial statements 6.1.1 and unconsolidated financial statements 6.1, you may follow Garanti Investor Relations website www.garantiinvestorrelations.com, for recent information.

Below you may find more information on Garanti Bank's ratings and their definitions and all the rating actions taken in 2015.

Fitch Ratings

December 1, 2014: Affirmed Viability Grade "bbb-". Long Term FC and LC ratings and outlooks, Short Term FC and LC ratings and outlooks, National Long Term rating and outlook, and Support Rating have been placed on Rating Watch Positive (RWP). Fitch Ratings has explained that such decision was taken following an announcement made by Banco Bilbao Vizcaya Argentaria S.A. (BBVA; A-/ Stable) on 19 November 2014 regarding the increase of its stake in Garanti Bank to 39.9% from the current 25%. Fitch stated that the revision of the SRFs reflects a reassessment of the Turkish sovereign's ability to provide support to the banks in foreign currency (FC).

June 16, 2015: Affirmed credit ratings and outlook announced on the report dated December 1, 2015, while they remained under "Positive Watch".

July 31, 2015: Upgraded Long-term Issuer Default Ratings (IDRs) to 'BBB' from 'BBB-', Short-term IDRs to 'F2' from 'F3' and National Rating to 'AAA(tur)' from 'AA+(tur)'. The Support Rating has changed to '2' from '3'. The ratings have all been removed from Rating Watch Positive. Upgrading Garanti's IDRs, National Rating and Support Rating, Fitch stated that the upgrade is a result of Fitch's belief that BBVA would provide support to its subsidiary, Garanti, if required. Fitch announced that the Support Rating Floor (SRF) was affirmed and withdrawn, as SRFs are only assigned to banks whose primary source of external support is considered to be the sovereign; this is no longer the case for Garanti.

National Long Term Credit Ratings AAA(tur) 'AAA' National Ratings denote the highest rating assigned by the agency in its National Rating scale for that country. This rating is assigned to issuers or obligations with the lowest expectation of default risk relative to all other issuers or obligations in the same country.

Long Term FC BBB Good credit quality, indicates that expectations of credit risk are currently low. The capacity for payment of financial commitments is considered adequate but adverse business or economic conditions are more likely to impair this capacity.

Long Term LC BBB Good credit quality, indicates that expectations of credit risk are currently low. The capacity for payment of financial commitments is considered adequate but adverse business or economic conditions are more likely to impair this capacity.

Moody's

March 30, 2015: Agency changed its rating methodology. Affirmed credit ratings and outlook. Accordingly, agency affirmed Long Term LC and FC ratings at "Baa3", Short Term LC and FC ratings at "P-3", and outlook at "Negative". In addition, Moody's affirmed National Scale Rating (NSR) Long Term Deposit at "Aa3.tr", NSR Short Term rating are affirmed at "TR1", and Financial Strength Rate at "D+".

September 28, 2015: Upgraded Adjusted Baseline Credit Assessment (BCA) to 'baa3' from 'ba1' and affirmed other ratings and outlooks.

Long Term National Scale Rating	Aa3.tr	Demonstrate the strongest creditworthiness relative to other domestic issuers.
Long Term FC Deposit	Baa3	Obligations are subject to moderate credit risk. They are considered medium grade and as such may possess certain speculative characteristics.
Long Term LC Deposit	Baa3	Obligations are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Standard & Poor's

August 7, 2015: Affirmed credit ratings and outlooks.

Long Term FC	BB+	An obligor is less vulnerable in the near term than other lower-rated obligors. However, it faces major ongoing uncertainties and exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitments.
Long Term LC	BB+	An obligor is less vulnerable in the near term than other lower-rated obligors. However, it faces major ongoing uncertainties and exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitments.

JCR Eurasia Ratings:

May 20, 2015: Affirmed Long Term International FC ratings at "BBB", Long Term International LC ratings at "BBB+", Short Term International FC rating at "A-3", Short Term International LC rating at "A-2", Long Term National rating at "AAA(Trk)", Short Term National rating at "A-1+(Trk)", Sponsor Support at "1" and Stand Alone rating at "A". Outlook affirmed as "Stable".

National Long Term Credit Rating	AAA(Trk)	The highest level of capacity of the obligor to honor its financial commitment on the obligation.
Long Term International FC	BBB	An adequate level of capacity to honor the financial commitment on the obligation. However, this capacity is more likely to diminish in the future than in the cases of the higher rating categories.
Long Term International LC	BBB+	An adequate level of capacity to honor the financial commitment on the obligation. However, this capacity is more likely to diminish in the future than in the cases of the higher rating categories.

JCR Eurasia Ratings Corporate Governance Rating

The CMB pursued a significant change regarding the methodology of calculation of compliance rating scores in the beginning of 2014. Based on the recent CMB legislation, the new scoring methodology consists of two stages in which companies are allocated a base and a full score. In the new system, companies are first assigned a base score with a maximum of 85 points determining their compliance with the rules and practices outlined in the Code. In the second stage, an additional 15 points may be awarded depending on the efficient implementation and value creation achieved through practices exceeding those specified in the principles. Practices not stated in the Code but determined by JCR Eurasia Rating as best governance practices are also taken into account in the assignment of additional points. The Code consists of four main sections; Shareholders, Public Disclosure and Transparency, Stakeholders and Board of Directors, and these main sections' coefficients, which were determined by the CMB, are 25%, 25%, 15% and 35%, respectively.

Garanti increased its overall corporate governance score to 9.20 from 9.14 in JCR ER's report dated December 10, 2015 and continued to be included in the Borsa Istanbul (BIST) Corporate Governance Index for its superior compliance with Capital Markets Board Corporate Governance Principles. Increase in the score was due to improvement in the Stakeholders (to 9.23 from 9.05) and Board of Directors (to 9.25 from 9.15) sections.

WE GROW TOGETHER

LEADING
THE SECTOR
WITH
INNOVATIVE
APPLICATIONS

Closely watching worldwide trends and undersigning innovative applications and products, Garanti adapted to the mobile era and pioneered the sector in Turkey and in the world with its applications. Garanti has become the world's first bank to launch fast money transfer via mobile phones with its CepBank mobile banking application in 2015.

"Before anything else, preparation is the key to success. Concentrate all your thoughts upon the work at hand. The sun's rays do not burn until brought to a focus."

A. Graham Bell

Mobile phones, the hallmark of communication society, and the underlying technology advance rapidly. While mobile communication over GSM networks started in early '90s, technology norms began taking shape by early '80s.

The first step of the Global System for Mobile Communications (GSM) was taken in 1982. GSM infrastructure specifications were detailed by the EU in 1988, thus setting the mobile communication standards, leaving compliant mobile phones and base stations to be developed.

July 1, 1991 marked the first GSM call Finland PM Harri Holkeri made with Nokia gear over the local operator, Radiolinja. A large number of projects were in progress until this first-ever GSM call. The mobile phone was first conceived in 1973 by Martin Cooper. He designed the first hand-held mobile phone that weighed 1.133 kg and led the ten-year process that brought it to the market.

The first mobile phone call in Turkey occurred on February 23, 1994 between the 9th President of Turkey Süleyman Demirel and the then PM Tansu Çiller. The first GSM operator in Turkey became operational in March 1994.

Nokia 1011, the first mass-produced GSM phone, was released in 1992. The same year, the first SMS or text message was sent via a Nokia phone.

WE GROW TOGETHER

LEADING

THE

V

INNO

APPLI

Closely watching world products, Garanti adapted the world with its applicat money transfer via mobile

The first SMS in Turkey was sent in 1995, while use of Turkish characters in text messaging began in 2008. According to 2015 data of Information and Communication Technologies Authority, there are **72 million mobile subscribers in Turkey**, which has a population of approximately 77 million. Internet usage from cell phones in the first 3 months of the year was 107,970 TBytes.

The rapid advancement of mobile phones and mobile technology paved the way for transformation in a number of industries. Closely watching worldwide trends and undersigning innovative applications and products, Garanti foresaw the advent of the mobile revolution. Garanti pioneered the sector in Turkey and in the world with its applications. It has become the world's first bank to launch fast money transfer via mobile phones with its **CepBank** mobile banking application in 2015.

This is the mobile age. According to Ernst & Young, the number of people executing banking transactions via mobile phones will double by 2017. The goal of Garanti is to ensure that mobile banking is embedded in users' lives not only via phones but anywhere with a screen while the user is on the move. Currently, Garanti Bank has **2.5 million mobile customers**. Over 1.3 million clients per month, named "Mobile Only" customers, transact via cell phones only. Within 12 applications tailored for 8 different platforms, Cep Şubesi is positioned as the driver of mobile.

"Before anything else, preparation is the key to success. Concentrate all your thoughts upon the work at hand. The sun's rays do not burn until brought to a focus."

RETAIL BANKING

309K BECAME
CAR OWNERS

386K BECAME
HOMEOWNERS

1.8 MILLION CONSUMER
LOAN CUSTOMERS

Operating in the retail banking segment for **28** years and having successfully differentiated itself from the competition, Garanti facilitates life for its millions of customers with its technology, rich product range, and efficient and dynamic process management.

Garanti serves its **12.5** million retail customers with a retail sales and relationship management team of **2,600** people.

ACTIVITIES IN 2015

Consumer Loans

Garanti increased its share in the consumer loans market (excluding consumer credit cards) to **13%** and remained the biggest private bank lender to consumers.

Having disbursed general purpose loans (GPLs) worth TL **11.6** billion to nearly **1** million individuals in 2015, Garanti reached **11%** market share as of year end in GPLs.

In another successful year, Garanti preserved its leadership in mortgage loans with a total disbursement of TL **7.7** billion in 2015.

Retail Deposits, Saving and Investment

Garanti managed its deposit costs effectively, despite volatile markets and fluctuating exchange rates in 2015. Thanks to quality service and efficient use of digital channels, Garanti had a **20%** expansion in TL and FC time deposit products.

Having presented a new saving concept with the NET Saving Account product, Garanti introduced the NET Saving Account to its **260** thousand customers.

Garanti held the “Gold Collection Days”, which were initiated in 2012 for regaining the gold coins kept at home for the financial system, at branches located in shopping malls during weekends, and secured **15%** of its volume through this channel.

Garanti launched SMART Funds which invest in a number of commodity market products in domestic and overseas markets. Garanti introduced SMART Funds to nearly **6,500** customers and reached more than TL **200** million in volume by the end of 2015. Fund merger action taken by the Bank on December 28, positively affected SMART figures.

Segment Banking

Placing special emphasis on sustainability in new customer acquisition, Garanti won **1.4** million new retail customers in 2015. The Bank continued to grow the number of its retail salary customers, which is pivotal in the preferred primary bank relationship in the case of customers working with multiple banks. Garanti, targeting to be the retirees’ specific bank, increased the number of its pension customers by **31%** in 2015. The bank renewed its Mini Bank program and relaunched it under the name “Garantili Gelecek” (Future with Garanti) for parents seeking to take their children’s future under guarantee.

PROJECTIONS FOR 2016

Amid an environment of constantly increasing regulatory requirements, Garanti will focus on improving efficiency in its processes, resource utilization, and customer relations in order to reach its sustainable profitability target. Accordingly, the Bank will gain a better insight into its customers’ expectations, thus bringing them products and services aligned with their needs and attitudes. This customer-centric approach will take Garanti one step further in customer satisfaction and relations.

In keeping with the new banking trends, Garanti will concentrate on digitization and offer service with easy, redesigned processes. The Bank will aim to increase the share of digital channels in sales. Within the frame of these strategies, savings accounts, consumer loans and investment products will remain as key focal points in 2016.

Garanti will keep concentrating on saving and encouraging its customers of various profiles to save through different saving products. Another key area will be winning new customers from different segments, particularly in “Kids Banking”, as well as in “retiree” and “youth” segments.

Garanti will secure increased penetration of payment/loyalty products attracting customers’ cash flows to the Bank work towards end-to-end integration of the sales and services processes of these products.

Note: Consumer loan customers include auto&mortgage exclude overdraft loans.

Car&homeowners refer to unique customers with auto and/or mortgage loans until 2015YE.

PRIVATE BANKING

SECTOR'S BROADEST
PRODUCT RANGE

24% INCREASE IN ASSETS
UNDER MANAGEMENT

MORE THAN 6,800
CUSTOMERS

Garanti Masters Private Banking further cemented its solid position in the sector with its innovative and dynamic structure, technology, experienced team and broad product range in 2015 that marked its 10th year in the segment. Working exclusively with individual investors in line with quality service concept, Garanti Masters is managing assets for more than 6,800 clients through 12 Private Banking branches, seven of which are in Istanbul and five are in Adana, Ankara, Antalya, Bursa and Izmir.

Having increased assets under management by 24% in 2015, Garanti Masters attributes this achievement to its competent and experienced human resources. A believer in sustainable growth strategy, Garanti Masters consolidates this strategy with management based in transparency and openness, as well as a service understanding focused on mutual trust.

With an asset management concept centered on optimizing the risk versus return balance, Garanti Masters Private Banking develops products that fit its clients' risk appetite, needs and expectations. Along these lines, structured deposit products continued to be offered allowing the Private Banking clients to generate returns on the changes in financial markets while furnishing principal guarantee for their TL or FC savings. Structured deposits sold amounted to TL 427 million and USD 104.5 million in total.

Standing out with its expertise and the privileges offered, Garanti Masters not only secures better returns for its clients versus other alternatives, but also renders non-financial services to add value to clients' lives by hosting events in various fields including economy, arts and sports.

With 10 years of successful track record coupled with innovative products and services carefully designed according to client expectations, Garanti Masters makes a difference in its segment with the private banking service it offers. Accordingly, the Yield Report introduced as a first in the sector in 2015 allows Garanti Masters clients a thorough and transparent monitoring of their portfolios on a real-time basis, as well as for any past date range.

ACTIVITIES IN 2015

- » Garanti Masters Private Banking increased the assets under management, up by 24% as compared with 2014.
- » In 2015, Garanti Masters intermediated the sales of Structured Deposits and Corporate Bonds worth more than TL 813 million in total.
- » 260 loans were disbursed, which were worth TL 78.1 million in total.

PROJECTIONS FOR 2016

The volatility that infected the markets in 2015 has once again demonstrated the importance of receiving private banking service from qualified and experienced institutions and people. In 2016, Garanti Masters Private Banking will sustain its proven strategy in fulfilling client needs and expectations amid volatile market conditions with its broad product range, customer-centric service model and integrated services.

Through "Structured Notes" that will be introduced in the coming year, Garanti Masters will present qualified investors with various maturity and investment options including, commodity, FC, bonds, bills, options, forwards and similar financial asset-backed alternatives. In an increasingly competitive environment driven by the growth of the private banking segment in the world and in Turkey, Garanti Masters will keep exercising the same diligence for differentiating all of its products and services.

TL 18.8 BILLION

MORE THAN 67,000 PEOPLE
BECAME HOMEOWNERS WITH
GARANTI'S LOANS IN 2015

BROADEST PRODUCT
RANGE IN TURKEY
WITH 21 PRODUCTS

Garanti Bank continues standing by its customers through every step of the home purchasing process in order to keep producing new happy mortgage stories. Garanti is leading the field with its rich product range, continuously improved and accelerated customer-friendly housing loan processes, specialized and certified employees, a dedicated website offering various calculation tools and necessary information, and the 444 EVIM call center responding to customers' housing loan questions 24/7.

The housing loan sector kept expanding in 2015 and despite the intense competition Garanti outgrew the sector, reaching **14.3%** market share. The consumer housing loans portfolio grew by **21%** to top TL **18.8** billion.

ACTIVITIES IN 2015

Garanti kept offering the best service to its customers on the back of Mortgage Expertise Certificate Training courses organized since 2007.

Continuing to differentiate with its expertise rather than competitive pricing, housing loan customers financed by Garanti reached **477,000**.

With rapidly growing number of participants in its **3rd** year, "Garanti Mortgage Secures Retirement for Real Estate Agents" campaign kept supporting communication with real estate offices using effective field sales management.

As well as large scale projects in view of the conjuncture, Garanti strove to increase its performance in development financing activities driven by new collaborations with construction firms, incorporated housing projects developed by new small or medium sized contracting companies, with special focus on EGYO (Emlak Konut REIT) and Urban Transformation projects.

In 2015, with new financing models developed and turn-key urban transformation project initiated, Garanti intermediated interest-backed borrowing demands of individuals and institutions within the framework of urban transformation projects. In 2016, Garanti will continue to work on the inclusion

of new projects and the increase of retail housing loan disbursements supporting urban transformation.

With a non-performing loan ratio of **0.40%** in mortgage loans as of 2015 year-end, Garanti is leading the peer group of banks with the lowest NPL ratio in the sector.

PROJECTIONS FOR 2016

Despite the foreseen market conditions characterized by volatilities and intense competition, "Garanti, the Mortgage Expert" will keep differentiating through its expertise and speed. Garanti will maintain its sector leadership by increasing the efficiency across all distribution channels, and connecting to all the customers who have interacted with Garanti through any channel.

INTERBANK MARKET IN
TOTAL AUTO LOANS

The Consumer Finance Department was established in 2013 to provide integrated solutions to the dealer-auto loans value chain.

The main aim is gaining new customers and granting auto loans via branches, dealers and digital channels, while offering products and process solutions to dealers.

ACTIVITIES IN 2015

Garanti Bank who conducted first and unique dealer oriented structure, raised **23%** the number of auto loans in 2015.

In 2015, among banks, Garanti Bank raised;

- » Its auto loans market share to **20%**
- » Its consumer auto loans market share to **27%**

Thanks to the digital channel development strategy, auto loans via One Stop Shop System (OSS) increased **107%** compare to 2014.

Automik, an application allowing to lead over Facebook, has been launched.

PROJECTIONS FOR 2016

The goals of the Consumer Finance Department for 2016 include the following:

- » Providing commercial financing solution products to dealers,
- » Developing faster and easier auto loan processes,
- » Being market leader in the commercial auto loans by offering tailor-made solutions to customer needs,
- » Marketing auto loans and dealer finance products in an integrated structure,
- » Widening customer segment scope by focusing OSS Used Car.

SME BANKING

TL 53.9 BILLION
BANKING VOLUME

TL 20 BILLION TOTAL
CASH LOAN VOLUME

Having reorganized head office, regional offices and branches for SMEs, Garanti continues to act as the “Guarantee of SMEs” and the “Future Guarantee of Tradesmen” with its pioneering and innovative initiatives. Under SME Banking, Garanti serves businesses with a turnover of up to TL 8 million and their shareholders. Garanti makes a difference with its dynamic organizations specifically tailored for SMEs.

As well as offering a broad range of products fulfilling needs of SMEs, tradesmen and new business owners operating in various sectors, Garanti, with a focus on efficient growth, carries SMEs to the future with its innovative approach that supports digitization of SMEs.

ACTIVITIES IN 2015

In 2015, Garanti SME Banking worked towards increasing its share in the sector and satisfying the diverse needs of SMEs. To this end, the Bank had a productive year acquiring new customers in all segments.

- » Banking volume and total cash loans reached TL 53.9 billion and TL 20 billion, respectively.
- » New installment commercial loan support worth TL 6.7 billion was extended to SMEs.
- » Total lending to women entrepreneurs reached TL 2.8 billion.
- » Credit exposure to SMEs in agriculture sector reached TL 1.3 billion, number of customers neared 31,000.
- » Number of applications received for GarantiPartners, a startup accelerator program launched in February, reached 569 and 12 entrepreneurs were entitled to take part in the program.
- » 116 producers attended training sessions on vocational and personal development held in Konya within the frame of the program “Supporting Family Farmers for Agricultural and Rural Development”, a collaborative initiative of Garanti, Food and Agriculture Organization of the United Nations (FAO) and Boğaziçi University Lifelong Learning Center.
- » Investments using solar energy for agricultural irrigation were financed with modern irrigation system loans.

PROJECTIONS FOR 2016

In 2016, Garanti will keep contributing to economy through financing SMEs, the driving engine of Turkish economy. Garanti will continue to focus on stable growth on the basis of its open and powerful communication principle and its customer-centric approach that is always given the forefront. Being the Bank of SMEs, Garanti has the following goals:

- » Support digital transformation of SMEs so as to help them use IT technologies efficiently,
- » Improve information and advisory services so as to provide SMEs with easier access to information, as well as provide tools to improve their marketing skills,
- » Design solutions for diverse needs of SMEs by establishing partnerships and collaborations with powerful brands and institutions,
- » Offer diverse financing options to new entrepreneurs in need of fast and simple access to financial resources, and act as their solution partner on the basis of strong collaborations,
- » Endeavor to advance SMEs specifically in provinces that do not receive adequate financing support from banks,
- » Carry out “agricultural banking focused on sector/product/region”,
- » Allow product suppliers and firms taking place in agricultural value chain to work with models corresponding to relative cycles of sub-sectors in line with regionally varying demands and requirements,
- » Facilitate access of women entrepreneurs to financing, execute free-of-charge educational collaborations to ensure sustainability, encourage them to realize their full potentials,
- » Cooperate with national and international financial institutions to give SMEs access to affordable financing,
- » Help SME customers use digital delivery channels efficiently to handle their transactions more quickly and easily, as well as ensuring one-on-one service provision to each SME customer from our points of service.

Note: All numeric information herein is given according to the SME definition of Garanti Bank. Official definition of Small and Medium Sized Enterprises (SME): Enterprises employing less than 250 people annually and not exceeding TL 40 million either in annual net sales proceeds or financial balance sheet.

COMMERCIAL BANKING

FOCUS ON
PRODUCTIVITY /

28% EXPANSION IN
TL CASH LOANS /

COST
MANAGEMENT

With a customer-centric approach to banking based on a win-win relationship with the customers, Garanti Commercial Banking offers service to **51,497** customers with its sales team of **764** people specialized in relationship banking in **229** branches, **22** of which are commercial branches.

Its processes differentiated on the back of flexible and swift solutions supported with robust technology, dynamic organizational structure and effective risk management are the pillars of Garanti's sustained performance in commercial banking.

ACTIVITIES IN 2015

Retaining its title as the first address in commercial banking in 2015, Garanti Commercial Banking was prominent with

- » **28%** in TL cash loans,
- » **41%** in demand deposits and
- » High asset quality and low NPL ratio.

Its effective lending policy combined with risk-focused pricing, loan volume amounting to TL **85** billion and asset quality have been the key drivers of the successful performance of Commercial Banking in 2015.

Garanti Commercial Banking increased its focus on medium-sized customers with its redesigned service model, and continued to extend sound and sustainable support to its customers effectively in the highly competitive environment of 2015. Taking **31%** share out of the Bank's total working volume, Commercial Banking created sustainable and long-term value for other business units and subsidiaries, as well. With a cross-selling ratio that is quite higher than sector average, Commercial Banking created business opportunities and working volume also for the Bank, other business lines and subsidiaries, while penetrating in-depth in its customers.

PROJECTIONS FOR 2016

Aiming to remain as the main bank of its customers in 2016, Garanti Commercial Banking will carry on with, and further improve, fast and result-oriented process management with its organizational structure that is simplified in line with the changing market conditions. Drawing on its new organizational structure, Commercial Banking will make sure that its customers receive the right service from the right people at the right point, thus further enhancing customer satisfaction and productivity per person.

With the support of the lately set up Multinational Customers and Global Coordination team, Commercial Banking is taking firm steps to become a global bank drawing on the support and synergy of BBVA, its majority shareholder, in order to get increasing share from this segment and realize its full potential.

Garanti Commercial Banking will continue to satisfy customer needs at best with its customized solutions for topics requiring sectoral and/or regional expertise, and will remain the primary solution partner of its customers in specialty projects. Backed by its technological infrastructure, qualified human resource and robust capital structure, Commercial Banking will continue to be the strong and stable business partner of commercial companies in every environment, while remaining the main bank of target companies.

In 2016, Commercial Banking will evoke strength and support to its customers while preserving its reliable and stable stance and keep working to give them the best customer experience in the sector as it did in previous years.

CORPORATE BANKING

CREATIVE SOLUTION
PARTNER

CUSTOMIZED AND HOLISTIC
SERVICE CONCEPT

INCREASING CUSTOMER
ENGAGEMENT

Garanti provides Corporate Banking services to the major Turkish conglomerates and multinational corporations operating in Turkey.

The unchanging pioneer and leader in this field for **20** years, Garanti is considered as the primary business partner by corporate customers. Effective customer relationship management and solution-oriented approach play an important part in Garanti's reinforced leadership in this business line.

Garanti offers service with its proficient team in its **4** exclusive corporate branches, three in Istanbul and one in Ankara. With the synergy created, the Bank offers the products and services that will cater to all banking needs of corporations as a whole. With this holistic service concept, Corporate Banking incorporates the dealers, suppliers, employees and shareholders of its customers among service recipients from Garanti Bank, and becomes an integral part of Garanti's strategy to create long-term, sustainable value.

Having built its primary strategy on the notion of customized approach and having established its organization and business model accordingly, the way Corporate Banking looks at customer relations is the key that renders its performance sustainable.

ACTIVITIES IN 2015

Fulfilling customer expectations rapidly and effectively in the highly volatile market conditions of 2015, Garanti Corporate Banking continued to function as the main solution partner of corporates. Supporting its innovative customized product and service approach with its constantly upgraded technology, Garanti further enhanced customer loyalty with the superior banking experience it has offered.

PROJECTIONS FOR 2016

Garanti, backing its experience and competitive edge in corporate banking with its customer-centric and innovative business perspective, will continue to convert its potential in this field into performance in 2016.

CASH MANAGEMENT AND TRANSACTION BANKING

MARKET LEADER / 103,300 BUYERS IN DCS / 15.3% SHARE IN INTERBANK MONEY TRANSFERS / 21.8% SHARE IN THE SWIFT MARKET LEADER

Owing to its long-lasting experience, expertise and cutting-edge technology, Cash Management and Transaction Banking continues to distinguish itself with its customer-centric approach and ability to sustain customer-driven revenues. The first bank to recognize and invest in the field of Cash Management by establishing a dedicated department in 1996, Garanti keeps breaking new ground in the sector.

Thanks to its solid technology, Garanti became the pioneer bank to offer new products and services such as the first direct collection system in Turkey in 1997, followed by the first tax integration and the first supplier financing system. Parallel to the new banking era that started in 2008, which put core banking services in the forefront, Garanti added Transaction Banking to its Cash Management functions. Since 2011, Garanti has been offering privileged service specifically designed for cash management needs of its foreign customers via MNC Desk (MultiNational Corporation Desk).

Garanti offers payment and collection methods tailored to the needs and business models of its customers, and delivers new financial solutions for the entire supply chain with its dynamic structure and innovative perspective.

ACTIVITIES IN 2015

In 2015, Garanti Cash Management and Transaction Banking continued to furnish quality service while working to fulfill customer needs with 35 products offered.

Being the first to implement the Direct Collection System (DCS) in Turkey, Garanti remained the leader with 43,000 buyers/receivers in B2B (business to business) and 60,300 in B2C (business to customer), and with more than 550,000 trips to 2,850 destinations, backed by quality service and comprehensive logistics support on the Cash Collection side.

During 2015, Garanti Cash Management and Transaction Banking continued to offer the solutions its customers needed in

collection and payment processes, and sustained its undisputed leadership in the sector with a 15.3% market share in EFT transactions. The leading position was preserved with 21.8% share in the Swift market and 11.8% share in collection checks.

E-resolution processes remained in the focal point of the activities of Garanti Cash Management and Transaction Banking in 2015. Various projects were carried out in different fields including e-government, e-invoice, e-ledger and e-signature. New business models were launched for the mobile payments world. In addition, investments went on to upgrade the local and international payment infrastructure. As a result, Garanti Connect has been launched in 2015, enabling global customers of Garanti to use the internationally accepted payment infrastructure standard SWIFT FileAct.

PROJECTIONS FOR 2016

In the year ahead, Garanti Cash Management and Transaction Banking intends to concentrate on alternative financing solutions by taking advantage of the new regulatory arrangements, as well as advancements in technology, with a special emphasis on Garanti Discount, a web-based supplier finance system introduced as a first in the sector in 2007, and DCS Discount included in its product portfolio in 2012. While 2015 marked Garanti's debut in the foreign supplier finance transactions, the Bank aims to grow in this field as well in the coming year. 2016 will also see e-transformation gain speed, integration of such solutions as e-invoice, e-ledger and e-signature into the Bank processes at an increasing rate, and introduction of new products. The business line aims to meet customers' local and international payment needs much more efficiently as a result of investments in the payment infrastructure.

PROJECT FINANCE

\$ 3.5 BILLION FINANCING
TO PROJECTS IN 2015

TOTAL EXPOSURE OF
\$ 12.5 BILLION

LEADER IN WIND ENERGY
FINANCING WITH
35% MARKET SHARE

In 2015, Garanti continued to support Turkey's sustainable growth with its project finance loans. Despite increasing competition, the Bank secured loan commitments worth approximately USD **3.5** billion in project and acquisition finance, up **27%** year-to-year. Due to scheduled repayments and prepaid loans, total project finance exposure declined from USD **13.6** billion to USD **12.5** billion in the twelve months to end 2015.

ACTIVITIES IN 2015

As large-scale infrastructure projects gained the foreground in 2015, Garanti maintained its strong standing in project finance transactions, not only as a creditor, but also taking on lead roles of coordination and structuring.

Energy

Garanti remained as one of the leading banks in the energy sector during 2015. With approx. USD **1** billion of funds provided to energy projects, total financing allocated to this sector so far amounted to USD **11** billion.

In 2015, small/medium scale renewable energy projects took the forefront in the energy sector. Garanti provided above USD **800** million financing to renewable energy projects with a capacity totaling more than **800** MW. With USD **600** million financing allocated to wind projects with a total capacity of **400** MW, Garanti retained its leadership in this field with a **35%** market share.

Garanti participated in the financing package extended to Zorlu Doğal Elektrik Üretimi A.Ş. for the financing of the **90** MW Kızıldere-3 geothermal project and the refinancing of its existing **200** MW renewables portfolio, representing one of the largest financings of 2015 in the energy sector with USD **815** million. With a contribution of USD **252** million, Garanti was a lead arranger in this transaction.

Other highlights of the reporting period of 2015 were the USD **211** million financing provided to **180** MW wind portfolio investment of Borusan EnBW, and USD **70** million allocated to Crescent Capital's acquisition of the **91** MW Akocak&Çanakçı HEPP.

Acquisition Finance

Garanti contributed EUR **277** million to the EUR **930** million package provided to Migros.

A EUR **200** million loan was allocated to Eti Bakır for the financing of an integrated fertilizer plant investment in Mardin and the capacity increase of a copper processing plant in Samsun.

With a ticket of USD **200** million, Garanti participated as a lead arranger in the USD **500** million syndication loan provided to Acibadem Sağlık.

Garanti provided a EUR **120** million structured facility to Anadolu Group for the acquisition of **40.25%** of the shares in Migros.

In 2015, Garanti continued financing acquisitions by extending loans worth USD **1** billion, while the ones mentioned above headlined the year.

Transportation and Infrastructure

Garanti committed USD **551** million and EUR **300** million to Gebze-Izmir Motorway and Istanbul New Airport projects, Turkey's two largest project finance transactions to date with respective loan amounts of USD **5** billion and EUR **4.5** billion.

Garanti is providing EUR **204** million to the EUR **890** million financing made available to Bilkent Integrated Health Campus (**3,704** beds) that represents the largest city hospital project developed under the PPP (Public Private Partnership) scheme.

PROJECTIONS FOR 2016

2016 seemingly offers a more positive setting for the investors with the political uncertainty now dispersed following the cautious atmosphere that resulted from the election environment that lasted from early 2014 to the end of 2015. PPP-based infrastructure projects led by motorway and city hospital investments, renewable energy projects and privatizations of EUAS (Electricity Generation Company) HEPP are anticipated to dominate the agenda in the years to come. The acquisition market will also possibly see some action in the year ahead.

Garanti aims to maintain its strong position in project and acquisition finance in 2016.

PAYMENT SYSTEMS / DEBIT AND CREDIT CARDS

LEADER WITH 6.2 MILLION
CREDIT CARD CUSTOMERS

LEADER WITH TL 8.4 BILLION
CREDIT CARD RETAIL VOLUME

LEADER WITH
9 MILLION PLASTIC
CREDIT CARDS

With approximately **19** million cards in the total number of debit and credit cards and over **6** million credit card customers, Garanti maintained and further strengthened its value offer “the most popular, the most used and the most bonus points-earner” in 2015.

In payment systems and credit cards, Garanti finished 2015 by cementing its leadership in a number of areas:

- » Leader in the number of credit card customers with **6.2** million,
- » Leader in the number of plastic credit cards with **9** million,
- » Leader in credit cards retail volume issuing with **21%** market share,
- » Leader in contactless credit cards issuing volume with **53%** market share,
- » Leader in credit cards issuing cash volume volume with **24.4%** market share,
- » Leader in e-commerce volume with **23%** market share,
- » Leader in international credit card issuing volume with **37.5%** market share.

Retaining its leadership on the basis of market share in all areas, Garanti remained the market’s pioneer bank that places emphasis on customer depth and management.

ACTIVITIES IN 2015

With over **1.5** million followers on Facebook, Bonus continues to be the most popular and most followed banking product in Turkey and in Europe. It has become the **3rd** most followed brand in Turkey, not only in credit cards but in the entire financial services category.

In the field of Payment Systems, expansions secured in the products of Cash Advance, Credit Repayable in Installments, Postpone the Payment to the Next Account Statement, Divide the Charge into Installments and Postpone the Charge to the Next Account Statement, and the new channels of utilization such as Internet Banking branch served to sustained leadership in market share in cash market and also contributed significantly to overall profitability.

By resolving customer issues and ensuring customer satisfaction, approximately **2** million cards were recovered for the card portfolio.

Credit cards with American Express brand continued to increase their penetration in the Turkish market.

The number of American Express cards went up by **40%** year-over-year and topped **50,000**.

Cards bearing the American Express logo are now welcome at more than **1** million points in total, in **500,000** points of sale belonging to Garanti.

The number of Miles&Smiles branded credit cards went up by **25%** year-over-year and reached **971,000** cards.

In 2015, Miles&Smiles credit cards gave away **10%** more miles to users as compared with the previous year.

Bonus Card Platform

The Bonus Card Platform, the largest card platform in Turkey, allows the customers of **10** other banks to use the Bonus brand. The platform covers DenizBank, TEB, Garanti Bank SA, Şekerbank, ING Bank, Türkiye Finans Katılım Bankası (TFKB), Burgan Bank, ABank, ICBC Turkey and Fibabanka. The Bonus Card Platform closed 2015 as the leader with a market share of **30%** in terms of turnover.

PROJECTIONS FOR 2016

Working toward the goal of “A Garanti Card in Every Pocket”, Garanti Bank aims to achieve its target of creating a “cashless society in Turkey” by 2023 by expanding the market and by adding new links to the chain of leaderships it has sustained in 2015. In 2016, Garanti has the following targets:

- » Introduce new features addressing the needs of different segments to become the main card used by customers,
- » Follow-up new technology and new trends to offer “first”s to its customers so as to make life easier for them,
- » Retain market leadership in cash products through solutions catering to customer needs,
- » Sustain and further accelerate the growth trend in commercial credit cards.

BRANCHLESS BANKING / DIGITAL CHANNELS

DIGITAL CHANNELS USED
FOR 87% OF FINANCIAL
TRANSACTIONS

2.5 MILLION ACTIVE
MOBILE BANKING
CUSTOMERS

4 MILLION ACTIVE
DIGITAL BANKING
CUSTOMERS

Garanti Digital Channels enables 4 million digitally active customers to execute any banking transaction any time, anywhere, with approximately 4,500 Paramatik ATMs an award-winning Call Center, its Internet Banking that has been leading novelties, and its Mobile Banking platform.

Aiming to offer its customers an instant, convenient and uninterrupted experience, Digital Channels remains the leader of digital banking year after year. The Bank pursues its activities with the goals of gaining an insight into customer expectations and needs; employing metrics effectively in product and service development; monitoring technological innovations and trends closely to digitize its banking transactions and financial services; and becoming part of the lives of its customers by positioning financial services as a living service rather than considering banking platforms exclusively as transactional tools.

ACTIVITIES IN 2015

While 66% of all transactions were executed through digital channels in 2004, this ratio reached 87% in 2015.

Internet Banking

Featuring more than 500 transactions and having over 2.7 million active customers, Internet Banking has been instrumental in the execution of more than 10 million financial transactions on a monthly basis during 2015, while total number of transactions per annum went up to the order of 120 million. While 22% of time deposit accounts have been opened through online banking, the rate of GPL disbursement that are finalized on online banking has reached 8% by the year end.

Mobile Financial Services

The number of monthly transactions carried out with Mobile Banking reached 7 million and that of active customers 2.5 million. The number of active mobile banking customers grew by 53% in the twelve months to end-2015.

Paramatik ATMs

Facilitating more than 200 different transactions in addition to

cash withdrawals, the Paramatik network reached 4,500 ATMs in 2015. The ratio of cash deposits to cash withdrawals from Paramatik ATMs was 105%. While 230 million transactions per year were carried out from Paramatik ATMs, users who do not have an account with Garanti executed more than 16 million transactions using the cardless menu.

Alo Garanti

Alo Garanti, with more than 4.5 million inbound calls, continued to introduce novelties using speech technologies. Following the 2013 launch of the Call Steering system, an unprecedented initiative in the Turkish financial services sector, 2014 marked the inception of the Speech Transactions era. Speech Transaction functionalities allow handling of many transactions just by speaking, including balance inquiries, change of statement closing week, credit card debit inquiries, current period purchases, etc.

iGaranti

Providing guidance and offers depending on the user's current time, place and situation, iGaranti was launched targeting youngsters and young professionals. iGaranti users began effecting money transfer and FX selling and buying by voice with natural speech. iGaranti reached 375,000 customers in 2015, during which innovations continued.

PROJECTIONS FOR 2016

Garanti formulates both the channel experience and the inter-channel flow based on the omni-channel strategy it has espoused.

Garanti Digital Channels will continue to further develop this structure on every possible platform in 2016. Still, mobile devices will remain at the heart of this whole experience. Having upgraded its applications through service developments not requiring logging in to the Mobile Banking platform and through collaborations with major business partners such as Apple in 2015, Garanti Digital Channels will continue to follow-up and implement all new technologies, putting mobile in its focus, and maintain its leadership in digital channels.

SOCIAL PLATFORMS MANAGEMENT

TURKEY'S AND EUROPE'S MOST FOLLOWED FINANCIAL INSTITUTION ON SOCIAL MEDIA

With the target of managing brand awareness and corporate reputation under the leadership of the Social Platforms Management unit set up in 2012, Garanti is active in **17** different social media platforms with **47** social media accounts, and remains the most efficient user of social media among financial institutions.

Aiming to give its customers and followers direct access to innovative products and services addressing their needs, Garanti continues to lead the sector, being the most followed financial institution on social media in Turkey and in Europe.

"GarantiyeSor" (Ask Garanti), the first Social Media Customer Satisfaction Team offering service 24/7 in the Turkish banking industry, shoulders **8%** of the workload of Garanti Call Center.

Through Europe-first services like Garanti Link in which user can link their social media accounts to their banking profile, Garanti designs special campaigns specific to social media by considering the customers' profiles and their needs and wants.

Garanti uses social media as an active and efficient channel for lead collection, and triggers mobile banking app downloads and receives loan applications through effective use of ads on these platforms.

ACTIVITIES IN 2015

Garanti authored many firsts and achievements on social platforms also in 2015:

- » Garanti remains the financial institution with most followers in Turkey and in Europe with a total of over **4.5** million followers on **17** different platforms and over **1.5** million followers on Facebook.
- » GarantiyeSor team responds to user queries and comments on social media within two hours maximum, and offers service 24/7. GarantiyeSor takes on **8%** of Customer Satisfaction services.
- » Garanti allows its customers to file applications directly for more than **10** products through its Facebook apps.
- » The Automik app available on Garanti Bank Facebook page facilitates a test where users can find cars that best suits them, while helping users make their dreams come true with advantageous loan rates.

AUTOMIK: FACEBOOK APP FOR IDENTIFYING THE MOST SUITABLE CAR FOR A USER

- » Garanti Bank offers social media-only campaigns tailored to meet user needs and interests for customers who connect their social media accounts and banking profiles via Europe - first Garanti Link programme.
- » Garanti enables logging into its website through social media accounts, thus allowing users to personalize the website.
- » Garanti uses social media to publicize, and to facilitate the downloading of, mobile applications like iGaranti and Cep Şubesi, in keeping with the constantly increasing use of mobile devices.
- » With the aim of capturing customers on any platform, and to increase engagement, Garanti devises creative and fun ways and organizes contests on different platforms including Twitter, Foursquare, Instagram, Vine, Snapchat, Pinterest, and Periscope to promote its sponsorships and events.
- » Through the Women Entrepreneurs Platform created on Facebook, Garanti presents women entrepreneurs with the facility to get information about the Bank, to access useful and important information that will help them build on their businesses, and to apply for the "Women Entrepreneurs Competition".

PROJECTIONS FOR 2016

In 2016, Garanti aims to sustain its leadership on social networks. While using social media channels in a creative and pioneering fashion, the Bank will continue with advertisement management for presenting the right product to the right person through effective ad targeting via these channels.

The unit also plans to increase customer interaction and dialogue through innovatively designed creative competitions and campaigns, while increasing efficiency on other social networks besides Facebook and Twitter.

In 2016 it is aimed to expand the scope of GarantiyeSor Service, the customer service of Garanti Bank on social media, in order to convert social media into an alternative customer care channel.

CALL CENTER

69.4 MILLION
CUSTOMER CONTACTS

SECTOR'S LEADER WITH
AN AVERAGE RESPONSE
TIME OF 32 SECONDS

3.8 MILLION
PRODUCTS SOLD

Constantly pioneering initiatives that steer the sector, Garanti Bank Call Center has been consistently and successfully performing on the back of its solid technology, dynamic and competent employees, innovative and customer-centric approach to service in a bid to give its customers a seamless experience ever since its establishment in 1998.

In 2015, Garanti Bank Call Center continued to make a difference with its financial products portfolio and customer solutions based on pinpointed analysis of customers' changing needs, and handled **14.8%** of all the calls in the sector with its qualified team of **1,230** agents. The unit preserved its position as the "sector's leader" with an average response time of **32** seconds.

ACTIVITIES IN 2015

Garanti Bank Call Center, Turkey's largest financial call center in 2015 with **69.4** million customer contacts makes a pronounced difference in its sector with a call response rate of **97.7%**, the key service performance and customer expectation indicator.

After providing its customers with the facility to directly reach the requested service by uttering a single remark with the Call Steering system, Garanti Bank Call Center offers all the advantages of the Automatic Speech Recognition (ASR) technology for its customers' use in 2015. This new feature allows customers to specify and directly complete the transaction of their choice. Blending the solid technology at its disposal with its customer-centric approach, the Call Center hence introduced another effective option to respond to customer needs.

Putting the customer in its focus more than ever before in 2015, Garanti Bank Call Center launched a number of projects by which customer satisfaction was effectively measured and evaluated.

Garanti Bank Call Center instantly brings the customers together with the expert sales and service specialists that customers are interested in thanks to the Smart Outbound Sales and Dynamic Offer Systems developed with the "Right Product and Service Offer to the Right Customer" concept. Thus,

maximum efficiency has been achieved in the fulfillment of customer needs.

With **32** financial products on its portfolio, Garanti Bank Call Center broke a new record with **3.8** million high added-value financial products sold in 2015.

In 2015, Garanti Bank Call Center once again retained its long-standing title as the leader of the loan telesales by making a significant contribution to Garanti Bank's total loan volume, in the marketing and sales of general purpose loan, mortgage and auto loans through the dedicated hotlines at 444 0 335, 444 EVIM and 444 OTOM.

One of the largest sales channels in total credit card sales for the Bank with a share of over **18%**, the Call Center centrally and solely managed the retention efforts for all Garanti Bank credit cards and has been instrumental in the retention of more than **1.2** million cards.

Garanti Bank Call Center, further diversifies and strengthens its role in the sales of the Bank through high value-added, strategic products such as Cash in Installments, Net Savings Account, Post Purchase Installment, in addition to new insurance products added to the portfolio in 2015, including Auto Insurance, Complementary Health Insurance and My Warranty Insurance.

PROJECTIONS FOR 2016

In 2016, Garanti Bank Call Center will take a major step toward expanding its technology and HR investments in Anatolia by roughly doubling the size of its existing operations, thus making a stronger social responsibility commitment.

Having completed its transformation into a profit center and contributing significant added value to Garanti Bank, the Call Center will adhere to its mission of breaking new ground in its sector, by presenting its customers with emphatic, distinctive and strong experiences.

CUSTOMER SATISFACTION DEPARTMENT

INSTANT FOLLOW-UP SYSTEM
AND QUICK RESPONSE

MULTI-CHANNEL
APPROACH

CUSTOMER CARE LINE
SATISFACTION QUESTIONNAIRES

Garanti Bank carries out its customer-centric activities, embodied at the heart of its operations, through the Customer Satisfaction Department set up in 2001.

The Customer Satisfaction Department, which aims to maximize customer loyalty by fostering the culture of "Unconditional Customer Satisfaction" throughout the Bank, works to make sure that comments received through various channels are handled with a customer-focused approach and that solutions to issues causing dissatisfaction are put into life proactively.

The Customer Satisfaction Department serves customers through various channels, and offers solution support for issues conveyed by Twitter and Facebook users. In an effort to upgrade the service quality, the Department carries out post-service customer satisfaction measurements and uses the results as input for these efforts.

The facilities offered by the Department include online and telephone mechanisms for instant inquiry of the current status of messages conveyed by customers. Analyses are conducted to identify those areas where customer demands and complaints are concentrated, and the resulting reports with the underlying reasons are shared with the Senior Management and relevant lines of business. In addition, the situations leading to customer dissatisfaction are analyzed, and insights and proactive solutions are devised for preventing complaints before they arise. The Department collaborates with the relevant lines of business to enforce recommended solutions, while important matters are raised at periodic meetings.

The ISO 10002:2004 Complaint Management System Certificate, first received from the British Standards Institution (BSI) in 2006 and renewed every year, makes Garanti the first Turkish bank to have its Complaint Management System certified at international standards.

ACTIVITIES IN 2015

The Customer Satisfaction Department took actions in line with regulatory changes and carried on with its customer-centric efforts in 2015. The Department kept working to improve existing approaches, and to devise and implement new ones.

Post-service customer satisfaction measurements started to be used for evaluating employee performances. Reporting for control purposes continued in order to achieve acceptable service levels. Internal training programs offered to support employee development continued during 2015. Aiming to offer a more uniform customer experience, quality improvement actions were taken through reports that use speech-to-text technology. Also, new implementations were introduced for checking the quality and content of message outcomes shared with the customers.

PROJECTIONS FOR 2016

The Customer Satisfaction Department will continue and further increase its customer-centric practices to handle customer complaints in the year ahead. 2016 targets include the following:

- » Preserve its position as the Bank's "Insight Center" by maintaining complaint analyses, efficient reporting and inter-departmental collaboration,
- » Continue to work towards ensuring that the Bank Complaint Management strategy, standards and procedures are duly implemented across the organization,
- » Keep taking part in activities for incorporating positive and negative customer feedback in employee performance assessment,
- » Support employee development and make sure that the customer-centric approach is reflected in all activities,
- » Support better customer experience through the realization of customer-centric developments designed during the project, process and analysis efforts, and through efficient operational and service-level management,
- » Add value to the Bank in general by reducing customer attrition and strengthening its role in customer recovery and retention efforts,
- » Keep taking actions to offer a more uniform interaction to customers by making statistical analysis of customer contacts through the use of speech-to-text technology,
- » Maintain its innovative vision by providing more efficient service to customers with the Call Steering technology used in the Customer Care Line.

ASSETS AND LIABILITIES MANAGEMENT DEPARTMENT

STRONG AND EFFICIENT BALANCE SHEET MANAGEMENT

DYNAMIC SECURITIES PORTFOLIO MANAGEMENT IN VOLATILE MARKET CONDITIONS

Working to maximize risk-free return on Garanti's capital, to maximize net interest margin of its balance sheet, and to minimize fluctuations in net interest margin, the Assets and Liabilities Management Department (ALM) manages Bank's interest rate, structural FX, country credit and liquidity risks.

To this end, ALM monitors market conditions, interest rate and volume trends of balance sheet items, risk parameters; determines investing, funding, hedging strategies and takes necessary actions in spot/derivatives markets in the light of quantitative analyses it conducts.

ACTIVITIES IN 2015

Highlights of 2015 were domestic uncertainties stemming from elections and depreciation of the TL due to USD's appreciation on a global scale.

With anticipated rate hike by the FED, USD gained value against all currencies around the world. Euro, on the other hand, lost value due to concerns fuelled by situation in Greece in 1H 2015 and continued expansionary policy by the ECB in the second half. This led to increased dollarization (steering savings into FC deposits) in markets. Chinese growth that failed to match projections in the second half of the year triggered outflows from developing countries, along with value losses in energy and commodity markets. With local political risks added atop global developments, Turkey joined among the countries affected by growth concerns for Developing Countries, and outflows from capital markets were observed.

Due to depreciated TL, rising inflation, suppressed growth and higher risk premium, 2015 was devoted to gearing up balance sheet against interest rate risk and funding spread risk in the face of uncertainties that plagued Turkish markets.

As the Central Bank of the Republic of Turkey (CBRT) sustained tight monetary policy throughout the year, TL funding costs of market floated very close to the upper band of TL interest rate corridor. This rise was reflected on TL deposit rates. Gaining importance within this frame were cost management and resource diversification with respect to TL balance sheet while

keeping an eye on proportional limits, and efficient use of high-cost resources on borrowings front. Within the scope of funding acquisition, resource diversification and maturity extension, which are permanent liability items, Garanti gave priority to gaining additional deposit volume, and continued with existing domestic bond issuances. Moreover, lower-cost funding alternatives were preferred to the extent allowed by liquidity management criteria. Off-balance sheet hedging was taken on to manage interest rate risk.

In terms of FC liquidity management, "Reserve Option Mechanism" implemented by the CBRT kept serving as a major buffer against potential FC liquidity tightness the sector might face. Furthermore, the CBRT increased required reserves for short-term FC liabilities apart from core liabilities and encouraged long-term borrowing. To such a backdrop, coupled with dollarized market, 2015 has been a comfortable year in terms of FC funding. Yet, with an expectation of rate hike by FED, ongoing hedging transactions were carried on for fixed-rate FC loans and securities, as well as for floating rate liability items.

PROJECTIONS FOR 2016

2016 is likely to be a vibrant year for global and developing markets, and also for the Turkish markets. Origins of this vibrancy include steps the FED will take with respect to monetary policies; additional loosening measures in Europe and Japan; course of the slowdown in Chinese economy; energy and commodity prices, and progress of global growth. Country-specific fragilities will gain foreground in EMs; investors will be closely watching macro parameters such as external balance, internal debt stock, growth potential and inflation, which will also determine the share each country will get from portfolio allocations. Within this context, ALM will take necessary actions based on a cautious optimism with respect to management of balance sheet liquidity risk, interest rate risk, the Bank's securities portfolio, structural exchange rate risk, and capital.

TREASURY

69% SHARE IN LOCAL
INTERBANK FX MARKET

LEADER WITH 25% SHARE IN
CORPORATE BOND ISSUES

In 2015, Garanti Treasury had a successful year in terms of trading volumes and market shares. Garanti concentrated on customer satisfaction in volatile markets and topped budgeted profitability targets.

A market maker in TL bonds, bills, and derivatives, Garanti remained as an active player in other securities, derivatives, currency and gold markets. Controlling 10% share in the BIST bonds market, Garanti increased its activities in currency markets. Bringing its share in FX trading with domestic clients from 15% to 18%, Garanti increased its share in the interbank FX market from 21% in 2014 to 32%. Commanding a solid 51% share in the local interbank FX market in 2014, Garanti further increased its share to 69% in 2015.

Garanti reduced weight of fixed-rate securities in TL portfolio in 2015. Market developments that led to higher TL funding costs due to political uncertainties proved that floating-rate investments were the right choice. Garanti kept expanding size of its FX securities portfolio to benefit from its relatively higher spread compared to TL.

While continuation of rate hikes in the US becomes more likely in 2016, suppressing growth potential due to various reasons in the rest of the world; need to cut interest rates create an outlook in favor of USD. As this is a challenge for EMs including Turkey, it also gives an idea about difficulty of carrying a profitable position in money markets. As always, Garanti Treasury will aim to be the primary choice of its clients in all capital market transactions of its customers, and to derive profits on the back of regular, reliable trading margins driven by customer satisfaction.

Corporate Bonds and Bank Bonds

Retaining its leadership in corporate bond issuances with 25% market share, Garanti realized 31 corporate bond issues in 2015. Additionally, Bank carried out the public offering of 15 bank bonds and 9 bank bills with a nominal value of TL 6.0 billion in reporting period, and kept offering diverse products to investors.

Garanti is targeting to maintain its leadership in corporate bonds market by continued delivery of comprehensive and

effective advisory service to companies wishing to issue bonds. With anticipated stir in the markets in 2016, Garanti intends to solidify its market share with a portfolio enlarged through addition of new companies from the manufacturing industry, by offering them service in corporate bond issuance.

Treasury Marketing & Financial Solutions Department

In 2015, Treasury Marketing increased the number of customers served directly and upgraded its service quality. Garanti continued to lead sector particularly in exchange rate and commodity risks management in a year of increased customer demand for the management of balance sheet risks.

In 2016, Garanti aims to stand out with new products to respond customers' needs, and with high quality of service and pricing in an environment where competition is expected to get tougher.

Derivatives Department

Garanti continued to grow while monitoring the risk/yield balance, funding quality, and efficient collateral management principles in 2015 that was characterized by growing interest of international markets in EMs. "Volcker Rule", an international legislation setting out the USA's "strict" rule-based approach to risks within frame of Dodd Frank Act, has been a key factor that affected Garanti and the infrastructure of treasury processes directly. These integrations and diversified financial products and services driven by technological developments boosted importance attached to risk management on a global scale.

Proactive risk management and regulatory compliance will maintain their importance in 2016, when several projects, initiated in 2015 and aimed at securing more efficient risk monitoring and full automation of treasury processes, will be finalized. Within this context, the objective will be "healthy growth", rather than growth only, along with effective risk management in the period ahead.

INTERNATIONAL BANKING

SECURED OVER USD 4.3
BILLION IN NEW FUNDS

BROAD CORRESPONDENT
NETWORK OF 3,250 BANKS

Garanti, thanks to its strong correspondent network based on long-term relationship policy and its in-depth debt capital markets experience, offers innovative solutions to its customers. Sustainable foreign funding and customer-centric service policy make Garanti, Turkey's leading bank.

ACTIVITIES IN 2015

Correspondent Banking

The Correspondent Banking team, responsible for relationship management with international banks, successfully manages a broad correspondent network of approximately **3,250** banks in **162** countries. Underpinning this success are strong relationship management, sustainable ancillary business generated to correspondents, and customer satisfaction ensured by the distinctive service quality in international operations. In 2015, Garanti continued its success in securing foreign funding from correspondent banks. Garanti remained as the main relationship bank in Turkey for international correspondents with its ability in adjusting to changing market conditions and adopting new products, coupled with its efficient relationship management.

Structured Finance

Within the frame of its sustainable external borrowing strategy, Garanti continued to preserve the balanced and flexible structure of its funding sources.

In March, GMTN program was updated and USD **190** million equivalent MTNs have been issued in the rest of the year.

In May, syndicated loan of EUR **1.25** billion was renewed for **367** days with an all-in cost of Libor/Euribor **+0.80%**.

In May, a Covered Bond Program of EUR **5** billion was set up, which also allows FC issuances.

In July, a financing in the total amount of USD **190** million with maturities of **5** and **12** years through its Diversified Payment Rights securitization program was secured.

In October, a **1,098**-day maturity loan for USD **150** million was secured.

In November, syndicated loan of USD **1.3** billion was renewed for **367** days with an all-in cost of Libor/Euribor **+0.75%**.

In November, a **2**-year maturity USD **190** million loan was secured.

New funds secured in 2015 amounted to more than USD **4.3** billion.

Trade Finance

Differentiating itself with its innovative character and expert staff, Garanti kept offering customized trade finance solutions in keeping with its leading role.

In 2015, Garanti extended increasing financing support to energy projects and investment good imports on the back of long-term import finance deals secured via export credit agencies. The Bank gave its customers access to favorable funding terms thanks to credit agreements concluded with export credit agencies and to its solid relations.

Garanti developed new cooperation with export credit agencies and correspondent banks. Being the only bank from Turkey to participate in the direct lending program of UK Export Finance, Garanti executed the second transaction in the world under the said program.

Garanti sustained and further increased its support to export market diversification of clients, and funded their exports to new markets at favorable terms thanks to its relations with correspondent banks.

Acting as its clients' consultant bank in the areas of foreign trade and legislation, Garanti organized seminars to share its experience and knowledge in these fields.

PROJECTIONS FOR 2016

Garanti targets to increase its activities in debt capital markets with innovative products and to keep tapping sustainable international borrowing sources. The Bank intends to adhere to its policy of expanding its correspondent banking network. Garanti aims to provide specialized solutions for its clients' funding needs and enter into new cooperation in this area with correspondent banks and export credit agencies.

INSURANCE AND PRIVATE PENSION

SOLID
TECHNOLOGY

VALUE-ADDING INTEGRATED
BUSINESS MODEL

INNOVATIVE PRODUCT AND
SERVICE MANAGEMENT

Within the frame of the strong collaboration maintained with Eureka Sigorta (Eureka Insurance) and Garanti Emeklilik ve Hayat (Garanti Pension and Life), Garanti offers a broad range of insurance and pension products to its customers with an efficient service approach. With the emphasis placed on innovation, combined with solid technology and integrated business model, Garanti continues to lead bancassurance and takes on an important role in the advancement of the sector with its innovative products and services.

ACTIVITIES IN 2015

Having become an efficient delivery channel for the insurance industry, banks have taken on a very important role in 2015 for increasing the accessibility and use of alternative delivery channels in the industry.

While banks were responsible for **79.9%*** of total premium production in life insurance, banks' production share in non-life insurance was **14.1%***.

Garanti, in 2015, got respective market shares of **10.7%*** and **12.9%*** in life and non-life insurance on the back of its successful bancassurance activities.

The ongoing positive effect of **25%** state contribution has been the driver of continued interest in the Private Pension system and the growth of the sector. While the total number of participants in the system reached **6.0 million**** people, Garanti reached its customers through all channels, increasing the number of its participants to **993 thousand**** and total funds under management to TL **7.6 billion**. Garanti captured **16.5%**** market share in the number of participants and **15.6%**** share in total funds.

In 2015, Garanti launched new products that fit customer needs and the structure of delivery channels, and carried on with its development efforts.

Garanti invested in digital channels, introduced new products aligned with the structure of these channels and upgraded the development of some products delivered. In this frame, password protection insurance, which provides cover for

financial losses that may result from theft of passwords, began to be sold via Internet Banking.

Work was initiated to migrate service processes to the digital environment, along with new product design in order to fulfill customer needs and demands also on the digital environment.

Within the frame of product simplification efforts, basic needs of customers were analyzed and activities aimed at securing increased use of products were brought to completion.

PROJECTIONS FOR 2016

In 2016, banks will remain an important and powerful delivery channel for the insurance industry.

Garanti will keep creating value for its existing clients by building on its expertise in bancassurance, and will target to grow and increase its market share through new customer acquisition.

As the insurance industry evolves in the light of technological advancements, so do customer expectations. Along this line, Garanti will invest particularly in mobile channels and give priority to developments so as to allow customers to make use of insurance services any time, while continuing with the integration of existing products into digital channels.

Within the scope of integration efforts, projects for presentation of insurance and pension products together with other banking products will be ongoing also in the period ahead.

Offering fast and quality service to clients, and enhancing customer satisfaction with the products and services delivered will be the priority target of the new period, as it has been in the past.

**As of December 25, 2015

ANTI-FRAUD MONITORING DEPARTMENT

CUSTOMER-CENTRIC
APPROACH

CENTRALIZED AND
HOLISTIC CONTROLS

DYNAMIC AND
RISK-FOCUSED ACTIONS

Anti-Fraud Monitoring Department adopts an “enterprise external fraud prevention” approach within the framework of customer protection principles, centrally monitors card, merchant, alternative delivery channel and application fraud since 2007.

Within the scope of monitoring and controlling operational risks that Garanti is exposed to, Anti-Fraud Monitoring Department develops strategies to proactively monitor, detect, control and prevent acts of external fraud. Department takes action rapidly and efficiently against constantly changing fraud trends thanks to its ever-growing experience and expertise, combined with its ability to quickly adapt to new technologies. Through analyses of fraud incidents, Department works to minimize the potential losses of the Bank and the customers that may arise due to acts of external fraud.

The Department formulates views and suggestions on the Bank’s new product and service developments upon assessing the same with respect to external fraud risks. The Department also carries out all necessary examination and investigation about acts of external fraud, sharing related information within the Bank and with other banks. In addition to that, the Department carries out training and awareness programs to help Garanti employees understand the importance of the prevention of fraud risks and to establish this culture throughout the Bank.

Within the scope of monitoring and prevention of fraud attempts and incidents, the Department follows up technological developments to increase security of products and services provided via alternative delivery channels, as well as of card-based payment systems, and to detect and prevent credit card and consumer loan application frauds and attempts of account takeover. For this purpose, the Department develops strategies that are compliant with the Bank’s policies and takes the most efficient and effective actions quickly.

ACTIVITIES IN 2015

In line with the Bank’s customer protection principles, the Department carried on with efforts to minimize potential reputational and financial losses that might result from acts of external fraud.

In 2015, the Department examined suspicious transactions on the basis of customer-centric strategies and dynamic actions, took necessary actions in a timely manner, and thus, kept the clients’ and Bank’s losses at a minimum.

Garanti undertook initiatives for raising increased awareness of current fraud incidents at financial services institutions and in related sectors, and assumed a pioneering role in nationwide activities aimed at creating awareness of fraud.

It is among Garanti’s top priorities to make sure that its customers transact in a secure environment, feeling at ease. Accordingly, the Bank pays the utmost attention to increase sensitivity towards fraud incidents through text messages and/or emails sent to customers from time to time, and various informative warnings posted on its website.

Infrastructure works and technical investments continued to develop fraud monitoring software in conformity with the state-of-the-art technology and new license agreements were executed.

Fraud trends were watched closely, upon which systemic, analytical and hardware-related actions were taken. In addition, support was extended to relevant teams for development efforts aimed at minimizing fraud risks in existing and new products and processes.

In today’s world where data security is crucial, steps were taken to increase the sensitivity of the related organizations in Turkey about the subject, and review efforts were initiated regarding control mechanisms that can be devised on the basis of customer transaction security.

PROJECTIONS FOR 2016

In 2016, the Anti-Fraud Monitoring Department will keep strengthening fraud monitoring software with new, advanced technology in line with the customer-centric strategy of Garanti.

In a bid to build on actions for protecting customers, continuous, close relationship with stakeholders will be maintained.

ABACUS

USD 593 BILLION TRANSACTION VOLUME / YEAR-ROUND NON-STOP CASH SERVICE AT 6,412 POINTS / 99% CENTRALIZATION RATIO IN OPERATIONAL TRANSACTIONS

As the first bank to set up centralized operations in Turkey, Garanti ensures superior quality, timely and error-free execution of operational transactions of its millions of customers through ABACUS.

Branches and customers are provided with year-round non-stop cash service at **6,412** points. Garanti channels **99%** of all operational transactions of branches to ABACUS made up of a dynamic team of **1,083** experts. ABACUS handles the following tasks for Garanti Bank and its customers:

- » All foreign trade transactions,
- » Issuance of domestic and international letters of guarantee,
- » SWIFT transactions,
- » All operations regarding commercial loan disbursements and system entry of related collaterals,
- » Verification of documents submitted with housing/auto/general-purpose loan applications,
- » All domestic payments including EFT, tax and Social Security Institution (SGK) premium collections,
- » Bulk salary payments/bulk internal and interbank (EFT) money transfers,
- » Physical and electronic archiving processes,
- » Confiscation processes and query letters received from governmental offices,
- » Management of correspondence with the Arbitration Committee for Consumer Problems,
- » Data entry of hard copy credit card applications/forms,
- » POS application and installation follow-up,
- » After-sale support services for credit cards,
- » Check and promissory note transactions,
- » Investment account opening and account transfer operations,
- » Cash support services including cash collection and delivery.

In addition, ABACUS offers consultancy service by closely monitoring all changes in legislation with a potential impact upon the activities of Garanti Bank.

ACTIVITIES IN 2015

In another intense and productive year, ABACUS successfully brought the projects in progress to completion and kept offering

service at high standards with projects and processes initiated based on an innovative approach. Through effective use of technology ABACUS significantly contributed to branches' alleviation of operational workloads and achievement of targets.

The Bank's loss resulting from operational errors was a mere USD **7,600** within a total turnover of USD **593** billion and approximately **49** million transactions handled by ABACUS in 2015. Highlights of 2015 activities for high quality service delivery and reduced risks are:

- » Development of an estimation model for productive management of cash in off-site ATMs,
- » Upgrading the vehicle tracking system for more efficient follow-up of armored vehicles used for cash delivery to branches,
- » Accepting QR coded check demands,
- » Commencement of Archive Unit operations in its new location,
- » Document verification for second hand car loan applications.

PROJECTIONS FOR 2016

Committed to identifying improvement areas and further upgrading service quality, ABACUS will continue to work toward enhancing internal customer satisfaction and alleviating the workload of branches in 2016.

ABACUS will collaborate with Garanti Technology to minimize the manual steps in processes and to mitigate operational risks by improving control points and maximizing automation to the highest extent possible. Handling transactions in an error-free and timely manner by making use of all technological facilities will remain the primary goal of ABACUS's activities. Within this frame, the following are among the targets for 2016:

- » Faster execution of mortgage releases using e-signature through Land Registry Office & E-Release integration,
- » World-check controls for all export and import transactions,
- » Handling the MARS creation procedures for legal entities,
- » Reducing workload on branches and increasing operational efficiency by providing maintenance to branch ATMs in central locations during weekends and holidays by ABACUS Cash Planning and Operation Unit team.

HUMAN RESOURCES

130 NEW
COACHES

RATE OF VACANT POSITIONS FILLED
WITH INTERNAL RECRUITMENT 90%

Turkey's first company gold accredited by the Investors In People (IIP) for the second time, Garanti Bank once again endorsed its strong focus on its human resource as its most valuable asset and its leadership in the sector with innovative practices in this department. Sustaining its stable growth in every aspect, Garanti will keep investing in its people and adhere to world-class practices based on its "human-centric" management approach.

ACTIVITIES IN 2015

Within employer brand management efforts, the number of İYİ (Work Life Relation) events and services designed to enhance employee satisfaction and ensure a richer working experience went up from **13** to **19**.

In order to render employees' cash flows much more predictable and manageable, quarterly bonuses earned at period-ends were replaced with monthly bonuses paid in advance.

For contributing a new perspective to business and people management approach of all managers in mid and top levels, the existing Leadership Model was formulated and the competency model was revised.

With the focus on continuous development, **130** employees were trained and assigned as new internal coaches to help employees improve their performances and to equip them with the necessary skills.

The initiatives for onboarding of new hires and newly promoted managers to their respective positions have been completed.

Greater emphasis was placed on simplifying the sales management approach and customer satisfaction. Career maps, performance assessment criterias and related HR practices were revised.

Based on the strategy of promoting from within, **90%** of vacant positions were filled through internal recruitment in 2015. Via specialized career counselors, Garanti carried out planning and advisory activities by;

- » Planning medium-term workforce by using task-based candidate pools,
- » Offering one-to-one career advice to **10,000** employees during

on-site visits paid to branches and units,

- » Announcing vacant positions to all employees via **120** "Career Opportunities" posted on the intranet.

During 2015, **135** people joined Garanti under the Management Trainee Program and **2,008** others were recruited for other positions. **1,308** university students were given the chance to do internship at branches, regional offices and HQ business units.

Garanti changed over to an integrated system covering an online test, video-recorded preliminary assessment and online interview. In addition, internship programs were revised and re-launched under the name "Garantili Gelecek" (Future with Garanti).

"Employee Referral Program" was introduced to create a candidate pool based on employees' references.

Within women-focused activities, support was extended to the initiative "Business Against Domestic Violence" in collaboration with Sabancı University.

PROJECTIONS FOR 2016

Garanti Human Resources will continue with its initiatives focused on employees and development in 2016. In order to sustain employee loyalty and engagement of high performing and high-potential employees, the existing performance and career management systems will be revised and the new model will be integrated into all HR and Training & Development practices.

Garanti HR will keep concentrating on processes supporting managers' communications with their subordinates for employee satisfaction purposes, while continuing to organize İYİ services and projects aimed at enhancing the efficiency of internal communication.

The new premium system model carried out with business lines and related units will be enforced.

Introduced to encourage employee ideas and suggestions about HR practices and the working environment, the Employee Suggestion Program and employee committees will be supported with more employee opinions.

LEARNING AND DEVELOPMENT

44 HOURS OF TRAINING
PER PERSON ON AVERAGE

131,000 HOURS OF
TECHNOLOGY-BASED TRAINING

In a bid to create the best human resource in the financial services sector and to ensure continuous development, Garanti Bank provides regular training programs on an ongoing basis so as to fortify the expertise of its people. Employee expertise is backed with five main faculties: “Customer Experience and Sales”, “Loans”, “Investment”, “General Banking” and “Leadership”. While this structure helps them build on their existing competencies, additional support is also offered for their development in various interest areas.

ACTIVITIES IN 2015

In 2015, Garanti Bank delivered a total of **800,000** hours of training with an average of **44** hours per employee, hours of technology-based training reached **131,000**.

Garanti continued its specialization in training programs in loans, investment, marketing/sales, leadership and general banking aimed at building on the expertise of its employees and helping them utilize their expertise to contribute to business results.

“Employee Engagement” was chosen as the 2015 theme of the annual “Garanti Leaders’ Summit”, which brings the Bank’s managers together and intends to set up a shared learning platform. The topics addressed during the Summit included new perspectives related to employee engagement, developments in the world, and successful practices.

Efforts for enhancing the Bank employees’ experiences during the learning and development related processes have been completed and introduced for counter staff. Along with this work, emotional mapping for the relevant employee group has been designed, which was then used to revise all training programs and processes.

The training contents have been started digitalizing at a greater extent to keep up with the growing number of mobile devices across the Bank, and began to be put into widespread use in line with the “Garanti Learning Culture” approach. Video-training programs were given more weight, and used before and after classroom training sessions, thereby strengthening the learning effect.

PROJECTIONS FOR 2016

A close eye will be kept on financial and legal developments in Turkey and in the world, while development support to employees will be ongoing in the areas of loans, marketing, customer experience and sales, investment, general banking and leadership.

In 2016, the third edition of the “Marketing Seminars” will be organized that gives Bank’s employees the chance to hear out the current developments in marketing first-hand from the sector’s leading speakers, and to evaluate the developments together with them.

Efforts for enhancing the employees’ experiences during the learning & development-related processes will be extended and emotional mapping for given target employee groups will be designed, which will then be used to revise all training programs and processes.

In the new world order where digital technologies have firmly settled at the heart of almost everything, “reverse mentoring” will continue also in the coming year, a practice helping the Bank’s employees to build on their digital literacy, and ability to locate, arrange, evaluate, analyze and present information by using digital technologies.

With the new measurement and assessment model that will be updated in 2016, behavioral target actualization rates in training programs will be more efficiently measured, related assessment will be monitored more effectively, and employees will assume greater responsibility for self-development.

OCCUPATIONAL HEALTH AND SAFETY

31,224 HOURS OF OHS SERVICE / 11,426 HOURS OF OHS TRAINING / 100% RISK ASSESSMENT COVERAGE

Garanti Bank gave momentum to Occupational Health and Safety (OHS) practices via the OHS team set up under the HR Department in 2013. Repositioned as OHS Division in 2015, the organization carries out its activities across the country with a team of **34** people covering Occupational Safety Experts (OSEs), On-Site Physicians and On-Site Nurses. Service is brought to sites with less than **50** employees under the coordination of the HQ OHS Team, whereas locations with **50** and more employees receive service from On-Site Physicians and OSEs. Unbroken OHS communication is ensured at all sites with the support of OHS Employee Representatives present in all locations.

ACTIVITIES IN 2015

OHS perspective as spelled out in the Garanti Code of Conduct released in 2015 once again bared the emphasis Garanti places on OHS as a corporate value.

Authoring a first among financial service institutions of a similar size in Turkey, Garanti launched the OHS software and put it into use in all of its locations. The software keeps track of various aspects including risk assessment, health monitoring, training programs, OHS Committees, near misses, work place accidents, review of occupational illness processes, and coordination and control of countermeasures. These outputs were intended to enhance employee and stakeholder satisfaction and well-being.

Services furnished by OSEs, On-Site Physicians and On-Site Nurses during 2015 totaled **31,224** hours.

Covering **8** hours of face-to-face and **4** hours of distant training sessions, OHS training programs and other specialized programs offered to employees added up to **11,426** hours.

Specialized programs included topics such as IOSH Managing Safely, Workplace Ergonomics, and Risk Assessment Training. In addition to those, "Correct Use of Voice" training was made available for groups heavily using their voices such as Call Center agents and Internal Trainers.

During the reporting period, risk assessments started at all locations via the OHS software. All buildings, including

1,000 branches, were evaluated and improvement areas were identified in accordance with the Garanti OHS criteria created on the software. Based on the resulting action steps, updates were made to selection of computers and office furniture as well as to technical arrangements.

Under the OHS Law, On-Site Physicians examined new hires, and performed periodic examinations and furnished outpatient services at **18** locations with **50** and more employees. OHS Committee Meetings were regularly held on a quarterly basis as per the legislation.

PROJECTIONS FOR 2016

Exceeding the regulatory requirements in its OHS practices, Garanti Bank is gearing up to initiate work related to OHSAS 18001 OHS Management System.

Developments are being made to the OHS software used, in order to better adapt it to the Bank's processes and technological advancements.

The requirement to appoint an On-Site Physician and OSE to each location, which will take effect on July 1, 2016 as per the national legislation, is being addressed individually as a comprehensive project.

Garanti Bank keeps its stakeholders on mind while contributing to improved health and safety conditions. OHS compliance of individuals that the Bank works with, such as subcontractors and interns, is now being recorded and evaluated in a similar fashion. While screen developments are ongoing for recording the related individuals on Garanti Bank HR screen, the OHS team continues to work on regulatory compliance.

2016 plans also include organizing driving safety awareness programs, which emerged among the outcomes of the Risk Assessment.

SUSTAINABLE BANKING

Building on the Bank's core values, Garanti defines Sustainability as a commitment to build a strong and successful business for the future, while minimizing negative environmental and social impacts, and sharing long-term values with its customers, staff, shareholders and the communities it operates in.

To powerfully spell out its vision to be the best bank in Europe, and its mission of increasing the value it creates for its stakeholders, Garanti approved its new Sustainability Strategy and Policy, underlining the emphasis it places on responsible business conduct, in April 2014.

I. SUSTAINABLE FINANCE AND OUR CUSTOMERS

Garanti evaluates all loan requests, irrespective of any limit, in terms of its Environmental and Social Loan Policies. Greenfield projects with an investment value above a certain threshold, which are compliant with its policies and sectoral principles, undergo the Environmental and Social Impact Assessment Process, and Garanti engages in a careful cooperation with its clients regarding the management of potential risks.

With the objective of spreading this approach across all of its stakeholders, Garanti continued to cooperate with its integrated subsidiaries during 2015. In addition to initiatives carried out by Garanti Asset Management and Garanti Factoring in 2014, Garanti Pension became a signatory of the UN Global Compact, set up a Sustainability Team and initiated the certification process for ISO 14001 Environmental Management System during 2015.

Adding a new link to its efforts with respect to climate change and its impacts, Garanti declared its Climate Change Action Plan devised for action against climate change. According to this Plan, Garanti's action against climate change is concentrated in the 4 main headings of carbon pricing and prioritizing renewable energy investments, reducing deforestation, managing water risks through climate change adaptation, and establishing green office standards. The Plan reflects the business support to the action against climate change in advance of COP 21 held in Paris in December. Garanti Bank has also been the first Turkish company to become a signatory of the Business Leadership Criteria on Carbon Pricing designed by the United Nations Global Compact.

In addition to environmental and social risk management embedded into its lending processes, Garanti aims to support

sustainable development through its numerous products and services in various business lines from SME banking to retail banking and project finance. With 35% share in the financing of total installed wind capacity in Turkey, Garanti continues to support the transition to low-carbon economy with its special product designed for unlicensed solar energy projects below 1 MW and the "Irrigation Systems Loan" introduced in the first quarter of 2015 to support Turkey's fight against climate change and to offer solutions to various risks including drought.

In 2015, Garanti has been the only Turkish company to qualify for Dow Jones Sustainability Emerging Markets Index, one of the most prestigious sustainability indices in the world.

In an effort to raise awareness of sustainability among its customers as well, Garanti co-organized a training program on environmental and social risk management with Boğaziçi University, which was attended by the Bank's 22 corporate customers from the energy and infrastructure industries.

Having started the renovation of its branches and Paramatik ATM network in 2012, and having trained its employees in this respect, Garanti Bank aims to increase the accessibility of its banking services on the back of initiatives geared towards people with disabilities. Organizing gatherings such as Anatolian Meetings and KOBILGI SME Meetings in order to inform the SMEs, the backbone of the economy, Garanti also considers it as an important responsibility to support women entrepreneurs for the social and economic advancement of Turkey.

Garanti Bank renewed the "Protocol for Surety Support in regard to Credit Facility for Garanti-Customer Women Entrepreneurs" with the Credit Guarantee Fund (in Turkish: KGF) in order to resolve the collateralization issues facing women entrepreneurs while taking out loans. The agreement applies to businesses classified as SMEs and owned by women under the age of 60 and holding at least a primary school diploma, which have been active for no less than 3 years, and to legal entities with a minimum of 51% of their total shares belonging to women within the specified age limits.

Launched in 2012 in collaboration with BUYEM (Boğaziçi University Lifelong Learning Center), the Women Entrepreneurs Executive School training program continued in the cities of Samsun, Bursa, Trabzon, Kocaeli and Hatay in 2015. A total of 300 women entrepreneurs successfully completed the program and received their certificates.

6,662 women were reached in 32 meetings held in 31 cities since 2008 until the end of 2015 within the frame of Women Entrepreneurs Meetings, a co-organization of Garanti and the Women Entrepreneurs Association of Turkey (in Turkish: KAGIDER) aiming to inform women entrepreneurs in basic topics. In an effort to support and encourage women entrepreneurship, Garanti organized Turkey's Woman Entrepreneur Competition in cooperation with the Ekonomist magazine and KAGIDER for the 9th time. It has become the first Turkish bank to join WeConnect International, a global platform established to incorporate women-owned businesses in the supply chain. Through this platform, women entrepreneurs in the customer portfolio is aimed for further empowerment.

Garanti had also supported the W20 (Women 20) initiative formed under the Turkish term presidency of G20.

Garanti was the first Turkish bank to join the United Nations Entity for Gender Equality and the Empowerment of Women (UN Women) Business Hub.

The findings of the "Women Entrepreneurs Research" have been reported, which was sponsored by Garanti and coordinated by Prof. Yıldız Ecevit, the Head of the Women's Studies Department at the Middle East Technical University. The objectives of the research included profiling women entrepreneurs, identifying issues, revealing expectations and demands, and determining support mechanisms available to women entrepreneurs.

GarantiPartners program went live, through which we are targeting to support and accelerate early startups, SMEs and viable initiatives of any scale from any sector with the potential to attract investment and to grow. Combining the support of Garanti and the extensive knowledge of Boğaziçi University Alumni Association Business Angels (BUBA), the entrepreneurial platform is being instrumental in passing over not just capital, but also experience.

Garanti is the main sponsor of Entrepreneurship Foundation (in Turkish: Girvak) working to drive the culture of entrepreneurship and to encourage youth to consider entrepreneurship as a career alternative since 2014. Each year, the Foundation admits 40 university students aged 17-25 (20 women and 20 men) to the Fellow Program. The youngsters experience entrepreneurship by learning from their inspirational role models, taking part in various entrepreneurship activities and networking. After receiving 6,400 applications for the program in its debut year, Girvak attracted 30,000 applications in its second year.

"Supporting Family Farmers for Agricultural and Rural Development" program, a collaborative initiative of Garanti, BUYEM and Food and Agriculture Organization of the United Nations (FAO), was held in Konya in 2015. Having a total duration of 30 hours, the program offers information to

especially farmer families that can be used in their agricultural activities and for their personal development.

II. ENVIRONMENTAL IMPACT OF OUR OPERATIONS

In 2015, Garanti increased the number of points of service under the ISO14001 certified Environmental Management System to 1,013, translating into 100% coverage of its employees.

The Environmental Management System that Garanti expanded across all of its service points encompasses the Bank's suppliers and the indirect environmental and social impact resulting from its loan disbursements, as well as environmental impact arising from facility operations.

Garanti received limited assurance for GHG emissions for the second time in the sixth submission of its GHG emissions and climate change strategy to the Carbon Disclosure Project (CDP). Reducing its total carbon emissions by 15% year-to-year in 2014, Garanti was A-listed in the CDP Climate Change Program that covered the top performers, and was the only Turkish company qualified to be included in the CDP Global Leaders Report. Hence, Garanti received the CDP 2015 Turkey Climate Performance Leadership award. Additionally, Garanti was also honored with the CDP 2015 Turkey Climate Disclosure Leadership award by ranking within the top 10% scorers among the 46 companies evaluated in the CDP's Turkey Carbon Disclosure Leadership Index.

Garanti was one of the first companies to respond to the CDP Water Program in Turkey, which was launched with Garanti's support and cooperation.

III. CREATING VALUE FOR COMMUNITIES

In its initiatives that create value for the society and place "people" in their focal points, Garanti identified its main areas of focus as education, supporting the participation of people with disabilities in social and economic life, culture and cultural heritage, and environment. The Bank targets to be beneficial to the society through initiatives in these fields.

Education

The Teachers Academy Foundation (ÖRAV) was established by Garanti Bank in 2008 with the objective of contributing to the personal and professional development of teachers, who can help raise inquisitive, investigative, self-confident new generations aware of their personal and societal responsibilities, who recognize the importance of continuous personal development and are capable of owning the country's cultural heritage.

ÖRAV, the first and the only civil society organization focusing on this area in Turkey, has reached 102,507 teachers

by the end of 2015 with Öğretmenin Sınırı Yok (No Limits in Teaching), its debut project launched in May 2009.

In parallel to the Öğretmenin Sınırı Yok project, which is currently continuing under the name “Learning and Leading Teacher”, the Foundation has contributed to the development of 122,249 educators in 81 provinces through the projects “High School - Learning and Leading Teacher”, “Result Oriented Communications”, “The Chemistry of Teaching”, “Program for the Development of Education Executives”, “Unlabeled Education” and “Creative Child, Creative Mind”. Designed as a complementary platform for continuing education and information sharing, eKampüs website has 80,000 active registered users.

Garanti has become the main sponsor of the educational program “Math and Science Learning with Fun” developed by the Educational Volunteers of Turkey (in Turkish: TEGV) to improve primary school student’s math and science skills and problem solving capabilities.

The program, which will be offered by TEGV volunteers, is anticipated to reach 40,000 students in 37 cities at the end of 3 years.

With the support of Garanti, Tohum Autism Foundation set up a Continuous Education Unit in April 2015. The Unit works to help build on the capacities of Special Education Implementation Center teachers who will educate autistic individuals, teachers working at inclusive schools and subject matter teachers. Other activities of the Unit include planning family training programs, updating and maintaining the Foundation’s portal, and contributing to development of educational materials and methods.

Garanti is the main sponsor of the project “I Am Here As Well” launched by Genç Hayat Foundation in 2014 to support the recruitment of Girls’ Technical and Vocational High School teachers and students and their participation in social life. The project targets include raising awareness of gender equality, building on families’ knowledge regarding recruitment of young girls, and training the advisors working at institutions offering internship positions to students with respect to working with youngsters and providing feedback.

Garanti has been a supporter of Toplum Gönüllüleri Vakfı (TOG-Community Volunteers Foundation), an initiative of change and transformation seeking to turn youthful energy into a positive benefit for the society and organizing youth to realize social responsibility projects on the basis of identified needs, ever since its establishment.

Support to the Participation of People with Disabilities in Economic and Social Life

In a bid to support the participation of people with disabilities in social life, Garanti began sponsoring women’s, men’s and junior

National Wheelchair Basketball Teams, as well as Wheelchair Basketball Leagues from April 2013.

The project “İşe Katıl Hayata Atıl” (Join the Workforce Join Life) was introduced in October 2014 under the patronage of the Ministry of Family and Social Policies and with the support of Garanti. Under the initiative aimed at increasing the employment of people with disabilities, 170 individuals with disabilities have been employed under guidance from their professional business coaches in Ankara and Sakarya in 2015. The project is in progress in Samsun, Gaziantep and Istanbul.

Support to Culture and Cultural Heritage

Garanti reorganized the cultural institutions operating under its organization as an autonomous institution under the name SALT in 2011.

Having received a total of 1,638,107 visitors from 2011 until year-end 2015, Salt Beyoğlu, Salt Galata and Salt Ulus hosted 67 exhibitions, 1,241 events in conjunction with the exhibitions, and 459 guided exhibition tours and workshops for students, and published 14 comprehensive publications.

Garanti has been co-organizing Turkey’s first children’s film festival, Garanti Children’s Movie Festival, with TURSAK (the Turkish Foundation of Cinema and Audio-Visual Culture) since 2004. The festival gave approximately 85,000 children in 15 cities with very limited access to cinema the opportunity to get familiar with the art of cinema.

Since 2005, Garanti has been sponsoring the education program of Istanbul Modern, the one and only modern art museum in Turkey. The program is intended to foster creative and inquisitive individuals who are in touch with the arts. The number of children and youngsters given education under these programs exceeded 550,000 by the end of 2015.

Garanti Bank supported installations encouraging artists to engage in an innovative exploration of ideas through a special exhibition at Istanbul Modern in 2015. Introduced by Istanbul Modern in collaboration with The Museum of Modern Art (MoMA) and MoMA PS1, the YAP Istanbul Modern: Young Architects Program is held biannually during the summer and offers young, emerging architects the opportunity to design a temporary installation in Istanbul Modern’s courtyard. The program’s aim is to encourage architects to come up with environmentally-friendly solutions and to explore innovative design ideas that would increase the possibilities of use in open-air spaces.

The corporate sponsor of the SAHA Association that aims to support contemporary art from Turkey, Garanti intends to improve the education and production infrastructure of artists, curators, art historians and critics, and to enhance their interactions with international networks.

Environment

Garanti has been the main sponsor of WWF-Turkey for 23 years with the slogan Garanti for Nature.

IV. STAKEHOLDERS

In 2015, Garanti published its third Sustainability Report in accordance with the “comprehensive” option according to the GRI’s G4 guidelines.

Working in close cooperation with its stakeholders in order to ensure that the sustainability concept is internalized, Garanti extended support to the Sustainable Finance Forum co-organized for the third time in 2015 by the Business Council for Sustainable Development in Turkey, UNEP-FI, and UN Global Compact.

In an effort to increase awareness of water risks awaiting Turkey and to offer a platform to reveal the water-related risks and opportunities facing the private sector, Garanti has become the main sponsor of CDP Water Program in Turkey that it has launched by early 2015.

Being the first bank to sign the Women’s Empowerment Principles (WEPs) in 2014, Garanti supported HeforShe, a UN Women-led initiative underlining men’s support to gender equality in 2015. In addition, the Bank established the Women Steering Committee in the first quarter of 2015 to contribute to social and economic empowerment of women. It has joined the Professional Women’s Network (PWN), a networking organization aimed at bringing together top-level businesswomen working across the world.

In 2015, Garanti has become the first Turkish bank to become a signatory of the Caring for Climate (C4C) initiative developed by the UN Global Compact, UN Framework Convention on Climate Change, and UN Environment Programme, targeting to mobilize businesses for fighting climate change and encourage them to disclose their progress.

For all these successful initiatives, Garanti received the “Bank of the Year Award-Turkey” in “Sustainability” category from ACQ Global Awards 2015, was named the “Silver Winner in Most Socially or Environmentally Responsible Company of the Year” in the Best in Biz Awards 2015 International, and became the “National Champion” at the European Business Awards in the category of “Environmental & Corporate Sustainability”.

V. HUMAN RESOURCES

The first “IIP Gold Accredited” company in Turkey, Garanti qualified to renew this certificate in 2015. Having espoused it as a corporate goal to maintain a contemporary working environment fully respectful of human rights, Garanti organized an event,

the Pink Soirée, to present the gender equality initiatives it has undertaken to its women employees.

With a view to increasing employee awareness about sustainability, Garanti implements an internal communication strategy and training program that cover various components including informative emails, videos, and exhibitions. The employees design and execute numerous projects under the roof of Volunteer Clovers Club, and ensure voluntary participation of all managers in these projects by organizing activities during the Future Meetings. Within the frame of the Wishing Tree initiative launched by Volunteer Clovers in 2014 in Anatolia to make underprivileged children’s wishes come true, 2,283 children in 16 cities achieved their wishes so far.

VI. CORPORATE SUSTAINABILITY GOVERNANCE

Operating under the Board of Directors and aiming to monitor and steer the Bank’s progress in the area of sustainability, the Sustainability Committee is chaired by a Board member.

Reporting regularly to the Sustainability Committee whose membership structure was updated in 2015 to include the CEO, the Sustainability Team coordinates all efforts undertaken under the main heading of sustainability at Garanti Bank.

Coordinated by the Team, Sustainability Representatives, which numbered more than 1,080 in 2015, are in charge of gathering data and facilitating respective units’ implementation of decisions taken by the Sustainability Committee.

7 working groups that were set up under the Sustainability Committee based on the Bank’s Sustainability Policy carried on with their activities.

Garanti preserved its presence on Borsa Istanbul Sustainability Index, as well as on Dow Jones Sustainability Index in 2015.

PROJECTIONS FOR 2016

Garanti has disclosed its long-term vision and goals in the Sustainability Policy and Strategy, and the Bank’s Sustainability Report covering its sustainability performance and short-term goals can be accessed from the corporate website.

Furthermore, Garanti is aiming to contribute to the action against climate change based on its pledges announced in the Climate Change Action Plan released in 2015, and to keep supporting events and training programs that bring together the banking industry and the real sector, urging them to collaborate in sustainability matters.

SPONSORSHIPS

Garanti Bank extends long-lived support to projects that reflect its corporate culture based on a corporate social responsibility concept molded within the frame of sustainability. Through its sponsorships in various fields that address different segments of society from sports to education and arts, Garanti creates broad-based value for social life.

BASKETBALL

Having Garanti as its main sponsor since 2001, "**12 Giant Men**", the Turkish National Men's Basketball Team, represented Turkey at FIBA Europe Cup 2015. Sponsored by Garanti since 2005, the Turkish National Women's Basketball Team dubbed the "**Pixies of the Court**" claimed the **5th** spot in the FIBA European Championship for Women organized in Hungary and Romania from June 11 to June

28, 2015, and earned entitlement to compete in the qualification rounds for Rio 2016 Olympics.

Both sponsored by Garanti, **U19 National Men's Basketball Team** clinched the **bronze** medal at the FIBA U19 World Championship held in Greece, whereas **U20 National Men's Basketball Team** also won the **bronze** medal at the European Championship held in Italy. The **U18 National Men's Basketball Team** lost to host country Greece at the European Championship final to earn the **silver** medal. Finally, **U16 National Team** brought home a **bronze** medal from the European Championship in Lithuania. With these results, the National Team succeeded for the first time in claiming medals in all categories of youth setup.

With Garanti as its main sponsor behind it, the **National Men's Wheelchair Basketball Team, 12 Bravehearts**, participated in the last four international tournaments in **2nd** spot and won their **third** medal at the European Championship held in Worcestershire, UK, thus qualifying for Rio 2016 Paralympics.

Since 2002, Garanti has been supporting the **12 Giant**

Men Basketball Schools (12 DABO), which were initiated in collaboration with TBF to inculcate basketball culture among young children and help create a broad-based basketball community in Anatolia. To date, more than **55,000** students received basketball training in **75** centers and in the Turkish Republic of Northern Cyprus within the scope of the 12 DABO initiative.

JAZZ

Garanti, the main sponsor of the Istanbul Jazz Festival organized by IKSVM (Istanbul Foundation for Culture and Arts) for **18** years, aims to be instrumental in bringing jazz music to larger audiences. One of the leading sponsors of jazz in Turkey, Garanti extends support in this field under the brand "Garanti Jazz Green".

At the **22nd** Istanbul Jazz Festival organized in 2015, over **200** Turkish and foreign artists took to the stage for nearly **40** concerts held in more than **15** different venues. During the Festival that brought together the leading names in jazz with the stars of contemporary music, big names including Joan Baez, Jools Holland, Marcus Miller, Melody Gardot, Nile Rodgers and Tigran Hamasyan gave unforgettable moments to music lovers on warm summer nights.

Serving as an instrument that introduces and blends jazz music with all segments of the society, Istanbul Jazz Festival is a major contributor that firmly puts Istanbul on the international concerts map.

Extending its support beyond jazz music to embrace other genres such as rock, pop, blues, reggae, funk and World music, the Festival so far hosted many world stars including Eric Clapton, Sting, Paul Simon, Norah Jones, Eric Costello, Björk, Suzan Vega, Bryan Ferry and Seal, along with the legendary jazz artists including Al Di Meola, Chick Corea, Jan Garbarek, Keith Jarrett, Diana Krall, Tony Bennett and Natalie Cole.

ORGANIZATION AND PROCESS DEVELOPMENT

**BRANCH TIME ALLOCATED TO SALES AND
RELATIONSHIP MANAGEMENT FOR RETAIL
AND SME CUSTOMERS 68%**

**15% IMPROVEMENT
IN WAITING TIMES AT
BRANCH LOBBIES**

Carrying out projects for designing necessary organizational structures and developing process infrastructures for maximizing efficiency and productivity of Garanti Bank's strategies, the Organization and Process Development Department plays a major role in making a difference for customers by rapidly adapting to the constantly changing business environment and customer expectations.

ACTIVITIES IN 2015

Process Development

Retail loan applications customers initiate from any channel can now be finalized via Internet Banking without a branch visit. Private school tuition payment processes went live to respond to customers' and schools' needs. Commercial Loans domain projects have been executed on proposals, Early Warning System and collection processes. Intermediation started for membership to the Findeks platform of KKB (Credit Bureau of Turkey) and for sales of QR code checks. Organizations making their salary payments via Garanti Bank are now able to receive information on possible fraud incidents thanks to automatic controls performed on their payments. Steps were taken to achieve regulatory compliance; with the debit/credit card allocation and collection processes under the TRNC (Turkish Republic of Northern Cyprus) card law; with consumer loan allocation, collection and after-sales processes under the Consumer Protection Law, and with insurance processes under SEGEM (Insurance Training Center) and the Regulation on Insurance Policies Provided in Conjunction with Consumer Loans. Investment products, processes and organization structure were revised in line with the Bank's modified responsibilities in accordance with the CMB legislation.

Organizational Efficiency

As part of the harmonization efforts with BBVA, coordination and organizational structuring actions were taken across the Bank. The Sales Management Project reformulated field and head office roles and working principles. A new team was set up under the HR Department to protect the occupational health and safety of the Bank employees. Given the critical importance of Disaster

Recovery and Business Continuity activities, a manager post has been assigned to the afore mentioned service. The number of branches directly focused on Commercial Banking was increased to offer high quality service to customers in the Large Commercial segment. Central Customer Relations role was designed under Retail Banking to offer remote service to retail customers specifically demanding service through digital channels instead of branches.

PROJECTIONS FOR 2016

Customer Focus

Enhancing service quality through mobilization of the sales force and digitalized processes, and incorporating customer feedback in design efforts at a greater extent will be among the top priorities of 2016. Other primary initiatives will include servicing retail and SME customers with a broader product range via digital channels, integration of tablet banking into processes, expanding the outreach of remote video consultancy by specialized teams, and enhancing customer service quality utilizing mobile technology in lobby management.

Efficiency

The main topics of 2016 will cover probing all accounts in the collection of commission items for effective commission receivables tracking in line with the principles of automation, integration and centralization; redesigning of commercial lending processes; setting up an effective monitoring mechanism with early warning systems and improvements to collection processes; considering new designs for cash management products in line with the developing e-Government applications, and revising member merchant processes.

Organizational Efficiency

Highlights of the coming year will be increasing the efficiency of sales processes and sales organization so as to encompass the business model with subsidiaries in order to support the Bank's growth strategy and its focus on customer satisfaction, and formulating flexible and universal job designs to suit the mobilization concept.

PRODUCT DEVELOPMENT AND INNOVATION MANAGEMENT

SOLUTIONS FOR DIVERSE
NEEDS THROUGH 551 PRODUCTS

2,257 INNOVATIVE IDEAS
FROM EMPLOYEES

Garanti Bank adopts approaches that cater to diverse needs through products, services and business models designed with the aim of becoming a part of its customers' lives. The Bank develops products and business models based on an innovative and distinctive banking notion and design principles.

ACTIVITIES IN 2015

Brand, Sponsorship and Communication

To measure Garanti Bank's brand image from different angles, 7 communication and brand perception surveys were conducted (Brand Image Tracking, Advertising Tracking, Digital Communication, Experimental Banking Communication, Loan Products Communication, Logo and Tagline Recognition, and Ad Tracking among Employees), while 3 sponsorship surveys were completed (Jazz Festival Sponsorship, Cultural Institutions Sponsorship, Basketball Sponsorship).

Customer Needs and Experiences

The surveys conducted in this field included Investment Products and Institutions Preference Survey and an Innovation Climate Study.

Focusing on customer needs, the Investment Products and Institutions Preference Survey looked into consumers' approach to various investment products, their preferences and reasons, and analyzed in detail their motivation behind their bank/institution choices.

An Innovation Climate Study was carried out to determine the factors inherent in the corporate culture, which either facilitate or complicate innovation.

In 2015, Garanti Bank undertook a mission supporting entrepreneurship as well as customer-centricity. The "Corporate Entrepreneurship Program" that adopted the lean startup principles was finalized in May 2015; the project of one of the 4 entrepreneur teams admitted to the program is being developed by the Bank, while a second one is headed toward becoming a new startup. Furthermore, the "Financial Technology Accelerator Program" was co-organized with Girişim Fabrikası (Fit Startup Factory) to support entrepreneurs engaged in financial technology in Turkey and to develop cooperation with them. Collaboration is in progress with startups elected to the program that started in August 2015.

Employee opinions make up a significant input of product and service improvements, as well as of new product and service design at Garanti. The "Önersen" platform whereby employees convey their suggestions about any topic has been instrumental in collecting 2,257 suggestions during 2015.

PROJECTIONS FOR 2016

Banking and financial technology services have been undergoing a radical change and transformation in recent years, which drive banks to increase their product and service solutions enabling customers to perform banking transactions anytime and anywhere. Garanti Bank will keep offering new products and services with this awareness in 2016.

Based on the arrangements resulting from the e-transformation in Turkey, business and trade processes began to be carried out in the virtual environment. Monitoring this transformation closely, Garanti Bank will expand its portfolio of easy-to-use e-products and services, and make sure that business processes are handled remotely, easily and quickly.

Within the scope of FC investment transactions, notification mechanisms and solutions enabling automatic buy/sell transactions will be developed for customers closely watching the activity in exchange rates.

As families are regarded as the starting point of raising, a shared awareness of financial literacy, platforms will be created for family members to perform shared budget management, saving up, spending and basic banking transactions collectively.

For customers wishing to regularly save up for the future, new government-backed products will be designed encouraging saving up and allowing access to the accumulated amount in case of need.

Focus will be placed on loan pricing structures providing for non-uniform pricing, rewards and advantages according to customers' demographics and intensity of their working relationship with Garanti.

Garanti will continue to explore unfulfilled customer needs and to offer solutions catering to these needs in keeping with the lean business development vision and customer-centric value proposals heavily adopted in recent years.

WE GROW TOGETHER

Standing much closer to customers through social NETWORKS!

Active on more than 17 networks with 47 social media accounts, Garanti quickly positioned social media as a digital channel and introduced creative applications that broke new ground in Turkey and in the world.

Social media notion is rooted in Usenet, a discussion system for exchanging message between Internet users worldwide conceived in 1979 by Jim Ellis and Tom Truscott. The first signs of the current communication-oriented use of social media first emerged in 1989 when Bruce and Susan Abelson set up the Open Diary website, which gave birth to the first weblogging concept

While the 2003 founding and broadcasting of Myspace was a big step for interactive communication, the 2014 emergence of Facebook marked practically the beginning of a communication revolution. Launched in 2004 by Mark Zuckerberg with his Harvard College fellow students Dustin Moskovitz, Eduardo Saverin and Chris Hughes, Facebook grew to become one of the largest networking sites in the US in just 18 months, and immediately magnetized investors. It began to be traded on NASDAQ in 2012. The Facebook IPO was the third biggest offering in the US history, following those of Visa and General Motors.

The huge interest in Facebook transformed the role of all earlier and ensuing social media networks in daily life. Facebook and Twitter instantly turned into media that people needed constantly.

WE GROW TOGETHER

Standing

With its 2015 Q3 results released at the end-September, Facebook's figures are significant as they indicate that presence on digital channels will be key in the future, as it is now: number of daily active users is 1.01 billion, while monthly active users reached 1.55 billion. Twitter has 320 million and Instagram has 400 million monthly active users.

Social media soon became indispensable to businesses for recruitment, brand positioning, reputation, advertising and many other purposes. Active on *17 social networks with more than 47 accounts*, Garanti quickly positioned social media as a digital channel and introduced creative applications that broke new ground in Turkey and in the world. Effectively using social media, Garanti is *the most followed financial institution* in Turkey and in Europe.

In 2012, Garanti authored a first in Turkey with *Garanti Link* that introduced campaigns specifically for social media users. It has become the first Turkish bank facilitating money transfer via Facebook and Twitter. A version of Cepbank mobile banking was introduced, which is compatible with social networks. Garanti began collecting loan applications with a secure form on Facebook, an unprecedented initiative in the world. Setting itself apart from its peers in Turkey, Garanti organizes contests and campaigns on alternative platforms like Foursquare, Snapchat, Instagram and Vine where custom-tailored offers are provided to followers.

SYNDICATED LOAN

GarantiBank International N.V. (GBI) is a customer-centric transaction banking provider offering value-adding financial solutions to its customers and counterparties worldwide in the areas of trade and commodity finance, private banking, treasury and structured finance, while maintaining multi-product relationships with local and global financial institutions around the world. GBI also provides targeted retail banking services in the Netherlands and Germany.

Established in Amsterdam in 1990 as a wholly-owned subsidiary of T. Garanti Bankası A.Ş., GBI operates through its head office in the Netherlands, its branch in Germany and representative offices in Turkey, Switzerland and Ukraine. GBI operates in compliance with Dutch and European Union laws and regulations under the supervision of European Central Bank (ECB), De Nederlandsche Bank (DNB) and De Autoriteit Financiële Markten (AFM).

GBI's long-term bank deposits rating of "A3" was reaffirmed by Moody's on June 27, 2015. "The Banker" magazine, in its July 2015 issue, ranked GBI #1 and #2 in the Netherlands in "Return On Equity (ROE)" and "Return on Assets (ROA)" performance categories, respectively.

ACTIVITIES IN 2015

GBI maintained its sound capital structure ending the year with a Capital Adequacy Ratio of 19.04% and a Leverage Ratio of 10.34%. As a result of the efficiency improvements initiated in 2014, GBI's Cost/Income Ratio at year-end stayed low at 40.67%.*

In line with its proven strategy, GBI continues lending to European counterparties while gradually expanding on wholesale borrowing by means of engaging with a wider group of lenders as well as making use of both conventional and innovative products.

GBI implemented noteworthy projects in 2015 to further improve its operational efficiency including automation of incoming payments, incoming documentary credit contract generation and collateral management. On the lending front, "receivable finance" gained momentum while wholesale

borrowing embodied a well-balanced mix of transactional and structured borrowing products in addition to the syndicated borrowing. Moreover new lenders were added to the wholesale borrowing counterparty set.

In July, GBI secured a one-year syndicated loan of EUR 233 million, involving 19 banks from 10 countries. The all-in cost of the facility is 65 bps over 3-month Libor/Euribor, 25 bps lower than the previous year's deal.

**Based on Dutch GAAP standards.*

PROJECTIONS FOR 2016

In 2016, GBI aims to further strengthen its position as a customer-centric transaction banking provider. While preserving the valuable retail deposit base in the Netherlands and Germany, GBI will continue expanding on its wholesale borrowing on the liability side and boosting lending to European clients.

GARANTIBANK MOSCOW

PRUDENT APPROACH TO RISKS

ABILITY TO RAPIDLY ADAPT TO CHANGES IN THE BUSINESS ENVIRONMENT

GarantiBank Moscow (GBM), with its service quality and ability to rapidly adapt to changes, targets efficiency and sustainability in operations. Active in Russia since 1996, GBM is one of the **70** banks backed by foreign capital. Holding a full-scope banking license that authorizes all kinds of banking activities, GBM operates through one branch and **73** employees.

ACTIVITIES IN 2015

2015 was a very difficult year for the Russian economy. Although the acute phase of the crisis was almost over in the first few months of the year, spillover effects on the real economy, both on households and businesses, hit the remainder of the year. The Russian economy entered recession and is expected to contract close to **4%** this year. On the other hand, the regulatory bodies' responses prevented a deeper economic and financial crisis. Recent macroeconomic indicators point to a fragile stabilization, which will likely be followed by a pickup in economic activity starting in the second quarter of next year.

The worries about the potential deterioration of the credit metrics of the borrowers raised the investor risk-aversion and forced market players to create additional provisions for potential credit losses. Accordingly, the profitability of the banking sector was negatively impacted.

The role of the CBR as the major liquidity provider and timely actions taken by the government and the CBR to support banks' capitalization were prompt, supportive and efficient.

GBM took proactive measures to defend its asset quality and capitalization. With its sustainable business model focused on corporate and commercial banking, GBM quickly adapted itself to the changing business environment. In the last two years, lending targets were revised down to remain conservative and maintain the highly liquid balance sheet structure. Accordingly, GBM's lending portfolio shrank almost by **90%** within the last two years.

GBM preserves its long term proven banking relations with the customers and has the potential to grow its business with the ones crisis-tested.

GBM's customer base is mostly composed of Russian firms with large asset sizes and business volumes and of other major industrial firms and financial groups. Although GBM is among the smaller-scale banks in the sector where close to **700** banks are active, it represents a rare example as it has credit relationships with the customer profile described above.

GBM traditionally maintains close relations with Turkish firms doing business in the Russian market. Starting from 2011, Spanish firms have also become an important segment of GBM business in synergy with BBVA.

In the current business environment, operational efficiency, strong adherence to group compliance principles, maintaining a high liquidity and sound asset quality are the priorities for the Bank.

PROJECTIONS FOR 2016

In 2016, international political and economic developments will continue to dominate the domestic market. With its boutique type of business, the Bank enjoys the ability to promptly amend its strategy according to changing conditions. GBM, with the synergy provided by BBVA's worldwide presence and Garanti experience in the region, has the opportunity to grow in all its business lines.

GARANTI ROMANIA

84 BRANCHES
AND 305 ATMs

10TH LARGEST BANK IN ROMANIA
IN TERMS OF ASSET SIZE

SUSTAINABLE GROWTH IN
LOANS AND DEPOSITS

Garanti Romania consists of GarantiBank SA, which was established in 1998 and serves its customers with a network of **84** branches and over **1000** employees, and two non-banking financial institutions, Garanti Leasing (Motoractive IFN SA) and Garanti Consumer Finance (Ralfi IFN SA). GarantiBank SA, during its **18**-year presence in the country, has continued to grow and positioned itself as one of the most prestigious financial institutions defying the challenging market conditions by offering optimal products and services to its clients.

ACTIVITIES IN 2015

GarantiBank SA left another successful year behind in 2015, capturing continuous growth in all business lines, thus strengthening its position in the sector.

The bank moved up to **10th*** place in the sector by asset size in 2015. While the bank's total lending expanded by **14.5%**, total deposits grew by **38.5%**.

GarantiBank SA's growth performance has been acknowledged by various awards in 2015: Two awards at the Top Bankers Gala, one in the Deposits Category, "Deposits Dynamics" and the other in the Lending Category, "Loan Balance Dynamics"; as well as the "Best Banking Strategy" award from "Financial Leaders' Hall of Fame 2015" Gala and the "Most Trusted Bank" award from the "Piata Financiara Magazine Awarding Gala".

Targeting the top tier Romanian companies and offering services in investment finance that suit their needs, Corporate Banking continued as one of the strongest business lines of the bank. GarantiBank SA sustained its strong position in SME banking with unrivalled service quality, and developed the Women Entrepreneurs' segment supported by credit lines provided by IFC, member of the World Bank Group. Retail banking and payment systems expanded in line with the bank's strategies, predominantly in the credit cards business, by excelling in their innovative approach.

GarantiBank SA, with its investments in technology, has adopted a pioneering role and broken new grounds in the Romanian banking sector. The bank is the only bank in the

country with a whole network of cash in-cash out ATMs. With its internet banking application, the bank was recognized as the "Best Consumer Digital Bank in Romania" for the third consecutive year. The mobile banking application for its retail customers is a work in progress and expected to be available in 2016. Being one of the first banks using social media to connect with its customers, GarantiBank SA moved up to **3rd** place in the Romanian Financial Sector with over **240** thousand followers on Facebook.

Garanti Leasing Romania

Garanti Leasing Romania (Motoractive IFN SA) maintained its growth in 2015 by reaching EUR **127** million in asset size, **21%** higher than 2014, supported by the credit lines acquired from multi-national financial institutions and strengthened its position as one of the most important leasing companies in the Romanian leasing market. The portfolio of Garanti Leasing Romania is composed of vehicles, equipment and real estate.

Garanti Consumer Finance Romania

Garanti Consumer Finance Romania (Ralfi IFN SA) expanded its distribution network from **41** to **51** sales centers and increased the number of direct sales agents by **18.5%** in 2015. This allowed a **5%** rise in new loan volume, targeting a more positive outlook for 2016. The company increased its net profit by **73.5%**, compared to 2014.

PROJECTIONS FOR 2016

In 2016, all the companies making up Garanti Romania Group will stay one step ahead of the competition and pursue new opportunities in a bid to continue their organic and sustainable growth. In the coming year, Garanti Romania Group will focus on sustainable development of its businesses without compromising its prudent risk evaluation approach, and aim to make a difference in the market through new products and services designed to cater to customer needs.

**Based on Central Bank Romania's latest available official data as of December 2015.*

GARANTI PENSION AND LIFE

993* THOUSAND PENSION PARTICIPANTS / SECTOR'S LEADER WITH TL 191 MILLION NET PROFIT / NET PROMOTER SCORE UP TO +63

Backed by the powerful Garanti brand name, Garanti Pension and Life is set apart and makes a difference in the sector with its customer-centric approach, technology and expertise.

Garanti Pension and Life services 993* thousand pension participants and more than 1.8 million policyholders with its 864 employees.

Having reached TL 7.6 billion in total fund volume, TL 1.1 billion in net annual contributions, and TL 329 million in life insurance premium production, Garanti Pension had yet another successful year in 2015, remaining the sector's most profitable company** with a net profit figure of TL 191 million, a title it has held for the past five years.

Total share of remote sales utilizing web leads and branch references by the telemarketing team reached 13% in 2015.

ACTIVITIES IN 2015

Following the legislation changes of 2013, a new regulation regarding the deductions in the private pension system has been published in 2015 for encouraging participation in the system. As per the regulation that will enter into force in 2016, entrance fee and administrative expenses fee will be restricted to 8.5% of the monthly gross minimum wage and will be charged for a period of 5 years maximum. This arrangement concerning deductions is intended to help the sector preserve its performance that resulted in winning 3 million* new participants in the past 3 years.

On another front, a regulation issued in April 2015 set out the rules for the "annuity contracts", which are complementary to the private pension system and mean "lifetime income" for participants. Annuity contracts are slated for introduction in 2016, thus creating a new, albeit small market for companies.

Drawing its strength from its leadership in the sector, efficiency in bancassurance, technological infrastructure and product diversity, Garanti Pension kept growing in 2015.

In 2015, Garanti Pension, targeting continuous development, successfully increased employee loyalty from 56% to 71% thanks to its employee- and customer-centricity. In a survey

conducted by IPSOS, an independent research company, the net promoter score for Garanti Pension was found as +63.

In the reporting period, Garanti Pension had a market share of:

- » 15.6%* with a total fund volume of TL 7.6 billion;
- » 16.5%* with 993* thousand participants;
- » 8.9% in the life insurance segment with a premium production of TL 329 million.

Leading the sector in bancassurance, Garanti Pension will keep guiding the sector with its innovative implementations. Garanti Pension signed the "United Nations Global Compact", committing to global initiatives for human rights, working conditions, environment and fighting corruption. Once again leading the sector in sustainability Garanti Pension signed the "United Nations Women's Empowerment Principles", emphasizing gender equality and women's position in society.

PROJECTIONS FOR 2016

Being the sector's most profitable company** for the sixth consecutive year since 2010, Garanti Pension intends to hold this title by further increasing its operational efficiency through continued focus on technology investment and process efficiency, and aims to use revenues toward the development of customer- and employee-centric processes and projects.

Also in 2016, Garanti Pension is targeting to preserve its leadership in the sector in terms of profitability amid the new regulatory environment and evolving market conditions, and to render this financial success sustainable. The Company will use the financial strength at its disposal for developing new projects and processes by focusing on customer-centricity and employee loyalty.

GARANTI SECURITIES

INVESTMENT
ADVISORY

7% MARKET SHARE IN
THE EQUITY MARKET

RESTRUCTURING

Boasting an experienced team, robust infrastructure and impressive performance in the brokerage services, Garanti Securities reaches the largest number of retail investors through Turkey's most extensive distribution network built upon the agency's relationship with Garanti Bank. With 7% transaction volume in the equity market and over 9% in the futures market in 2015, Garanti Securities is striving to reach more investors by expanding its product range in 2016.

Sales and Marketing

Steering the market with its qualified personnel, the Sales and Marketing team of 234 people was transferred from Garanti Bank to Garanti Securities on November 1, 2015 pursuant to the relevant Capital Markets Board (CMB) communiqué.

In addition to offering quality services to its clients based on its experience in the equity and futures markets, product diversity was increased by introducing FX and Options markets services in 2015.

With the launch of its website, internet and mobile branches and transaction platform projects, Garanti Securities will offer more efficient services to clients in 2016. The platform due to be introduced in 2016 will offer all investment products under a single roof, including overseas exchanges, giving clients faster access to investment options and improved guidance to investment preferences.

Treasury

Leveraged transactions offered by the Treasury Division (Treasury) registered a strong performance in 2015 with average daily transaction volume 581% higher than in 2014. The trading channels will be enriched with the introduction of mobile applications. In 2016, the number of clients dealing in leveraged transactions is anticipated to rise sharply with the contribution of the branch network that originated from the restructuring.

Garanti Securities was one of the most active trading entities on the Derivatives Market (VIOP) on the equity index and equity options markets in 2015.

Corporate Finance

The total volume of corporate finance transactions advised by Garanti Securities reached USD 50 billion in 2015.

Garanti Securities successfully acted as a sell-side advisor to Dogus Group for the transfer of the minority shares in LeasePlan to LeasePlan Corporation N.V. for EUR 31.4 million in early 2015. During 2015, the company intermediated 56 bonds and bills issuances worth TL 9 billion in total. In addition, advisory services to Turk Telekom continues within the scope of privatization of 31.68% of its shares in part or in whole.

Research

In 2015, the Research Department (Research) continued to guide both Garanti Securities, Garanti Bank and its subsidiaries amid the tough market conditions with informative and advisory reports. Research enhanced its portfolio with new periodic, sector specific and thematic products in 2015 for equity, fixed income, commodity and macro-economic research. In 2016 with the new product branding strategy, new channels will be offered. Fundamental research coverage in BIST companies is planned to increase- with new small-mid cap companies. In addition, Research will initiate coverage for corporate bonds.

International Institutional Sales

The International Institutional Sales Department (IIS) provides brokerage services in the equity and derivatives markets to foreign brokerage houses and foreign/domestic funds investing in Turkey. IIS also provides brokerage services to local investors in foreign markets.

The IIS department increased its market share in 2015 and reached its highest trading volume on an annual basis. Actively taking part in the derivatives markets, IIS increased its commission revenues through new customer acquisitions.

In 2016, IIS aims to strengthen its technological infrastructure utilizing Borsa Istanbul's colocation service, increase its trading volume and income through improved speed and efficiency of order transmissions.

GARANTI ASSET MANAGEMENT

TOTAL ASSET UNDER MANAGEMENT TL 11.8 BILLION / PENSION FUNDS AUM TL 7.6 BILLION / MUTUAL FUNDS AUM TL 3.9 BILLION

Turkey's first asset management company, Garanti Asset Management (GPY) has been operating in the sector for **19** years with the intent of leading the sector with its consistent asset management performance, comprehensive research activities and robust risk management.

Aiming to attain maximum efficiency in the management of customer assets, and to reach customers' investment targets, GPY's key success depends on its investment philosophy that relies on concrete knowledge, combined with efficiency and a professional service approach, and fulfillment of ever changing customer demands in fluctuating market conditions.

GPY differentiates itself in the sector through its efficient business discipline and approach to risk management. With a professional team of **56** persons, **18** of whom make up the investment team, GPY provides services in the management of Mutual Funds, Pension Funds, and Discretionary Portfolios.

ACTIVITIES IN 2015

GPY performed strongly in 2015 and total assets under management reached TL **11.8** billion.

Mutual Funds

Having obtained necessary authorizations from the Capital Markets Board of Turkey, GPY successfully completed transfer processes and undertook the duty of serving as the founder of all mutual funds. Opting for simplification to secure efficiency in mutual funds business, **8** mutual funds were merged, thus decreasing the total number of funds to **16**.

At the end of 2015, mutual funds sector reached TL **37.5** billion assets under management (AUM), and GPY held **10.4%** market share with AUM TL **3.9** billion.

In April 2015, **3** SMART Funds addressing different risk groups were introduced within the frame of the SMART Investment Approach. Investing in assets over a broad range enabled owing to the diversified asset investment strategy, SMART Funds were among the remarkable products of 2015.

GPY continues to manage two UCITS funds launched in March 2014 on BBVA's SICAV platform incorporated in Luxembourg for the purpose of meeting foreign investors' demand for Turkey.

Pension Funds

In 2015, Pension Funds expanded by **24%** and reached an asset size of TL **7.6** billion at the end of the year, translating into a market share of **15.8%**. Following suit of the past **3** years, particularly equity funds ranked high in 2015, displaying a sustainable performance.

Responsible Investment Practices

After becoming a signatory of the United Nations Principles for Responsible Investment (UNPRI) in 2011, GPY established its Responsible Investment Policy and Responsible Investment Committee. The Committee is the highest authority for integrating Environmental, Social and Corporate Governance factors into the processes of establishing an "investment scope" for securities and evaluating credit risks inherent in corporate bonds. GPY annually reports its performance in Responsible Investment practices to the UN. Reports are accessible on the website www.unpri.org.

PROJECTIONS FOR 2016

In 2016, SMART Funds, which invest in multiple asset classes in various geographies, are anticipated to become the priority preference of the investors and to stand out with their performances.

GPY plans to set up a new fund in January 2016 investing in Eurobonds for investors who opt for investing in foreign currency.

Collaboration agreements are planned to be made with fund distribution companies on active marketing of Mutual Funds, in order to help increase awareness and sales volume of GPY Mutual Funds.

GPY will continue to develop its Private Fund Establishment and Management business in line with the ever increasing demand from investors.

Other targets include growing the number of private pension companies that are provided fund management service in keeping with the expansion of the Private Pension System.

In Discretionary Portfolio Management business, GPY aims to gain additional market share while increasing its contribution to its profitability.

Overseas sales activities will continue to be run in coordination with Garanti Bank and BBVA.

GARANTI LEASING

USD 800 MILLION
TRANSACTION VOLUME / 3,126
CONTRACTS

Carrying out the leasing transactions of a broad customer base of corporate customers, commercial customers, and small and medium-sized enterprises, Garanti Leasing has been active in the sector since 1990.

Being the only Turkish leasing company rated both by Standards & Poor's (S&P) and Fitch Ratings, Garanti Leasing maintains a performance above the sector average with its quality services that create distinction in the eyes of its customers.

Garanti Leasing, a well-known player in the international markets with 25 years of experience, is set apart from its competitors with its focus on customer satisfaction, qualified human resource, solid technical infrastructure, high funding capability and diversity of borrowing resources on the international markets.

ACTIVITIES IN 2015

Garanti Leasing successfully pursued its activities as one of the biggest leasing companies in the sector without compromising profitability. Based on data for the period of 01.01.2015-31.12.2015 released by the Association of Financial Institutions, Garanti Leasing reached a transaction volume of USD 800 million, 3,126 contracts, and 13.5% market share in the number of contracts.

In 2015, Garanti Leasing further increased its focus on alternative delivery channels, thereby achieving increased productivity and customer satisfaction, and kept offering different and innovative solutions in customer relationship management. The company designed sector-specific leasing packages in order to respond to needs that vary according to sectors in machinery and equipment financing. Launched for the purpose of secondhand sales of equipment, leasingdepo.com application remained the one and only sales platform geared towards this goal in the sector, and was actively used, attracting an ever-increasing number of visitors and applications.

Garanti Leasing directly contacts its clients through the application forms available on its website and maintains effective communication through the social media channels including Facebook, Twitter, Instagram, LinkedIn and Sor application.

Garanti Leasing conducted customer surveys to develop future strategies for maintaining and improving customer satisfaction. Garanti Leasing kept operating with the mission of leading the Leasing sector, by conducting innovative research and analysis with IPSOS to increase efficiency.

PROJECTIONS FOR 2016

In the year ahead, Garanti Leasing will continue to further strengthen its asset quality through its dynamic and specialized human resource, strong delivery channels, extensive branch network, and superior technology. In order to reach targeted sectors and a wider customer base; service and distribution expertise will be used and by promoting better vendor relations, the equipment with expected increases in usage rates primarily construction and metal processing equipment, followed by textile, tourism, real estate, renewable energy, boat and health equipment will be the main areas of focus.

GARANTI FLEET

28%
GROWTH / 50% RISE IN THE
NUMBER OF CUSTOMERS

Garanti Fleet offers long-term fleet rental service for the passenger cars of all makes and models sold in Turkey to companies of any size from SMEs to corporate businesses, as well as to individual customers.

Providing extensive, rapid and reliable fleet management services across Turkey drawing on the strength of Garanti brand and its robust financial structure, Garanti Fleet achieves full compliance with the maintenance and repair standards established by the automotive industry. Garanti Fleet proactively plans every detail from the tires to be used to the service points where maintenance and repair services will be received, thus ensuring unbroken high quality service throughout the rental cycle.

Having adopted the mission of contributing permanent value to its customers, Garanti Fleet aims at unconditional and sustainable customer satisfaction. Set apart from its competition with its customer-centric service approach and its expert human resource, Garanti Fleet holds a unique position in the sector thanks to its advanced risk management systems and technology.

ACTIVITIES IN 2015

With the goal of rendering better and faster service to its customers, Garanti Fleet uninterruptedly continues with its innovation projects. Garanti Fleet authored many new initiatives also in 2015:

- » Garanti Filo Sigorta Aracılık Hizmetleri A.Ş., established as a wholly-owned subsidiary of Garanti Fleet to manage all of its insurance operations, became the official agency of three major insurance companies in 2015. Garanti Filo Sigorta started rendering insurance service for second-hand vehicles sold to individuals, as well as vehicles subject to operational leasing.
- » Garanti Fleet's online platform designed for the second-hand sale of cars with expired lease terms began second-hand sales to individuals as a result of the developments carried out.
- » Garanti Fleet launched the Digital Sales channel, a new sales channel for rapidly responding to vehicle proposal demands

received through the website and online platforms. This represents yet another solid step taken towards productive growth.

- » In keeping with the importance attached to driving safety, Garanti Fleet continued to offer "Safe and Defensive Driving Techniques" and "Advanced Driving Techniques" training to the users of the cars leased by the company. The training courses, which are offered in collaboration with a specialist professional institution, are planned to be continued in 2016.
- » The company set up Customer Satisfaction and Process Development Unit that will be charged with carrying out the process development activities with the aim of enhancing customer satisfaction and business productivity.
- » In 2015, Garanti Fleet leased **6,087** new cars. The car pool was expanded by **28%** in line with its sustainable growth strategy. Garanti Fleet has been providing service to **3,702** customers with **14,500** cars and a team of **86** persons as of year-end 2015.
- » Based on its 2015 activities, Garanti Fleet reached total assets worth TL **827** million.

PROJECTIONS FOR 2016

In 2016, Garanti Fleet will;

- » Continue to invest in its technology and competent human resource,
- » Launch new online and mobile applications as part of digitalization initiatives,
- » Introduce improvements to the organizational processes which will speed up work flow and increase business productivity,
- » Keep organizing special offer campaigns with car brands,
- » Maintain its focus on retail rentals and customers in the SME segment based on its profitable growth strategy,
- » Reach a car pool of **17,500** cars and **4,600** customers.

GARANTI FACTORIZING

HIGHEST CORPORATE
GOVERNANCE RATING IN
THE FACTORING SECTOR

LEADER WITH
TOTAL ASSETS OF
TL 3 BILLION

NO. 1 IN THE WORLD PER
FCI'S EXPORT FACTOR OF
THE YEAR RANKINGS

Garanti Factoring was incorporated on September 4, 1990 under the name Aktif Finans Faktoring Hizmetleri A.Ş. for offering factoring service to industrial and commercial companies. Operating under the "Garanti" roof since 2002, the company changed its company name to Garanti Faktoring Hizmetleri A.Ş. pursuant to 2001 Ordinary General Meeting held on March 27, 2002. The company name became Garanti Factoring A.Ş. based on a decision adopted in 2013 Ordinary General Meeting convened on April 17, 2014.

Based on the authorization received from the Capital Markets Board of Turkey (CMB) in 1993, Garanti Factoring went public and was quoted on Borsa Istanbul. Offering integrated solutions for domestic and overseas trading through its funding, guarantee and collection products, Garanti Factoring's 8.4% shares in free float are being traded on Borsa Istanbul Second National Market under the ticker symbol GARFA. Having a broad customer base, Garanti Factoring provides domestic and overseas factoring services via 21 branches across Turkey to entities with extensive supplier and dealer networks, with a particular focus on SMEs, exporters and importers, based on an approach concentrated on customer needs.

ACTIVITIES IN 2015

At the end of 2015, Garanti Factoring's total assets size is 2,971 million TL, and carried out 36,632 factoring transactions in total with 8,181 customers, thus sustaining its support to the real economy. Posting TL 25.4 million in net profit for the period, the company increased its shareholders' equity to TL 166 million, up by 18%.

With bond issuances worth TL 1,582 million in nominal terms during 2015, Garanti Factoring diversified its funding resources and offered lower-cost financing to its customers.

The company ranked number 1 in the sector with market shares of 11.1% in total assets and 11.4% in factoring receivables.

Generating TL 7.4 million on domestic transactions, TL 1.37 million on import transactions and TL 8.6 million on export transactions, Garanti Factoring's total business volume reached TL 17.33 million in 2015.

As a result of the 4th audit conducted in the reporting period to endorse the continued conformity of its activities to Corporate Governance Principles, the company's Corporate Governance Rating was raised to "9.15", a score that helped it remain as the highest-rated factoring company on the BIST Corporate Governance Index.

In 2015 Garanti Factoring started offering irrevocable factoring, in this type of factoring the factoring operations are assured by the ceding of the right of receivables from the collateral letter.

PROJECTIONS FOR 2016

In 2016, Garanti Factoring will continue to broaden its customer base and to launch new products. Currently in the process of reorganizing its website to be used as an application channel for facilitating more effective new customer acquisition, Garanti Factoring is also aiming to increase the volume of factoring transactions with guarantee services through upgrades and developments taken on in relation to the supplier financing system. Garanti Factoring will continue with efforts for increasing its coverage with respect to export transactions; to this end, the company is working on new products in this field.

GARANTI PAYMENT SYSTEMS

TL 10.3 MILLION
IN ACQUIRING
VOLUME

LEADER IN RETAIL CREDIT CARD
TRANSACTION VOLUME WITH
21% MARKET SHARE

LEADER IN
E-COMMERCE WITH
23% MARKET SHARE

Remaining the sector's leader in its 16th year owing to successful integration of products with technology ever since its establishment, Garanti Payment Systems (GÖSAŞ) offers high quality service to customers with diverse needs. Turkey's first and only payment systems establishment, GÖSAŞ boasts the broadest card portfolio in the market.

The main brands of personal cards include Bonus, Miles&Smiles and American Express, Çevreci Bonus (Environmentally Friendly Bonus), Aynalı Bonus (Reflected Bonus), Şeffaf Bonus (Transparent Bonus), GS Bonus, BJK Bonus, Fenerbahçe Bonus, Trabzonspor Bonus, Money Bonus, Bonus Genç, Flexi, Bonus Flexi, Bonus American Express, and Altın Bonus (Bonus Gold) are presented to respond to the needs of customers from different segments. The Business Cards Portfolio encompasses 9 different products, while Paracard is the debit card brand.

With cash advance, skip payment post purchase installment, and skip spending post purchase installment products, GÖSAŞ facilitates convenient fulfillment of cash needs of business cardholders and arrangement of their payments.

The author of a number of groundbreaking initiatives in Turkey and the world, GÖSAŞ:

- » Possesses Turkey's only network of merchant members accepting VISA, MasterCard, JCB, American Express®, CUP, Diners and Discover cards,
- » Offers various payment solutions such as e-commerce and e-retail services via www.garantialisveris.com, together with dial-up POS, ADSL POS, Mobile POS, Virtual POS and Cash Register POS to member merchants in addition to the Kolay Vezne (Easy Teller) and Ödeme Noktası (Payment Point) services,
- » Remains the most used business card on the back of 50% increase achieved in business cards in the last year, which means that a Garanti business card is used for 1 out of every 4 transactions.

ACTIVITIES IN 2015

- » Upon completing the necessary steps, GÖSAŞ received the operating license from the Central Bank of the Republic of Turkey (CBRT), which was published in the Official Gazette issue 29391 dated June 19, 2015. With this license, GÖSAŞ has

become one of the two system operators in Turkey dealing with the settlement of card-based payment systems. As a result of these activities, the clearance and settlement system run by Garanti Bank to date was renamed "Takasnet Clearance and Settlement System".

- » Bonus, the credit card with the most freebies in Turkey, revamped its website. With its simplified content and main menu, headings categorized according to sectors and dynamic design, www.bonus.com.tr gives customers much faster and easier access to current campaigns and offers available at thousands of member merchants.
- » The main focus of GÖSAŞ in 2015 was on micro SME customers in the business cards segment, where the highest growth was achieved in sole proprietorships. By winning customers using their personal cards for their business expenses as business card owners, the company helped them manage their cash flows more easily and gain access to advantages offered by the business card. 9 different business cards were introduced, which present much lower minimum payment possibility, installments that are unrestricted in terms of sectors, higher credit line as compared with retail cards, and cash withdrawal campaigns specific to the business card.

PROJECTIONS FOR 2016

2016 targets include:

- » Continued expansion in retail credit cards, ensuring profitability and growth while fulfilling diverse needs of customers through cash products,
- » Producing new solutions that will highlight customer transparency and convenience,
- » Achieving growth through new market penetration in member merchants, acquisition of broad-based customers, management of local campaigns, and expansion of the use of installments,
- » Sustained growth trend in micro SMEs and sole proprietorships, while presenting "corporate card" products to corporate customers for use in their entertainment and travel expenses,
- » Focusing on highly active and profitable customer portfolio in commercial credit cards to secure an accelerating growth trend.

GARANTI MORTGAGE

LEADER WITH 14.15%
MARKET SHARE

7% RISE IN APPLICATIONS RECEIVED
THROUGH GARANTI WEBSITES

MORE THAN 477,000
MORTGAGE LOANS

Garanti Konut Finansmanı Danışmanlık Hizmetleri A.Ş. (Garanti Mortgage), is Turkey's first housing finance company, and started its operations right after Mortgage Law went in to effect in October 2007.

Established 8 years ago, Garanti Mortgage has the broadest range of mortgage products in Turkey. It provides mortgage services delivered by specialist portfolio managers who have completed the "Mortgage Expertise Certificate Program".

In addition to Garanti branches, Garanti Mortgage reaches customers by employing various channels including call center, internet and mobile banking platforms; real estate agents, property developers, and housing and commercial projects under construction.

It analyzes customers and areas served to organize tailor made campaigns for professional groups and areas displaying growth potential.

ACTIVITIES IN 2015

Targeting for an increase in number of applications received through digital channels, Garanti Mortgage directed more potential customers to 444 EVİM. As a direct result of the process improvement activities carried out, the share of mortgage loans disbursed through 444 EVİM within all mortgage loans increased by 14%.

Garanti Mortgage financed more than 477,000 mortgage loans through campaigns designed for various sectors and professional groups. Garanti Mortgage was involved in over 130 new housing projects during 2015, it continues lending customers in more than 530 housing construction projects on the market, thanks to its collaborations with developers.

Heavily lending to sizable projects in Istanbul, Ankara and Izmir, Garanti Mortgage continues to get involved in small and medium scaled housing projects in Anatolia.

With its exclusive urban transformation call center (444 0 332) and website (kentseldonusumcevaplari.com) Garanti Mortgage continues to increase activities in this area.

PROJECTIONS FOR 2016

Predicting an intense competitive environment in 2016, Garanti Mortgage aims to increase efficiency across all distribution channels, by offering the best fitting repayment plans to customer's budget with its broad product range, and speeding up the processes through automation of the documents entailed in the mortgage process.

Amid fierce competition in 2016 "Garanti, the Mortgage Expert" will sustain its sector leadership, thanks to its current and developing differentiating services and practices.

GARANTI TECHNOLOGY

THE SECTOR'S MOST DIGITIZED
COMPANY WITH A 93% SCORE

3,132
IT PROJECTS

A provider of services in information technology and author of many firsts since 1981, Garanti Technology (GT) contributes a critical competitive edge to Garanti and its subsidiaries with its innovative and creative products, services, applications and consultancy services. GT keeps investing in state-of-the-art technology, uninterrupted processing capability, infrastructure security, cost efficiency and energy saving, under the guidance of corporate governance and international quality standards, and continues to lead the sector with all of its functions.

ACTIVITIES IN 2015

During 2015, GT continued to invest in technological infrastructure and carried out projects integrating all technological innovations and enhancements with business processes. Having achieved a perfect harmony between technology and banking, Garanti family improved its processes; enhanced operational efficiency thanks to this technology, and authored numerous novelties that meet needs of its customers.

GT completed **3,132** IT projects in 2015. According to "Accenture Digitization Index" study results, Garanti is named the most digitized company in Turkey and in financial services sector with a digital score of **93%**.

The number of transactions handled by GT increased incrementally: **500-600** million CICS transactions/day with a response time of **30 ms**; **700** thousand-**1** million internet banking logins/day on average with a response time of **90 ms**; **800** thousand-**1.3** million Mobile Banking logins/day on average with a response time of **100 ms**.

STEP platform was introduced to provide customers an uninterrupted and high quality banking experience in branch and non-branch environments. This gives Garanti's Customer Relationship Managers access to recent bank data, market and media news, as well as internal and external portals at all times. Similarly, they can access all sorts of financial data, transactions, instructions and documents for their clients, and are able to furnish same high quality service to customers anytime, anywhere. Nearly **6,500** iPads were distributed to employees in 2015 to increase mobility in banking applications.

BonusFlash, a ground-breaking application, was launched to be used on mobile phones with iOS or Android operating systems. Application enables debit and credit card customers to easily handle various transactions such as campaign follow-up, card activities during account statement/period, portfolio transactions, card settings, mobile and e-commerce payments, and card application.

Operating systems were upgraded across the Bank. Improvements were made to ATMs, and additional measures were adopted to boost security. Within this scope, **1,300** Wincor Nixdorf ATMs started to be replaced; installation of ATM Anti Skimming devices were expanded to cover all ATMs in an effort to increase security against card duplication attacks.

Passport scanners were put in place in **128** branches. Moreover, Electronic Security Systems were taken over. All electronic security systems such as recorders, cameras, detectors and gate admissions are now being managed and monitored. Devices are being set up and managed in offsite ATMs and branches.

PROJECTIONS FOR 2016

In 2016, GT will keep shaping future of financial services industry by re-defining financial products and services offered considering changing needs of its customers. By utilizing all facilities that technology has to offer, GT built up an ecosystem and has been successfully operating in it, where all financial products and services are available at anytime, anywhere. By doing so, GT will modify Garanti's way of doing business, starting with sales teams, and will mobilize the business life. It will keep working to enable its customers carry out their transactions on digital channels not only by using a keyboard, but also by using audio and visual means.

Having realized major breakthroughs in fields of data warehouse usage and business intelligence, Garanti will complete infrastructure investments in Big Data. Besides using this technology for ensuring efficiency in customer relationship management and banking transactions, the company will also employ it in IT Operations and IT Security Management, thus taking place among worldwide pioneers.

WE ARE INNOVATORS

BEST CUSTOMER EXPERIENCE

WITH 551 PRODUCTS & SERVICES

INTEGRATED TO CUSTOMERS' LIVES

Garanti aims to create a swift, smooth and effective financial environment that will contribute benefits for its customers through new products and services designed around customer needs in view of the future dynamics and the advancements in technology and in the sector.

WE PUT DIGITAL CHANNELS AT THE HEART OF CUSTOMER EXPERIENCE

Internet Banking

- » Customers can log in to Internet Banking to increase their limits and follow up the outcomes of their limit increase requests. In addition, custom-tailored proactive limit proposals are offered through Internet Banking, allowing instant limit increases.
- » Internet Banking and Mobile Banking users can now log in by entering their T.R. ID numbers or card numbers as an alternative to their customer numbers. Customers using their card numbers to log in can perform transactions for that specific card only.
- » Garanti customers can log in to the e-government system following Garanti Bank's Internet Banking authentication, without having to get an e-government password. They can inquire about their debts and make certain payments through Internet Banking.
- » The revamped Garanti Pension Internet Branch can now be logged in following Garanti Bank's Internet Banking authentication. This eliminates the need for another password for customers' access to Garanti Pension Internet Branch.
- » Using the "My Documents" step added to Internet Banking, users can update and view their Banking Services Agreements.
- » Custom-tailored proactive loan proposals are offered via Internet Banking; the structure allows quick disbursement of loans up to TL **15,000**.

- » An infrastructure was introduced whereby customers receive the relevant campaign code through text messages and emails when they satisfy the conditions of a given campaign.
- » Summary/Yield Tracking/Position and Yield Tracking steps on Internet Banking allow customers to monitor their assets deposited at Garanti, as well as the returns thereon for a selected period and in terms of the selected currency (TL, USD or Euro).
- » SME natural and legal person customers using Personal Internet Banking can now perform Same Day Value Swift transactions. They can also visit any branch to get the Customs Letters automatically produced following cash Import Transfer transactions.
- » Customers can unblock the amount on their merchant partner POS terminals using Personal or Corporate Internet Banking. They can also transfer the blocked amount on their POS devices to a demand deposit and monitor the status of transactions requested to be unblocked.

Mobile Banking

- » iPhone and iPad applications have been completely revamped based on Flat Design norms and new performance features of iOS8, in an effort to ensure a more clear-cut presentation of the contents to users.
- » Device Pairing function matches the device with the user, who can then log in to the app just by punching in the password, and makes Mobile Banking login securer and faster. Enabled with the latest update, device pairing brings saving as it allows a transition to token-based authentication instead of the operator-dependent SMS OTP, which heightens the security level and reduces login costs.
- » Remember Me function allows users to log in to Mobile Banking by entering their password only without having to re-enter their customer number, if they choose to do so.

- » Notifications are sent to customers from Mobile Banking for proactive information provision purposes. These notifications can also be accessed from Mobile Banking login and home pages.
- » English language support has been added to Mobile Banking.
- » The new feature introduced in 2015 to the Money Withdrawal with QR Code from Paramatik ATMs capability added this transaction to Mobile Banking login page, thus allowing much quicker execution. Moreover, users can withdraw money without entering their passwords thanks to the device pairing function.
- » Garanti has become **the one and only** bank offering iTunes Code in Turkey. Customers can purchase iTunes Code from Mobile Banking and Internet Banking, and use the code to buy music, films, apps and more from Turkey iTunes Store and AppStore.

Alo Garanti

- » Upon calling Alo Garanti, customers defined as Speech Impaired Clients on the Bank's system are greeted by the DTMF (dial) menu instead of Voice Steering, thus having an improved customer experience.
- » Users now have the option to log in by entering their T.R. ID numbers, as an alternative to their customer numbers.

WE REMAIN OUR LEADERSHIP IN MOBILE APPLICATIONS

BonusFlash

Bonus launched BonusFlash, a groundbreaking application in the credit card industry that makes life easier for its customers in November 2015. Setting a remarkable record in its field with more than **300** thousand downloads in the first **2** weeks following its launch, application has reached more than **1** million downloads in less than **3** months. The application can be used on mobile

phones with iOS or Android operating systems, and allows much faster handling of various transactions such as campaign follow-up, card information queries, limit increase requests, debt payments and mobile payments through a single platform. With the application, Garanti Bank customers are able to easily control all of their Garanti debit and credit cards on the same platform. Offering almost the full range of transactions executed with a credit card and providing speed and ease to users, the application additionally analyzes spending habits and suggests the most fitting campaigns for customers with Push notifications. Users can take part in any campaign they choose with a single touch, and instantly follow-up various information including daily spending, available limit and bonus points earned.

Garanti Bank cardholders who have downloaded BonusFlash application can do their online shopping by only punching in their card PINs into their mobile phones. GarantiPay and HCE introduce new generation payment technologies for use by customers. While GarantiPay ensures secure and easy performance of e-commerce transactions, HCE allows users having mobile phones with certain capabilities to make their payments using their mobile phones at member merchants having contactless POS devices, without taking their cards out of their wallets.

WhatsApp

Making daily life easier with its solutions on digital channels and always standing by its customers with its technology, Garanti Bank now reaches its customers with services offered via WhatsApp. A first in the Turkish banking industry, WhatsApp service provides the nearest branch or Paramatik ATM address to WhatsApp users sharing their location data with the Garanti's dedicated line at the number 0530 104 34 33. The service also delivers real-time market data in response to customers' "BIST 100", "USD", "EUR", "GOLD" or "MARKET" IMs sent via the app. Additionally, Garanti Mobile Banking can be easily downloaded with the link sent via WhatsApp.

WE ARE "EVERYWHERE" ON SOCIAL PLATFORMS

- » Based on its principle to "be wherever the customers are", Garanti moves ahead with the target of being active on all platforms. Having a presence on the highest number of social platforms among financial institutions operating in Turkey, Garanti Bank has been the first bank to join new platforms like Line and Snapchat and to carry out creative campaigns thereon.
- » In keeping with the social media actively penetrating our lives, Garanti introduced the feature to log in to garanti.com.tr through social platforms. While this made personalized pages possible, it also enabled matching customers' social media profiles with their Bank profiles.
- » Developing new projects allowing potential and existing customers to transact through social platforms as well, Garanti has become **Turkey's first and only** bank facilitating direct application to more than **10** products from general purpose loans to insurance products for its Facebook followers via the apps on this platform.
- » Through the Facebook app Automik, Garanti authors a first in Turkey and helps its users find the cars best fitting their needs, and also extends the necessary support for the purchase of these cars. Using the app, a user can reach the dealer selling the specific car, while capturing the chance to file an application for the auto loan at favorable rates and for car own-damage insurance products.

WE CARE ABOUT SUSTAINABILITY

- » Recognizing the urgency of Turkey's transition to low-carbon economy, Garanti has been **the one and only Turkish bank** to declare its "Climate Change Action Plan" in 2015. Garanti's pledges in this statement, which include carbon pricing, renewable energy financing, reducing deforestation, establishing green office standards and managing water risks, will significantly contribute to achievement of Turkey's COP21 goals and UN Sustainable Development Goals.
- » In an effort to enhance awareness of water risks facing Turkey, Garanti has become the major sponsor of the CDP

Water Program, and launched this platform that will reveal water-related risks and opportunities for the private sector by early 2015. Garanti has also taken place among the initial **15** respondent companies to CDP Water Program in Turkey.

- » Striving to support Turkey's fight against climate change and to present solutions for risks such as drought, Garanti introduced the "Agricultural Irrigation Systems Loans" for financing efficient irrigation equipment in the first quarter of 2015. Turkey's largest solar irrigation system has been funded under this loan.
- » Garanti expanded ISO14001 Environmental Management System to cover **100%** of its operations in Turkey.

WE ARE WORKING TO STRENGTHEN OCCUPATIONAL HEALTH AND SAFETY

- » Garanti launched Turkey's first Occupational Health and Safety (OHS) software and rolled it out in all locations. With the software, Garanti tracks a range of activities including risk assessment, health monitoring, training, OHS Committees, near misses, work accidents, review of occupational illness processes, and coordination and control of measures. The company aims to use these outputs to enhance employee and stakeholder satisfaction and well-being.
- » In addition, Garanti keeps organizing innovative and need-based training programs that transcend national regulatory requirements in the field of OHS, as well. Two examples are "Correct Use of Voice" training for groups heavily using their voices such as Call Center agents and Internal Trainers, and "IOSH Managing Safely" training attended by the Construction Department Project Leaders team.

WE REMAIN AS THE SOLUTION PARTNER OF THE SMEs

- » Further enlarging our products and services contributing value to the SMEs, we have introduced GarantiTeknosor service. With GarantiTeknosor technological consulting service, customer and non-customer SMEs can seek technical support for frequently used electronic devices such as computers, printers, mobile phones, tablet computers and the like by filling out the relevant form on garanti.com.tr.
- » Giving SMEs with the potential to attract investment and to grow, and early startups of any scale and sector access to mentoring and financial support, GarantiPartners Accelerator Program was introduced jointly with a business angels investors network (BUBA).
- » In partnership with the Netherlands Embassy, Garanti carried out a pairing effort to bring Turkish companies together with the Dutch companies engaged in the agricultural industry in advance of the Growtech Fair. This has been the Netherlands Embassy's first cooperation in this context with a bank.

WE ARE SUPPORTING WOMEN ENTREPRENEURS

- » Garanti has become *the first bank from Turkey* to join WeConnect International, a global platform established for incorporating women entrepreneurs in the supply chain. Being the sponsor bank of the W20 initiative that made its debut during the Turkish term presidency of G20, Garanti keeps working in relation to W20 priorities, including improving working conditions of women, their economic empowerment, eliminating workplace discrimination, promoting equal opportunities, ensuring women's easy access to finance, and supporting women-owned enterprises.
- » Garanti cooperated with Prof. Yıldız Ecevit, Head of Women's Studies Department at the Middle East Technical University, for the conduct of "Women Entrepreneurs Research" for profiling women entrepreneurs, which the Bank believes will steer the studies in relation to women entrepreneurship.

WE SUPPORT THE FINANCING OF INFRASTRUCTURE INVESTMENTS

- » With the subordinated junior loan for the financing of an infrastructure project, Garanti has become **the first Turkish bank** allocating funding in such a structure to infrastructure projects.
- » Garanti is accountable for the highest ticket in an **18-year** project finance facility, a first for the Turkish banks, within the frame of an **18-year** long-term structured finance extended to a PPP-based hospital project. With the vision of producing innovative and creative solutions particularly for structured finance products, Garanti undertook a pioneering role in the execution of infrastructure investments.

WE ARE MAKING LIFE EASIER FOR OUR CUSTOMERS THROUGH OUR INNOVATIVE PRODUCTS AND SERVICES

- » Garanti introduced “OSS (One Stop Shop) - 2ND HAND”, a product offering fast and easy financing for second hand vehicle sales and purchases. While customers can easily take out auto loans for their second hand car purchases without paying a visit to the branch with “OSS - 2ND HAND”, dealers get the chance to conclude second hand sales much more quickly.
- » Offering alternative solutions to customers’ financing needs through discount products, Garanti’s recently introduced FC supplier financing allows discounting FC receivables.
- » For customers with international operations and having a global joint payment center, Garanti introduced Garanti Connect, which centralizes cash and liquidity management. Hence, customers can execute their payments via Swift using the bulk file method.

WE SUPPORT INVESTING

- » “SMART Funds”, which are managed on the basis of diversified asset strategy in domestic and international markets with a brand new investment approach, have been launched in April 2015 and reached a volume of more than TL **100** million.
- » Initiated in 2012 for bringing the gold coins kept at homes back into the financial system, gold collection days started to be held on Saturdays as well.

WE STAND BY THE RETIREES

- » Taking digital trends and customer needs into consideration, Garanti Pension revamped its internet branch, vesting it in a design enabling logging in from all desktop computers and mobile devices. Entailing numerous firsts in the sector with its features, the internet branch also allows logging in by entering Garanti Bank customer data.
- » Recreating the experience of the “Process of Retiring”, a key moment in the path to retirement, Garanti Pension formed the “Retirement Services” team furnishing service specifically to these customers. Offering advisory for retirement options to customers who are nearing the time of retirement entitlement, the team stands by the customers at this important moment in their lives for presenting them with a special experience.
- » Steering its activities in accordance with the “Customer First” notion, Garanti Pension, in 2015, introduced the “Sapphire Service” tailored for top-segment clients and offering proactive service. Within this context, the “Sapphire Customer Care Line” went live, which offers service exclusively to Sapphire customers and which gives them quick reach to designated customer representatives.

Keeping a close eye on digital trends and aiming to reach different target audiences through different channels, Garanti Pension authored firsts in the sector:

- » Garanti Pension presented **the first private pension plan** specifically designed for the social media. The advantageous “Social PPS” plan accepting applications only via Facebook made up a new channel of service to potential customers.
- » Watching digital trends closely and aiming to reach different target audiences through different channels, Garanti Pension made the **sector's first broadcast on Periscope**. Airing various hobby events such as sailing and cooking live with its program partners within the scope of the Hobby Clubs initiative, Garanti Pension will keep broadcasting various activities from different fields on this media from time to time.
- » Realizing another first in the sector, the company put into life Twitter talks. Responding to questions about private pension, private pension funds and hobbies, Garanti Pension carries on with enjoyable talks on different contents.
- » Garanti Pension opened an Instagram account, which was heavily used for promoting Hobby Clubs’ activities.

**GOING
FORWARD
TOGETHER WITH
THE SME'S**

Garanti values penetration of SMEs to broader markets, and their acquiring competitive and productive characteristics through technology. With long ongoing efforts to support the SMEs, Garanti has become the first private bank in Turkey in 1996 to launch an SME support initiative under the business owner package.

“The people who get on in this world are the people who get up and look

*and,
em.”*

The backbone of the economy, engine of growth, driver of employment, the cornerstone of economic and social development... These are all metaphors used not just in Turkey, but in many developing countries to underline the significance of SMEs.

A look at the SMEs by numbers proves these metaphors only right.

Based on TurkSTAT “Small and Medium-Sized Enterprises Statistics” of October 2014, **SMEs constitute 99.8% of all enterprises in Turkey**. SMEs were responsible for 56.4% of exports and 37.8% of imports in 2014. According to foreign trade by country groups, the proportion of exports to European Countries and Asian countries was 48.1% and 35.5%.

It is not very different in other parts of the world, either. SMEs make up 99.9% of all enterprises in North Korea and in U.K. A substantial portion of employment is created by the SMEs in many countries. They employ 53% of the work force in the US, 79% in Germany and 87.7% in North Korea. There are 1.3 million SMEs in India. SMEs carry out 40% of India’s exports. Italy’s effectual “Made in Italy” attempt by the SMEs is a success story with respect to upgrading the country’s economic strength.

WE GROW TOGETHER

Hence, SMEs make up a crucial asset that serves as the engine of growth, drives employment and exports, and also takes on half of the investments.

Garanti has long been working to support the SMEs. Garanti has become the first private bank in Turkey in 1996 to launch an SME support initiative under the business owner package. ***Total cash loans extended to SMEs by Garanti today amounts to TL 20 billion.***

Garanti aims to reach out to a higher number of enterprises and increase the number of campaigns that will contribute to their sustainability through special projects tailored for tradesmen and SMEs operating particularly in Anatolia. Being a bank striving to support the SMEs in every aspect based on a holistic approach, Garanti identifies the diverse needs of SME's in a bid to expand its focus beyond credit support.

Garanti values penet

*"The people who get on in this world
are the people who get up and look
for the circumstances they want, and,
if they can't find them, make them."*

George Bernard Shaw

SUMMARY OF THE BOARD OF DIRECTORS' ANNUAL REPORT

2015 has been a year of continued volatility in the financial markets due to the uncertainties relating to global monetary policies and concerns over growth. The slowing trend ongoing since 2014 in global economic activity persisted in 2015, in a more pronounced fashion particularly in China and some other emerging countries. The weak global economic activity led to declines in commodity prices. In this period, emerging countries were significantly influenced by the fluctuations. While portfolio flows towards these countries were feeble, exchange rate volatility remained high.

The repercussions of the tides in global markets were also observed on the Turkish economy in 2015. The uncertainties stemming from the renewal of elections, coupled with the increased geopolitical tensions led to fluctuations in financial indicators. In this period, the Central Bank of the Republic of Turkey (CBRT) maintained its tight monetary policy stance in view of the inflation outlook, and took steps to support financial stability and to balance FC liquidity. On another hand, Turkey's economic performance remained resilient and closed in on its potential in this period that both external and domestic financial markets were challenged.

In 2015, the Turkish banking sector was still repressed by the regulations, in addition to the volatility resulting from global and macroeconomic uncertainties, combined with geopolitical and political developments. In a year of tough market conditions, Garanti once again proved its ability to perform strongly under any market condition. The primary contributors to this performance included the comfortable liquidity level, focus on disciplined and selective growth, emphasis placed on risk-return balance, successful margin management, capability to generate the highest customer-driven revenues, and sound solvency.

Garanti sustained its leadership in branch efficiencies in 2015, while continuing with investments in delivery channels, giving the priority to easy and instant access to its banking services from all channels and aiming to offer an embedded banking experience to customers. At the end of 2015, Garanti was serving more than **13.9** million customers through a robust distribution network covering nearly **1,000** branches, **4,504** ATMs, Turkey's largest financial Call Center, and state-of-the-art mobile and internet banking platforms. Possessing a massive payment systems infrastructure consisting of over **18** million debit and credit cards, and **601,000** POS terminals, Garanti manages

Turkey's largest merchant network via its innovative products and services.

Garanti's total assets increased by **16%** year-over-year in 2015, and reached TL **280** billion. As Garanti focused on customer-driven asset growth, the share of lending to total assets surpassed **60%**.

In 2015, Garanti displayed a disciplined and moderate expansion in its lending. Cash loans increased by **19%** on an annual basis. TL loans were the key driver behind the loan expansion of Garanti. While TL loans increased by **18%** on an annual basis, this growth figure went above the budget target set at the start of the year. TL business banking loans grew nearly **30%** in 2015, leading the TL loan growth. Garanti maintained its focus on retail loans, which create high yields as well as cross-sell opportunities. Registering growth rates of **21%** in mortgage loans and **19%** in auto loans, the Bank further cemented its leading position in total consumer loans, mortgage loans and auto loans. Garanti consolidated its pioneering position in payment systems, backed with its command of the largest merchant network and its leadership in the use of commercial credit cards. The ongoing domestic and overseas volatilities and uncertainties in 2015 led to the postponement of some investments that were expected to be launched during the year to coming periods, and as such, prevented the targeted growth in FC lending from materializing. However, in 2016, we are anticipating positive support to the FC loan growth in the form of project finance and investment loans from these investments, which are intended to be rolled out in the coming periods.

Garanti's asset quality was further strengthened with the proactive approach pursued with an eye on potential changes in global circumstances in risk assessment. In keeping with the projections of early 2015, the NPL ratio was registered as **3.2%** and NPL coverage ratio as **76%**. Solid collection performance eased the negative effect of new NPL inflows.

Garanti preserved its liquid balance sheet composition in 2015. Funding base of the Bank is dynamically managed and continued to be largely composed of deposits. The growth in customer deposits, at **18%**, was aligned with the loan expansion in 2015. Garanti deliberately avoided pricing competition in line with the priority placed on effective cost management, and chose to base the expansion in deposit base on sustainable banking relationships. Demand deposits grew by more than **20%** on an

annual basis and their share to total deposits went above **24%**. Garanti kept diversifying its funding structure by actively tapping alternative funding sources, with the aim of managing asset-liability duration gap and optimizing funding costs.

In 2015, Garanti kept taking successful steps, placing sustainable growth and profitability in its focus. The Bank pursued operations by further strengthening its solid capitalization on the back of internal funds created. Garanti maintained its capital ratios, which are Basel III compliant, at strong levels in spite of the significant depreciation in Turkish lira, the dividend payout during the reporting period, continued repressive effects stemming from regulatory requirements, and the negative effect originating from the market value changes in securities due to the volatile markets. At **13.5%**, the capital adequacy ratio stayed well above the minimum regulatory ratio of **8%** and of the recommended ratio of **12%**. At Garanti, common equity corresponds to **95%** of total shareholders' equity. With a common equity Tier I ratio of **12.9%** at year-end 2015, Garanti boasts the highest core capital ratio in the sector.

Garanti's recurring strong performance comes not as a result of ad-hoc steps, but of a long-lived and well-planned journey. The differentiating business model of Garanti supports the continuity of its successful performance. On the back of dynamic balance sheet management, Garanti successfully broadened its net interest margin, preserved its solid net fees and commissions base, and effectively managed its operating costs by maintaining its focus on efficiency even in a challenging year dominated by economic uncertainties and volatilities, and of ongoing repressive effects of regulations upon banking revenues. Garanti registered a return on average equity (RoAE) of **14.5%** and a return on average assets (RoAA) of **1.6%**, excluding nonrecurring items.

Garanti does not limit its activities to banking services only; the Bank pursues its operations with the goal of contributing real value to the society, constantly building on these values, and launching sustainable initiatives.

2015 was the scene to intensified global efforts in the areas of sustainable development and climate change. In its Climate Change Action Plan released in October 2015, Garanti concentrated its support to efforts in this area under the four main headings of carbon pricing and prioritizing renewable energy investments, reducing deforestation, managing water risks through climate change adaptation, and establishing green office standards. It has also become the first Turkish bank to become a signatory of the Caring for Climate (C4C) initiative encouraging private sector action against climate change, and the Business Leadership Criteria on Carbon Pricing, both led by UN Global Compact.

The total amount of financing Garanti has made available to renewable energy investments topped USD **4** billion at the end of 2015. The Bank preserved its **35%** market share in Turkey's installed wind power capacity. The new loan product designed to encourage efficient irrigation systems in the agricultural industry is lifting the Bank's support to climate change mitigation to a new level. Due to the Bank's approach of adaptation to the impacts of climate instabilities on water cycle, Garanti was presented in the UN components' report entitled "The Business Case for Responsible Corporate Adaptation: Strengthening Private Sector and Community Resilience" as the only Turkish company and as being one of the **2** banks in the world.

Garanti Anatolian Meetings, whereby the Bank offers guidance to the SMEs and share suggested solutions on the basis of sectors and provinces, entered its **13th** year in 2015. To date, **100** meetings were held in **68** provinces including the **3** cities, namely Muş, Kocaeli and Uşak, visited in 2015.

Garanti has reached out to **6,662** women through Women Entrepreneurs Meetings co-organized with the Women Entrepreneurs Association of Turkey (KAGİDER) since 2008 with the objective of supporting participation of women in economy and empowering women entrepreneurs in developing economies such as Turkey.

Based on its commitment to creating permanent value, Garanti initiated a new project in 2015 as part of its efforts in the field of education. Collaborating with the Educational Volunteers of Turkey (TEGV), the Bank began sponsoring the educational program "Math and Science Learning with Fun". It is intended to reach approximately **100** thousand children in the course of **3.5** years with this program, which will be offered at TEGV locations in **37** provinces in Turkey.

In 2015, **19** exhibitions showcased at SALT Galata, SALT Beyoğlu and SALT Ulus under the roof of SALT, a gift from Garanti to Turkey's cultural and intellectual life, attracted **508,594** art lovers. On the other hand, the Bank hosted almost **41,000** music enthusiasts in **79** concerts organized in 2015 within the frame of "Garanti Jazz Green" sponsorship that has been ongoing for **18** years with the motive of sharing jazz music with large audiences.

Garanti has been the main sponsor of the Turkish National Women's Basketball Team and the Turkish National Men's Basketball Team for **15** years. A total of **55** thousand students received basketball training in **81** centers at 12 Giant Men Basketball Schools that the Bank has been supporting since 2002. Garanti Bank's efforts to contribute to the social life of individuals with disabilities continued with its support to wheelchair basketball.

Based on the “Disabled-Friendly Banking” notion, Garanti Internet Banking and Mobile Banking were rendered accessible to visually impaired customers with the use of software that can read out screen content. The project “İşe Katıl Hayata Atıl” (Join the Workforce Join Life), which Garanti has launched under the patronage of the Ministry of Family and Social Policies in a bid to help people with disabilities gain professional skills and to create employment opportunities for them, continued and further expanded in 2015.

In the past years, open communication and cooperation with stakeholders has been a major contributor to constant improvement of Garanti’s sustainable banking vision by keeping it dynamic. On the back of people-oriented systems devised along these lines, advanced risk management concept and all of its endeavors exhibiting the value the Bank attaches to the society, Garanti became the only Turkish company to qualify for the Dow Jones Sustainability Index, one of the world’s most prestigious sustainability indices, in 2015. This offered further evidence that Garanti has embedded sustainability throughout the entirety of its banking operations.

Also in the period ahead, Garanti will be making decisions with an eye on the needs of future generations, and will keep fulfilling its share of the responsibility for a sustainable future. The Bank will move ahead with its vision of being the best bank in Europe, while remaining adhered to the outlines of its existing strategy.

Sincerely,

BOARD OF DIRECTORS

BOARD OF DIRECTORS

FERİT F. ŞAHENK

Chairman

Ferit F. Şahenk is the Chairman of Doğuř Group and Garanti Bank. Formerly, he served as the founder and Vice President of Garanti Securities, CEO of Doğuř Holding and Chairman of Doğuř Otomotiv. COMMITTEES AND COMMITTEE MEETINGS ATTENDANCE

There are a number of committees set up at the Bank to fulfill the supervisory function. The Board of Directors oversees and audits the entire Bank via the Credit, Remuneration, Corporate Governance, Audit and various risk management committees. The committees organized under the Board of Directors are Credit, Audit, Corporate Governance and Remuneration committees. In addition, the following committees have been established at the Bank within the frame of risk management activities: Risk, Liquidity Risk, Credit Risk, Market Risk, Operational Risk, Asset Allocation, and Credit Portfolio Management and Collection committees. In addition to those, three main committees focused on employees, customers and business models were set up at Garanti Bank as of October 2015: Employee Satisfaction Committee, Customer Satisfaction Committee and Business Model Committee.

Apart from these, there are committees whose members are composed of the Board of Directors members (Garanti Assets & Liabilities Committee, Sustainability Committee, Weekly Review Committee, Consumer Committee, Integrity Committee, etc.) and/or the Bank's executives (Disciplinary Committee, Cost Management Committee, Personnel Committee and Information Security Committee, etc.).

CREDIT COMMITTEE

In accordance with the Banking Law, the Board of Directors of Garanti Bank has delegated a certain amount of its loan allocation authority to the Credit Committee. The Credit Committee holds weekly meetings to review appropriate loan proposals from among those sent by the branches to the Head Office but exceed the loan authorization limit of the latter. The Credit Committee reviews these loan proposals and decides on those that are within its authorization limits, and submits those others it deems appropriate but are outside of its authorized limits to the Board of Directors for finalization.

In 2015, the Committee held 43 meetings with the required quorum.

Committee Members

*Maria Isabel Goiri Lartitegui*¹ (Board Member), *Jaime Saenz de Tejada Pulido*³ (Board Member), *Javier Bernal Dionis*² (Board Member), *Manuel Pedro Galatas Sanchez Harguindey* (Independent Board Member), *Ali Fuat Erbil*⁴ (CEO, Board Member)

AUDIT COMMITTEE

Committee Activities

The Audit Committee was set up to assist the Board of Directors in the performance of its audit and supervision functions. The Committee is responsible for:

- » Monitoring the effectiveness and adequacy of Garanti Bank's internal control, risk management and internal audit systems; overseeing the operation of these systems and accounting and reporting systems in accordance with applicable regulations, and the integrity of resulting information;
- » Conducting necessary preliminary evaluations for the selection of independent audit firms, appraisal and support services providers, and regularly monitoring their activities;
- » Ensuring that the internal audit functions of consolidated entities are performed in a consolidated and coordinated manner;
- » Establishing the audit and control process that will provide the necessary assurance for the adequacy and accuracy of ICAAP.

In 2015, the Committee held 10 meetings with the required quorum.

Committee Members

*M. Cüneyt Sezgin, Ph.D.*⁵ (Independent Board Member), *Manuel Pedro Galatas Sanchez-Harguindey*⁶ (Independent Board Member)

CORPORATE GOVERNANCE COMMITTEE

The Corporate Governance Committee was established in February 2013 to also fulfill the functions of the Nomination Committee in accordance with the Regulation on the Banks' Corporate Governance Principles published by the Banking Regulation and Supervision Agency (BRSA) and the defunct Corporate Governance Communiqué on Determination and Implementation of Corporate Governance Principles published by the Capital Markets Board of Turkey (CMB). The Committee is responsible for monitoring the Bank's compliance with corporate governance principles, undertaking improvement efforts, nominating the independent board members, and offering suggestions to the Board of Directors.

Committee Activities

Within the frame of the CMB Communiqué no. II-17.1 on

Corporate Governance that is currently in force, the Committee:

- » Monitors whether corporate governance principles are implemented at the Bank, determines the grounds for non-implementation, if applicable, as well as any potential conflicts of interest arising from failure to fully comply with these principles, and presents suggestions to the Board of Directors for the improvement of corporate governance practices;
- » Oversees the activities of the Investor Relations Department;
- » Evaluates the proposed nominees for independent Board membership, including those of the management and investors, considering whether the nominees fulfill the independence criteria, and presents its assessment report to the Board of Directors for approval;
- » Makes an assessment for election of independent members to the seats vacated due to a situation that eradicates independence and the resignation of a Board member who loses his independence, so as to re-establish the minimum number of independent Board members through temporarily elected members serve until the immediately following General Assembly Meeting to be held, and presents its written assessment to the Board of Directors;
- » Works to create a transparent system for the identification, evaluation and training of nominees who are appropriate for the Board of Directors and managerial positions with administrative responsibility, and to determine related policies and strategies;

“Constantly supporting” women entrepreneurs!

Since 2006, Garanti addresses women entrepreneurs, the new power of national economy, as a separate segment. The first private bank undertaking initiatives regarding women entrepreneurship, Garanti created its Women Entrepreneurs Support Package the same year.

“It all starts with an idea

“Don’t be afraid of

*“Have faith and ambition.”
Oprah Winfrey*

According to KOSGEB (Small and Medium Enterprises Development Organization) data, 14% of microenterprises and 18% of SMEs in Turkey are being run by women. The number of women entrepreneurs is rising rapidly. The number of women bosses shot up by 42% in the past five years. The next five years are expected to see 5 million new women entrepreneurs.

Since 2006, Garanti addresses women entrepreneurs, contributors to the national economy, as a separate segment. The first private bank undertaking initiatives regarding women entrepreneurship, Garanti extends support under the headings of financing, information and encouragement. In terms of financing support, Garanti created the *Women Entrepreneurs Support Package*. Loans allocated to women entrepreneurs since 2006 amounted to TL 2.8 billion. In terms of information support, the Women Entrepreneurs Executive School was established in collaboration with Boğaziçi University, and Women Entrepreneurs Meetings were held. For encouragement, *“Turkey’s Woman Entrepreneur Competition”* is being organized since 2007.

The survey supported by Garanti was conducted under the coordination of Professor Yıldız Ecevit from the Middle East Technical University’s (METU) Women Studies. The survey showed the most important problems women faced while setting up a business were finding financial capital, dealing with the civil service, being a women and finding a balance between work and family duties.

*“Make perfection your norm.”

Constantly supporting women entrepreneurs

Being the first Turkish bank to become a signatory to UN Women's Empowerment Principles, Garanti gave momentum to initiatives supporting women's participation in social and economic life, and constantly supports women entrepreneurs through Turkey's Woman Entrepreneur Competition, Women Entrepreneurs Meetings and Women Entrepreneurs Executive School, besides financing support. Through "I Am In" project run by Genç Hayat Foundation that it sponsors, Garanti aims to increase employment of Girls' Technical and Vocational High School teachers and students, and promote their involvement in social life. The Pixies of the Court and National Women's Wheelchair Basketball Team sponsorships represent Garanti's social contribution to women.

While the outlook in the world is slightly better than in Turkey, there is not a huge gap. You can count on the fingers of one hand the number of women ranked among the world's most successful/powerful/creative entrepreneurs.

Inc.com recently summed up the keys to success for the following successful women entrepreneurs to inspire women around the world: Anita Roddick (The Body Shop Founder), Sara Blakely (Spanx Founder), Coco Chanel (Founder), Estee Lauder (Founder), Debbi Fields (Mrs. Fields Cookies Founder), Mary Kay Ash (Mary Kay Cosmetics Founder), Ruth Handler (Barbie Doll Creator), Mary Katherine Goddard (Publisher), Martha Stewart (Martha Stewart Living Chairwoman), Oprah Winfrey (Producer), Arianna Huffington (Huffington Post Founder), Tory Burch (Fashion Designer), Angie Hicks (Angie's List Founder).

Since 2006, Garanti has been a member of national economic development initiatives and created its Women's Empowerment

"It all starts with an idea. Get creative."

RISK MANAGEMENT POLICIES

RISK MANAGEMENT AND INTERNAL AUDIT ORGANIZATION

At Garanti Bank, risk management, internal audit and control activities are carried out in compliance with applicable legislation and independent of executive functions through an organization that reports to the Board of Directors.

The Board of Directors is ultimately responsible for establishing and ensuring effective functioning of risk management, internal audit and internal control systems and for establishing, implementing and maintaining risk management and internal audit strategies and policies that are compatible with Garanti Bank's capital and risk level.

In accordance with the importance given to corporate governance principles, the Audit Committee carries on with its activities in order to ensure performance of the audit and supervision functions of the Board of Directors.

The Audit Committee receives information from the units set up under internal control, internal audit and compliance systems, as well as from the independent auditor, with regard to performance of their activities. The Committee confirms that adequate methods are in place to identify, control and monitor Garanti Bank's risk exposure and regularly informs the Board of Directors of its activities and their results.

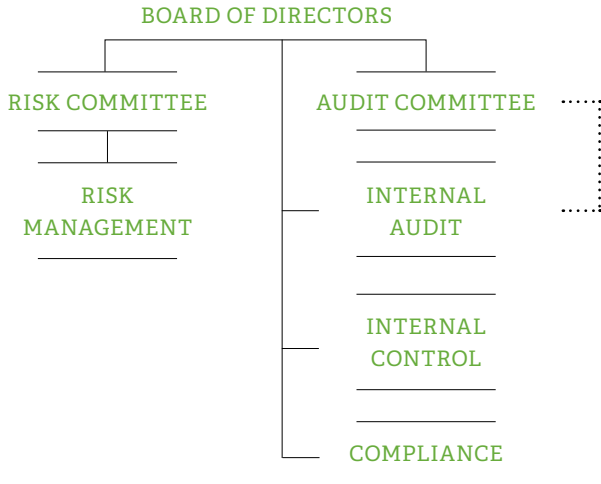

The Audit Committee also gives its opinion to the Board of Directors regarding activity results of the responsible departments, necessary actions and other issues it deems important for safe conduct of Garanti Bank's activities.

ACTIVITIES OF THE INTERNAL AUDIT DEPARTMENT

The Internal Audit Department audits Garanti Bank's head office units, branches and consolidated subsidiaries by evaluating the effectiveness of the internal control systems with respect to the headings mentioned below:

- » Compliance of activities with applicable legislation and internal regulations;
- » Accuracy and reliability of financial and operational data;
- » Effectiveness of asset protection practices;
- » Effectiveness and efficiency of the activities performed in order to reach the defined goals.
- » By way of inquiries and investigations covered among the activities of the Internal Audit Department, fraud, swindling and counterfeiting activities are prevented or noticed, upon which necessary managerial actions are taken immediately.
- » Furthermore, auditing the processes regarding regulatory compliance makes up one of the high-priority activities.
- » The Internal Audit Department performs its activities under the main headings of on-site audits, centralized audits, inquiries/ investigations, and IT audits, financial statement audits, risk management audits conducted by specialized teams. The organizational structure of the Department has been improved so as to realize these activities in the most efficient manner.
- » During on-site audits that cover head office departments, consolidated subsidiaries and other associated companies, regional offices and branches of Garanti Bank, prioritization is carried out in line with the risk-orientation principle and focus is placed on processes.
- » Centralized audits are carried out to determine deficiencies and errors in products, applications and processes, customer complaints are analyzed, whereby hitches in processes and applications are identified and necessary action is coordinated with related parties using remote inspection techniques.
- » Scenario supported analyses and reviews are conducted for detecting and preventing internal misconduct.
- » IT processes, banking processes/applications, support services, subsidiaries and overseas branches are audited by the specialized IT audit team according to the annual audit plan produced based on annual periodic risk assessments.
- » Financial statement audits which measure efficiency of internal control environment within the process of preparation of financial statements are performed in Garanti Bank and consolidated subsidiaries.
- » Within the scope of risk management audits, process-based audits are conducted which take into consideration internal and legal regulations concerning the Bank's basic risk types. These audits cover credit risk, market risk, operational risk implementations, which make up the key components of capital adequacy, as well as regulatory requirements and the Bank's policies.
- » All acts of fraud and internal swindling are examined as part of investigations. The expert team, organized under the Internal Audit Department, works to detect internal misconduct through early warning signals.

» Annual audit plans are prepared by the Internal Audit Department based on a risk-focused approach, and in accordance with the priorities determined by Board of Directors and Audit Committee and with the goals and strategies of Garanti Bank. The assessments based on risk weights and results of previous audits are used to determine the scope and frequency of audits. The plans are prepared to ensure efficient use of existing resources and to maximize the benefit the Bank derives from these activities.

Pursuant to the Regulation on the Internal Systems of Banks and Internal Capital Adequacy Assessment Process issued by the Banking Regulation and Supervision Agency (BRSA), the Internal Capital Adequacy Assessment Process (ICAAP), which covers risk-based capital assessments, is audited within the framework of applicable legislation and internal guidelines.

In accordance with the Regulation on the Internal Systems of Banks and Internal Capital Adequacy Assessment Process issued by the BRSA, parent banking companies are expected to perform the internal audit activities of consolidated entities in a consolidated and coordinated manner. Accordingly, the Internal Audit Department audits the Bank’s consolidated subsidiaries in line with the annual audit plan that considers risk priorities. As part of the audit, important processes of the above-mentioned subsidiaries and financial information provided by the concerned to the parent company are examined. Moreover, the Internal Audit Department coordinates the activities for putting into life the group standards adopted within the frame of internal audit implementations at consolidated subsidiaries.

ACTIVITIES OF THE INTERNAL CONTROL UNIT

The Internal Control Unit ensures that a sound internal control environment is in place at the Bank. Accordingly, this unit handles the necessary coordination in this regard, assuring that the Bank’s activities are performed, efficiently, effectively and in accordance with the management strategy and policies of the Bank and applicable legislation and regulations. In this context, infrastructures are set up to ensure functional separation of tasks, sharing of authorities and responsibilities, establishment of a sound reconciliation system, integration of self-control mechanisms and systemic controls into processes, and identification and monitoring of risks the Bank is exposed to. Internal controllers reporting to the Internal Control Unit perform control activities via centralized and on-site control methods:

- » On-site control covers ensuring the existence and validity of relevant documents and the compliance of transactions with internal and regulatory requirements at branches and Head Office departments selected upon a risk-based assessment.
- » Within the scope of Central Control activities, retail loans, derivatives transactions and customers’ transaction instructions of all branches are examined in a sampling methodology in addition to monitoring the compliance of all of the Bank’s accounting and MIS records. Furthermore, in commercial loans of all branches that have not been included within the scope of on-site control as a result of the risk assessment conducted, agreements, collaterals and documentation are examined in a sampling methodology by the Central Control team in terms of their compliance with the Bank’s procedures and the legislation.
- » Self-assessment is also employed as a method in addition to on-site and centralized controls.
- » Within the frame of investment services that are being redesigned in line with the CMB regulations, internal control unit activities are carried out in accordance with legislative requirements and regulations. Accordingly, Custody Controls performs controls on portfolio and individual custody services. Agreements and documentation related to investment transactions are examined in a sampling methodology in terms of their compliance with the Bank’s procedures and legislation.
- » The IT Controls team, set up within the Internal Control Unit, monitors the secure performance of IT functions in accordance with the guidelines set by the Bank. The team defines internal control steps for IT processes, and subjects the control items so defined to control activities in accordance with the methodology and tools. Findings and systemic deficiencies identified on the basis of control activities are analyzed, the outcomes are interpreted, and new systemic controls are set up.

- » The Internal Control Unit is also assigned with the coordination of disaster recovery and business continuity management at Garanti Bank. Within this scope; in addition to the efforts on maintaining the existing Disaster Recovery and Business Continuity Plan updated, periodical tests are executed with relevant units in order that critical processes in the plan, required back-up systems and alternative working sites are kept ready for resuming activities in a projected period and quality.
- » Findings and recommendations are reported to relevant parties and actions are followed up.

ACTIVITIES OF THE COMPLIANCE DEPARTMENT

Working with the purposes of managing the potential compliance risks of the Bank and of identifying and preventing these risks before implementation, Compliance Department aims to help improve the compliance culture constantly and establish a world-class compliance culture across the Bank. Dealing with six main fields to achieve these goals, Compliance Department carries out the following tasks;

The Compliance Officer performs the following duties as also stipulated by the regulations governing prevention of money laundering and countering the financing of terrorism:

- » Carry out all necessary efforts to achieve Garanti Bank's compliance with the regulations issued to prevent money laundering and countering the financing of terrorism and provide necessary coordination and communication with the Financial Crimes Investigation Board (in Turkish: MASAK),
- » Ensure that the compliance program is carried out; develop policies and procedures within this scope; execute risk management, monitoring and control activities; follow up the results of internal audit and training activities,
- » Lay down the efforts related to the training program about prevention of money laundering and countering the financing of terrorism for the approval of the Board of Directors, and ensure that the approved training program is carried out effectively,
- » Look into and evaluate information on potentially suspicious transactions that he/she receives or becomes aware of sua sponte; report any transaction that he/she deems to be suspicious to the Financial Crimes Investigation Board,
- » Manage relations with relevant governmental or private agencies.

In terms of compliance activities regarding customer products and services, assessments are made on the compliance of products and processes to applicable regulations. Studies are carried out in relation to compliance controls in accordance with the requirements of the Regulation on the Internal Systems and Internal Capital Adequacy Assessment Process of Banks, Article 18. The Control mechanisms in place are monitored and

coordinated with respect to compliance of the Bank's current and planned activities, new transactions and products with the laws, internal policies and guidelines, and banking practices. The processes are monitored for any necessary revisions according to regulatory changes, and related employees are notified on such changes, and opinions are formed prior to implementations of new products and transactions.

With respect to corporate compliance activities, Compliance Department is responsible from promoting awareness of the "Garanti Code of Conduct" document, encouraging its application, ensuring development and dissemination of the procedures to be formed in the context of the Code, helping resolve any doubts that may arise during the interpretation of the document, and managing the Whistleblowing Channel.

Securities compliance activities encompass examination of suspicious transactions within the scope of the Capital Markets Board (CMB) Communiqué on Obligation of Notification Regarding Insider Trading and Manipulation Crimes. In addition, relevant legislation and internal guidelines are also monitored.

With respect to subsidiaries' coordination activities, Compliance Department monitors the compliance activities at the Bank's subsidiaries and overseas branches. In this respect, meetings are held regularly with those who are responsible from the compliance function at the related subsidiaries and overseas branches. In line with the related legislation, by the assignment of an employee at each of the consolidated subsidiaries and overseas branches who are responsible from monitoring the compliance with local regulations, periodic reports are submitted to Compliance Department.

As part of compliance to Personal Data Protection, relevant legislation is monitored and correspondingly necessary policies and procedures are formulated. In addition, bulletins are published and training sessions are performed in an effort to increase the awareness of the subject across the Bank.

In performing all of its duties and responsibilities outlined above, Compliance Department continues to work in coordination primarily with the Internal Audit Department, Internal Control Unit, Training Department, Anti-Fraud Monitoring Department and Legal Department, as well as other relevant units and people.

RISK MANAGEMENT ACTIVITIES

Garanti Bank measures and monitors its risk exposure on consolidated and unconsolidated bases by using methods compliant with international standards, and in accordance with the applicable legislation. Advanced risk management tools are utilized in measuring operational risk, trading risk, asset and liability risk, counterparty credit risk and credit risk.

The Bank's risk management strategy, policies and implementation procedures are reviewed within the frame of regulatory changes and the Bank's needs.

Risk Management handles the preparation of the report on determining the Bank's risk appetite and internal capital adequacy assessment process, which will be submitted to the BRSA, by coordinating the concerned parties. In addition, the stress test report is submitted to the BRSA, which addresses how the potential negative effects on macroeconomic data in Turkey might alter the Bank's three-year budget plan and results within the frame of certain scenarios, as well as their impact upon key ratios including the capital adequacy ratio.

MARKET RISK

Market risk is measured in accordance with applicable regulations, Garanti Bank's policies and procedures, employing internationally accepted methodologies that are aligned with the Bank's structure, and they are evaluated within a continuously improving structure. Market risk is managed by measuring and limiting risk in accordance with international standards, allocating sufficient capital and minimizing risk through hedging transactions.

Market risk is defined as the risk Garanti Bank faces due to fluctuations in market prices in relation to the positions it maintains on or off its balance sheet for trading purposes, and is calculated daily using the VaR model. Value-at-Risk is a measure of the maximum expected loss in the market value of a portfolio of a certain maturity as a result of market price fluctuations, at a certain confidence interval and a certain probability. VaR is calculated using historical simulation method and one-year

historical data at **99%** confidence interval. Regular backtesting is conducted to measure the reliability of the VaR model. The model is validated on an annual basis. VaR limits are determined in accordance with the capital allocation approved by the Board of Directors and dynamically updated depending on changes in the Bank's shareholders' equity. These limits are monitored and reported daily by the Risk Management Department. VaR stood at TL **30** million by the end of 2015 and its average value for 2015 was TL **59.2** million. There was a rise in VaR as compared to 2014. The increased volatility in the markets played a part in the rise in the VaR trend observed in February and June.

VaR does not constitute an important risk for the Bank given the amount of Garanti Bank's shareholders' equity. In order to identify the risks that might arise from major market volatilities, regular stress tests and scenario analyses are conducted using the VaR model.

INTEREST RATE RISK IN THE BANKING BOOK

Duration/gap, economic value of equity (EVE), economic capital (ECAP), net interest income (NII), margin at risk (MaR), available-for-sale (AFS) and held-to-maturity (HTM) portfolios market price sensitivity analyses reports are prepared to determine the Bank's exposure to structural interest rate risk arising from maturity mismatches in its balance sheet. The Assets and Liabilities Committee (ALCO) and the Asset-Liability Management Department use the risk metrics calculated and the reports generated for managing balance sheet interest rate risk.

Stress tests and scenario analyses carried out within the frame of structural interest rate risk are established under a "Stress Test Program" to measure the risks resulting from Bank-

specific negative developments or major risks and vulnerabilities that may potentially arise in the economic and financial environment under stress, and in view of regulatory and internal interest rate risk management requirements. Results of stress tests are used as input for determining risk appetite, limit and budget-related works, generating balance sheet management strategies, and for evaluating the need for capital.

The interest rate risk in the banking book is measured on an unconsolidated basis, using the standard shock method; the regulatory limit is monitored and reported to the Banking Regulation and Supervision Agency (BRSA) on a monthly basis.

LIQUIDITY RISK

Within the framework of risk management policies approved by the Board of Directors, liquidity risk is managed by Asset and Liability Management Department (ALMD) and Assets and Liabilities Committee (ALCO) in order to take appropriate and timely measures in case of a liquidity squeeze arising from market conditions or Garanti Bank's balance sheet structure. As part of the contingency funding plan, Garanti Bank monitors liquidity risk within the scope of early warning signals, stress levels defined according to the possible liquidity risk scenario and severity of the risk, cash requirement that will arise in possible scenarios and actions to be taken at each stress level in a corporate framework. Within early warning indicators, indicators that can be quantified for scenarios determined within stress test and selected indicators within the scope of Bank and market data are monitored on a weekly basis. Liquidity risk is monitored by internal limits in order to assess the funding structure and liquidity capacity based on maturity buckets and manage short term funding sources effectively and compliance with regulatory liquidity ratios is ensured. As part of the liquidity risk stress test, high quality liquid assets and alternative funding sources are assessed by cash flow projections in order to meet liquidity requirements in stress conditions. Core deposit and average life analyses are performed for deposits, which is an important balance sheet item in terms of liquidity management. Concentrations in funding sources are monitored. Daily liquidity management is performed by Asset and Liability Management Department.

CREDIT RISK

Credit risk management is a process for consistently evaluating and monitoring credit risk, and covers all credit portfolios. The internal risk rating models, which were developed for corporate and commercial loans portfolio, have been used in the loan granting process since 2003, and were incorporated into the relevant lending policies and procedures. These models were

developed using statistical methods on historical data, in order to rate customers using objective criteria. Models are used for the evaluation of specialized lendings according to supervisory slotting criteria. The internal risk rating models calculate the probability of default for each client.

Collection performances of non-performing loans in any portfolio are analyzed, and loss given default ratios are calculated in view of the time value of the money and costs incurred for making the collections, on the basis of segments in the case of loans in the phase of commercial collection and on the basis of products and segments in the case of loans in the phase of retail collection. Studies are carried out to predict the level of loss ratios at times of economic downturn period. Limit utilization ratios are examined for corporate, commercial and small enterprises portfolios prior to default, and conversion rates are calculated on the basis of each portfolio. These ratios are used to calculate expected loss-based provisions and internal capital requirement. Moreover, under the IAS 39 concerning provision calculation, the impaired portfolio across the Bank is identified and a collective provision calculation is performed. Concentrations are monitored across the portfolio with respect to internal risk ratings, sectors, regions, groups and clients. Risk adjusted return-based limits are determined on the basis of products for retail portfolios, and on the basis of sectors for corporate portfolios across the Bank. In the allocation processes of general-purpose, auto, mortgage, commercial mortgage, home equity, overdraft loans and commercial credit cards and credit card portfolio, which are evaluated under retail and SME lending processes, a union score is utilized, which is a combination of application, behavior and bureau scores. The adequacy of the Bank's internal capital is evaluated with stress tests and scenario analyses conducted. As part of the IRB application to be filed with the BRSA for using internal ratings-based approaches for calculating capital adequacy, work is in progress in a coordinately regarding documentation, infrastructure preparations, corporate governance and usage areas.

Qualitative and quantitative validation are performed in particular for credit risk models and methodologies that are primarily used for capital calculation.

OPERATIONAL RISK

Operational risk is managed on the basis of the three lines of defense approach within the frame of risk management policies approved by the Board of Directors. The Board of Directors is ultimately responsible for the establishment, approval and regular review of operational risk management framework. The Board also determines the risk appetite for operational risk and related limits, and senior management ensures consistent and efficient implementation and maintenance of the operational risk management framework in

relation to all activities, processes and products.

In the first line of the three lines of defense approach adopted for operational risk management, all business lines and departments of Bank take part and manage their operational risks within the frame of the Bank's policies and implementation principles.

The second line of the three lines of defense approach, adopted for operational risk management, support the senior management for understanding and managing operational risk that the Bank is exposed to, and the Board of Directors for monitoring operational risk management activities. The second line of defense consists of the Risk Management Department, Internal Control Unit and Compliance Department. Risk Management Department that takes place in the second line of defense designs measurement and assessment tools (loss data, scenario analysis, risk indicators and self-assessment) as part of operational risk measurement and management, and provides the necessary guidance and coordination for their use. Risk Management Department uses the data obtained by the measurement tools to generate reports. Internal Audit Department, which performs internal audit activities, stands on the last line of the three lines of defense approach for operational risk management. The Internal Audit Department independently reviews all aspects of operational risk management framework.

REPUTATIONAL RISK

The Bank avoids all kinds of transactions and activities that would cause reputational risk in the eyes of legal authorities, customers and other market actors. The Bank pays utmost attention to be beneficial to the society, the natural environment and humanity. Trainings are held with the aim of raising awareness about reputational risk throughout the Bank and encouraging all employees to fulfill their duties and responsibilities.

In order to ensure efficient management of reputational risk across the Bank, it is aimed to preserve and improve the Bank's reputation before the customers, and to minimize the Bank's impact upon the environment. Efforts carried out to this end include monitoring the media, the press and social media platforms with respect to the Bank's reputation and managing potential impacts; ensuring sustainable awareness of compliance with laws and corporate standards, and development of processes that guarantee management of IT/information security and IT-related risks.

COUNTERPARTY CREDIT RISK

Counterparty credit risk strategy, policy and implementation principles are defined in the policy document approved by

the Board of Directors. The Bank carries out measurement, monitoring and limit setting activities for this risk in line with this policy. In 2015, the Bank began using the internal model method (IMM) to measure and report the counterparty credit risk which is currently measured by using Current Exposure Method (CEM) for derivative transactions, repurchase transactions, security and commodity lending as regulatory. Within this scope, the Bank employs risk mitigation techniques through framework agreements (ISDA, CSA, GMRA, etc.), obtaining collateral and complementing margins as part of counterparty credit risk management to the extent allowed by national and international legislation.

OTHER RISKS

The Bank manages country and transfer risk, strategic risk, concentration and residual risks in alignment with the strategies, policies and implementation procedures established.

MANAGERS OF INTERNAL SYSTEMS UNITS AND THEIR NAMES, TERMS OF OFFICE, RESPONSIBILITIES, EDUCATIONAL BACKGROUND AND PROFESSIONAL EXPERIENCE

Ebru Ogan Knottnerus

Ebru Ogan Knottnerus graduated from the Business Administration Department of the Middle East Technical University. She worked as an executive at various privately-held companies and banks between 1991 and 2001. Having joined the Subsidiaries Risk Management Department of Garanti in 2001, Ogan has been serving as Garanti Bank's Risk Management Senior Vice President since 2003.

The responsibilities of the Risk Management Senior Vice President are outlined below:

- » Ensure that risk management culture is recognized and risk management principles are widely embraced throughout Garanti Bank and its subsidiaries,
- » Set up an integrated risk management system measuring risks together, which is in compliance with applicable legislation, and ensure that, by means of this system, Garanti Bank's capital is used in a way to maximize the Bank's value,
- » Determine risk management policies, procedures and implementation principals of Garanti Bank and present these to the Board of Directors via Risk Committee.

Osman Bahri Turgut

Osman Bahri Turgut received his undergraduate degree in economics from Marmara University in 1990. He joined Garanti the same year as an Assistant Auditor, where he subsequently worked as Branch Manager, Assistant Director of the Internal Audit Department, Commercial Loans Senior Vice President, Internal Control Unit Manager and Head of Internal Audit and Control. He currently serves as the Head of Garanti Bank's Internal Audit Department.

He is also a member of the Board of Directors and Audit Committee at Garanti Finansal Kiralama A.Ş. and Garanti Filo Yönetimi Hizmetleri A.Ş.; a member of the Board of Directors and Corporate Governance Committee at Garanti Faktoring A.Ş.; a member of the Board of Directors at T. Garanti Bankası A.Ş. Emekli ve Yardım Sandığı Vakfı and Garanti Kültür A.Ş.; and a member of the Audit Committee at Garanti Leasing SA, Garanti Consumer Finance SA and Garanti Ödeme Sistemleri A.Ş.

The responsibilities of the Head of the Internal Audit Department are outlined below:

- » Set out internal audit policies and procedures and implement these after obtaining the necessary approvals,
- » Conduct the internal audit activities in accordance with the policies and implementation procedures concerning Audit activities and with the internal audit plans,
- » Oversee and guide the supervision, auditing policies, programs, processes and practices of internal audit activities,
- » Verify that Department members possess the qualifications required by their authorities and responsibilities.

Emre Özbek

Emre Özbek received his degree in business administration from Ankara University, Faculty of Political Sciences. He joined Garanti Bank as an Assistant Auditor in 1999. He was appointed as the Assistant Director of the Internal Audit Department in 2007, as the Senior Vice President of the Internal Control Unit in 2009 and as the Head of Internal Audit Department in 2014. Mr. Özbek, who holds CIA (Certified Internal Auditor) and CBRM (Certified Business Resilience Manager) certifications and has 17 years of banking experience, has been serving as the Senior Vice President of the Compliance Department since August 01, 2015.

Mr. Özbek has the following responsibilities in the capacity of Compliance Senior Vice President:

- » Ensure that the Bank's compliance activities are carried out in accordance with applicable legislation and Garanti Bank's goals and policies,
- » Carry out all necessary activities to achieve compliance with the regulations issued in relation to prevention of money

laundering and financing of terrorism, and provide necessary coordination and communication with MASAK (Financial Crimes Investigation Board),

- » Develop the Bank's compliance policies, procedures and training programs in accordance with the legislation and ensure their effectiveness; carry out activities in relation to the identification and notification of suspicious transactions; provide the preparation of statistics on internal audits and trainings and inform MASAK and fulfill the obligation of providing information and documentation to MASAK in conformance with the manner and methods defined by MASAK,
- » Within the scope of compliance controls, ensure the compliance of the Bank's all current and future activities, transactions and products with the Banking Law and other applicable legislation, internal policies and rules, and with banking practices,
- » Develop recommendations for defining and mitigating compliance risks that may arise from regulatory changes,
- » Ensure development of the Bank's Data Protection policies and procedures and coordinate the necessary internal communication and development of training activities,
- » Monitoring the compliance functions of all domestic/abroad affiliates and overseas branches as part of Subsidiary Coordination activities.

Barış Ersin Gülcan

Barış Ersin Gülcan got his bachelor's degree in economics and his master's degree in HR Management from Istanbul University. After starting his career as an Assistant Auditor at Garanti Bank in 1997, he served in the Internal Audit Department for 10 years. During his 18-year experience in the banking sector, he functioned as Compliance Officer and Assistant Head of the Internal Audit Department. He assumed the position of Senior Vice President of Internal Control Unit in March 2014. Mr. Gülcan is a CIA (Certified Internal Auditor) since 2004 and a CPA (Certified Public Accountant) since 2005.

The responsibilities of the Internal Control Unit Senior Vice President are outlined below:

- » Ensure the establishment of the Bank's internal control system in accordance with applicable legislation and Garanti Bank's goals and policies,
- » Collaborate with top management to define the principles and procedures governing the distribution of internal control tasks between operational employees and internal controllers of Garanti,
- » Prepare the annual business plans of the Internal Control Unit and ensure that activities are performed in accordance with these plans,

- » Verify that internal controllers possess the qualifications required by their authorities and responsibilities,
- » Supervise that internal controllers perform their duties in an independent, diligent and unbiased manner.

SUPPORT SERVICES PROVIDERS

Companies providing support services in accordance with the regulation on the provision of support services to banks and the authorization of support service providers are indicated below, together with the type of the service outsourced:

- » **Aktif İletim ve Kurye Hizmetleri A.Ş.:** Credit/debit card delivery.
- » **Atos Bilişim Danışmanlık ve Müşteri Hizmet Sanayi ve Tic. A.Ş.:** Card sales, business place verification, CPP calls (calls for informing customers whose cards are closed and renewed due to security concern), limit increase, address update and persuasion calls, and other calls via the Call Center
- » **Austuria Card Turkey Kart Operasyonları A.Ş.:** Card embossing and personalization services.
- » **Brink's Güvenlik Hizmetleri A.Ş.:** Cash delivery within the scope of Law No. 5188.
- » **Callpex Çağrı Merkezi ve Müşteri Hizmetleri A.Ş.:** Card sales, delivery, recovery, debt notification and reminder calls via the Call Center, data entry and filing of requests received from the customers and informing the customers on the outcomes of their requests.
- » **CMC İletişim Bilgisayar Reklam ve Danışmanlık Hizmetleri San. Tic. A.Ş.:** Card sales, instruction verification, delivery and recovery calls via the Call Center.
- » **Collection Platform Yazılım ve Danışmanlık A.Ş.:** Call center/debt notification/reminder calls.
- » **Crif Alacak Yönetim ve Danışmanlık Hizmetleri A.Ş.:** Call center/debt notification/reminder calls.
- » **Der Pos Ödeme Sistemleri ve Pazarlama Tic. Ltd. Şti.:** Merchant acquisition, demand collection, document delivery to the Bank.
- » **Doksanaltı İnternet Danışmanlık Hizmetleri ve Tic. Ltd. Şti.:** Online marketing of mortgage products.
- » **Enuygun Com İnternet Bilgi Hizmetleri Teknoloji ve Tic. A.Ş.:** Online marketing of mortgage products.
- » **Fonoklik İletişim Hizmetleri ve Ticaret A.Ş.:** Credit card campaigns marketing.
- » **FU Gayrimenkul Danışmanlık A.Ş.:** Pledge formalities at the land registry offices.
- » **Garanti Hizmet Yönetimi A.Ş.:** Carrying out the operational aspects of investment activities.
- » **Garanti Konut Finansmanı Danışmanlık Hizmetleri A.Ş.:** Marketing and consulting services for mortgage products.
- » **Garanti Ödeme Sistemleri A.Ş.:** Marketing, promotion, product development and consulting services related to payment systems, primarily debit and credit cards.
- » **Global Bilgi Pazarlama Danışma ve Çağrı Servisi Hizmetleri A.Ş.:** Call center/debt notification/reminder calls.
- » **Güzel Sanatlar Çek Basım Ltd. Şti.:** Check printing.
- » **Hangisi İnternet ve Bilgi Hizmetleri A.Ş.:** Online marketing of mortgage products.
- » **IBM Global Services İş ve Teknoloji Hizmetleri ve Tic. Ltd. Şti.:** Disaster recovery center back-up service.
- » **Ingenico Ödeme Sistem Çözümleri A.Ş.:** POS software development and upgrading services.
- » **Iron Mountain Arşivleme Hizmetleri A.Ş.:** Archiving service.
- » **Karbil Yazılım ve Bilişim Teknolojileri Ticaret Ltd. Şti.:** Cash register POS software development and upgrading services.
- » **Kayragrup Pazarlama Danışmanlık ve Destek Hizmetleri Tic. Ltd. Şti.:** Merchant acquisition and credit marketing at car dealers, demand collection, document delivery to the Bank.
- » **Konut Kredisini Com Tr Danışmanlık A.Ş.:** Online marketing of mortgage products.
- » **Kurye Net Motorlu Kuryecilik ve Dağıtım Hizmetleri A.Ş.:** Credit/debit card delivery.
- » **Loomis Güvenlik Hizmetleri A.Ş.:** Cash delivery within the scope of Law No. 5188.
- » **Matriks Bilgi Dağıtım Hizmetleri A.Ş.:** Software/software maintenance/update services.
- » **Sestek Ses ve İletişim Bilgisayar Tek. San. ve Tic. A.Ş.:** Call Center/credit card marketing/forwarding credit card limit increase requests to the Bank.
- » **Start Kredi Finansal Danışmanlık Emlak İnşaat Taşımacılık Gıda Turizm Tekstil Kuyumculuk ve Ticaret Ltd. Şti.:** Online marketing of mortgage products.
- » **Teknoser Bilgisayar Teknik Hizmetler Sanayi ve Dış Tic. A.Ş.:** Informative and demand obtaining calls to merchants via the Call Center.
- » **Tempo Çağrı Merkezi Hizmetleri Tic. A.Ş.:** Call center/debt notification/reminder calls.
- » **Verifone Elektronik ve Danışmanlık Ltd. Şti.:** POS software development and upgrading services.
- » **Verisoft A.Ş.:** Cash register POS software development and upgrading services.
- » **Verkata LLC:** Online marketing of mortgage products.
- » **Win Bilgi İletişim Hizmetleri A.Ş.:** Call center/debt notification/reminder calls.
- » **Yön İnsan Kaynakları Destek Hizmetleri Ltd. Şti.:** Call center service, executive assistant service, data entry.
- » Support services provided by 482 auto dealers for marketing of consumer loans.

IMPORTANT DEVELOPMENTS REGARDING 2015 OPERATIONS

INFORMATION ON SHARE BUYBACKS BY THE BANK

In 2015, the Bank did not buy back its shares.

INFORMATION ON PRIVATE AUDIT AND PUBLIC AUDIT CONDUCTED DURING 2015 ACCOUNTING PERIOD

Pursuant to the applicable legislation, routine audits are conducted by supervisory authorities such as the Banking Regulation and Supervision Agency (BRSA), the Capital Markets Board of Turkey (CMB), the Ministry of Finance, the Undersecretariat of Treasury and the Central Bank of the Republic of Turkey (CBRT). Detailed information about the administrative fines imposed against the Bank in 2015 by supervisory authorities as a result of such audit is provided in the following sections.

INFORMATION ON LAWSUITS FILED AGAINST THE BANK, WHICH MAY AFFECT THE FINANCIAL STATUS AND OPERATIONS OF THE BANK AND THEIR POSSIBLE RESULTS

No lawsuit that may affect the financial status and operations of the Bank was filed against the Bank in 2015.

INFORMATION ON ADMINISTRATIVE OR JUDICIAL SANCTIONS IMPOSED ON THE BANK AND ITS MANAGING MEMBERS DUE TO ANY PRACTICE WHICH ARE CONTRARY TO THE LAWS AND REGULATIONS

During 2015, payments made for administrative fines imposed by regulatory and supervisory authorities against the Bank amounted to TL **89,989,700.75**.

Based on the audit report issued by the inspectors of the Ministry of Customs and Trade within the frame of the Law on Consumer Protection no. 6502 (abolished Law no. 4077), the Provincial Directorate of Trade of the Istanbul Governorship has

imposed an administrative fine against our Bank in the amount of TL **110,110,000**. Our Bank has benefited from the outright payment discount as per Article 17/6 of the Law on Misdemeanors no. 5326, paid the said amount as TL **82,582,500.00** and filed a lawsuit for the annulment of the fine. The litigation is still ongoing.

Based on the audit report issued by the Ministry of Labor and Social Security Labor Inspection Board, Turkish Employment Agency Istanbul Provincial Directorate of Labor and Employment has imposed an administrative fine against our Bank in the amount of TL **4,433,002**.

Our Bank benefited from the outright payment discount as per Article 17/6 of the Law on Misdemeanors no. 5326, paid the said fine as TL **3,324,751.50** and filed a lawsuit for the annulment of the fine. The litigation is still ongoing.

INFORMATION ON REGULATORY CHANGES THAT MAY HAVE A MATERIAL EFFECT ON THE OPERATIONS OF THE BANK

The Law on Consumer Protection no. 6502 which has entered into force on May 28, 2014 and the secondary regulations enforced in 2015 for the implementation of the said Law introduced a number of new rules for banks. Accordingly, updates have been made to our Bank's practices in 2015, which specifically includes the following: issuing a pre-contractual information form containing the terms and conditions of the loan agreements signed between our Bank and consumers; granting the right of rescission to the customers; prior determination of all sorts of fees, commissions and expenses that will be charged to customers besides interest, along with the relevant procedures and principles; and offering our customers a type of credit card for which no fees are charged under annual membership fee or any other name.

On the other hand, the CMB continued to issue supplementary regulations throughout 2015, which prohibited deposit banks from engaging in:

- » Activity of execution of orders regarding stocks and derivative instruments based on stocks and stock indices, and
- » Activity of dealing on own account regarding stocks and derivative instruments based on stocks.

Within the scope of the Regulatory Consistency Assessment Programme (RCAP), which is conducted by the Bank for International Settlements (BIS), Turkey's compliance level with Basel regulations is being assessed as of the last quarter of 2015, assessment report regarding Turkey's compliance level with Basel regulations will be published in 2016. Prior to RCAP, BRSA has published some revisions considering full compliance with Basel regulations in 2015. Major revised regulations are the Regulation on the Measurement and Evaluation of Leverage Levels of Banks, the Regulation on Measurement and Evaluation of Capital Adequacy of Banks and the Regulation on Equity of Banks and Communique on Credit Risk Mitigations Techniques.

According to the Regulation on Measurement and Evaluation of Capital Adequacy of Banks, which was published in the Official Gazette dated October 23, 2015, FX required reserves will be subject to **50%** risk weight, instead of **0%**. The regulation will enter into force as of March 31, 2016.

According to the Regulation Amending the Regulation on Equity of Banks, which was published in the Official Gazette dated October 23, 2015, free provision for possible risks, which is currently under common equity Tier 1, will be excluded from capital calculation. The regulation will enter into force as of March 31, 2016.

Also, guidelines on application and validation process regarding calculation of credit risk with internal rating based approach (IRB) and calculation of operational risk with advanced measurement approach (AMA) have been published. In 2016, pre-application process will start for Banks which are willing to use IRB and AMA, and applications will be conducted independently.

According to the BRSA Board Resolution of December 24, 2015, within the scope of "Procedures and Principles Regarding Countercyclical Capital Buffer Implementation and Profit Distribution by Banks" attached to the BRSA Board Resolution no. 6602 dated December 18, 2012 adopted as per the "Regulation on Capital Conservation and Countercyclical Capital Buffers" published in the Official Gazette numbered 28812 and dated November 05, 2013; countercyclical buffer ratio for Turkey positions will be applied as **0%**, as from January 1, 2016.

As of May 5, 2015, the CBRT started to pay daily interest on reserve requirements, reserve options and current accounts which are kept in US Dollar accounts held by the CBRT, the applicable rate of which will be determined in line with the conditions of the global and local financial markets.

For the purpose of reducing intermediation costs of the banking sector and supporting core liabilities, the CBRT raised the remuneration rate for the required reserves maintained in Turkish liras by **200** basis points in total as follows:

- » **50** basis points as of May 08, 2015,
- » **50** basis points as of September 01, 2015,
- » **50** basis points as of October 01, 2015,
- » **50** basis points as of December 01, 2015.

The CBRT Communiqué Amending the Communiqué on Reserve Requirements published in the Official Gazette dated May 30, 2015, expanded the scope of the liabilities of overseas branches of banks incorporated in Turkey, which are subject to reserve requirements.

AUDIT COMMITTEE'S ASSESSMENT OF THE OPERATIONS OF INTERNAL CONTROL, INTERNAL AUDIT AND RISK MANAGEMENT SYSTEMS

The Internal Audit Department conducted on-site and centralized audits, treasury risk management audits, IT audits and financial statement audits at Head Office units, branches and subsidiaries. Internal audit activities were supported with information technology, which further upgraded the speed and quality, thus keeping operational losses low. Limit, dual control and authorization implementations pertaining to the transactions carried out at branches and units, and the controls integrated into processes contributed to the management of operational risks. The ongoing audit findings were followed up and periodic activities were carried out for resolution of the findings. Scenario studies for suspicion regarding possible internal fraud were revised, and centralized and on-site audits were carried on within this frame. Web-based and on-site training programs on operational risk management for branch managers and staff continued with an expanded scope.

Internal Control Unit continued to carry out periodic on-site and centralized control activities at all branches and in-scope Head Office units and subsidiaries. In this regard, second level control activities were performed regarding the ensuring existence and validity of relevant documents required in loan processes, as well as other operational risks specified in the processes. IT Controls covered IT processes, applications, infrastructures and security systems. Periodic follow-up studies continued for ensuring the remediation of findings determined during the controls. In the scope of Disaster Recovery & Business Continuity Management function, the Internal Control Unit coordinated the efforts throughout the Bank, updated the Business Continuity Management Plan, and periodically repeated business impact analyses so as to identify critical processes and dependencies of the units, organize system tests and coordinate evacuation drills.

Compliance Department continued the management of the Bank's potential compliance risks and to work towards identifying and preventing these risks before implementation. The Department kept supervising and coordinating the compliance of the Bank's ongoing and future activities, new

transactions and products with the Banking Law, applicable legislation, internal policies and rules, and banking practices. With the aim of reinforcing the Bank's consolidated compliance policy, the Department supervised the compliance activities of branches abroad and consolidated subsidiaries, taking steps towards improving compliance awareness and culture; and as part of these efforts, subsidiaries' coordination function was established. Being approved by the Board of Directors, Garanti Code of Conduct entered into force; and within the scope of corporate compliance activities, Compliance Department was appointed as responsible from promoting awareness of this document and from managing the Garanti Whistleblowing Channel. In addition, securities compliance function was established for investment transactions, and examinations were carried out within the scope of the CMB's (Capital Markets Board) "Communiqué on Obligation of Notification Regarding Insider Trading or Manipulation Crimes". On the other hand, as part of compliance activities regarding Personal Data Protection, which is a new function undertaken by the Compliance Department, relevant legislation was monitored and studies were carried out on corresponding policies and procedures. Within the scope of anti-money laundering (AML) and countering financing of terrorism strategy (CFT), studies were carried out to achieve compliance with national and international regulations. Risk management, monitoring and control activities were held effectively by the help of monitoring program. Awareness and consciousness of the employees on anti-money laundering and countering financing of terrorism were increased by the help of in-class trainings, branch visits and web-based training program which is offered throughout the Bank.

The Risk Management Department provided the necessary internal coordination for ensuring regulatory compliance and handled data/software revisions in relation to new regulations. In accordance with the regulations released by the BRSA, ICAAP activities carried out in parallel to the budget process including the Bank and subsidiaries also entailed the stress tests.

With respect to credit risk, risk concentrations in debtors, debtor groups, sectors and regions were kept on regular watch. A closer eye was kept on sectors considered to be risky. For market risk monitoring and managing purposes, internal limits were followed, and potential and worst-case risks that may arise from economic circumstances were evaluated. Warning levels were watched to determine the risk exposure of portfolios, and actions were taken as necessary. The Bank's operation risk level was monitored within the frame of the risk appetite limit created.

In accordance with its duties pursuant to the legislation, the Audit Committee continued to review the effectiveness and adequacy of internal systems, the operation of accounting and reporting systems in line with the applicable regulations, and the integrity of the resulting information, as well as internal audit plans, and continued to overseeing whether the internal audit system covered the Bank's current and planned operations and the risks resulting therefrom. Within this scope, the Audit Committee regularly monitored and evaluated the activities of the internal systems during the course of the year. Furthermore, the Audit Committee continued to carry out the necessary preliminary assessments in the designation of the independent audit firms, appraisal firms and support services providers by the Board of Directors, and to fulfill its functions of overseeing the activities of these firms with which contracts are concluded, and of evaluating the relevant independent audit results. Accordingly, the Audit Committee submitted 27 proposals to the Board of Directors regarding the activities of the Audit Committee, the assessments for the independent audit firms, appraisal firms and support services providers during 2015.

The Audit Committee closely monitored the actions taken by the senior management and subordinate units for the matters established in internal audit reports. The Committee continued to carry out and coordinate the internal audit activities of consolidated subsidiaries in a consolidated manner, and closely watched the effectiveness of subsidiaries' internal systems.

None.

Transactions Accounted for Under Equity Method

Please refer to Note 5.1.8 investments in affiliates.

All Kind of Agreements Signed Like Asset Purchases/ Sales, Service Rendering, Agencies, Leasing, Research and Development, Licences, Funding, Guarantees, Management Services

The Bank has agency contracts with Garanti Yatırım Menkul Kıymetler A.Ş. and Garanti Emeklilik ve Hayat A.Ş. Accordingly, all the branches of the Bank serve as agencies to sell the products of these entities to customers. Agency services for trading of securities on behalf of customers are rendered by the Bank's specialised branches (Investment Centers).

Purchase of equipments for the Bank's internal use are partly arranged through financial leasing.

WE GROW TOGETHER

Turning
entrepreneurs'
dreams
into reality!

Considering it a basic mission and responsibility to support entrepreneurs, Garanti is working to extend financial support to more entrepreneurs, to turn their dreams into reality and to give opportunity to entrepreneurs who will author Turkey's success stories.

In addition to its fundamental responsibility of providing financing, Garanti is also offering support to entrepreneurs during startup for establishing healthy and viable businesses. Believing in the importance of entrepreneurship for economic growth, Garanti regards it as a key responsibility to support entrepreneurial ecosystem..

Garanti compiled all the information an entrepreneur would need along the challenging path of setting up and growing a business in the *"Entrepreneur's Handbook"*.

Garanti collaborated with Boğaziçi University Angel Investors Platform (BUBA) to launch *GarantiPartners*, an accelerator program to support early startups of any scale and sector, the SMEs and growing ventures.

Numerous ventures around the world are coming up with inventions that will change our future with such and similar supports...

He is the new world-leading entrepreneur according to the Time Magazine...Atlantic magazine named him the "greatest inventor alive". Vanity Fair ranked him as the "No. 1 Disrupter in the World".

"It has been reported that 90% of startups fail and without complete confidence in an idea and the determination to do whatever it takes to succeed, an entrepreneur won't make it."

CORPORATE GOVERNANCE PRINCIPLES COMPLIANCE REPORT

SECTION I - STATEMENT OF COMPLIANCE WITH CORPORATE GOVERNANCE PRINCIPLES

Türkiye Garanti Bankası A.Ş. (“Garanti Bank” or “Garanti” or “the Bank”) complies with the corporate governance principles set out by the banking legislation, capital market legislation as well as the Turkish Commercial Code and other related legislations. Garanti Bank pays maximum attention to implement these principles. The Bank accordingly updates its annual reports and website, making them available to its stakeholders. The shareholders may access comprehensive information, get information about the latest developments and activities from the regularly updated Garanti Bank Investor Relations website, and may address their questions to the Investor Relations Department and to the Subsidiaries and Shareholders Service.

As a result of Garanti’s commitment to the corporate governance principles, information about the Bank’s compliance with non-mandatory principles under the Corporate Governance Communiqué numbered II-17.1 is provided under the related headings of this report.

The Corporate Governance Committee was established in February 2013 pursuant to the Regulation on the Banks’ Corporate Governance Principles published by the Banking Regulation and Supervision Agency (“BRSA”) and the Communiqué Serial: IV-56 on the Determination and Implementation of Corporate Governance Principles issued by the CMB, which was effective at the time. The Committee is responsible for overseeing compliance with the corporate governance principles and for ensuring that relevant improvement efforts are carried out in the Bank. In 2015, the Committee held 3 meetings with full participation of its members. The Board of Directors considered that the activities performed by the Corporate Governance Committee in 2015 were efficient, appropriate, adequate and compliant with the relevant legislation. The activities of the Corporate Governance Committee are presented in detail in the Committees section.

On the other hand, Garanti, during 2015, achieved compliance with all of the mandatory principles of the Corporate Governance Communiqué no. II-17.1.

Garanti Bank received its first corporate governance compliance rating score in 2014. Based on the review performed in 2015, JCR Eurasia Ratings (JCR Avrasya Derecelendirme A.Ş.)

revised the overall compliance with Corporate Governance Principles rating score of the Bank from 9.14 assigned on a scale of 10 on December 21, 2014 to 9.20 on December 10, 2015 and upgraded the Outlook from stable to positive. Since the Bank’s compliance scores with the corporate governance principles are above the (7) Threshold Score, Garanti remained within the BIST Corporate Governance Index.

The corporate governance compliance rating score comprises four main sections with different weights as per the CMB’s regulations relevant to this topic. These four sections and Garanti’s compliance levels are as follows: Shareholders (25% weight, scored 9.07/10), Public Disclosure and Transparency (25% weight, scored 9.25/10), Stakeholders (15% weight, scored 9.23/10), Board of Directors (35% weight, scored 9.15/10).

The revised score in 2015 stemmed from Stakeholders (raised from 9.05 to 9.23) and Board of Directors (raised from 9.15 to 9.25) headings. The upgrade in Stakeholders was a result of Garanti’s qualification to be included in the Dow Jones Sustainability Index as the only Turkish company, and increased effectiveness and improved activities of the Occupational Health and Safety Division. The upgrade in the Board of Directors section, on the other hand, was driven by the creation of the separate Corporate Secretariat that offers services to the Board of Directors. In addition, the statement provided the following remark regarding the upgraded outlook: “Moreover, due to the newly established Risk Committee within the scope of the Board, JCR Eurasia Rating was convinced that during the next monitoring period, the risk management activities of the Bank would reach a higher efficiency level; therefore determined the Bank’s outlook as ‘Positive’”.

SECTION II - SHAREHOLDERS

2.1. Investor Relations Division

Pursuant to Article 11 of the CMB Corporate Governance Communiqué No: II-17.1 published in the Official Gazette issue 28871 dated 03.01.2014, the Investor Relations Division that establishes communication between companies and investors needs to be set up, and it must directly report either to the company’s general manager or assistant general manager or to another equivalent director with administrative responsibility. The head of the Investor Relations Division must hold “Capital

Market Activities Advanced Level License” and “Corporate Governance Rating Expertise License”; he/she must be employed as a full-time manager in the company and be appointed as the member of the corporate governance committee. Accordingly, the functions of the Investor Relations Division at Garanti Bank are fulfilled by the Investor Relations Department and Tax Operations Management Department - Shareholders and Subsidiaries Service. As disclosed on the Public Disclosure Platform following the Corporate Governance Committee meeting held in October 2015, Handan Saygın, Senior Vice President of Investor Relations, who possesses “Capital Market Activities Advanced Level License” and “Corporate Governance Rating Expertise License”, has been designated as the Head of the Investor Relations Division and Member of the Corporate Governance Committee.

The Investor Relations Department manages the relations with foreign institutional investors/shareholders, investment firms and rating agencies. The Investor Relations Department is mainly responsible for:

- » Managing relations between foreign/domestic institutional investors/shareholders and the Company, consistently and proactively providing information, responding to written and verbal queries,
- » Participating in investor conferences organized in Turkey and abroad; organizing targeted road shows; making presentations about the corporate structure and financial statements,
- » Managing relations between brokerage houses’ banking sector analysts and the Company, consistently and proactively providing information, responding to their written and verbal queries,
- » Within the scope of public disclosure obligations regarding the depositary receipts trading in international markets, uploading corporate disclosures in English to the relevant platforms,
- » Managing relations with international rating agencies and corporate governance rating agencies, responding to their written and verbal information requests,
- » Handling the entire publishing process of the Bank’s annual and interim reports, including printing and web-based processes, coordinating the compilation of the content in compliance with the related regulations,
- » Managing the contents of Garanti Bank Investor Relations website and the iPad application, making sure that the website covers all the points specified in the Corporate Governance Principles, and keeping the data provided up-to-date.

In addition to satisfying its key responsibilities, the Investor Relations Department, in 2015, performed the following in keeping with its proactive, transparent and consistent communication strategy:

- » Took part in **25** national and international investor conferences held in **12** cities in Asia, USA and Europe with the participation of the administrative team, in addition to one-on-one meetings with **811** international investment funds,
- » Held due diligence meetings with **4** rating agencies,
- » Managed the corporate governance rating process conducted by JCR Eurasia Rating; the distinctive compliance score of **9.14** assigned to Garanti in 2014 was raised to **9.20** and its outlook was upgraded from “Stable” to “Positive” in the report issued on December 10, 2015; with these results Garanti remained within the Borsa Istanbul Corporate Governance Index,
- » Coordinated the work in relation to the questionnaire developed by the Ethical Values Association of Turkey (EDMER); as the result of these efforts, Garanti was honored with the “Most Ethical Company Award” in Ethic Awards of Turkey 2014 (ETİKA) for complying with more than **70%** of the criteria specified for various categories such as reputation management, corporate governance, corporate social responsibility, leadership, innovation, pioneering and compliance,
- » Collaborated and cooperated with the sustainability team, which produced the following results: Garanti has become the only Turkish company named in the DJSI - Dow Jones Sustainability™ Emerging Markets Index. After qualifying to be included in the BIST Sustainability Index and the BIST Corporate Governance Index last year and remaining in both indices based on the reviews conducted during the reporting period, Garanti, by being included in the Dow Jones Sustainability Index, successfully integrated sustainability in all of its activities as well as in banking,

Garanti ranked **2nd** among all BIST100 companies in the “Corporate Communications Transparency” survey conducted on BIST100 companies by TI-Turkey, the national representative of Transparency International (TI) that is globally recognized for its transparency indices, while achieving the highest score among the banks traded on Borsa Istanbul and proved its devotion to its core values: trust, integrity, accountability and transparency;

- » Focused on the needs of the entire investment community and offered constant access to current information through the bilingual Investor Relations (IR) and iPad application developed in Turkish and English, which provide easy access to any information sought by investors anywhere in the world.
- » Earned the “Corporate Transparency” award in the “Transparency Awards” organized for the first time by Transparency International, a global civil society organization that leads the fight against corruption. The award was given to Garanti with its Investor Relations Website and iPad Application, that play a crucial role in providing proactive, transparent and consistent information to all stakeholders.

- » Became The International Integrated Reporting Council-IIRC Business Network Member in 2015, thereby carrying on with its activities initiated in 2014 under the Integrated Reporting Pilot Program,
- » Conducted four live webcasts/teleconferences regarding the results of financial statements and posted the podcasts on the Investor Relations website and the iPad application,
- » Issued quarterly interim reports, sharing detailed information and data about Garanti,
- » Collaborated with GT and used its own internal resources for a worldwide live broadcast of the meeting for announcing the 2015 budget conducted in teleconference and webcast format, which brought together the CEO and analysts from investment firms. Following the meeting, the podcast including the entire Q&A session was made available on its website and iPad application in a transparent manner for listening by all stakeholders ,
- » Issued the "StockWatch Quarterly" newsletter 4 times a year, which provides brief information on the Turkish economy, the banking industry, the equity market and the position of Garanti in the sector, as well as on the Bank's operations, and published 2 "Corporate Profile" booklets, by mid-year and at year-end.
- » Prepare all necessary documents in relation to the General Shareholders' Meeting to be made available to shareholders for their information and review, and ensure that the General Shareholders' Meetings take place in accordance with the applicable legislation, articles of association, and other internal regulations of the Bank,
- » Facilitate profit distribution procedures as per Article 45 of the Articles of Association in case the General Assembly decides to distribute dividends to shareholders,
- » Make sure that amendments to the Bank's Articles of Association are made in accordance with the applicable legislation,
- » Handle the capital increase formalities of the Bank, and facilitate the exercise of bonus and rights offerings that result from the capital increase,
- » Fulfill public disclosure obligations,
- » Manage correspondences between shareholders and the Bank in relation to shares and ensure that legal records of shares, which must be kept pursuant to applicable legislation, are kept properly, secure and up-to-date.

In addition, Garanti Bank operates a Subsidiaries and Shareholders Service under the Tax Operations Management Department to facilitate the follow-up of shareholder rights. The primary responsibilities of this unit are as follows:

2.2. Exercise of Shareholders' Right to Obtain Information

The Subsidiaries and Shareholders Service responds to inquiries received from shareholders via phone or e-mail regarding the general shareholders' meetings, capital increases, dividend distributions, and share certificate procedures. In addition,

during the current fiscal year, information requests by shareholders and third parties related to matters such as annual reports, the current status of share certificates they hold and the like are answered verbally and in writing.

The Investor Relations Department responds to questions received via phone and/or e-mail from existing and/or potential investors, bank analysts and rating agencies; in addition, the Department organizes one-on-one and/or group meetings and answers all questions about Garanti. Garanti has two investor relations websites, one in Turkish and the other in English.

The Investor Relations website in Turkish can be reached at:

www.garantiyatirimciiliskileri.com

The Investor Relations website in English can be reached at:

www.garantiinvestorrelations.com

Garanti Investor Relations websites contain stock data, corporate information, periodically published financial statements and annual reports, information about corporate governance, sustainability and projects that add value to the society. These websites also give access to Material Event Disclosures pertaining to developments regarding Garanti Bank, which are disclosed to the public via the Public Disclosure Platform. The websites also respond to all sorts of user needs with the Investor Kit that contains basic, practical information and the Download Center function that covers all documents.

Allowing the users to follow up events and add them to their personal calendars with the IR Calendar function, the websites also feature Investor Calculator and the Interactive Share Chart function enabling comparative analyses between Garanti share and indices, local and international banks in different currencies.

The new iPad application of Garanti Investor Relations, offering access to latest information to users anywhere any time, includes a rich library which consists of annual reports, sustainability reports, financial reports, corporate presentations and periodic publications that can also be read offline. The application also sends notifications when new content is added.

The appointment of a special auditor has not been set forth as an individual right in the Articles of Association of the Bank and so far, no request regarding the appointment of a special auditor has been submitted to Garanti. On the other hand, as also stated on Investor Relations website, pursuant to Article 438 of the Turkish Commercial Code no. 6102, shareholders have the right to request a special audit from the General Assembly of Shareholders, whether included in the agenda or not, in order to clarify certain aspects within the frame of exercising shareholders' rights, provided that shareholders making such request have previously exercised the right to obtain or review information as stipulated in the Turkish Commercial Code. If

such a request is received, then the Bank takes maximum care for facilitating the exercise of such special audit right.

2.3. General Shareholders' Meetings

During the fiscal year (01.01.2015-31.12.2015), one Ordinary General Shareholders' Meeting was held on April 09, 2015. Meeting quorum in the Ordinary General Shareholders' Meeting was **78.94%**. General Shareholders' Meetings are held in accordance with the resolutions adopted by the Board of Directors.

Before these meetings, the meeting date, venue and agenda are announced to shareholders through the material event disclosure duly made via the Public Disclosure Platform in accordance with the general principles, as well as the announcements placed in the Turkish Trade Registry Gazette, e-General Meeting Electronic General Meeting System (www.mkk.com.tr) and national newspapers. Balance sheets, income statements and annual reports are prepared prior to the General Shareholders' Meetings and made available for review by shareholders within the timeframe determined in the applicable legislation on the Investor Relations website, at all branches and at Head Office of Garanti Bank. In General Shareholders' Meetings, agenda items are discussed and submitted for the shareholders' approval. Shareholders are entitled to ask questions, express their opinions and submit proposals regarding the agenda items. Questions are handled and answered in accordance with the regulations of the Capital Markets Board as well as the principles and procedures specified in the Turkish Commercial Code.

Proposals are submitted for approval at the General Shareholders' Meeting and become effective if approved by the specified majority. The meeting minutes and the list of attendants of the General Shareholders' Meetings are published in the Turkish Trade Registry Gazette and resolutions adopted are publicly disclosed via the Public Disclosure Platform.

Resolutions adopted in the General Shareholders' Meetings are carried out in accordance with the legal procedures within due time. Pursuant to the provisions of the Regulation on Electronic General Meetings at Joint Stock Companies and the Communiqué on Electronic General Meeting System Applicable at General Assemblies of Joint Stock Companies, attendance to the General Shareholders' Meetings by electronic means is permissible.

Furthermore, the minutes and the list of attendants of the General Shareholders' Meetings are available to shareholders on Garanti Bank Investor Relations websites and at the Subsidiaries and Shareholders Service.

Pursuant to applicable legislation, the minutes of the General Shareholders' Meetings are made available to shareholders on Garanti Bank Investor Relations website, in the Trade Registry Gazette,

on the Public Disclosure Platform (www.kap.gov.tr), e-Company Information Portal (www.mkk.com.tr), and e-General Meeting Electronic General Meeting System (www.mkk.com.tr). No media members participated in the Ordinary General Shareholders' Meeting held in 2015. The Bank invites all stakeholders to General Shareholders' Meetings, who will be voiceless during such meetings.

At the 2014 Ordinary General Shareholders' Meeting held in 2015, one shareholder lodged a statement of opposition, asking about how the profit distribution policy will be implemented in the next 5 years, commenting that if profit will not be distributed then it should be paid out in cash and bonus shares, that the Bank should abide by the CMB-imposed obligation to distribute at least 20% of the distributable profit, which the CMB requires for publicly traded companies, and proposed that bonus shares in the ratio of 600% be distributed for once only, that the issued capital of TL 4,200,000,000 be quintupled, and that such incremental capital be distributed as bonus to shareholders. In response, it has been explained that profit is being distributed in the ratio stipulated by the legal authorities and that the retained portion is being set aside as Extraordinary Reserves as per the applicable legislation.

On another front, the total amount of contributions and donations made by the Bank in the reporting period is TL 18,492,241. Based on its approach to add value to the society, the Bank makes donations and contributions mostly to persons, non-governmental organizations, societies or foundations, public entities and organizations that work in the fields of education, culture, art, environment and sports. Donations can also be made to promote the Bank's corporate identity and to expand the coverage of banking activities.

Amounts and beneficiaries of the donations made in 2015 are as follows:

<i>Beneficiaries</i>	<i>Amount (TL)</i>
Various Public Institutions	5,168,635
Öğretmen Akademisi Vakfı (Teachers Academy Foundation)	5,000,000
İstanbul Modern Sanat Vakfı (Istanbul Foundation for Modern Arts)	1,920,000
Universities and Educational Institutions	1,323,715
Other Foundations, Societies and Institutions	1,277,126
İstanbul Kültür ve Sanat Vakfı (Istanbul Foundation for Culture and Arts)	1,236,350
Ayhan Şahenk Foundation	837,151
Doğal Hayatı Koruma Vakfı (World Wildlife Fund-Turkey)	800,000
Türkiye Eğitim Gönüllüleri Vakfı (Educational Volunteers Foundation of Turkey)	599,065
Çağdaş Yaşamı Destekleme Derneği (Association for Supporting Contemporary Life)	330,200
TOTAL	18,492,241

Information regarding the amounts and beneficiaries of donations and contributions made by the Bank during the reporting period is provided to the shareholders under a dedicated agenda item during the General Shareholders' Meeting.

There were no transactions in the reporting period for which the decision was left to the General Assembly of Shareholders by reason of dissenting votes cast by the independent board members.

2.4. Voting Rights and Minority Rights

Shareholders' voting rights and exercise of these rights are determined in Article 38 of Garanti Bank's Articles of Association. There are no privileged voting rights at the General Shareholders' Meetings of Garanti Bank. The Bank is not in a cross-shareholding relationship with any company, therefore no such votes were cast at the latest General Shareholders' Meeting.

Minority shares are not represented in the management. The Bank's Articles of Association do not set the minority rights to be less than one twentieth of the capital. On the other hand, as explained on the Bank's Investor Relations website, shareholders constituting at least one twentieth of the capital are entitled to request the Board of Directors to summon the general assembly for a meeting, by specifying the grounds therefor along with the agenda, which should both be put in writing, or if the general assembly is already scheduled to meet, then to request the addition of matters they wish to be decided to the agenda, under Article 411 of the Turkish Commercial Code no. 6102. As and when such a request is received, the Bank takes the utmost care for facilitating the exercise of minority rights.

2.5. Dividend Right

There are no privileges in dividend distribution. Details of dividend distribution are specified in Articles 45, 46, and 47 of the Articles of Association. In the past, the Bank has added its profit to its capital base and distributed it to shareholders in the form of bonus shares. In accordance with Article 46 of the Articles of Association, Garanti Bank submits dividend proposals for approval at the General Shareholders' Meetings based on the decision of the Board of Directors. The proposals become effective if approved at the General Shareholders' Meeting and the resolutions are published via the Public Disclosure Platform on the same date. Following the resolution adopted regarding dividend distribution, the distribution procedures were completed and notifications were made to the public authorities within legal time periods.

The dividend distribution policy of the Bank was presented to the information of the shareholders at the Ordinary General Shareholders' Meeting held in 2013, and was publicly disclosed on the Bank's website.

The Bank's Dividend Distribution Policy is as follows:

"The details of our Bank's dividend distribution policy are specified in Articles 45, 46, and 47 of the Articles of Association. In this context, by taking into account our Bank's growth in accordance with its goals within the sector and its financial needs, the General Assembly is authorized to decide to distribute dividends in cash or to capitalize the profit and distribute the bonus shares to be issued by the Bank, or implement a combination of both methods, and execute the dividend distribution within the time period specified in the relevant legislation.

The Bank's dividend distribution policy stipulates distribution of up to **25%** of the distributable profit in cash or as bonus shares upon the approval of the BRSA, provided that there is no unfavorable situation in the local and/or global economic conditions and provided further that the standard rates, which are specified by the protective measures in the Banking Law no. 5411, are at the targeted level. Amounts retained from the profit for the period, which remain after legal reserves and funds that are obligatory to be saved by the Bank are set aside, are transferred to the Extraordinary Reserve Account.

In accordance with Article 46 of the Articles of Association, the dividend distribution proposals shall be submitted for approval of the General Assembly following a decision by the Board of Directors in this regard, by taking into account the Bank's operational performance, financial needs, growth target and the legal regulations governing the Bank.

The dividend distribution resolution becomes effective if and when adopted in the General Shareholders' Meeting, and resolutions are publicly disclosed via the Public Disclosure Platform on the same day."

2.6. Transfer of Shares

The Articles of Association of Garanti Bank do not contain any provisions that restrict the transfer of shares. Shares are transferred in accordance with the Bank's Articles of Association and applicable legislation including the Banking Law.

SECTION III - PUBLIC DISCLOSURE AND TRANSPARENCY

3.1. Company Website and Its Content

Garanti has two websites, one in Turkish and the other in English.

The Turkish website is accessible at:

www.garanti.com.tr

The English website is accessible at:

www.garantibank.com

Websites provide general information about the Bank and enable banking transactions through the internet banking branch and mobile applications. In addition, the websites contain detailed information on products and services offered in banking, credit cards, investment, insurance, leasing, factoring, pension and e-commerce. Turkey's most visited financial website, garanti.com.tr features special tabs dedicated to specific topics in relation to banking transactions through categorized content, and offers quick application option both for the Bank's customers and non-customers by means of easy to-use forms in order to satisfy the users' needs. For example, providing the best-suited solutions application for users' saving needs, Garanti supports the SMEs through business start-up, incentive finding and guaranteed payment services. Furthermore, the mobile version that went live gives easy mobile-friendly access to garanti.com.tr contents for use with mobile devices.

The visitors of the website can easily compare the products under different categories and find the answer to any question in the "Help & Advice" section. While the site's search capabilities have been renewed to offer a filtering feature, garanti.com.tr's video content and the "send to a friend" and "share on social media" functions on every page have also been designed to create a stimulating interactive environment. The Quick Payments tab allows rapid execution of payments such as bill payments, GSM TL top-ups, while calculators enable detailed calculations in relation to loan and e-Savings Account products. Garanti Internet Banking, on the other hand, facilitates fast and practical execution of more than **500** banking transactions by the Bank's personal and corporate customers. Our customers are able to access the products they need, instantly check their financial status, and view their income/expenses and cash flows.

All other information about Garanti Bank and stock in line with the needs of stakeholders, which need to be covered in websites pursuant to Corporate Governance Principles, is provided in detail both in Turkish and in English on Garanti Bank Investor Relations websites.

The investor relations website in Turkish is accessible at:

www.garantiyatirimciiliskileri.com

The investor relations website in English is accessible at:

www.garantiinvestorrelations.com

The contents of the Investor Relations websites prepared in Turkish and English go beyond the matters that companies are required to present on their websites pursuant to the Turkish Commercial Code and associated regulations, the CMB's regulations concerning Corporate Governance Principles and other capital markets legislation and other regulations in effect; these websites feature up-to-date corporate information,

credit ratings, key financial indicators for the Turkish banking industry and for Garanti, the position of Garanti in the sector, Management Interviews, detailed information about Garanti shares (listing information, quotation, lists of analysts, stock analysis tools (price, volume, index and comparative analysis)), periodic financial statements drawn up in accordance with international accounting standards and the BRSA regulations, reports and presentations prepared for investors, annual reports, sustainability reports, Operating Plan Guidance covering forward-looking financial projections, quarterly interim reports for investors, "StockWatch" bulletin, semi-annually published Corporate Profile bulletin; detailed information on corporate governance including Code of Conduct, Declaration of Human Rights, Disclosure, Dividend Distribution, Human Resources, Donations and Contributions, Compensation, Employee Compensation, Sustainability, Environment, and Environmental and Social Loan policies, and Climate Change Position Statement and Action Plan; material event disclosures, capital increases, dividend ratios, Bylaws on Principles and Procedures of General Assembly, and detailed information regarding Ordinary General Shareholders' Meetings.

The shareholding structure currently posted on the Bank's Investor Relations website shows that Banco Bilbao Vizcaya Argentaria S.A. (BBVA) and Doğuş Group hold **39.9%** and **10.0%** of the Bank's shares, respectively. Its shares publicly traded in Turkey and its depositary receipts traded in the UK and the USA, Garanti had an actual free float of **50.02%** in Borsa Istanbul as of December 31, 2015, and there is no ultimate non-corporate controlling shareholder holding more than **5%** share in the shareholding structure.

The corporate website is organized to give all stakeholders quick and easy access to information. The information published on the website is updated regularly. Also, historical information is stored in a systematic order to allow the users to make comparisons. Importance is given to efforts to improve the website and daily updates guarantee access to accurate and reliable information via the corporate website. The security of the website is assured by Garanti Bank.

The Investor Relations Department and Subsidiaries and Shareholders Service respond to questions, comments and information requests of all stakeholders within the shortest time possible. Postal addresses, telephone and facsimile numbers and e-mail addresses of these units are available to all stakeholders in the Bank's Turkish and English Investor Relations websites. The Investor Relations Department announces the international conferences and meetings it will participate in via the "Investor Relations Calendar" on its websites and iPad application. In addition, answers regarding Garanti Bank, its stock, borrowing instruments, financial statements, corporate governance and

sustainability are provided in the Frequently Asked Questions section on the website.

3.2. Annual Reports

Annual reports of the Bank contain the information required by the CMB's regulations concerning Corporate Governance Principles and other capital market legislation and regulations in effect. Garanti considers transparency not just as an obligation but puts it at the heart of its communication with all of its stakeholders; hence, the Bank does not restrict its annual reports to alignment with regulatory requirements. Playing a central role in Garanti's communication with its stakeholders, annual reports stand out as the Bank's most comprehensive publication that conveys Garanti's process of sustainable value creation for all of its stakeholders, and are honored with multiple awards on the international platforms every year for the clarity and power of its messages.

SECTION IV - STAKEHOLDERS

4.1. Informing Stakeholders

Stakeholders are kept informed regularly through meetings, material event disclosures sent to the Public Disclosure Platform, press releases, newspaper announcements, annual reports, news and disclosures on the corporate website, Investor Relations websites, and iPad application, as well as internal announcements. In keeping with the principle of strict adherence to Garanti's essential values of trust, integrity, accountability and transparency, easy access to current information is ensured through the Investor Relations website and the iPad application, which contain detailed information on matters that the stakeholders need to be informed about. Moreover, the Investor Relations Department holds comprehensive meetings with investors to share the latest developments, the competitive environment and market expectations, analyses and strategy, in an effort to establish plain, transparent, consistent and timely communication.

In order to ensure accurate and reliable information flow, the Investor Relations Department prepares presentations on quarterly financial statements; the Department shares these presentations with the stakeholders through its website and the iPad application, and responds to questions during live webcasts/teleconferences, the podcasts of which are subsequently posted on these public channels. The Department regularly attends investor meetings organized by investment firms, where it communicates recent information about Garanti and the sector. The Department also responds to questions and inquiries by phone or e-mail on a daily basis. All units of the Bank efficiently respond to customers' any information requests

and demands about Garanti's services and products.

Created for the purpose of informing the employees, the corporate portal covers all relevant procedures, announcements and notices; this information can be accessed instantly and efficiently using different means. In addition, at Visionary Meetings held at the beginning of every year, Garanti CEO shares the past year's assessment and the next year's targets with the employees.

An e-mail account and a phone line have been allocated for stakeholders so that they can convey any act or situation that contradicts with the legislation or that is unethical. Compliance Department is responsible from managing the above mentioned "Whistleblowing Channel", which is described in detail in the Garanti Code of Conduct document. The Code of Conduct document is accessible by the entire personnel on the corporate portal, and is also made available to all other stakeholders on the Bank's Investor Relations website. Reporting to the Board of Directors, Compliance Department carefully evaluates all communications received in the shortest time possible, and ensures that all communications are examined, referred to related parties and resolved. Communications are analyzed on the principles of objectivity, impartiality and confidentiality.

4.2. Stakeholder Participation in Management

Garanti Bank, taking all stakeholders into consideration, aims to improve product and service quality and to achieve internal and external customer satisfaction. To this end, the Bank designs all of its systems to allow continuous improvement. The stakeholders can participate in management through specially designed systems and meetings.

In addition to responding to customer inquiries, the "Customer Careline" set up under the Customer Satisfaction Department receives customers' suggestions and handles their complaints. Garanti provides its customers with the means to communicate their demands, complaints, and ideas and suggestions about management any time through the Garanti website or the Call Center at 444 0 338. The experienced Customer Satisfaction and Social Platforms Management teams offer service 24/7 also through social media from the Garanti Facebook page and Twitter GarantiyeSor (Ask Garanti) account to give support and respond to questions in the fastest manner. In case of violation of the customers' rights protected by regulations and contracts, the Bank provides efficient and fast remedy and facilitates the use of loss indemnification mechanisms by customers who have incurred any loss.

At Garanti Bank, employee suggestions regarding products, services and processes are taken into account and used for improving the efficiency of internal operations. Employee comments are used as input for constant improvement, which

are communicated by means of the "Önersen" (You Suggest) platform whereby employees share their ideas and suggestions. In use since 2007, the suggestion platform "Önersen" collected 2,257 suggestions in 2015, reaching a total of approximately 18,750 suggestions. Besides the "Önersen" platform, the employees are able to share their suggestions and comments on any topic through the "Ask/Share" section under the new intranet portal launched in 2015. Employee suggestions are taken into consideration by the relevant units and business processes are revised as necessary.

4.3. Human Resources Policy

The pillar of Garanti's approach to human resources is investing in human capital. Recognizing that human capital is the driving force behind all progress, the Bank builds systems to recruit, train and develop young and innovative individuals on a continuous basis, to provide a working environment that encourages full utilization of employees' skills, offers a wide range of opportunities and ensures recognition and awarding of their accomplishments.

The human resources policy of Garanti can be summarized as giving priority and importance to the human, ensuring continuous investment, deploying sufficient resources for training, giving priority to promoting from within, implementing training programs for this purpose, developing human resources systems, maximizing participation by leading an environment of open communication, displaying a fair and objective attitude, and developing practices at international standards.

In this frame, the mission of the Human Resources Department is to play a strategic role by implementing efficient human resource policies to assist the organization in achieving its business objectives. Accordingly, the Department operates in accordance with Garanti's ethical values and with the "equality principle" (the Bank and our employees observe fair treatment in business relations regardless of language, race, gender, political ideology, philosophical belief, religion, sect and the like. The Bank and our employees respect human rights). The Department is aware of Garanti Bank's business goals, and closely cooperates with business lines and those in the field. In addition, the Department employs various objective, competency-based measurement and evaluation tools and methods specific to each position in order to match the right person with the right job. The Department develops human resources applications in accordance with the Bank's strategies, makes efforts to improve employee motivation, creates open communication forums that allow employees to express themselves freely, provides "career consulting" for employees in line with their competencies, knowledge, skills, needs and expectations, and ensures that

employees receive proper training for personal development.

Standard criteria (experience, seniority, performance, competency evaluation, tests, interview, etc.) are established for all internal promotions and transfers between positions. They are transparently announced throughout the Bank via career maps, while employees are guided and supported in line with their chosen career path.

The compensation system of the Bank is built on job-based remuneration; employees who are employed in similar jobs receive similar compensation. Jobs are rated and compensated according to objective criteria such as required competency, the risk involved and the number of employees supervised. The Bank's remuneration policy established within this framework has been approved by the Board of Directors and has been presented for the information of shareholders at the Ordinary General Shareholders' Meeting held in 2013 pursuant to the CMB Communiqué Serial: IV-56 on the Determination and Implementation of Corporate Governance Principles, which was in force in 2013. Presently, the policy is available to the public on the Bank's website pursuant to corporate governance principles.

The performance evaluation system at Garanti measures employee performance depending on objectives and the extent of their attainment. Employees of the Bank receive bonuses based on EVA (Economic Value Added) financial accomplishment metrics. Systematic bonus and performance models are major and effective management tools for achieving cost management and efficiency, while ensuring fairness among the employees. In this context, besides the figures targeted by the Bank, criteria such as customer satisfaction, service quality and efficient management of human resources are among the basic factors affecting the performance-based remuneration. Bonus payments made as part of the EVA model based on profit and risk management ensure a significant level of awareness of these criteria among all employees at branch level. These performance-based payments are made twice a year and a certain percentage of the payment is deducted for payment in future years, again based on performance. Moreover, Garanti monitors the competitiveness of its salaries through semi-annual survey of salary levels in the sector. Job descriptions, performance criteria and bonus system criteria of all positions in the Bank are announced transparently to all employees via the Intranet.

The portion of **14.23%** of the total personnel expenses figure for the benefits provided in 2015 to the Bank's employees including the Board members and senior management in the financial statements results from the performance-based bonuses of all employees and variable salary payments.

The first Turkish company to have been twice "Gold Accredited" by the IIP (Investors in People), Garanti once again proved that its primary focus in any activity is on its

human resource, in other words its most valuable asset, and firmly established that it leads the sector with its innovative practices in this area. These awards endorse Garanti's commitment to preserving the standards of its human resources implementations while sustaining growth. Maintaining its stable growth in every field, Garanti will keep investing in its human resource and carry on with its world-class implementations based on its "people-oriented" management concept.

In relation to its Occupational Health and Safety (OHS) efforts, Garanti repositioned its OHS team set up under the Human Resources Department in 2013 as the OHS Section in 2015. The related activities are carried out across the country with a team of **34** people covering Occupational Safety Experts, On-Site Physicians and On-Site Nurses. Authoring a first among financial service institutions of a similar size in Turkey, Garanti launched the OHS software in all of its locations. The Bank uses the platform to keep track of various activities including risk assessment, health monitoring, training programs, OHS Committees, near misses, work place accidents, review of occupational illness processes, and coordination and control of countermeasures. Going well beyond the requirements brought by the national legislation in its Occupational Health and Safety practices and activities, Garanti initiated work in relation to OHSAS 18001 Occupational Health and Safety Management System, and these efforts are intended to enhance employee and stakeholder satisfaction and well-being.

Any developments or decisions concerning the employees are conveyed either to the concerned employee via private communication tools or to all employees via the Intranet.

4.4. Ethical Rules and Social Responsibility

Sense of corporate responsibility is an integral part of the corporate culture of Garanti. Garanti molds its societal initiatives, as well as its banking activities, around social, economic and environmental factors, which are components of sustainability. Besides sharing its knowledge in various fields with the society and future generations, Garanti continues to add value to cultural and social life through its innovative institutions and with its support to Turkey's deep-seated establishments. Garanti aims to regularly measure the benefits it contributes to the society and its impact upon it through social impact analysis to be conducted by an independent research company, the findings from which will then be used for improvement efforts.

Garanti focuses on contributing to the society in cultural and educational arenas. While determining its future strategy, Garanti keeps a close eye on the needs of our country and society, and aims at introducing or supporting value adding and sustainable projects. When devising its future strategies, Garanti aims to progress within the frame of the needs of the society and its stakeholders,

which the Bank identifies with the help of a Prioritization Analysis conducted by an independent research company.

Detailed information about these activities is available in the Sustainability Section starting on page 73 of the Annual Report.

In line with the Bank's commitment to corporate governance principles and ethical values, ethical principles document has been revised in view of the needs of today's business life, and "Garanti Code of Conduct", which was approved in the Board of Directors meeting held on October 09, 2015, entered into force. Garanti Code of Conduct document is also made public on the Investor Relations website.

Garanti Code of Conduct document defines employees' responsibilities to customers, colleagues, business and the society. Conduct towards customers concentrates on the principles of transparency, non-discrimination and accountability. Conduct towards colleagues addresses team values, respectful working environment, objectivity and occupational health. Conduct towards business basically deals with preventing conflicts of interest, confidentiality, data protection, media relations, retention of records and investment transactions. Conduct in society is addressed under the headings of anti-money laundering and anti-corruption, commitment in relation to human rights and the environment, investment in society and political neutrality.

Garanti firmly believes that the total quality concept can be realized only through strict adherence to an HR policy, code of conduct and ethical values that are erected upon integrity, honesty and respect. In addition to the Garanti Code of Conduct document, Ethical Sales Principles, Social Media Policy, Anti-Fraud Policy and Compliance Policy documents are placed on the Intranet that is available for all employees. Current announcements have been published in relation to Garanti Code of Conduct and Ethical Sales Principles documents. In addition, Garanti has compiled its principles and values in a handbook titled the Customer Satisfaction Constitution in accordance with its customer-centric approach, which is available to all employees and customers.

Handbook of Ethical Sales Principles emphasizes the "reputation" concept as the Bank's greatest asset, and details the expected code of ethical conduct for employees during sales activities. Social Media Policy sets forth the rules as to how the Bank's employees will represent Garanti on social media. Anti-Fraud Policy is intended to create awareness against any act of misconduct across the Bank and to improve honest and reliable working environment conditions.

Garanti Bank's policies relating to the core components of the compliance system are documented in the "Compliance Policy". Compliance Policy emphasizes the compliance risk and reputation risk concepts, and underlines that employees are

expected to comply with the laws, Garanti Code of Conduct and corporate standards in their behaviors. The Policy defines the concept of integrity and lists the basic tasks and responsibilities within the compliance system.

In this context, it is emphasized that compliance is not the responsibility of only the senior executives or certain business units only, but of each employee.

Garanti attaches particular importance to ethical and integrity principles, and aims to maintain constant awareness of the issue through trainings for all employees.

SECTION V - BOARD OF DIRECTORS

5.1. Structure and Formation of the Board of Directors

Ferit Faik Şahenk is the Chairman of the Board of Directors. The Chairman has no executive functions and the executive member of the Board is Chief Executive Officer Ali Fuat Erbil.

CMB requirements regarding Corporate Governance Principles stipulate that minimum three independent members must serve on the boards of directors of banks. Since the Board members assigned as members of the Audit Committee are deemed as independent Board members according to these requirements, Muammer Cüneyt Sezgin Ph.D., who currently serves as the Head of the Audit Committee, and Manuel Pedro Galatas Sanchez-Harguindey, Audit Committee member, are independent Board members.

Résumés, terms of office and positions of the Board members are presented on pages 105, 106 and 107 of the Annual Report. The positions held by the Bank's Board members in and out of the Group are stated in their résumés.

At the Ordinary General Shareholders' Meeting held in 2015, Garanti elected Sema Yurdum as the third independent Board member, who satisfies all the independence criteria announced by the Capital Markets Board. The Corporate Governance Committee report dated February 02, 2015, establishing that Sema Yurdum satisfies the independence criteria, has been submitted to the Board of Directors, which has resolved to file a notification with the CMB regarding the nomination of Sema Yurdum as an independent Board member.

Quoted below is the declaration of independence by Sema Yurdum, who was elected as an independent Board member at the Ordinary General Shareholders' Meeting held in 2015.

"To: Türkiye Garanti Bankası A.Ş. Corporate Governance Committee,

I hereby declare that I currently serve as an "independent member" on the Bank's Board of Directors pursuant to the provisions of the Communiqué Serial: II-17.1 on Corporate Governance Principles issued by the Capital Markets Board of

Turkey, and that I stand for the same position once again as my term of office ends on the date of the first General Shareholders' Meeting to be held in 2015. In this context, I hereby declare as follows:

a) I have not held a seat on the Bank's Board of Directors for more than six years in the past ten years,

b) Neither I, nor my spouse, nor any relative of mine whether by blood or by marriage unto the second degree, have, within the most recent five years, entered into any employment relationship in an executive capacity involving major duties and responsibilities, or individually or jointly held more than 5% of the capital or voting rights or privileged shares, or established any commercial interest of a significant nature, with any corporate entity with which the Bank, any company in which the Bank has management control or significant influence, or any shareholder having management control or significant influence over the Bank or any corporate entity in which these shareholders have management control,

c) I was neither a shareholder (5% and higher), nor have I worked in an executive capacity involving major duties and responsibilities for or served as a member on the boards of directors of any company from/to which, under a contract, the Bank purchased/sold services or products of material quantity during the period of time such services or products were being purchased or sold, and particularly of the firms performing the audit (including tax audit, legal audit and internal audit), rating and consultancy of the Bank, in the past five years,

d) I possess the professional education, knowledge and experience for due performance of the duties I will assume in connection with being an independent board member,

e) I am not a full-time employee of public institutions and establishments as at the date of nomination,

f) I am considered to be a resident of Turkey as for the purposes of the Income Tax Law,

g) I possess strong ethical standards, professional credibility and experience that are necessary for making positive contributions to the Bank's operations, maintaining my independence in possible conflicts of interest between the Bank's shareholders, and making decisions freely taking into consideration the rights of stakeholders,

h) I am capable of dedicating sufficient amount of time to be able to follow up the execution of the Bank's affairs and to fully meet the requirements of the duties I undertake,

i) I am not serving as an independent board member in any company which is controlled by the Bank or by shareholders having management control over the Bank,

j) I will be serving on the Bank's Board of Directors as a real person and in this context, I have not been registered and promulgated in the name of any corporate entity elected as a board member."

On the other hand, no circumstances arose in the 2015 fiscal year, which prejudiced the independence of independent Board members.

The Board of Directors of Garanti Bank is formed of 10 members, and the number of women members rose to 2 during 2015.

Pursuant to Article 396 of the Turkish Commercial Code, the General Assembly authorized the members of the Board of Directors of Garanti Bank to execute a transaction of a commercial business nature that falls under the Bank's field of operation on their own or other's behalf or to become a partner with unlimited liability in a company engaged in the same kind of commercial affairs, during the reporting period.

5.2. Operating Principles of the Board of Directors

The Board of Directors meeting agenda mainly consists of matters requested to be addressed by the Chief Executive Officer and any additional matters requested to be added to the agenda by any Board member.

The Board of Directors must convene as and when necessitated by the Bank's affairs and transactions, but at least once a month. Pursuant to the Articles of Association of the Bank, the Board of Directors meets with the attendance of seven members minimum and resolutions of the Board of Directors are taken by affirmative votes of at least seven members present in the meeting. In 2015, the Board of Directors met 20 times by satisfying the required quorums for meeting and decision.

A Corporate Secretariat position has been set up to facilitate communication between the members of Board of Directors and the Head Office.

Discussions at the meetings of the Board of Directors are recorded in the minutes and signed by the attending members.

Naturally, the Board members may express different opinions and comments, and cast dissenting votes at Board meetings. Reasons for dissenting votes on issues about which different views are expressed during any Board meeting are recorded in the minutes and signed by the member(s) who cast the dissenting vote(s). Each member of the Board of Directors has one vote and the members do not have any privileged voting right and/or vetoing right.

Officer's Liability coverage with a limit of USD 100 million has been obtained for the individual liabilities of Board members arising out of faults committed in the performance of their duties. A Professional Indemnity coverage with a limit of USD 50 million has been obtained for liabilities that might be attributed to the Bank in the event a third party sustains, and claims from the Bank, any loss as a result of a faulty transaction that might occur in the performance of the Board members' duties.

As of December 31, 2015, the total amount of operating income generated by the Parent Company Bank and its

consolidated financial services institutions (“the Group”) on related party transactions accounted for **1%** of the Group’s total operating income. In addition, the outstanding balances from transactions with related parties represented **11%** of the Group’s consolidated income used for the calculation of legal limits in terms of equity interests, cash and non-cash loans, and less than **1%** of total consolidated assets in terms of equity assets and cash loans in the financial statements drawn up in accordance with the Turkish Financial Reporting Standards and the explanations provided by the BRSA.

5.3. Number, Structures and Independence of the Committees Under the Board of Directors

In line with its commitment to corporate governance principles, Garanti established the Audit Committee to assist the Board of Directors in its audit and supervision activities and to more effectively protect the interests of the Bank and the investors, although there was no legal regulation in force at the time. The Committee has been active since 2001, with the primary and ultimate responsibility resting with the Board of Directors. The duties and responsibilities of the Committee are fully aligned with the Banking Law and the relevant regulations. In 2015, the Audit Committee met **4** times to discuss the routine agenda, and additionally **6** times made decisions about various topics which were brought to agenda.

Pursuant to the Regulation on the Banks’ Corporate Governance Principles published by the BRSA and the CMB’s requirements in relation to Corporate Governance Principles, a Corporate Governance Committee has also been established to oversee compliance with corporate governance principles, undertake improvement efforts in this area, nominate independent members to be appointed to the Board of Directors, and submit proposals to the Board of Directors. The Corporate Governance Committee held **3** meetings in 2015, which were attended by all committee members.

Moreover, a Credit Committee functions under the Board of Directors, to which a certain amount of credit allocation authorities has been transferred. In 2015, the Credit Committee held **43** meetings with the required quorum.

The Remuneration Committee operates to review and implement the Bank’s compensation policies. In 2015, the Committee held **2** meetings.

The committees mentioned above carried out their activities efficiently and in total alignment with the applicable legislation during the reporting period.

Detailed information regarding the formation and operation of the Audit Committee, Corporate Governance Committee, Credit Committee and Remuneration Committee is provided in the Committees and Committee Meetings Attendance section of

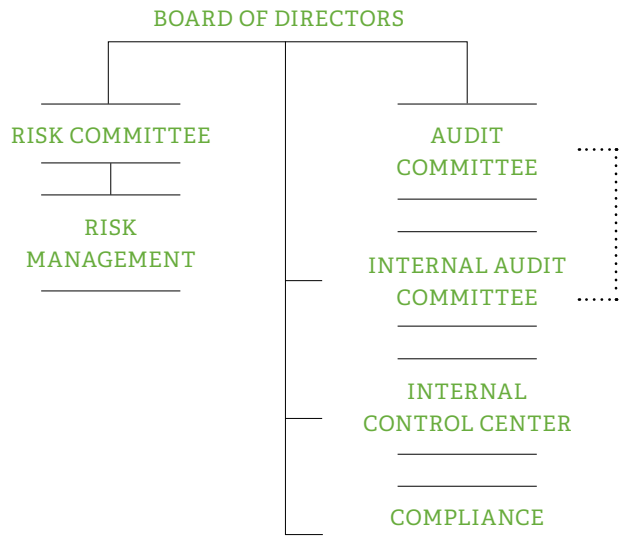

this report. In view of the number of the Bank’s Board members, members of the Board of Directors can serve on more than one committee.

On the other hand, a Risk Committee reporting directly to the Board of Directors was set up in 2015 to assist the Board of Directors in verifying that corporate risk management policy and practices are in line with the Bank’s strategies and the legislation, and overseeing management and assessment capabilities relating to various types of risks including capital adequacy, planning and liquidity adequacy.

Detailed information regarding the formation and operation of all committees operating in the Bank is provided in the Committees and Committee Meetings Attendance section of this report.

5.4. Risk Management and Internal control Mechanism

The Board of Directors is ultimately responsible for developing and monitoring the Bank’s risk management, internal control, internal audit and compliance policies and strategies. Accordingly, the Risk Management Department, which performs risk management functions, reports to the Board of Directors via the Risk Committee, whereas the Internal Audit Department, performing internal audit functions, the Internal Control Center, performing internal control functions, and the Compliance Department, which implements compliance controls and performs activities to prevent laundering proceeds of crime, and financing of terrorism, report directly to the Board of Directors.

The Risk Management System consists of the standardization, information flow, compliance monitoring, decision-making and implementation mechanisms introduced by the Board of Directors to monitor, control and, when necessary, change the risk-versus-return structure of Garanti Bank's future cash flows, and the nature and level of resulting activities. Within the frame of Garanti Bank's strategy to attain sustained growth while creating value, the functions of the Risk Management Department include establishing a risk management system that is aligned with the Bank's activities, by which risks are measured using methods that conform to international standards and national legislation, and setting up a structure throughout Garanti, which seeks to establish an optimum capital balance by overseeing risk-versus-return balance based on the system mentioned above.

The Internal Control Unit ensures the establishment of a sound internal control environment in Garanti and performs necessary coordination, and also ensures that the Bank's activities are performed efficiently, effectively and in line with the management strategy and policies of the Bank, as well as with applicable rules and regulations. In this context, infrastructures are being set up based on the functional separation of duties, the sharing of authorities and responsibilities, the establishment of a sound reconciliation system, the integration of self-control mechanisms and systemic controls into processes, and the identification and monitoring of risks the Bank is exposed to. Internal controllers, reporting to the Internal Control Unit, perform control activities either on-site or remotely. As part of activities, findings and recommendations are reported to the related parties, and relevant corrective actions are also followed up. The IT Controls team, set up under the Internal Control Unit, oversees IT related activities to make sure that they are secure and aligned with the guidelines set out by the Bank. Besides, coordination activities regarding the disaster recovery and business continuity management function of Garanti, is also performed by the Internal Control Unit.

The Internal Audit Department performs systematic audits that cover all activities and units of Garanti Bank in accordance with applicable legislation, especially the Banking Law, and the Bank's bylaws. These audits are performed separately from day-to-day activities and they mainly focus on internal control and risk management systems. In this context, audit is conducted at domestic and overseas branches of Garanti Bank, at the Head Office units and consolidated subsidiaries.

Working with the purposes of managing potential compliance risks of the Bank and of identifying and preventing these risks before implementation, Compliance Department aims to establish a world-class compliance culture across the Bank.

Compliance Officer Team carries out necessary efforts to

achieve compliance with the regulations issued to prevent anti-money laundering and countering the financing of terrorism, and provides communication and coordination with the Financial Crimes Investigation Board. In terms of compliance activities regarding customer products and services, compliance controls are implemented in accordance with the applicable legislation, and opinions are formed prior to implementations of new products and transactions. With respect to corporate compliance activities, Compliance Department is responsible from helping resolve any doubts that may arise during the interpretation of the Garanti Code of Conduct document, and managing the Whistleblowing Channel. With respect to securities compliance activities, examinations of suspicious transactions are implemented within the scope of the Capital Markets Board legislation. Within the context of subsidiaries' coordination activities, compliance activities of the Bank's subsidiaries and branches abroad are monitored. As part of personal data protection compliance, relevant legislation is monitored, based on which necessary policies and procedures are formulated.

5.5. Strategic Goals of the Company

The vision of Garanti is to be the best bank in Europe. Its mission is to continuously and remarkably increase the value it creates for its customers, shareholders, employees, society and the environment by utilizing its efficiency, agility and organizational efficiency.

The strategy of Garanti is to constantly improve customer experience by offering products and services that cater to their needs, espousing a "transparent", "clear" and "responsible" approach towards its customers all the while, and to ensure sustainable growth by creating value for all of its stakeholders.

The vision, mission and strategy of Garanti are publicly announced on the corporate websites, Investor Relations websites in English and Turkish languages and in the annual reports. In addition, both the Board of Directors and executives make forward-looking information and anticipations public through meetings, interviews and other communications through printed and visual media channels and through the website within the frame of the Bank's publicly disclosed Disclosure Policy that is posted on the Investor Relations websites.

Within the context of this strategy, Garanti's budget and its short, medium and long-term business plans are formulated; its strategic goals are presented to the Board of Directors. The Board of Directors is informed on the execution of approved business plans, the level of attainment of the targets, operations and performance on a monthly basis. The executives of the Bank monitor the target realization reports on a weekly basis, and they hold individual periodic performance review meetings with branch and regional managers regarding the attainment

of the targets. Moreover, realizations regarding strategic targets can be monitored in real-time through the Garanti management information and reporting infrastructure (MIS), systems and screens.

Information regarding Garanti's strategy and its pillars, core values and projections for the coming period are presented under the sections entitled About Garanti, 2015 Activities and 2016 Outlook of the Annual Report. Furthermore, 2016 Operating Plan Guidance covering forward looking assessments of Garanti has been published on the Public Disclosure Platform and publicly disclosed on the Investor Relations website.

5.6. Remuneration

As published on the Bank's website, a Compensation Policy has been formulated for the Bank's employees in accordance with the banking and capital market legislation, and it has been approved by the Board of Directors. Pursuant to the Bank's Compensation Policy, the policy encourages fair, transparent, measurable and sustainable success among employees and is in alignment with the Bank's risk principles. The compensation structure consists of fixed income and variable income items. The Remuneration Committee, and the HR Unit authorized by this Committee are responsible for reviewing and duly executing the compensation policies.

Members of the Bank's Board of Directors are paid attendance fees. The amount of the attendance fee is determined and approved at the General Shareholders' Meeting. In addition to the attendance fee paid to the Board members, it has been decided at the Ordinary General Shareholders' Meeting held in 2015 that payments to be made to those Board members who assume a specific position in the Bank, and to independent Board members be determined by the Remuneration Committee that has been authorized by the Board of Directors pursuant to Corporate Governance Principles. It has also been resolved to set a maximum limit of TL **18,000,000** for the total compensation so determined and will be paid until the first ordinary general shareholders' meeting to be convened in 2016.

Furthermore, other financial rights to be provided to the Senior Management consisting of the members of the Board of Directors, the CEO and Executive Vice Presidents are determined by the Remuneration Committee that is established in accordance with the Regulation on the Banks' Corporate Governance Principles published by the Banking Regulation and Supervision Agency.

Under the provisions of the said Regulation, the Remuneration Committee has determined the manner of payments to Senior Management and the criteria for performance-based payments, by taking into account the European Union regulations and practices. Accordingly, Senior

Executives receive performance-based payments in addition to their monthly salaries, which payments are determined by the Remuneration Committee based on objective criteria including the economic profitability and key performance indicators of the Bank, as well as subjective criteria based on the respective personal performance. The Remuneration Committee ensures that such payments do not negatively affect the Bank's capital adequacy ratio and the continuity of the Bank's operations. Part of the performance-based payments are made in installments and spread over future periods.

As of December 31, 2015, the net payment provided or to be provided to the key managers of the Bank, including the members of the Board of Directors, including compensations paid to key management personnel who left their position during the year amounted to TL **120,553** thousand. As the public disclosures regarding the payments made to the key managers including Board members are subject the BRSA's regulations on the banks' qualitative and quantitative explanations with regard to the remuneration policies, such payments are announced cumulatively.

At the Ordinary General Shareholders' Meeting held in 2015, the following information has been provided to the shareholders regarding the compensation principles applicable to senior management.

"Our Bank has established and announced a compensation policy for all employees pursuant to applicable legislation. A fair, performance and success-based remuneration policy has been created. Our Bank's Compensation Policy has been implemented as approved and it is reviewed periodically. In addition to the compensation policy covering the Bank's entire personnel, the Remuneration Committee continued to implement its policies that it has set in relation to remuneration and premiums to be paid to the members of the Board of Directors who assume administrative roles and to senior executives, which do not rely solely on profit. The Committee reviewed the same at certain intervals. The policy, which has been developed in line with the local legislation and international practices, continued to be implemented."

Detailed information about the Remuneration Committee is presented on page **118** of the Annual Report.

On the other hand, the loans to be disbursed by Garanti Bank to the members of the Board of Directors and managers are restricted to specific framework by Article 50 of the Banking Law. The Bank does not disburse loans to the members of the Board of Directors and managers outside of the abovementioned framework.

Statement of Responsibility
In Accordance With Article 9 of The Communiqué on Principles of
Financial Reporting in Capital Markets (II-14.1)
Issued by the Capital Markets Board

T. Garanti Bankası A.Ş.'s year-end Annual Report for the period 01.01.2015 - 31.12.2015, prepared in accordance with the Communiqué On Principles of Financial Reporting in Capital Markets (II-14.1) issued by the Capital Markets Board, has been examined by us;

UNCONSOLIDATED FINANCIAL REPORT

*(Convenience Translation of Financial Statements and Related
Disclosures and Footnotes Originally Issued in Turkish)*

Türkiye Garanti Bankası Anonim Şirketi
Unconsolidated Financial Statements
As of and For the Year Ended
31 December 2015
With Independent Auditors' Report Thereon

**TO THE BOARD OF DIRECTORS OF
TÜRKİYE GARANTI BANKASI A.Ş.**

INDEPENDENT AUDITORS' REPORT

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying unconsolidated balance sheet of Türkiye Garanti Bankası A.Ş. ("the Bank") as at 31 December 2015 and the related unconsolidated income statement, statement of income and expense items under shareholders' equity, statement of changes in shareholders' equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Bank management is responsible for the preparation and fair presentation of the financial statements in accordance with "the Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Regulation" which includes the regulation on "The Procedures and Principles Regarding Banks' Accounting Practices and Maintaining Documents" published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standards for the matters not regulated by the aforementioned legislations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the regulation on "Independent Auditing of Banks" published in the Official Gazette dated 2 April 2015 with No. 29314 and Independent Auditing Standards which is a part of Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority ("POA"). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

BASIS FOR QUALIFIED OPINION

Subsequent to the reversal of TL 85,000 thousands in the current period the accompanying unconsolidated financial statements include a general reserve amounting to TL 330,000 thousands as of the balance sheet date, provided by the Bank management in prior periods in line with conservatism principle considering the circumstances which may arise from any changes in the economy or market conditions.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with paragraph four of the Article 402 of the Turkish Commercial Code No. 6102 ("TCC"), nothing has come to our attention that may cause us to believe that the Bank's set of accounts for the period 1 January-31 December 2015 does not comply with TCC and the provisions of the Bank's articles of association in relation to financial reporting.

In accordance with paragraph four of the Article 402 of TCC, the Board of Directors provided us all the required information and documentation with respect to our audit.

ADDITIONAL PARAGRAPH FOR ENGLISH TRANSLATION

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Bank's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

TÜRKİYE GARANTİ BANKASI ANONİM ŞİRKETİ

UNCONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

1 GENERAL INFORMATION

1.1 HISTORY OF THE BANK INCLUDING ITS INCORPORATION DATE, INITIAL LEGAL STATUS, AMENDMENTS TO LEGAL STATUS

Türkiye Garanti Bankası Anonim Şirketi (the Bank) was established by the decree of Council of Ministers numbered 3/4010 dated 11 April 1946 and its "Articles of Association" was issued in the Official Gazette dated 25 April 1946. The Bank provides banking services through 971 domestic branches, nine foreign branches and three representative offices abroad. The Bank's head office is located in Istanbul.

1.2 BANK'S SHAREHOLDER STRUCTURE, MANAGEMENT AND INTERNAL AUDIT, DIRECT AND INDIRECT SHAREHOLDERS, CHANGE IN SHAREHOLDER STRUCTURE DURING THE YEAR AND INFORMATION ON BANK'S RISK GROUP

As of 31 December 2015, group of companies under Banco Bilbao Vizcaya Argentaria SA ("BBVA") that currently owns 39.90% shares of the Bank, is named the BBVA Group (the Group) and it is the main shareholder.

On 22 March 2011, BBVA had acquired; 78,120,000,000 shares of the Bank owned by GE Capital Corporation at a total nominal value of TL 781,200 thousands representing 18.60% ownership, and 26,418,840,000 shares of the Bank owned by Doğuş Holding AŞ at a total nominal value of TL 264,188 thousands representing 6.29% ownership. BBVA, purchasing 24.89% shares of the Bank, had joint control on the Bank's management together with group of companies under Doğuş Holding AŞ (the Doğuş Group).

Subsequently, on 7 April 2011, BBVA had acquired 503,160,000 shares at a nominal value of TL 5,032 thousands and increased its ownership in the Bank's share capital to 25.01%. Accordingly, BBVA and the Doğuş Group had mutual control on the Bank's management.

Finally, in accordance with the terms of the agreement between BBVA and Doğuş Group which was previously disclosed on 19 November 2014, the sale of shares representing 14.89% of the share capital of the Bank with a face value of TL 625,380 thousands and 62,538,000,000 shares by the Doğuş Group to BBVA, has been completed on 27 July 2015. Following the acquisition, BBVA's stake in the Bank has reached to 39.90% and BBVA has become the main shareholder. The Bank has moved to "Foreign Deposit Banks" category from "Private Deposit Bank" category by BRSA.

Accordingly, as of balance sheet date, the Doğuş Group's interest in the share capital of the Bank is at 10%.

BBVA GROUP

BBVA is operating for more than 150 years, providing variety of wide spread financial and non-financial services to over 47 million retail and commercial customers.

The Group's headquarter is in Spain, where the Group has concrete leadership in retail and commercial markets. BBVA adopting innovative, and customer and community oriented management style, besides banking, operates in insurance sector in Europe and portfolio management, private banking and investment banking in global markets.

BBVA that owns a bank being the largest financial institution in Mexico, the market leader in South America, and one of the largest 15 commercial banks in United States, operates in more than 30 countries with more than 100 thousand employees.

DOĞUŞ GROUP

The Doğuş Group that was established in 1951 initially for investments in construction sector, operates in seven sectors namely financial services, automotive, construction, real estate, tourism, media and energy with 132 companies and more than 30 thousand employees.

The major worldwide joint ventures of the Group are; Volkswagen AG and TÜVSÜD in automotive, CNBC, MSNBC and Condé Nast in media and, Hyatt International Ltd and HMS International Hotel GmbH (Maritim) in tourism.

The major investments of the Group in financial sector are; Türkiye Garanti Bankası AŞ, Garanti Bank International NV, Garanti Bank Moscow, Garanti Bank SA, Garanti Finansal Kiralama AŞ, Garanti Faktoring Hizmetleri AŞ, Garanti Yatırım Menkul Kıymetler AŞ, Garanti Portföy Yönetimi AŞ, Garanti Emeklilik ve Hayat AŞ, Doğuş Gayrimenkul Yatırım Ortaklığı AŞ and Volkswagen Doğuş Tüketici Finansmanı AŞ.

Didem Başer	EVP-Digital Banking	20.03.2012	Master	20 years

(*): Ali Temel was appointed as EVP responsible for "Credit Risk Management Head" and Aydın Güler was appointed as EVP responsible for "Finance and Accounting". The processes regarding legal authorizations have not been finalized yet.

The top management listed above does not hold any unquoted shares of the Bank.

1.4 INFORMATION ON THE BANK'S QUALIFIED SHAREHOLDERS

NAME / COMPANY	SHARES	OWNERSHIP	PAID-IN CAPITAL	UNPAID PORTION
Banco Bilbao Vizcaya Argentaria SA	1,675,800	39.9000%	1,675,800	-
Doğuş Holding AŞ	259,846	6.1868%	259,846	-

According to the decision made at the "General Assembly of Founder Shares Owners" and the "Extraordinary General Shareholders" meetings held on 13 June 2008, the Bank repurchased all the 370 founder share-certificates issued in order to redeem and exterminate them, subsequent to the permissions obtained from the related legal authorities, at a value of TL 3,876 thousands each in accordance with the report prepared by the court expert and approved by the Istanbul 5th Commercial Court of First Instance. A total payment of TL 1,434,233 thousands has been made to the owners of 368 founder share-certificates from "extraordinary reserves", and the value of remaining 2 founder share-certificates has been blocked in the bank accounts.

Subsequent to these purchases, the clauses 15, 16 and 45 of the Articles of Association of the Bank have been revised accordingly.

1.5 SUMMARY INFORMATION ON THE BANK'S ACTIVITIES AND SERVICES

Activities of the Bank as stated at the third clause of its Articles of Association are as follows:

- » All banking operations,
- » Participating in, establishing, and trading the shares of enterprises at various sectors within the limits set forth by the Banking Law;
- » Providing attorneyship, insurance agency, brokerage and freight services in relation with banking activities,
- » Purchasing/selling debt securities, treasury bills, government bonds and other share certificates issued by Turkish government and other official and private institutions,
- » Developing economical and financial relations with foreign organizations,
- » Dealing with all economic operations in compliance with the Banking Law.

The Bank's activities are not limited to those disclosed in that third clause, but whenever the Board of Directors deems any operations other than those stated above to be of benefit to the Bank, it is recommended in the general meeting, and the launching of the related project depends on the decision taken during the General Assembly which results in a change in the Articles of Association and on the approval of this decision by the Ministry of Industry and Commerce. Accordingly, the approved decision is added to the Articles of Association.

The Bank is not a specialized bank but deals with all kinds of banking activities. Deposits are the main sources of the lendings to the customers. The Bank grants loans to companies operating in various sectors while aiming to maintain the required level of efficiency.

The Bank also grants non-cash loans to its customers; especially letters of guarantee, letters of credit and acceptance credits.

1.6 CURRENT OR LIKELY ACTUAL OR LEGAL BARRIERS TO IMMEDIATE TRANSFER OF EQUITY OR REPAYMENT OF DEBTS BETWEEN THE BANK AND ITS AFFILIATES

None.

UNCONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

3 ACCOUNTING POLICIES

3.1 BASIS OF PRESENTATION

The Bank prepares its financial statements in accordance with "the Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Regulation" which includes the regulation on "The Procedures and Principles Regarding Banks' Accounting Practices and Maintaining Documents" published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standards published by the Public Oversight Accounting and Auditing Standards Authority for the matters not regulated by the aforementioned legislations.

The accompanying unconsolidated financial statements are prepared in accordance with the historical cost basis except for financial instruments at fair value through profit or loss, financial assets available for sale, real estates and investments in affiliates valued at equity basis of accounting.

The accounting policies and the valuation principles applied in the preparation of the accompanying financial statements are explained in Notes 3.2 to 3.24.

3.2 STRATEGY FOR USE OF FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS

3.2.1 STRATEGY FOR USE OF FINANCIAL INSTRUMENTS

The liability side of the Bank's balance sheet is intensively composed of short-term deposits in line with the general trend in the banking sector. In addition to deposits, the Bank has access to longer-term borrowings via the borrowings from abroad.

In order to manage the interest rate risk arising from short-term deposits, the Bank is keen on maintaining floating rate instruments such as government bonds with quarterly coupon payments and instruments like credit cards and consumer loans providing regular cash inflows.

A portion of the fixed-rate securities and loans, and the bonds of the Bank are hedged under fair value hedges. The fair value risks of such fixed-rate assets and financial liabilities are hedged with interest rate swaps and cross currency swaps. The fair value changes of the hedged fixed-rate financial assets and financial liabilities together with the changes in the fair value of the hedging instruments, namely interest rate swaps and cross currency swaps, are accounted under net trading income/losses in the income statement. At the inception of the hedge and during the subsequent periods, the hedge is expected to achieve the offsetting of changes in fair value attributable to the hedged risk for which the hedge is designated, and accordingly, the hedge effectiveness tests are performed.

The Bank may classify its financial assets and liabilities as at fair value through profit or loss, at the initial recognition in order to eliminate any accounting inconsistency.

The fundamental strategy to manage the liquidity risk that may incur due to short-term structure of funding, is to expand the deposit base through customer-oriented banking philosophy, and to increase customer transactions and retention rates. The Bank's widespread and effective branch network, advantage of primary dealership and strong market share in the treasury and capital markets, are the most effective tools in the realisation of this strategy. For this purpose, serving customers by introducing new products and services continuously and reaching the customers satisfaction are very important.

Another influential factor in management of interest and liquidity risks on balance sheet is product diversification both on asset and liability sides.

Exchange rate risk, interest rate risk and liquidity risk are controlled and measured by various risk management systems, and the balance sheet is managed under the limits set by these systems and the limits legally required. Asset-liability management and value at risk models, stress tests and scenario analysis are used for this purpose.

Purchase and sale of short and long-term financial instruments are allowed within the pre-determined limits to generate risk-free return on capital.

The foreign currency position is controlled by the equilibrium of a currency basket to eliminate the foreign exchange risk.

3.2.2 FOREIGN CURRENCY TRANSACTIONS

Foreign exchange gains and losses arising from foreign currency transactions are recorded at transaction dates. At the end of the periods, foreign currency assets and liabilities evaluated with the Bank's spot purchase rates and the differences are recorded as foreign exchange gain or loss in the income statement.

In the unconsolidated financial statements, the financial affiliates are accounted for using the equity method in accordance with the Communiqué published on the Official Gazette dated 9 April 2015 no. 29321 related to the amendments to the Turkish Accounting Standard 27 (TAS 27) "Separate Financial Statements". In this context, foreign affiliates' asset and liability items in the balance sheet are translated into Turkish Lira by using foreign exchange rates as of the balance sheet date whereas income and expense items are translated into Turkish Lira by using average foreign exchange rates for the related period. Foreign exchange differences arising from translation of income and expense items and other equity items are accounted under capital reserves under equity.

From 1 September 2015, it has been started to apply net investment hedge amounting to EUR 371,955,167 in total among net investments in Garanti Bank International NV and Garanti Holding BV having capitals denominated in foreign currencies and long term foreign currency borrowings. Foreign exchange losses in the amount of TL 32,808 thousands, arising from conversion of both foreign currency net investments and long term foreign currency borrowings are accounted under capital reserves and hedging reserves, respectively under equity. There is no ineffective portion arising from net investment hedge accounting as of 31 December 2015.

3.3 INVESTMENTS IN ASSOCIATES AND AFFILIATES

In the unconsolidated financial statements, the financial affiliates are accounted for using the equity method in accordance with the Communiqué published on the Official Gazette dated 9 April 2015 no. 29321 related to the amendments to the Turkish Accounting Standard 27 (TAS 27) "Separate Financial Statements".

In accordance with the Turkish Accounting Standard 28 (TAS 28) for "Investments in Associates and Joint Ventures" through the equity method, the carrying value of financial affiliates are accounted in the financial statements with respect to the Bank's share in these investments' net asset value. While the Bank's share on profits or losses of financial affiliates are accounted in the Bank's income statement, the Bank's share in other comprehensive income of financial affiliates are accounted in the Bank's other comprehensive income statement.

Non-financial affiliates are accounted at cost in the financial statements after provisions for impairment losses deducted, if any, in accordance with TMS 27.

TÜRKİYE GARANTİ BANKASI ANONİM ŞİRKETİ

UNCONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

3.4 FORWARDS, OPTIONS AND OTHER DERIVATIVE TRANSACTIONS

As per the Turkish Accounting Standard 39 (TAS 39) "Financial Instruments: Recognition and Measurement"; forward foreign currency purchases/sales, swaps, options and futures are classified as either "hedging purposes" or "trading purposes".

3.4.1 DERIVATIVE FINANCIAL INSTRUMENTS HELD FOR TRADING

The derivative transactions mainly consist of foreign currency and interest rate swaps, foreign currency options and forward foreign currency purchase/sale contracts. There are no embedded derivatives.

Derivatives are initially recorded in off-balance sheet accounts at their purchase costs including the transaction costs. Subsequently, derivative transactions are valued at their fair values and the changes in their fair values are recorded on balance sheet under "derivative financial assets held for trading" or "derivative financial liabilities held for trading", respectively depending on the fair values being positive or negative. Fair value changes for trading derivatives are recorded under income statement.

The spot legs of currency swap transactions are recorded on the balance sheet and the forward legs in the off-balance sheet accounts as commitment.

3.4.2 DERIVATIVE FINANCIAL INSTRUMENTS HELD FOR RISK MANAGEMENT

The Bank enters into interest rate and cross currency swap transactions in order to hedge the change in fair values of fixed-rate financial instruments. While applying fair value hedge accounting, the changes in fair values of hedging instrument and hedged item are recognised in income statement. If the hedging is effective, the changes in fair value of the hedged item is presented in statement of financial position together with the fixed-rate loan, and in case of fixed-rate financial assets available for sale, such changes are reclassified from shareholders' equity to income statement.

The Bank enters into interest rate and cross currency swap transactions in order to hedge the changes in cash flows of the floating-rate financial instruments. While applying cash flow hedge accounting, the effective portion of the changes in the fair value of the hedging instrument is accounted for under hedging reserves in shareholders' equity, and the ineffective portion is recognised in income statement. The changes recognised in shareholders' equity is removed and included in income statement in the same period when the hedged cash flows effect the income or loss.

The Bank performs effectiveness test at the beginning of the hedge accounting period and at each reporting period. The effectiveness tests are carried out using the "Dollar off-set model" and the hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortised to income statement over the life of the hedged item from that date of the hedge accounting is discontinued. While discontinuing cash flow hedge accounting, the cumulative gains/losses recognised in shareholders' equity and presented under hedging reserves are continued to be kept in this account. When the cash flows of hedged item are recognised in income statement, the gain/losses accounted for under shareholders' equity, are recognised in income statement.

3.5 INTEREST INCOME AND EXPENSES

Interests are recorded according to the effective interest rate method (rate equal to the rate in calculation of present value of future cash flows of financial assets or liabilities) defined in the Turkish Accounting Standard 39 (TAS 39) "Financial Instruments: Recognition and Measurement".

In case an interest was accrued on a security before its acquisition, the collected interest is divided into two parts as interest before and after the acquisition and only the interest of the period after the acquisition is recorded as interest income in the financial statements.

The accrued interest income on non-performing loans are reversed and subsequently recognised as interest income only when collected.

3.6 FEES AND COMMISSIONS

Except for certain fees related with certain banking transactions and recognized when received, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted under accrual basis of accounting. The income derived from agreements or asset purchases from real-person or corporate third parties are recognized as income when realized.

3.7 FINANCIAL ASSETS

3.7.1 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

Financial assets valued at fair value through profit or loss, such assets are valued at their fair values and gain/loss arising on those assets is recorded in the income statement. Interest income earned on trading securities and the difference between their acquisition costs and amortized costs are recorded as interest income in the income statement. The differences between the amortized costs and the fair values of such securities are recorded under trading account income/losses in the income statement. In cases where such securities are sold before their maturities, the gains/losses on such sales are recorded under trading account income/losses.

The Bank classifies certain loans and securities issued at their origination dates, as financial assets/liabilities at fair value through profit or loss in compliance with TAS 39. The interest income/expense earned and the difference between the acquisition costs and the amortized costs of financial instruments are recorded under interest income/expense in income statement, the difference between the amortized costs and the fair values of financial instruments are recorded under trading account income/losses in income statement.

3.7.2 INVESTMENTS HELD-TO-MATURITY, FINANCIAL ASSETS AVAILABLE-FOR-SALE AND LOANS AND RECEIVABLES

Financial assets are initially recorded at their purchase costs including the transaction costs.

Investments held-to-maturity are financial assets with fixed maturities and pre-determined payment schedules that the Bank has the intent and ability to hold until maturity, excluding originated loans and receivables.

There are no financial assets that are not allowed to be classified as investments held-to-maturity for two years due to the tainting rules applied for the breach of classification rules.

Investments held-to-maturity are measured at amortized costs using internal rate of return after deducting impairments, if any.

TÜRKİYE GARANTİ BANKASI ANONİM ŞİRKETİ

UNCONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

Financial assets available-for-sale, are financial assets other than assets held for trading purposes, investments held-to-maturity and originated loans and receivables.

Financial assets available-for-sale are measured at their fair values subsequently. However, assets for which fair values can not be determined reliably, are valued at amortized costs by using discounting method with internal rate of return for floating-rate securities; and by using valuation models or discounted cash flow techniques for fixed-rate securities. Unrecognised gain/losses derived from the difference between their fair values and the discounted values are recorded in "securities value increase fund" under the shareholders' equity. In case of sales, the gain/losses arising from fair value measurement under shareholders' equity are recognized in income statement.

The real coupon rates for government bonds indexed to consumer price index are fixed throughout maturities. As per the statements made by the Turkish Treasury on the dates of issuance, such securities are valued taking into account the difference between the reference index at the issue date and the reference index at the balance sheet date to reflect the effects of inflation.

Purchase and sale transactions of securities are accounted at delivery dates.

Loans and receivables are financial assets raised by the Bank providing money, commodity and services to debtors.

Loans are financial assets with fixed or determinable payments and not quoted in an active market.

Loans and receivables are recognized at cost and measured at amortized cost using the effective interest method. Duties paid, transaction costs and other similar expenses on assets received against such risks are considered as a part of transaction cost and charged to customers.

3.8 IMPAIRMENT OF FINANCIAL ASSETS

Financial asset or group of financial assets are reviewed at each balance sheet date to determine whether there is objective evidence of impairment. If any such indication exists, the Bank estimates the amount of impairment.

Impairment loss incurs if, and only if, there is an objective evidence that the expected future cash flows of financial asset or group of financial assets are adversely effected by an event(s) ("loss event(s)") incurred subsequent to recognition. The losses expected to incur due to future events are not recognized even if the probability of loss is high.

If there is an objective evidence that certain loans will not be collected, for such loans; the Bank provides specific and general allowances for loan and other receivables classified in accordance with the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables (the Provisioning Regulation) published on the Official Gazette no.2633 dated 1 November 2006. The allowances are recorded in income statement of the related period.

Provisions made during the period are recorded under "provision for losses on loans and other receivables". Provisions booked in the prior periods and released in the current year are recorded under "other operating income".

3.9 NETTING AND DERECOGNITION OF FINANCIAL INSTRUMENTS

3.9.1 NETTING OF FINANCIAL INSTRUMENTS

In cases where the fair values of trading securities, securities available-for-sale, securities quoted at the stock exchanges, associates and affiliates are less than their carrying values, a provision for impairment is allocated, and the net value is shown on the balance sheet.

The Bank provides specific allowances for non-performing loan and other receivables in accordance with the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables. Such allowances are recorded under "loans" as negative balances on the asset side.

Otherwise, the financial assets and liabilities are netted off only when there is a legal right to do so.

3.9.2 DERECOGNITION OF FINANCIAL ASSETS

The Bank derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Bank neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Bank recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Bank retains substantially all the risks and rewards of ownership of a transferred financial asset, it continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in income statement.

In case an existing financial asset is replaced with another financial asset from the same counterparty where the terms on the initial financial asset are substantially modified, the existing financial asset is derecognized and a new financial asset is recognized. The difference between the carrying values of the respective financial assets is recognized in income statement.

3.10 REPURCHASE AND RESALE AGREEMENTS AND SECURITIES LENDING

Securities sold under repurchase agreements are recorded on the balance sheet in compliance with the Uniform Chart of Accounts. Accordingly, government bonds and treasury bills sold to customers under repurchase agreements are classified as "Investments Subject to Repurchase Agreements" and valued based on the Bank management's future intentions, either at market prices or using discounting method with internal rate of return. The funds received through repurchase agreements are classified separately under liability accounts and the related interest expenses are accounted for on an accrual basis.

Securities purchased under resale agreements are classified under "interbank money markets" separately. An income accrual is accounted for the positive difference between the purchase and resale prices earned during the period.

TÜRKİYE GARANTİ BANKASI ANONİM ŞİRKETİ

UNCONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

3.11 ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

A tangible asset (or a disposal group) classified as "asset held for sale" is measured at lower of carrying value or fair value less costs to sell. An asset (or a disposal group) is regarded as "asset held for sale" only when the sale is highly probable and the asset (disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively marketed at a price consistent with its fair value.

A discontinued operation is a part of the Bank's business classified as sold or held-for-sale. The operating results of the discontinued operations are disclosed separately in income statement. The Bank has no discontinued operations.

3.12 GOODWILL AND OTHER INTANGIBLE ASSETS

The Bank's intangible assets consist of softwares, intangible rights and other intangible assets.

Goodwill and other intangible assets are recorded at cost in compliance with the Turkish Accounting Standard 38 (TAS 38) "Intangible Assets".

The costs of the intangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. The intangible assets purchased after this date are recorded at their historical costs. The intangible assets are amortised by the Bank over their estimated useful lives based on their inflation adjusted costs on a straight-line basis.

Estimated useful lives of the Bank's intangible assets are 3-15 years, and amortisation rates are 6.67-33.3%.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is provided.

3.13 TANGIBLE ASSETS

The cost of the tangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. The tangible assets purchased after this date are recorded at their historical costs.

As of 1 November 2015, changing the existing accounting policy, it has been decided to apply revaluation model for properties recorded under tangible assets instead of cost model in accordance with the Turkish Accounting Standard 16 (TAS 16) "Property, Plant and Equipment". Accordingly, for all real estates registered in the ledger, a valuation study was performed by independent expertise firms.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is provided.

Gains/losses arising from the disposal of the tangible assets are calculated as the difference between the net book value and the net sale price.

Maintenance and repair costs incurred for tangible assets, are recorded as expense.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets. The depreciation rates and the estimated useful lives of tangible assets are presented below. Depreciation method in use was not changed in the current period.

TANGIBLE ASSETS	ESTIMATED USEFUL LIVES (YEARS)	DEPRECIATION RATES %
Buildings	50	2
Vaults	50	2
Motor vehicles	5-7	15-20
Other tangible assets	4-20	5-25

The depreciation of an asset held for a period less than a full financial year is calculated as a proportion of the full year depreciation charge from the date of acquisition to the financial year end.

Useful lives of buildings are reviewed at least once a year and if current estimates are different than previous estimates, then the revised estimates are considered as accounting policy change in accordance with Turkish Accounting Standard 8 (TAS 8) "Accounting Policies, Changes in Accounting Estimates and Errors".

Investment properties

Land and buildings that are held to earn rentals or for capital appreciation or both rather than for use in production, supply of goods or services, administrative purposes or sale in the ordinary course of business are classified as investment property. As of 1 November 2015, changing the existing accounting policy, it has been decided to apply fair value model for investment properties instead of cost model in accordance with the Turkish Accounting Standard 40 (TAS 40) "Investment Property" Accordingly, for all the investment properties registered in the ledger, a valuation study was performed by independent expertise firms. Fair value changes in investment properties were accounted in the income statement for the period they occurred.

Investment properties accounted at fair value are not depreciated.

3.14 LEASING ACTIVITIES

Leased assets are recognized by recording an asset or a liability. In the determination of the related asset and liability amounts, the lower of the fair value of the leased asset and the present value of leasing payments is considered. Financial costs on leasing agreements are expanded in lease periods at a fixed interest rate.

In cases where leased assets are impaired or the expected future benefits of the assets are less than their book values, the book values of such leased assets are reduced to their net realizable values. Depreciation for assets acquired through financial leases is calculated consistently with the same principle as for the tangible assets.

In operating leases, the rent payments are charged to the statement of operations in equal installments.

3.15 PROVISIONS AND CONTINGENT LIABILITIES

In the financial statements, a provision is made for an existing commitment resulted from past events if it is probable that the commitment will be settled and a reliable estimate can be made of the amount of the obligation. Provisions are calculated based on the best estimates of management on the expenses to incur as of the balance sheet date and, if material, such expenses are discounted for their present values. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

3.16 CONTINGENT ASSETS

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Bank. If an inflow of economic benefits to the Bank has become probable, then the contingent asset is disclosed in the footnotes to the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

3.17 LIABILITIES FOR EMPLOYEE BENEFITS

Severance indemnities and short-term employee benefits

As per the existing labour law in Turkey, the Bank is required to pay certain amounts to the employees retired or fired except for resignations or misbehaviours specified in the Turkish Labour Law.

Accordingly, the Bank reserved for employee severance indemnities in the accompanying financial statements using actuarial method in compliance with the Turkish Accounting Standard 19 (TAS 19) "Employee Benefits" for all its employees who retired or whose employment is terminated, called up for military service or died. The major actuarial assumptions used in the calculation of the total liability are as follows:

	31 DECEMBER 2015	31 DECEMBER 2014
	%	%
Net Effective Discount Rate	2.99	2.36
Discount Rate	10.30	8.60
Expected Rate of Salary Increase	8.60	7.60
Inflation Rate	7.10	6.10

The above rates are effective rates, whereas the rates applied for the calculation differ according to the employees' years-in-service.

The Bank provided for undiscounted short-term employee benefits earned during the financial periods as per services rendered in compliance with TAS 19.

The actuarial gains/losses are recognised under shareholders' equity as per the revised TAS 19.

Retirement benefit obligations

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee (and his/her dependents) will receive on retirement.

The Bank's defined benefit plan (the "Plan") is managed by "Türkiye Garanti Bankası Anonim Şirketi Memur ve Müstahdemleri Emekli ve Yardım Sandığı Vakfı" (the Fund) established as per the provisional article 20 of the Social Security Law no.506 and the Bank's employees are the members of this Fund.

The Plan is funded through contributions of both by the employees and the employer as required by Social Security Law numbered 506. These contributions are as follows:

	31 DECEMBER 2015	
	EMPLOYER	EMPLOYEE
Pension contributions	15.5%	10.0%
Medical benefit contributions	6.0%	5.0%

The Plan is composed of a) the contractual benefits of the employees, which are subject to transfer to Social Security Foundation ("SSF") as per the Social Security Law no.5754 ("the Law"), and b) other social rights and medical benefits provided by the Bank but not transferable to SSF.

a) Benefits transferable to SSF

The first paragraph of the provisional article 23 of Banking Law no.5411, published in the Official Gazette on 1 November 2005, no.25983, which requires the transfer of the members of the funds subject to the provisional article 20 of the Social Security Law no.506, and the persons who are paid under insurance coverage for disablement, old-age and mortality and their right-holders to the SSF within three years following the effective date of the related article was cancelled with the decision of the Constitutional Court dated 22 March 2007, no.2007/33. The reasoned ruling regarding the cancellation of the Constitutional Court was published in the Official Gazette no.26731, dated 15 December 2007. The Constitutional Court stated that the reason behind this cancellation was the possible loss of antecedent rights of the fund members.

Following the publication of the verdict, the Turkish Grand National Assembly ("Turkish Parliament") started to work on the new legal arrangements by taking the cancellation reasoning into account and the articles of the Law no.5754 regulating the principles related with such transfers were accepted and approved by Turkish Parliament on 17 April 2008, and enacted on 8 May 2008 after being published in the Official Gazette no.26870.

As per the Law, the present value of post-employment benefits as at the transfer date for the fund members to be transferred, are to be calculated by a commission composing from the representatives of the SSF, the Ministry of Finance, the Undersecretariat of Treasury, the Undersecretariat of State Planning Organisation, the BRSA, the Savings Deposit Insurance Fund, the banks and the funds, by using a technical discount rate of 9.80% taking into account the funds' income and expenses as per insurance classes and the transferable contributions and payments of the funds including any salary and income differences paid by the funds above the limits of SSF for such payments. The transfers are to take place within the three-year period starting from 1 January 2008. Subsequently, the transfer of the contributors and the persons receiving monthly or regular income and their right-holders from such funds established for employees of the banks, insurance and reinsurance companies,

Related Disclosures and Footnotes Originally Issued in Turkish)

trade chambers, stock markets and unions that are part of these organizations subject to the provisional article 20 of the Social Security Law no.506 to the SSF, has been postponed for two years. The decision was made by the Council of Ministers on 14 March 2011 and published in the Official Gazette no. 27900 dated 9 April 2011 as per the decision of the Council of Ministers, no.2011/1559, and as per the letter no.150 of the Ministry of Labor and Social Security dated 24 February 2011 and according to the provisional article 20 of the Social Security and Public Health Insurance Law no.5510.

On 19 June 2008, Cumhuriyet Halk Partisi ("CHP") applied to the Constitutional Court for the cancellation of various articles of the Law including the first paragraph of the provisional Article 20. At the meeting of the Constitutional Court on 30 March 2011, it was decided that the first paragraph of the provisional Article 20 of the Law is not contradictory to the Constitutional Law, and accordingly the dismissal of the cancellation request has been denied with the majority of votes.

Before the completion of two-years period set by the Council of Ministers on 14 March 2011, as per the Article no. 51 of the law no. 6645, published in the Official Gazette no. 29335 dated 23 April 2015, the Article no. 20 of the law no. 5510 was amended giving the Council of Ministers the authority to determine the date of transfer without defining any timeline.

b) Other benefits not transferable to SSF

Other social rights and payments provided in the existing trust indenture but not covered through the transfer of the funds' members and their right-holders to the SSF, are to be covered by the funds and the institutions that employ the funds' members.

The actuarial gains/losses are recognised under shareholders' equity as per the revised TAS 19.

3.18 TAXATION

3.18.1 CORPORATE TAX

Effective from 1 January 2006, statutory income is subject to corporate tax at 20% in Turkey. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes. If there is no dividend distribution planned, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions no.2009/14593 and no.2009/14594 of the Council of Ministers published in the Official Gazette no.27130 dated 3 February 2009, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the nonresident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the nonresident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

The tax applications for foreign branches;

NORTHERN CYPRUS

According to the Corporate Tax Law of the Turkish Republic of Northern Cyprus no.41/1976 as amended, the corporate earnings (including foreign corporations) are subject to a 10% corporate tax and 15% income tax. This tax is calculated based on the income that the taxpayers earn in an accounting period. Tax base is determined by modifying accounting income for certain exclusions and allowances for tax purposes. The corporations cannot benefit from the rights of offsetting losses, investment incentives and amortisation unless they prepare and have certified their balance sheets, income statements and accounting records used for tax calculations by an auditor authorized by the Ministry of Finance. In cases where it is revealed that the earnings of a corporation were not subject to taxation in prior years or the tax paid on such earnings are understated, additional taxes can be charged in the next twelve years following that the related taxation period. The corporate tax returns are filed in the tax administration office in April after following the end of the accounting year to which they relate. The corporate taxes are paid in two equal installments in May and October.

MALTA

The corporate earnings are subject to a 35% corporate tax. This rate is determined by modifying accounting income for certain exclusions and allowances for tax purposes. The earnings of the foreign corporations' branches in Malta are also subject to the same tax rate that the resident corporations in Malta are subject to. The earnings of such branches that are transferred to their head offices are not subject to an additional tax. The taxes payable is calculated by the obligating firm and the calculation is shown at the tax declaration form that is due till the following year's September and the payment is done till this date.

LUXEMBOURG

The corporate earnings are subject to a 21% corporate tax. This rate is determined by modifying accounting income for certain exclusions and allowances for tax purposes. An additional 7% of the calculated corporate income tax is paid as a contribution to unemployment insurance fund. 3% of the taxable income is paid as municipality tax in addition to corporate tax. The municipalities have the right to increase this rate up to 200%-350%. The municipality commerce tax, which the Bank's Luxembourg branch subject to currently is applied as 7.50% of the taxable income. The tax returns do not include any tax amounts to be paid.

The tax calculation is done by the tax office and the amount to be paid is declared to corporate through an official letter called Note. The amounts and the payment dates

TÜRKİYE GARANTİ BANKASI ANONİM ŞİRKETİ

UNCONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

of prepaid taxes are determined and declared by the tax office at the beginning of the taxation period. The corporations whose head offices are outside Luxembourg, are allowed to transfer the rest of their net income after tax following the allocation of 5% of it for legal reserves, to their head offices.

3.18.2 DEFERRED TAXES

According to the Turkish Accounting Standard 12 (TAS 12) "Income Taxes"; deferred tax assets and liabilities are recognized, using the balance sheet method, on all taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base, except for the differences not deductible for tax purposes and initial recognition of assets and liabilities which affect neither accounting nor taxable profit.

If transactions and events are recorded in the income statement, then the related tax effects are also recognized in the income statement. However, if transactions and events are recorded directly in the shareholders' equity, the related tax effects are also recognized directly in the shareholders' equity.

The deferred tax assets and liabilities are reported as net in the financial statements.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

3.18.3 TRANSFER PRICING

The article no.13 of the Corporate Tax Law describes the issue of transfer pricing under the title of "Disguised Profit Distribution by Way of Transfer Pricing". "The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing" published at 18 November 2007, explains the application related issues on this topic.

According to this communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm's length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As stated in the "7.1 Annual Documentation" section of this communiqué, the taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Entities and Thin Capitalization" form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices.

3.19 FUNDS BORROWED

The Bank, whenever required, generates funds from domestic and foreign sources in the form of borrowings, syndications, securitizations, and bill and bond issuances in the local and international markets. The funds borrowed are recorded at their purchase costs and valued at amortised costs using the effective interest method.

In cases where such funds are valued at their amortised costs and such application results in measurement or accounting inconsistencies due to having the relevant financial instruments valued using different methods or the related gains or losses are recorded differently, such fundings are valued and recorded at their fair values as per TAS 39 in order to minimise or prevent such inconsistencies.

3.20 SHARE ISSUANCES

None.

3.21 CONFIRMED BILLS OF EXCHANGE AND ACCEPTANCES

Confirmed bills of exchange and acceptances are realized simultaneously with the customer payments and recorded in off-balance sheet accounts as possible debt and commitment, if any.

3.22 GOVERNMENT INCENTIVES

As of 31 December 2015, the Bank does not have any government incentives or grants.

3.23 SEGMENT REPORTING

The Bank operates in corporate, commercial, retail and investment banking. Accordingly, the banking products served to customers are; custody services, time and demand deposits, accumulating deposit accounts, repos, overdraft facilities, spot loans, foreign currency indexed loans, consumer loans, automobile and housing loans, working capital loans, discounted bills, gold loans, foreign currency loans, Eximbank loans, pre-export loans, ECA covered financing, letters of guarantee, letters of credit, export factoring, acceptance credits, draft facilities, forfaiting, leasing, insurance, forward, futures, salary payments, investment account (ELMA), cheques, safety boxes, bill payments, tax collections, payment orders. GarantiCard, BonusCard, Miles&Smiles Card, FlexiCard, MoneyCard, BusinessCard under the brand names of Visa and Mastercard, virtual cards and also American Express credit cards and "Paracard" debit cards with Maestro, Electron, Visa and Mastercard brand names, are available.

The Bank provides service packages to its corporate, commercial and retail customers including deposit, loans, foreign trade transactions, investment products, cash management, leasing, factoring, insurance, credit cards, and other banking products. A customer-oriented branch network has been built in order to serve customers' needs effectively and efficiently. The Bank also utilizes alternative delivery channels intensively.

The Bank provides corporate banking products to international and national holdings in Turkey by coordinating regional offices, suppliers and intermediaries, utilizing cross-selling techniques. Mainly, it provides services through its commercial and mixed type of branches to export-revenue earning sectors like tourism and textile and exporters of Turkey's traditional agricultural products.

Additionally, the Bank provides banking services to enterprises and their employees working in retail and service sectors through product packages including overdraft accounts, POS machines, credit cards, cheque books, Turkish Lira and foreign currency deposits, investment accounts, internet banking and call-center, debit cards and bill payment modules.

Retail banking customers form a wide-spread and sustainable deposit base for the Bank. Individual customers' needs are met by diversified consumer banking products

3.24 OTHER DISCLOSURES

In accordance with the communiqué related with the amendments to the Turkish Accounting Standard 27 (TAS 27) "Separate Financial Statements" published on the Official Gazette dated 9 April 2015 no. 29321, in their separate financial statements, entities shall account their investments in associates, affiliates and joint ventures either at cost in accordance with the provisions set in TFRS 9 "Financial Instruments" or using the equity method of accounting as described in TAS 28 "Investments in Associates and Joint Ventures". The aforementioned change will be effective for annual periods beginning on or after 1 January 2016, but earlier application is permitted.

In accordance with the letter from the BRSA Regulatory Department dated 14 July 2015 no. 24049440-045.01[3/8]-E.10686, the adoption of the aforementioned changes by banks in preparation of their separate financial statements before 1 January 2016 have been permitted as long as the adoption is in compliance with the provisions set in the temporary article 2 of TAS 27 and other related provisions in the TAS.

The Bank has decided to early adopt the equity method of accounting for its investments in financial affiliates described in TAS 28 and started to use equity method for the valuation of its financial affiliates. Before the aforementioned accounting policy change, the associates and affiliates were accounted in the unconsolidated financial statements in accordance with TAS 39. In accordance with TAS 39, the affiliates quoted in active markets and having reliably measured fair values, were accounted at fair value whereas the associates and affiliates not quoted in any active markets and do not have reliably measured fair values, were accounted at cost less any impairment provisions in the financial statements.

As of 1 November 2015, changing the existing accounting policy, it has been decided to apply fair value model for investment properties instead of cost model in accordance with the Turkish Accounting Standard 40 (TAS 40) "Investment Property". Accordingly, for all the investment properties registered in the ledger, a valuation study was performed by independent expertise firms. Fair value changes in investment properties were accounted in the income statement for the period they occurred.

As of 31 December 2015, changing the existing accounting policy, it has been decided to account for taxation related levies and liabilities in the periods when the events resulting in such liabilities occurred instead of applying accrual basis of accounting as in prior years in accordance with the interpretation of TFRIC 21 "Levies".

As of 31 December 2015, in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets", provisions are calculated and accounted for fees and commissions income recognized in prior years but reimbursed in subsequent periods.

4 FINANCIAL POSITION AND RESULTS OF OPERATIONS

4.1 CAPITAL ADEQUACY RATIO

As per the revised "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" effective from 1 July 2012, the Bank's unconsolidated capital adequacy ratio is 15.03% as of 31 December 2015 (31 December 2014: 15.23%).

4.1.1 RISK MEASUREMENT METHODS IN CALCULATION OF CAPITAL ADEQUACY RATIO

Capital adequacy ratio is calculated within the scope of the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks (the "Regulation")", "Regulation on Credit Risk Mitigation Techniques" and "Regulation on Calculation of Risk Weighted Amounts for Securitisations" published in the Official Gazette no.28337 dated 28 June 2012 and the "Regulation on Equities of Banks" published in the Official Gazette no.28756 dated 5 September 2013.

In the calculation of capital adequacy ratio, the data prepared from accounting records in compliance with the current legislation are used. Such accounting data is included in the calculation of credit and market risks subsequent to their designation as "trading book" and "banking book" according to the Regulation.

The items classified as trading book and the items deducted from the equity are not included in the calculation of credit risk. In the calculation of risk weighted assets, the assets subject to amortisation or impairment, are taken into account on a net basis after being reduced by the related amortisations and provisions.

In the calculation of the value at credit risk for the non-cash loans and commitments and the receivables from counterparties in such transactions are weighted after netting with specific provisions that are classified under liabilities and calculated based on the "Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables". The net amounts are then multiplied by the rates stated in the Article 5 of the Regulation, reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in the article 6 of the Regulation and weighted as per Appendix-1 of the Regulation.

In the calculation of the value at credit risk for the derivative financial instruments and the credit derivatives classified in the banking book, the receivables from counterparties are multiplied by the rates stated in the Appendix-2 of the Regulation, reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in the article 6 of the Regulation and weighted as per Appendix-1 of the Regulation.

As per the article 5 of the Regulation, the "counterparty credit risk" is calculated for repurchase transactions, securities and commodities borrowing agreements.

CURRENT PERIOD	PARENT BANK ONLY	
	AMOUNT INCLUDED IN TOTAL CAPITAL CALCULATION	TOTAL AMOUNT
Debt Instruments and the Related Issuance Premiums Defined by the BRSA (Issued before 1.1.2014)	125,559	158,355

4.1.6 APPROACHES FOR ASSESSMENT OF ADEQUACY OF INTERNAL CAPITAL REQUIREMENTS FOR CURRENT AND FUTURE ACTIVITIES

The Bank's process of internal capital requirements is assessed both on bank-only and consolidated basis separately under the regulation on the "Internal Systems and Internal Capital Adequacy Assessment Processes of Banks" (ICAAP) published in the Official Gazette no. 29057 dated 11 July 2014. The ultimate aim of this internal capital requirements process is to maintain the continuity of capital adequacy under the Bank's strategies, lending growth expectations, asset-liability structure, future funding sources and liquidity, fluctuations in capital depending on dividend distribution policy and capital requirements depending on economics, in compliance with its risk profile and appetite.

Accordingly, the Bank's prospective internal capital requirements as per its current capital structure and the targets and strategies for the future are assessed considering its operations and risks every year-end covering the next three years and reported to the BRSA in the month of March.

This assessment includes the interest rate risk, liquidity risk, reputational risk, residual risk, concentration risk, strategy risk, and country and transfer risks arising from banking activities besides the market, credit, counterparty and operational risks directly affecting its legal capital adequacy ratio.

4.2 CREDIT RISK

Credit risk is defined as risks and losses that may occur if the counterparty fails to comply with the agreement's requirements and cannot perform its obligations partially or completely on the terms set. In compliance with the legislation, the credit limits are set for the financial position and credit requirements of customers within the authorization limits assigned for Branches, Lending Departments, Executive Vice President responsible of Lending, General Manager, Credit Committee and Board of Directors. The limits are subject to revision if necessary.

The debtors or group of debtors are subject to credit risk limits. Sectoral risk concentrations are reviewed on a monthly basis.

Credit worthiness of debtors is reviewed periodically in compliance with the legislation by the internal risk rating models. The credit limits are revised and further collateral is required if the risk level of debtor deteriorates. For unsecured loans, the necessary documentation is gathered in compliance with the legislation.

Geographical concentration of credit customers is reviewed monthly. This is in line with the concentration of industrial and commercial activities in Turkey.

In accordance with the Bank's lending policies, the debtor's creditworthiness is analysed and the adequate collateral is obtained based on the financial position of the company and the type of loan; like cash collateral, bank guarantees, mortgages, pledges, bills and corporate guarantees.

The Bank has control limits on the position held through forwards, options and other similar agreements. Credit risk of such instruments is managed together with the risk from market fluctuations. The Bank follows up the risk arising from such instruments and takes the necessary actions to decrease it when necessary.

TÜRKİYE GARANTİ BANKASI ANONİM ŞİRKETİ

UNCONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

The liquidated non-cash loans are subject to the same risk weight with the overdue loans.

The Bank performs foreign trade finance and other interbank credit transactions through widespread correspondents network. Accordingly, the Bank assigns limits to domestic and foreign banks and other financial institutions based on review of their credit worthiness, periodically.

The Bank's largest 100 and 200 cash loan customers compose 24.93% (31 December 2014: 24.00%) and 31.56% (31 December 2014: 30.33%) of the total cash loan portfolio, respectively.

The Bank's largest 100 and 200 non-cash loan customers compose 54.96% (31 December 2014: 52.22%) and 63.60% (31 December 2014: 61.46%) of the total non-cash loan portfolio, respectively.

The Bank's largest 100 ve 200 cash and non-cash loan customers represent 9.26% (31 December 2014: 8.89%) and 11.78% (31 December 2014: 11.35%) of the total "on and off balance sheet" assets, respectively.

The general provision for credit risks amounts to TL 3,002,057 thousands (31 December 2014: TL 2,434,629 thousands).

The Bank developed a statistical-based internal risk rating model for its credit portfolio of corporate/ commercial/medium-size companies. This internal risk rating model has been in use for customer credibility assessment since 2003. Risk rating has become a requirement for loan applications, and ratings are used both to determine branch managers' credit authorization limits and in credit assessment process.

The concentration table of the cash and non-cash loans for the Bank according to the risk rating system for its customers defined as corporate, commercial and medium-size enterprises is presented below:

	CURRENT PERIOD	PRIOR PERIOD
	%	%
Above Average	39.60	40.26
Average	50.04	53.43

4.2.4 EXPOSURE CATEGORIES

An international rating firm, Fitch Ratings' external risk ratings are used to determine the risk weights of the risk categories as per the Article 6 of the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

The international risk ratings are used for the exposures to central governments and central banks, whereas for central governments and central banks that are not rated by Fitch Ratings, the published country ratings as announced by the Organisation for Economic Cooperation and Development (OECD) are used.

According to the regulation on capital adequacy, external risk ratings are used only for the exposures to banks and brokerage houses and to corporates where the counterparties are resident in abroad, to determine their risk weights. Where the counterparties are domestic, the related exposures are included in the calculation of capital adequacy as unrated.

In the determination of risk weights for items that are not included in trading book; if a relevant rating is available then such rating, but if it is an unrated exposure then the rating available for the issuer is used.

Fitch Ratings' risk ratings as per the credit quality grades and the risk weights according to exposure categories are presented below:

CREDIT QUALITY GRADE	FITCH RISK RATING	EXPOSURE CATEGORIES				
		EXPOSURES TO CENTRAL GOVERNMENTS OR CENTRAL BANKS	EXPOSURES TO ADMINISTRATIVE BODIES AND NON-COMMERCIAL UNDERTAKINGS	EXPOSURES TO BANKS AND BROKERAGE HOUSES		EXPOSURES TO CORPORATES

4.2.6 INFORMATION BY MAJOR SECTORS AND TYPE OF COUNTERPARTIES

As per the TAS and TFRS;

Impaired Credits; are the credits that either overdue more than 90 days as of the reporting date or are treated as impaired due to their creditworthiness. For such credits, "specific provisions" are allocated as per the Provisioning Regulation.

Past Due Credits; are the credits that overdue upto 90 days but not impaired. For such credits, "general provisions" are allocated as per the Provisioning Regulation.

4.3 MARKET RISK

The Bank's risk management activities are managed under the responsibility of the board of directors in compliance with "the Internal Systems and Internal Capital Adequacy Assessment Processes of Banks".

In order to comply with the regulations, the Bank set its activities related with market risk management in accordance with "the Internal Systems and Internal Capital Adequacy Assessment Processes of Banks" published in the Official Gazette no. 29057 dated 11 July 2014.

The top management is responsible for applying risk policies, principles and application procedures approved by the board of directors, ensuring timely and reliable reporting to the board of directors about the important risks identified, assessing internal control, internal audit and risk reports prepared for departments and either eliminating risks, deficiencies or defects identified in these departments or taking the necessary precautions to prevent those, and participating in determination of risk limits.

The board of directors monitors the effectiveness of risk management systems through audit committee, related other committees and top management, and in the light of various risk reports and the assessments made by the audit committee.

The risk policies and application procedures have been approved by the board of directors and regularly revisited. The market risk is also managed by risk mitigations through hedging transactions beside measuring the risks in compliance with international standards, limiting such risk and allocating capital accordingly.

Market risks arising from trading portfolios are measured as per "standard" and "value at risk (VaR)" methods. The measurements as per the standard method are performed on a monthly basis, and taken into consideration in the calculation of capital adequacy. Whereas, the measurements as per VaR method are performed on a daily basis. The Bank takes the historical VaR results as the basis for the internal management of market risk and determination of limits. In the VaR calculation, one year historical market data set is used, and 99% confidence interval and one-day retention period (10 days for legal capital calculation) are taken into account. In order to test the reliability of the VaR model, back tests are performed. Stress tests and scenario analysis are also applied in order to reflect the effects of prospective severe market fluctuations in the VaR calculations. Beside the VaR limits, the limits on transaction, dealer, desk, stop-loss approved by the board of directors for trading portfolio are also applied for limiting the market risk.

4.3.1 VALUE AT MARKET RISK

	CURRENT PERIOD	PRIOR PERIOD
(I) Capital Requirement against General Market Risk - Standard Method	79,715	74,413

Total Value at Risk	478,005	538,475	398,278	321,061	363,430	277,870

(*) Highest and lowest values at the table are the highest and the lowest values starting from the beginning of the period including total value at risk.

4.3.3 QUANTITATIVE INFORMATION ON COUNTERPARTY RISK

For repurchase transactions, security and commodity lendings and derivative transactions, counterparty credit risks are calculated. In counterparty credit risk calculations, the fair value methodology is used according to the Appendix-2 of the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks". In case of derivative transactions, the total of replacement costs and potential credit risks is considered as the exposure amount. The replacement costs are calculated valuing the contracts at their fair values and the potential credit risks are calculated multiplying the contract amounts with the credit conversion factors set in the appendix of the regulation.

	CURRENT PERIOD (*)	PRIOR PERIOD (*)
Interest-Rate Contracts	12,317	923

4.4 OPERATIONAL RISK

The value at operational risk is calculated according to the basic indicator approach as per the Article 14 of "Regulation regarding Measurement and Assessment of Capital Adequacy Ratios of Banks".

The annual gross income is composed of net interest income and net non-interest income after deducting realised gains/losses from the sale of securities available-for-sale and held-to-maturity, extraordinary income and income derived from insurance claims at year-end.

BASIC INDICATOR AP PROACH

CURRENT PERIOD	31 DECEMBER 2012	31 DECEMBER 2013	31 DECEMBER 2014	TOTAL/ NO. OF YEARS OF POSITIVE GROSS	RATE (%)	TOTAL
Gross Income	7,814,126	9,180,910	10,054,838	9,016,625	15	1,352,494
Value at Operational Risk (Total x % 12.5)						16,906,172

PRIOD PERIOD

BASIC INDICATOR APPROACH	31 DECEMBER 2012	31 DECEMBER 2013	31 DECEMBER 2014	TOTAL/ NO. OF YEARS OF POSITIVE GROSS	RATE (%)	TOTAL
Gross Income	6,749,862	7,814,126	9,180,910	7,914,966	15	1,187,245
Value at Operational Risk (Total x % 12.5)						14,840,562

4.5 CURRENCY RISK

Foreign currency position limit is set in compliance with the legal standard ratio of net foreign currency position. As of 31 December 2015, the Bank's net 'on balance sheet' foreign currency short position amounts to TL 7,778,023 thousands (31 December 2014: TL 8,685,915 thousands), net 'off-balance sheet' foreign currency long position amounts to TL 9,467,068 thousands (31 December 2014: TL 6,276,952 thousands), while net foreign currency long position amounts to TL 1,689,045 thousands (31 December 2014: a net foreign currency short open position of TL 2,408,963 thousands).

The foreign currency position risk of the Bank is measured by "standard method" and "value-at-risk (VaR) model". Measurements by standard method are carried out monthly, whereas measurements by "VaR" are done daily. The foreign currency exchange risk is managed through transaction, dealer, desk and stop-loss limits approved by the board of directors for the trading portfolio beside the foreign currency net position standard ratio and the VaR limit.

The Bank's effective exchange rates at the date of balance sheet and for the last five working days of the period announced by the Bank in TL are as follows:

	USD	EUR
Foreign currency purchase rates at balance sheet date	2.9080	3.1671
<u>Exchange rates for the days before balance sheet date:</u>		
Day 1	2.9170	3.1826
Day 2	2.9020	3.1703
Day 3	2.9020	3.1809
Day 4	2.8950	3.1703
Day 5	2.8900	3.1672
Last 30-days arithmetical average rates	2.8976	3.1589

4.6 INTEREST RATE RISK

The interest rate risk resulting from balance sheet maturity mismatch presents the possible losses that may arise due to the changes in interest rates of interest sensitive assets and liabilities in the on- and off-balance sheet. Interest sensitivity of assets, liabilities and off-balance sheet items is evaluated during the Weekly Assessment Committee and Assets-Liabilities Committee meetings taking into consideration the developments in market conditions.

The Bank's interest rate risk is measured by using economic value, economic capital, net interest income, income at risk, market price sensitivity of marketable securities portfolio, duration-gap and sensitivity analysis.

The results are supported by the sensitivity and scenario analysis performed periodically due to the possible instabilities in the markets. Furthermore, the interest rate risk is monitored according to the limits approved by the board of directors.

4.6.3 INTEREST RATE RISK ON BANKING BOOK

4.6.3.1 NATURE OF INTEREST RATE RISK RESULTING FROM BANKING BOOK, MAJOR ASSUMPTIONS ON EARLY REPAYMENT OF LOANS AND MOVEMENTS IN DEPOSITS OTHER THAN TERM DEPOSITS AND FREQUENCY OF MEASURING INTEREST RATE RISK

The interest rate risk resulting from the banking book is assessed in terms of repricing risk, yield-curve risk, base risk and option risk, measured as per international standards and managed through limitations and mitigations through hedging transactions.

The interest sensitivity of assets, liabilities and off balance-sheet items are evaluated at the weekly Asset-Liability Committee meetings considering also the market developments.

The measurement process of interest rate risk resulting from the banking book, is designed and managed by the Bank on a bank-only basis to include the interest rate positions defined as banking book by the Bank and to consider the relevant repricing and maturity data.

Duration gaps, gaps by maturity brackets and sensitivity analysis are used in monitoring of repricing risk resulting from maturity mismatch. The duration gap and sensitivity analysis are carried out every two weeks.

In the duration gap analysis, net present values of the interest-rate sensitive assets and liabilities are calculated by using yield curves developed from the market interest rates. In case of instruments with no maturities, the maturity is determined as per interest rate fixing periods and customer behaviors. Such results are supported by sensitivity and scenario analysis applied periodically for possible fluctuations in the markets.

The interest rate risk resulting from the banking book is measured legally as per the "Regulation on Measurement and Evaluation of Interest Rate Risk Resulting from Banking Book as per Standard Shock Method" published in the Official Gazette no.28034 dated 23 August 2011, and the legal limit as per this measurement is monitored and reported monthly. The capital level is maintained considering the interest rate risk resulting from the banking book.

The interest rate risk on the interest-rate-sensitive financial instruments of the trading portfolio is evaluated as part of the market risk.

The market risks of branches and business lines are transferred to the Asset Liability Management department through transfer pricing. This department applies a centralised market risk management and uses the balance sheet (long-term borrowing) and off balance sheet (derivative instruments) methods.

4.8 LIQUIDITY RISK MANAGEMENT AND LIQUIDITY COVERAGE RATIO

Liquidity Risk is managed by Asset and Liability Management Department (ALMD) and Asset and Liability Committee (ALCO) in line with risk management policies and risk appetite approved by the Board of Directors in order to take the necessary measures in a timely and correct manner against possible liquidity shortages that may result from market conditions and balance sheet structure of the Bank. Under stressed conditions, liquidity risk is managed within the Contingency Funding Plan framework.

The Board of Directors reviews the liquidity risk management strategy, policy and practices and approves the liquidity strategy and policies within the framework of risk management strategy and policies, ensures the effective of practice of policies and integrations with Bank's risk management strategy. The Board of Directors determines the basic metrics in liquidity risk measurement and monitoring. The Board of Directors establishes risk appetite of the Bank in liquidity risk management and identifies the risk limits in accordance with the risk appetite and reviews it regularly.

ALCO takes necessary decisions which will be executed by related departments by assessing the liquidity risk that the Bank is exposed to and considering the Bank's strategy and conditions of competition and pursues the implementations.

ALMD, performs daily liquidity management by ensuring compliance with regulatory and internal liquidity limits and monitoring related early warning indicators in case of probable liquidity squeezes. The medium and long term liquidity and funding management is performed by ALMD in accordance with ALCO decisions.

Risk Management Department defines the Bank's liquidity risk, measures and monitors the risks with liquidity risk measurement methods that are in compliance with international standards, presents measurement results periodically to related departments, committees and senior management. Risk Management Department coordinates related parties in order to ensure compliance of risk management process in accordance with the Bank's risk profile, operation environment and strategic plan with regulations. Risk Management Department analyses, develops and revises relevant liquidity risk measurement methods and models in accordance with changing market conditions and the Bank's structure. Risk Management Department reviews assumptions and parameters used in liquidity risk analysis.

The liquidity risk analysis and the important early warning signals are reported monthly to related senior management. Additionally, analysis and monitored internal ratios related to liquidity risk are presented in ALCO report. Internal liquidity metrics are monitored with limit and alert levels approved by the Board of Directors and reported regularly to related parties.

Decentralized management approach is adopted in the Bank's liquidity management. Each subsidiary controlled by the Bank performs daily, medium and long term liquidity management independently from the Bank by the authorities in each subsidiary responsible for managing liquidity risk. In addition, within the scope of consolidated risk management, liquidity and funding risk of each subsidiary in control are monitored via the liquidity risk management methods identified by the Bank by considering the operations, risk profile and regulations of the related subsidiary. Also, in increasing market volatility and liquidity deficit environments, cash flows of especially financial subsidiaries are monitored with the Bank's cash flow on a consolidated basis.

The Bank's funding management is carried out in compliance with the ALCO decisions. Funding and placement strategies are developed by assessing liquidity of the Bank. In liquidity risk management actions that will be taken and procedures are determined by considering normal economic conditions and stress conditions.

Diversification of assets and liabilities is assured so as to be able to continuously meet the obligations, also taking into account the relevant currencies. Funding sources are monitored actively during identification of concentration risk related to funding. The Bank's funding base of customer deposits, interbank and other borrowing transactions are diversified in order to prevent the concentration of a particular funding source. Factors that could trigger the sudden and significant run off in funds or impair the accessibility of the funding sources are analyzed. Additionally, securities which are eligible as collateral at CBRT issued by Republic of Turkey Treasury and have active secondary market are comprised in the Bank's assets.

In the context of TL and foreign currencies liquidity management, the Bank monitors the cash flows regarding assets and liabilities and forecasts the required liquidity in future periods. In cash flow analysis, stress is applied to items that affect the liquidity by volume and rate of change from a liquidity management point of view.

TÜRKİYE GARANTİ BANKASI ANONİM ŞİRKETİ

UNCONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

Liquidity risk exposed by the Bank is managed by establishing risk appetite, risk mitigation according to the liquidity and funding policies (diversification of funding sources, holding high quality liquid assets reserve) and effective control environment and closely monitoring by limits. For those risks that cannot be reduced, the adoption of the current level of risk, reduction or termination of the activities that cause the risk is considered.

In liquidity risk stress testing framework, the level of the Bank's ability to cover cash outflows in liquidity crisis scenario based on the Bank's current cash flow structure, by high quality liquid assets is calculated. Scenario analysis are performed by assessing changing balance sheet structure, liquidity requirements and market conditions.

The results of liquidity risk stress testing are taken into consideration in the assessment of liquidity adequacy and identification of strategy, policy and procedures regarding liquidity risk and contingency funding plan is prepared within this framework.

There exists "Liquidity Risk Management Contingency Funding Plan" in the Bank including mechanisms to prevent increase in liquidity risk during normal and liquidity crisis scenarios for different conditions and levels. Available liquidity sources are determined by considering the liquidity squeezes. Within the framework of this plan, the Bank monitors liquidity risk in terms of early warning indicators, stress levels determined according to probable scenarios and severity of the crisis and possible actions that can be taken in each stress level. In determination of the stress level in the plan, early warning indicators are taken into consideration.

(*) Certain assets on the balance sheet that are necessary for the banking operations but not convertible into cash in short period such as tangible assets, investments in associates and affiliates, stationary supplies, prepaid expenses and loans under follow-up, are included in this column.

(**) Loans amounting to TL 198,118 thousands (31 December 2014: TL 201,385 thousands) classified under "financial assets at fair value through profit or loss" in the accompanying balance sheet, are included above under "Loans".

(***) Shareholders' equity is included in "other liabilities" line under "undistributed" column.

4.9 SECURITISATION POSITIONS

None.

4.10 CREDIT RISK MITIGATION TECHNIQUES

The Bank applies credit risk mitigation according to the comprehensive method that includes risk mitigation calculations considering the volatility-adjusted values of financial collaterals in compliance with the article 34 of the "Regulation on Credit Risk Mitigation Techniques".

In the credit risk mitigation, cash and cash equivalent items and high-credit-quality debt instruments are used.

TÜRKİYE GARANTİ BANKASI ANONİM ŞİRKETİ

UNCONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

The volatility adjustments regarding the receivables, collaterals and currency mismatch of the collaterals are made as per the standard volatility-adjustment approach defined in the article 37 of the above mentioned regulation.

In cases, where there are maturity mismatches resulting from shorter remaining life of collateral than of receivables, the value of collateral is considered as the volatility-adjusted value.

4.11 RISK MANAGEMENT OBJECTIVES AND POLICIES

The Risk Management Strategy of the Bank includes the optimum allocation of the capital and the realisation of growth framework, maintaining risk-return balance, measuring the risks by methods in compliance with international standards and local regulations in parallel with its activities and under its sustainable and value-creating growth strategy.

The Bank determines the necessary approaches in order to update, revise, apply and manage its policies set for the proper assessment and management of risks considering changes in conditions.

The top management is responsible of managing, developing the risk management strategies, policies and application principles approved by the board of directors, reporting of major risks that the Bank is facing to the board of directors, assessment of internal control, internal audit and risk reports of departments and either eliminating risks, deficiencies or defects identified in these departments or taking the necessary precautions to prevent those, and participating in determination of risk limits.

The risk management activities are structured under the responsibility of the Bank's board of directors. Monitoring of corporate risk management policies and

Related Disclosures and Footnotes Originally Issued in Turkish)

applications; including capital adequacy, planning and liquidity coverage is under the responsibility of Risk Committee composed of the members of board. The top management is responsible to the board of directors for monitoring and managing of risks. Besides, the following departments participate in monitoring of risks, independent from the departments having operational activities; Internal Control, Risk Management, Compliance and Internal Audit.

The risks are evaluated on a continuously developing structure that is managed by internationally accepted applications and in compliance with the Bank's policies and procedures, and the international and local regulations.

The risks are also managed through risk mitigations using hedging transactions beside measurement, limitation and capital allocation techniques. The data of the Bank and the market are regularly monitored for better risk monitoring and management. As part of limitation of risks, internal limits are also set beside the legal limits. The possible changes in economic conditions and the risks that can be faced under extraordinary conditions are taken into consideration.

4.12 LEVERAGE RATIO

The leverage ratio table prepared in accordance with the communiqué "Regulation on Measurement and Assessment of Leverage Ratios of Banks" published in the Official Gazette no. 28812 dated 5 November 2013 is presented below:

ON-BALANCE SHEET ASSETS		CURRENT PERIOD (*)
1	On-balance sheet items (excluding derivative financial instruments and credit derivatives but including collateral)	250,277,784
2	(Assets deducted in determining Tier 1 capital)	(220,586)
3	Total on-balance sheet risks (sum of lines 1 and 2)	250,057,198
Derivative financial instruments and credit derivatives		
4	Replacement cost associated with all derivative instruments and credit derivatives	2,353,340
5	Add-on amounts for PFE associated with all derivative instruments and credit derivatives	7,129,895
6	Total risks of derivative financial instruments and credit derivatives (sum of lines 4 to 5)	9,483,235
Securities or commodity financing transactions (SCFT)		
7	Risks from SCFT assets	1,038,962
8	Risks from brokerage activities related exposures	-
9	Total risks related with securities or commodity financing transactions (sum of lines 7 to 8)	1,038,962
Other off-balance sheet transactions		
10	Gross notional amounts of off-balance sheet transactions	99,470,017
11	(Adjustments for conversion to credit equivalent amounts)	3,948
12	Total risks of off-balance sheet items (sum of lines 10 and 11)	99,473,965
Capital and total risks		
13	Tier 1 capital	30,325,091
14	Total risks (sum of lines 3, 6, 9 and 12)	360,053,360
Leverage ratio		
15	Leverage ratio	8.42%

(*) Amounts in the table are three-month average amounts.

4.13 FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES

Miscellaneous Payables	8,336,852	6,862,152	8,336,852	6,862,152

(*) Including the balances at the Central Bank of Turkey

Fair values of financial assets available-for-sale and investments held-to-maturity are derived from market prices or in case of absence of such prices, market prices of other securities quoted in similar qualified markets and having substantially similar characteristics in terms of interest, maturity and other conditions.

Fair values of loans are calculated discounting future cash flows at current market interest rates for fixed-rate loans. The carrying values of floating-rate loans are deemed an approximation for their fair values.

5.1.6.4 MOVEMENT OF INVESTMENTS HELD-TO-MATURITY

	CURRENT PERIOD	PRIOR PERIOD
Balances at Beginning of Period	21,014,502	13,984,435
Foreign Currency Differences On Monetary Assets	1,945,865	74,753
Purchases during the Period (*)	1,331,647	7,689,505
Disposals through Sales/Redemptions (**)	(2,971,899)	(1,649,588)
Valuation Effect	435,697	915,397
Balances at End of Period	21,755,812	21,014,502

In the prior period,

(*) The Bank reclassified private sector bonds with "credit linked notes" with a total face value of USD 425,000,000 from financial assets available-for-sale portfolio to investments held-to-maturity portfolio.

(**) As per the regulation on capital adequacy (Basel II) effective from 1 July 2012, the risk weight of securities in foreign currencies issued by the Turkish Treasury increased from 0% to 100%. As allowed by the relevant accounting standards (IAS 39) for the sale or reclassification of securities originally classified under the securities held-to-maturity in cases where the capital requirement increases due to regulatory changes, and as per the letter of the Public Oversight, Accounting and Auditing Standards Authority no. 602 dated 20 February 2013, in the prior period the Bank reclassified its eurobonds with a total face value of USD 248,209,999 to its available-for-sale portfolio.

In the current period,

(**) As per the exceptions set out in the relevant accounting standards (IAS 39) for the sale or reclassification of securities originally classified under the securities held-to-maturity before maturity, certain credit linked notes with a total face value of USD 300,000,000 were sold.

5.1.15 DEFERRED TAX ASSET

As of 31 December 2015, the Bank has a deferred tax asset of TL 381,541 thousands (31 December 2014: TL 477,385 thousands) calculated as the net amount remaining after netting of tax deductible timing differences and taxable timing differences.

The Bank does not have any deferred tax assets on tax losses carried forward or tax deductions and exemptions as of 31 December 2015. However, there is a deferred tax asset of TL 578,378 thousands (31 December 2014: TL 572,389 thousands) and deferred tax liability of TL 196,837 thousands (31 December 2014: TL 95,004 thousands) presented as net in the accompanying financial statements on all taxable temporary differences arising between the carrying amounts and the taxable amounts of assets and liabilities on the financial statements that will be considered in the calculation of taxable earnings in the future periods.

For the cases where such differences are related with certain items on the shareholders' equity accounts, the deferred taxes are charged or credited directly to these accounts.

	CURRENT PERIOD		PRIOR PERIOD	
	TAX BASE	DEFERRED TAX AMOUNT	TAX BASE	DEFERRED TAX AMOUNT
Provisions (*)	825,024	165,005	656,754	131,351

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

Recognized liability for defined benefit plan obligations

The Bank obtained an actuarial report dated 7 December 2015 from an independent actuary reflecting the principles and procedures on determining the application of transfer transactions in accordance with the Law and it is determined that the assets of the Plan are above the amount that will be required to be paid to transfer the obligation and the asset surplus amounts to TL 2,408,349 thousands at 31 December 2015 (31 December 2014: TL 2,086,877 thousands) as details are given in the table below.

Furthermore, an actuarial report was prepared as of 31 December 2015 as per the requirements of the Law explained in Note 3.17, the accounting policies related with "employee benefits" for the benefits transferable to the SSF and as per TAS 19 for other benefits not transferable to the SSF and arising from other social rights and payments covered by the existing trust indenture of the Fund and medical benefits provided for employees. Based on the actuary's 7 December 2015 dated report, the asset surplus over the fair value of the plan assets to be used for the payment of the obligations also fully covers the benefits not transferable and still a surplus of TL 1,336,959 thousands (31 December 2014: TL 1,287,303 thousands) remains as of 31 December 2015 as details are given in the table below.

The Bank's management, acting prudently, did not consider the health premium surplus amounting TL 528,011 thousands (31 December 2014: TL 512,563 thousands) as stated above and resulted from the present value of medical benefits and health premiums transferable to SSF as of 31 December 2015. However, despite this treatment there are no excess obligation that needs to be provided against.

	CURRENT PERIOD	PRIOR PERIOD
Transferable Pension and Medical Benefits:		
Net present value of pension benefits transferable to SSF	(608,796)	(528,752)
Net present value of medical benefits and health premiums transferable to SSF	528,011	512,563
General administrative expenses	(33,702)	(29,291)
Present Value of Pension and Medical Benefits Transferable to SSF (1)	(114,487)	(45,480)
Fair Value of Plan Assets (2)	2,522,836	2,132,357
Asset Surplus over Transferable Benefits ((2)-(1)=(3))	2,408,349	2,086,877
Non-Transferable Benefits:		
Other pension benefits	(592,937)	(538,185)
Other medical benefits	(478,453)	(261,389)
Total Non-Transferable Benefits (4)	(1,071,390)	(799,574)
Asset Surplus over Total Benefits ((3)-(4)=(5))	1,336,959	1,287,303
Net Present Value of Medical Benefits and Health Premiums Transferable to SSF –but not considered acting prudently (6)	(528,011)	(512,563)
Present Value of Asset Surplus/(Defined Benefit Obligation) ((5)-(6))	808,948	774,740

The major actuarial assumptions used in the calculation of other benefits not transferable to SSF in compliance with TAS 19 are as follows:

	CURRENT PERIOD	PRIOR PERIOD
	%	%
Discount Rate (*)	10.30	8.80
Inflation Rate (*)	7.10	6.10
Future Real Salary Increase Rate	1.50	1.50
Medical Cost Trend Rate	40% above inflation	40% above inflation
Future Pension Increase Rate (*)	7.10	6.10

(*) The above rates are effective rates, whereas the rates applied for the calculation differ according to the employees' years-in-service.

Assumptions regarding future mortality are based on published statistics and mortality tables. The average life expectancy of an individual retiring at age 60 is 17 for males, and at age 58 for females is 23.

5.2.10 SUBORDINATED DEBTS

On 23 February 2009, the Bank obtained a subordinated debt of EUR 50 millions from Proparco (Societe de Promotion et de Participation pour la Cooperation Economique SA), a company of the French Development Agency Group with an interest of Euribor+3.5% and maturity of 12 years with a repayment option at the end of the seventh year to finance the clean energy projects.

This debt is qualified as secondary subordinated debt to be included in the supplementary capital by the BRSA in the calculation of the Bank's capital adequacy ratio in compliance with the conditions set forth in the "Regulation on Equities of Banks" issued by the BRSA and published in the Official Gazette no.26333 dated 1 November 2006.

5.3.3 CREDIT DERIVATIVES AND RISK EXPOSURES ON CREDIT DERIVATIVES

As of 31 December 2015, in the Bank's "other irrevocable commitments", there are commitments for "credit linked notes" with a total face value of USD 125,000,000 (31 December 2014: USD 425,000,000).

As of 31 December 2015, there are total return swaps of the Bank with a total face value of EUR (-) (31 December 2014: EUR 85,000,000) classified under "other derivative financial instruments", where the Bank is on the buying side of the protection.

As of 31 December 2015, there are total return swaps of the Bank with a total face value of USD 2,000,000,000 (31 December 2014: USD 2,000,000,000) classified under "other derivative financial instruments", where the Bank is on the selling side of the protection.

5.3.4 CONTINGENT LIABILITIES AND ASSETS

The Bank made a total provision amounting to TL 39,530 thousands (31 December 2014: TL 30,062 thousands) for the lawsuits filed by various customers and institutions against the Bank which are likely to occur and for which cash outflow might be necessary, and disclosed it under Note 5.2.7.4.2, other provisions. The Bank has various other lawsuits which are unlikely to occur and for which cash outflow is not expected to incur.

It is possible that the Bank may be required to provide additional collateral for the derivative transactions involved due to changes in certain financial indicators such as CDS levels, currency exchange rates, interest rates etc. As of 31 December 2015, there was no payment made related with such contingent liabilities.

5.3.5 SERVICES RENDERED ON BEHALF OF THIRD PARTIES

The Bank acts as an investment agent for banking transactions on behalf of its customers and provides custody services. Such transactions are followed under off-balance sheet accounts.

TÜRKİYE GARANTİ BANKASI ANONİM ŞİRKETİ

UNCONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

The Bank enters into interest rate swap agreements in order to hedge the change in fair values of its fixed rate financial instruments due to fluctuations in market interest rates. In this respect, the Bank applied fair value hedge accounting for the fixed rate eurobonds issued in 2011 with a total face value of USD 500,000,000, maturity of 10 years and maturity date of 20 April 2021 which were priced at 6.375% originally and had a coupon rate of 6.25%, by designating interest rate swaps with the same face value amount and conditions. In June 2012, the Bank ceased to apply hedge accounting and accordingly fair value calculations for these bonds. The accumulated fair value differences incurred starting from the date of hedge accounting up to the date on which it was ceased, are amortized as per the effective interest-rate method in compliance with TAS 39.

The Bank also enters into interest rate and cross currency swap agreements in order to hedge the change in cash flows of floating rate financial instruments due to fluctuations in market interest rates. In this respect, the Bank applied cash flow hedge accounting for its eurobonds with a total face value of USD 300,000,000, funds borrowed amounting to USD 95,792,432 and EUR 44,736,844, securitization borrowings amounting to USD 160,416,667 and EUR 203,784,208 by designating cross currency swaps with the same face value amount and conditions, and eurobonds with a total nominal value of USD 10,000,000, and for the collateralised borrowings amounting to TL 900,000 thousands and USD 250,000,000 and borrowings amounting to USD 650,000,000 by designating interest rate swaps with the same face value amount and conditions. Accordingly, in the current period, gains of TL 70,700 thousands (31 December 2014: a loss of TL 3,051 thousands) and TL 4,946 thousands (31 December 2014: a loss of TL 3,771 thousands) resulting from cross currency and interest rate swap agreements were recognised under shareholders' equity, respectively.

The Bank also applied fair value hedge accounting for its fixed-rate loans with a total principal of TL 395,094 thousands and USD 1,002,596,707 and EUR 29,500,000 and for its bonds with a total face value of TL 1,325,000 thousands and USD 167,900,000 and fixed-rate coupons by designating interest rate swaps with the same face values and terms. Accordingly, in the current period, a gain of TL 65,397 thousands (31 December 2014: TL 39,256 thousands) and a loss of TL 48,755 thousands (31 December 2014: a gain of TL 42,104 thousands) resulted from the related fair value calculations for the hedged loans and bonds were accounted for under net trading income/losses in the income statement, respectively.

In addition, the Bank also entered into cross currency swap agreements in order to hedge its fixed-rate bonds issued for a total principal value of AUD 175,000,000 and, RON 85,500,000 with the same face value amount and conditions. Accordingly, in the current period, a loss of TL 13,669 thousands (31 December 2014: TL 12,511 thousands) resulted from the fair value changes of the securities issued and funds borrowed subject to hedge accounting were accounted for under trading income/losses in the income statement.

5.4.5 OTHER OPERATING INCOME

The items under "other operating income" generally consists of collection or reversals of prior year provisions, banking services related costs recharged to customers, fair value increase of investment property and income on custody services.

In the current period, a part of non-performing receivables of the Bank amounting to TL 83,080 thousands were sold for a consideration of TL 19,494 thousands.

Considering the related provision of TL 80,711 thousands made in the financial statements, a gain of TL 17,079 thousands is recognized under "Other Operating Income".

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Türkiye Garanti Bankası A.Ş.

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

We have audited the accompanying consolidated balance sheet of Türkiye Garanti Bankası A.Ş. ("the Bank") and its consolidated financial affiliates (together will be referred as "the Group") as at 31 December 2015 and the related consolidated income statement, consolidated statement of income and expense items under shareholders' equity, consolidated statement of changes in shareholders' equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Bank management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with "the Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Regulation" which includes the regulation on "The Procedures and Principles Regarding Banks' Accounting Practices and Maintaining Documents" published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standards for the matters not regulated by the aforementioned legislations and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the regulation on "Independent Auditing of Banks" published in the Official Gazette dated 2 April 2015 with No. 29314 and Independent Auditing Standards which is a part of Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority ("POA"). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

BASIS FOR QUALIFIED OPINION

Subsequent to the reversal of TL 73,000 thousands in the current period the accompanying consolidated financial statements include a general reserve amounting to TL 342,000 thousands as of the balance sheet date, provided by the Bank management in prior periods in line with conservatism principle considering the circumstances which may arise from any changes in the economy or market conditions.

INDEPENDENT AUDITORS' QUALIFIED OPINION

In our opinion, except for the effect of the matter described in the basis for qualified opinion paragraph, the consolidated financial statements present fairly, in all material respects, the financial position of Türkiye Garanti Bankası A.Ş. and its consolidated financial affiliates as at 31 December 2015 and the results of its operations and its cash flows for the year ended in accordance with the BRSA Accounting and Reporting Regulations.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with paragraph four of the Article 402 of the Turkish Commercial Code No. 6102 ("TCC"), nothing has come to our attention that may cause us to believe that the Bank's set of accounts for the period 1 January-31 December 2015 does not comply with TCC and the provisions of the Bank's articles of association in relation to financial reporting.

In accordance with paragraph four of the Article 402 of TCC, the Board of Directors provided us all the required information and documentation with respect to our audit.

ADDITIONAL PARAGRAPH FOR ENGLISH TRANSLATION

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Bank's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

TÜRKİYE GARANTİ BANKASI A.Ş. AND ITS FINANCIAL AFFILIATES

CONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

1 GENERAL INFORMATION

1.1 HISTORY OF PARENT BANK INCLUDING ITS INCORPORATION DATE, INITIAL LEGAL STATUS, AMENDMENTS TO LEGAL STATUS

Türkiye Garanti Bankası Anonim Şirketi (the Bank) was established by the decree of Council of Ministers numbered 3/4010 dated 11 April 1946 and its "Articles of Association" was issued in the Official Gazette dated 25 April 1946. The Bank provides banking services through 971 domestic branches, nine foreign branches and three representative offices abroad. The Bank's head office is located in Istanbul.

1.2 PARENT BANK'S SHAREHOLDER STRUCTURE, MANAGEMENT AND INTERNAL AUDIT, DIRECT AND INDIRECT SHAREHOLDERS, CHANGE IN SHAREHOLDER STRUCTURE DURING PERIOD AND INFORMATION ON ITS RISK GROUP

As of 31 December 2015, group of companies under Banco Bilbao Vizcaya Argentaria SA ("BBVA") that currently owns 39.90% shares of the Bank, is named the BBVA Group (the Group) and it is the main shareholder.

On 22 March 2011, BBVA had acquired; 78.120.000.000 shares of the Bank owned by GE Capital Corporation at a total nominal value of TL 781,200 thousands representing 18.60% ownership, and 26.418.840.000 shares of the Bank owned by Doğuş Holding AŞ at a total nominal value of TL 264,188 thousands representing 6.29% ownership. BBVA, purchasing 24.89% shares of the Bank, had joint control on the Bank's management together with group of companies under Doğuş Holding AŞ (the Doğuş Group).

Subsequently, on 7 April 2011, BBVA had acquired 503.160.000 shares at a nominal value of TL 5,032 thousands and increased its ownership in the Bank's share capital to 25.01%. Accordingly, BBVA and the Doğuş Group had mutual control on the Bank's management.

Finally, in accordance with the terms of the agreement between BBVA and Doğuş Group which was previously disclosed on 19 November 2014, the sale of shares representing 14.89% of the share capital of the Bank with a face value of TL 625,380 thousands and 62,538,000,000 shares by the Doğuş Group to BBVA, has been completed on 27 July 2015. Following the acquisition, BBVA's stake in the Bank has reached to 39.90% and BBVA has become the main shareholder. The Bank has moved to "Foreign Deposit Banks" category from "Private Deposit Bank" category by BRSA.

Accordingly, as of balance sheet date, the Doğuş Group's interest in the share capital of the Bank is at 10%.

BBVA Group

BBVA is operating for more than 150 years, providing variety of wide spread financial and non-financial services to over 47 million retail and commercial customers.

The Group's headquarter is in Spain, where the Group has concrete leadership in retail and commercial markets. BBVA adopting innovative, and customer and community oriented management style, besides banking, operates in insurance sector in Europe and portfolio management, private banking and investment banking in global markets.

BBVA that owns a bank being the largest financial institution in Mexico, the market leader in South America, and one of the largest 15 commercial banks in United States, operates in more than 30 countries with more than 100 thousand employees.

Doğuş Group

The Doğuş Group that was established in 1951 initially for investments in construction sector, operates in seven sectors namely financial services, automotive, construction, real estate, tourism, media and energy with 132 companies and more than 30 thousand employees.

The major worldwide joint ventures of the Group are; Volkswagen AG and TÜVSÜD in automotive, CNBC, MSNBC and Condé Nast in media and, Hyatt International Ltd and HMS International Hotel GmbH (Maritim) in tourism.

The major investments of the Doğuş Group in financial sector are; Türkiye Garanti Bankası AŞ, Garanti Bank International NV, Garanti Bank Moscow, Garanti Bank SA, Garanti Finansal Kiralama AŞ, Garanti Faktoring Hizmetleri AŞ, Garanti Yatırım Menkul Kıymetler AŞ, Garanti Portföy Yönetimi AŞ, Garanti Emeklilik ve Hayat AŞ, Doğuş Gayrimenkul Yatırım Ortaklığı AŞ and Volkswagen Doğuş Tüketici Finansmanı AŞ.

(* Ali Temel was appointed as EVP responsible for "Credit Risk Management Head" and Aydın Güler was appointed as EVP responsible for "Finance and Accounting". The processes regarding legal authorizations have not been finalized yet.

The top management listed above does not hold any unquoted shares of the Bank.

1.4 INFORMATION ON PARENT BANK'S QUALIFIED SHAREHOLDERS

COMPANY	SHARES	OWNERSHIP	PAID-IN CAPITAL	UNPAID PORTION
Banco Bilbao Vizcaya Argentaria SA	1,675,800	39.9000%	1,675,800	-
Doğuş Holding AŞ	259,846	6.1868%	259,846	-

According to the decision made at the "General Assembly of Founder Shares Owners" and the "Extraordinary General Shareholders" meetings held on 13 June 2008, the Bank repurchased all the 370 founder share-certificates issued in order to redeem and exterminate them, subsequent to the permissions obtained from the related legal authorities, at a value of TL 3,876 thousands each in accordance with the report prepared by the court expert and approved by the Istanbul 5th Commercial Court of First Instance. A total payment of TL 1,434,233 thousands has been made to the owners of 368 founder share-certificates from "extraordinary reserves", and the value of remaining 2 founder share-certificates has been blocked in the bank accounts.

Subsequent to these purchases, the clauses 15, 16 and 45 of the Articles of Association of the Bank have been revised accordingly.

1.5 SUMMARY INFORMATION ON PARENT BANK'S ACTIVITIES AND SERVICES

Activities of the Bank as stated at the third clause of its Articles of Association are as follows:

- » All banking operations,
- » Participating in, establishing, and trading the shares of enterprises at various sectors within the limits set forth by the Banking Law;
- » Providing attorneyship, insurance agency, brokerage and freight services in relation with banking activities,
- » Purchasing/selling debt securities, treasury bills, government bonds and other share certificates issued by Turkish government and other official and private institutions,
- » Developing economical and financial relations with foreign organizations,
- » Dealing with all economic operations in compliance with the Banking Law.

The Bank's activities are not limited to those disclosed in that third clause, but whenever the Board of Directors deems any operations other than those stated above to be of benefit to the Bank, it is recommended in the general meeting, and the launching of the related project depends on the decision taken during the General Assembly which results in a change in the Articles of Association and on the approval of this decision by the Ministry of Industry and Commerce. Accordingly, the approved decision is added to the Articles of Association.

The Bank is not a specialized bank but deals with all kinds of banking activities. Deposits are the main sources of the lendings to the customers. The Bank grants loans to companies operating in various sectors while aiming to maintain the required level of efficiency.

The Bank also grants non-cash loans to its customers; especially letters of guarantee, letters of credit and acceptance credits.

1.6 INFORMATION ON APPLICATION DIFFERENCES BETWEEN CONSOLIDATION PRACTICES AS PER THE REGULATION ON PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS OF BANKS AND AS PER THE TURKISH ACCOUNTING STANDARDS, AND ENTITIES SUBJECT TO FULL OR PROPORTIONAL CONSOLIDATION OR DEDUCTED FROM EQUITY OR NOT SUBJECT TO ANY OF THESE THREE METHODS

As per the Regulation on Preparation of Consolidated Financial Statements of Banks, the investments in financial affiliates are subject to consolidation whereas as per the Turkish Accounting Standards, the investments in both financial and non-financial subsidiaries are subject to consolidation. There are no investments in entities subject to proportional consolidation or to deduction from equity.

1.7 CURRENT OR LIKELY ACTUAL OR LEGAL BARRIERS TO IMMEDIATE TRANSFER OF EQUITY OR REPAYMENT OF DEBTS BETWEEN PARENT BANK AND ITS AFFILIATES

None.

TÜRKİYE GARANTİ BANKASI A.Ş. AND ITS FINANCIAL AFFILIATES

CONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

3 ACCOUNTING POLICIES

3.1 BASIS OF PRESENTATION

The Bank prepares its consolidated financial statements in accordance with "the Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Regulation" which includes the regulation on "The Procedures and Principles Regarding Banks' Accounting Practices and Maintaining Documents" published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standards published by the Public Oversight Accounting and Auditing Standards Authority for the matters not regulated by the aforementioned legislations.

The accompanying consolidated financial statements are prepared in accordance with the historical cost basis except for financial instruments at fair value through profit or loss, financial assets available for sale, real estates and investments in associates and affiliates valued at equity basis of accounting or that are quoted on the stock exchanges which are presented on a fair value basis.

The accounting policies and the valuation principles applied in the preparation of the accompanying consolidated financial statements are explained in Notes 3.2 to 3.24.

3.2 STRATEGY FOR USE OF FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS

3.2.1 STRATEGY FOR USE OF FINANCIAL INSTRUMENTS

The liability side of the balance sheet is intensively composed of short-term deposits in line with the general trend in the banking sector. In addition to deposits, the Bank and its financial affiliates have access to longer-term borrowings via the borrowings from abroad.

In order to manage the interest rate risk arising from short-term deposits, the Bank and its financial affiliates are keen on maintaining floating rate instruments such as government bonds with quarterly coupon payments and instruments like credit cards and consumer loans providing regular cash inflows.

A portion of the fixed-rate securities and loans, and the bonds of the Bank are hedged under fair value hedges. The fair value risks of such fixed-rate assets and financial liabilities are hedged with interest rate swaps and cross currency swaps. The fair value changes of the hedged fixed-rate financial assets and financial liabilities together with the changes in the fair value of the hedging instruments, namely interest rate swaps and cross currency swaps, are accounted under net trading income/losses in the income statement. At the inception of the hedge and during the subsequent periods, the hedge is expected to achieve the offsetting of changes in fair value attributable to the hedged risk for which the hedge is designated, and accordingly, the hedge effectiveness tests are performed.

The Bank may classify its financial assets and liabilities as at fair value through profit or loss at the initial recognition in order to eliminate any accounting inconsistency.

The fundamental strategy to manage the liquidity risk that may incur due to short-term structure of funding, is to expand the deposit base through customer-oriented banking philosophy, and to increase customer transactions and retention rates. The widespread and effective branch network, advantage of primary dealership and strong market share in the treasury and capital markets, are the most effective tools in the realisation of this strategy. For this purpose, serving customers by introducing new products and services continuously and reaching the customers satisfaction are very important.

Another influential factor in the management of the interest and liquidity risk on balance sheet is product diversification both on asset and liability sides.

Exchange rate risk, interest rate risk and liquidity risk are controlled and measured by various risk management systems, and the balance sheet is managed under the limits set by these systems and the limits legally required. Asset-liability management and value at risk models, stress tests and scenario analysis are used for this purpose.

Purchase and sale of short and long-term financial instruments are allowed within the pre-determined limits to generate risk-free return on capital.

The foreign currency position is controlled by the equilibrium of a currency basket to eliminate the foreign exchange risk.

3.2.2 FOREIGN CURRENCY TRANSACTIONS

Foreign exchange gains and losses arising from foreign currency transactions are recorded at transaction dates. At the end of the periods, foreign currency assets and liabilities evaluated with the Bank's spot purchase rates for the parent Bank and with the Central Bank of Turkey's spot purchase rates for domestic financial affiliates, and the differences are recorded as foreign exchange gain or loss in the income statement.

During the consolidation of foreign affiliates, the assets and liabilities are translated into TL at exchange rates ruling at the balance sheet date, the income and expenses in income statement are translated into TL using monthly average exchange rates. Foreign exchange differences arising from the translation of income and expenses and other equity items, are recognized under other profit reserves of the shareholders' equity.

The foreign currency risk arising from net investments in foreign affiliates are hedged with long-term foreign currency borrowings and the currency translation differences arising from the conversion of net investments in foreign affiliates and long-term foreign currency borrowings into TL are accounted for other profit reserves and hedging reserves, respectively in equity.

3.3 INFORMATION ON CONSOLIDATED SUBSIDIARIES

As of 31 December 2015, Türkiye Garanti Bankası Anonim Şirketi and the following financial affiliates are consolidated in the accompanying consolidated financial statements; Garanti Bank International (GBI), Garanti Bank Moscow (Garanti Moscow), Garanti Finansal Kiralama AŞ (Garanti Finansal Kiralama), Garanti Yatırım Menkul Kıymetler AŞ (Garanti Yatırım), Garanti Portföy Yönetimi AŞ (Garanti Portföy), Garanti Emeklilik ve Hayat AŞ (Garanti Emeklilik), Garanti Faktoring Hizmetleri AŞ (Garanti Faktoring) and Garanti Holding BV (Garanti Holding).

Garanti Finansal Kiralama was established in 1990 to perform financial lease activities and all related transactions and contracts. The company's head office is in Istanbul. The Bank increased its shareholding to 100% through a further acquisition of 0.04% of the company's shares on 21 October 2014.

Garanti Faktoring was established in 1990 to perform import, export and domestic factoring activities. The company's head office is in Istanbul. The Bank owns 81.84% of Garanti Faktoring shares including the shares acquired in the market. T. İhracat Kredi Bankası AŞ owns 9.78% of the company's shares and the remaining 8.38% shares are held by public.

GBI was established in October 1990 to perform banking activities abroad. The head office of this bank is in Amsterdam. It is wholly owned by the Bank.

Garanti Yatırım was established in 1991 to perform brokerage activities for marketable securities, valuable papers and documents representing financial values or financial commitments of issuing parties other than securities. The company's head office is in Istanbul. It is wholly owned by the Bank. Garanti Yatırım Ortaklığı AŞ that Garanti Yatırım participated by 3.30%, has been consolidated in the accompanying consolidated financial statements due to the company's right to elect all the members of the board of directors as resulted from its privilege in election of board members.

In 1992, it was decided to operate life and health branches under a different company and accordingly Garanti Hayat Sigorta AŞ was established. Garanti Hayat Sigorta AŞ was converted into a private pension company in compliance with the legislation early in 2003 and its name was changed as Garanti Emeklilik ve Hayat AŞ. Following the sale transactions that took place on 21 June 2007, the Bank's ownership in Garanti Emeklilik decreased to 84.91%. The head office of this company is in Istanbul.

Garanti Moscow was established in 1996 to perform banking activities abroad. This bank's head office is in Moscow. The Bank owns 99.94% of its shares.

Garanti Portföy was established in June 1997 to manage the customer portfolios by using the capital market products in compliance with the principles and rules of the regulations regarding the company's purpose of establishment and the portfolio management agreements signed with the customers. The company's head office is in Istanbul. It is wholly owned by the Bank.

Garanti Holding was established in December 2007 in Amsterdam and all its shares was purchased by the Bank from Doğu Holding AŞ in May 2010. As of 27 January 2011 the consolidated affiliate's legal named changed to Garanti Holding BV from D Netherlands BV.

Garanti Diversified Payment Rights Finance Company and RPV Company are special purpose entities established for the parent Bank's securitization transactions, and consolidated in the accompanying consolidated financial statements. The Bank or any of its affiliates does not have any shareholding interests in these companies.

The Bank and its financial affiliates do not consider the bonus shares received through capital increases of their affiliates from their own equities as income in accordance with TAS 18, as such capital increases do not create any differences in the financial position or economic interest of the Bank or its financial affiliates and it is not certain that there is an economic benefit associated with such transactions that will flow to the Bank or its financial affiliates.

3.4 FORWARDS, OPTIONS AND OTHER DERIVATIVE TRANSACTIONS

As per the Turkish Accounting Standard 39 (TAS 39) "Financial Instruments: Recognition and Measurement"; forward foreign currency purchases/sales, swaps, options and futures are classified as either "hedging purposes" or "trading purposes".

3.4.1 DERIVATIVE FINANCIAL INSTRUMENTS HELD FOR TRADING

The derivative transactions mainly consist of foreign currency and interest rate swaps, foreign currency options and forward foreign currency purchase/sale contacts. There are no embedded derivatives.

Derivatives are initially recorded in off-balance sheet accounts at their purchase costs including the transaction costs. Subsequently, derivative transactions are valued at their fair values and the changes in their fair values are recorded on balance sheet under "derivative financial assets held for trading" or "derivative financial liabilities held for trading", respectively depending on the fair values being positive or negative. Fair value changes for trading derivatives are recorded under income statement.

The spot legs of currency swap transactions are recorded on the balance sheet and the forward legs in the off-balance sheet accounts as commitment.

3.4.2 DERIVATIVE FINANCIAL INSTRUMENTS HELD FOR RISK MANAGEMENT

The Bank and its consolidated financial affiliates enter into interest rate and cross currency swap transactions in order to hedge the changes in fair values of fixed-rate financial instruments. While applying fair value hedge accounting, the changes in fair values of hedging instrument and hedged item are recognised in income statement. If the hedging is effective, the changes in fair value of the hedged item is presented in statement of financial position together with the fixed-rate loan, and in case of the fixed-rate financial assets available for sale, such changes are reclassified from shareholders' equity to income statement.

The Bank and its consolidated financial affiliates enter into interest rate and cross currency swap transactions in order to hedge the changes in cash flows of the floating-rate financial instruments. While applying cash flow hedge accounting, the effective portion of the changes in the fair value of the hedging instrument is accounted for under hedging reserves in shareholders' equity, and the ineffective portion is recognised in income statement. The changes recognized in shareholders' equity is removed and included in income statement in the same period when the hedged cash flows effect the income or loss.

Effectiveness tests are performed at the beginning of the hedge accounting period and at each reporting period. The effectiveness tests are carried out using the "Dollar off-set model" and the hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortised to income statement over the life of the hedged item from that date of the hedge accounting is discontinued. While discontinuing cash flow hedge accounting, the cumulative gains/losses recognised in shareholders' equity and presented under hedging reserves are continued to be kept in this account. When the cash flows of hedged item are recognised in income statement, the gain/losses accounted for under shareholders' equity are recognised in income statement.

TÜRKİYE GARANTİ BANKASI A.Ş. AND ITS FINANCIAL AFFILIATES

CONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

3.5 INTEREST INCOME AND EXPENSES

General

Interest income and expenses are recorded according to the effective interest rate method (rate equal to the rate in calculation of present value of future cash flows of financial assets or liabilities) defined in the Turkish Accounting Standard 39 (TAS 39) "Financial Instruments: Recognition and Measurement".

In case an interest was accrued on a security before its acquisition, the collected interest is divided into two parts as interest before and after the acquisition and only the interest income of the period after the acquisition is recorded as interest income in the financial statements.

The accrued interest income on non-performing loans are reversed and subsequently recognised as interest income only when collected.

Financial lease operations

Total of minimum rental payments including interests and principals are recorded under "financial lease receivables" as gross. The difference, i.e. the interest, between the total of rental payments and the cost of the related tangible asset is recorded under "unearned income". When the rent payment incurs, the rent amount is deducted from "financial lease receivables"; and the interest portion is recorded as interest income in the income statement.

3.6 FEES AND COMMISSIONS

Except for certain fees related with certain banking transactions and recognized when received, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted under accrual basis of accounting. The income derived from agreements or asset purchases from real-person or corporate third parties are recognized as income when realized.

3.7 FINANCIAL ASSETS

3.7.1 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

Financial assets valued at fair value through profit or loss are valued at their fair values and gain/loss arising on those assets is recorded in the income statement. Interest income earned on trading securities and the difference between their acquisition costs and amortized costs are recorded as interest income in the income statement. The differences between the amortized costs and the fair values of such securities are recorded under trading account income/losses in the income statement. In cases where such securities are sold before their maturities, the gains/losses on such sales are recorded under trading account income/losses.

The Bank classifies certain loans and securities issued at their origination dates, as financial assets/liabilities at fair value through profit or loss in compliance with TAS 39. The interest income/expense earned and the difference between the acquisition costs and the amortized costs of financial instruments are recorded under interest income/expense in income statement, the difference between the amortized costs and the fair values of financial instruments are recorded under trading account income/losses in income statement.

3.7.2 INVESTMENTS HELD-TO-MATURITY, FINANCIAL ASSETS AVAILABLE-FOR-SALE AND LOANS AND RECEIVABLES

Financial assets are initially recorded at their purchase costs including the transaction costs.

Investments held-to-maturity are financial assets with fixed maturities and pre-determined payment schedules that the Bank and its financial affiliates have the intent and ability to hold until maturity, excluding originated loans and receivables.

There are no financial assets that are not allowed to be classified as investments held-to-maturity for two years due to the tainting rules applied for the breach of classification rules.

Investments held-to-maturity are measured at amortized costs using internal rate of return after deducting impairments, if any.

Financial assets available-for-sale, are financial assets other than assets held for trading purposes, investments held-to-maturity and originated loans and receivables.

Financial assets available-for-sale are measured at their fair values subsequently. However, assets for which fair values could not be determined reliably are valued at amortized costs by using the discounting method with internal rate of return for floating-rate securities; and by using valuation models or discounted cash flow techniques for fixed-rate securities. Unrecognised gain/losses derived from the difference between their fair value and the discounted values are recorded in "securities value increase fund" under the shareholders' equity. In case of sales, the the gain/losses arising from fair value measurement accumulated under shareholders' equity are recognized in income statement.

The real coupon rates for government bonds indexed to consumer price index are fixed throughout maturities. As per the statements made by the Turkish Treasury on the dates of issuance, such securities are valued taking into account the difference between the reference index at the issue date and the reference index at the balance sheet date to reflect the effects of inflation.

Purchase and sale transactions of securities are accounted at delivery dates.

Loans and receivables are financial assets raised through providing money, commodity and services to debtors.

Loans are financial assets with fixed or determinable payments and not quoted in an active market.

Loans and receivables are recognized at cost and measured at amortized cost using the effective interest method. Duties paid, transaction costs and other similar expenses on assets received against such risks are considered as a part of transaction cost and charged to customers.

TÜRKİYE GARANTİ BANKASI A.Ş. AND ITS FINANCIAL AFFILIATES

CONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

3.8 IMPAIRMENT OF FINANCIAL ASSETS

Financial asset or group of financial assets are reviewed at each balance sheet date to determine whether there is objective evidence of impairment. If any such indication exists, the Bank estimates the amount of impairment.

Impairment loss incurs if, and only if, there is an objective evidence that the expected future cash flows of financial asset or group of financial assets are adversely effected by an event(s) ("loss event(s)") incurred subsequent to recognition. The losses expected to incur due to future events are not recognized even if the probability of loss is high.

If there is an objective evidence that certain loans will not be collected, for such loans; the Bank makes reclassification and provides specific and general allowances in accordance with the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables (the Provisioning Regulation) published on the Official Gazette no.2633 dated 1 November 2006 and TAS. The allowances are recorded in the income statement of the related period.

Provisions made during the period are recorded under "provision for losses on loans and other receivables". Provisions booked in the prior periods and relased in the current year are recorded under "other operating income."

3.9 NETTING AND DERECOGNITION OF FINANCIAL INSTRUMENTS

3.9.1 NETTING OF FINANCIAL INSTRUMENTS

In cases where the fair values of trading securities, securities available-for-sale, securities quoted at the stock exchanges, associates and affiliates are less then their carrying values, a provision for impairment is allocated, and the net value is shown on the balance sheet.

Specific allowances for non-performing loan and other receivables are provided in accordance with the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables. Such allowances are deducted from loans under follow-up on the asset side.

Otherwise, the financial assets and liabilities are netted off only when there is a legal right to do so.

3.9.2 DERECOGNITION OF FINANCIAL ASSETS

A financial asset is derecognized only when the contractual rights to the cash flows from this asset expire, or when the financial asset and substantially all its risks and rewards of ownership are transferred to another party. If all the risks and rewards of ownership are neither transferred nor retained substantially and the control of the transferred asset is maintained, the retained interest in asset and associated liability for amounts that may have to be paid, is recognized. If all the risks and rewards of ownership of a transferred financial asset is retained substantially the financial asset is continued to be recognized and a collateralized borrowing for the proceeds received is also recognized.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in the income statement.

In case an existing financial asset is replaced with another financial asset from the same counterparty where the terms on the initial financial asset are substantially modified, the existing financial asset is derecognized and a new financial asset is recognized. The difference between the carrying values of the respective financial assets is recognized in the income statement.

3.10 REPURCHASE AND RESALE AGREEMENTS AND SECURITIES LENDING

Securities sold under repurchase agreements are recorded on the balance sheet in compliance with the Uniform Chart of Accounts for Banks. Accordingly, government bonds and treasury bills sold to customers under repurchase agreements are classified as "Investments Subject to Repurchase Agreements" and valued based on the Bank management's future intentions, either at market prices or using discounting method with internal rate of return. Funds received through repurchase agreements are classified separately under liability accounts and the related interest expenses are accounted for on an accrual basis.

Securities purchased under resale agreements are classified under "interbank money markets" separately. An income accrual is accounted for the positive difference between the purchase and resale prices earned during the period.

3.11 ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS AND RELATED BORROWINGS

A tangible asset (or a disposal group) classified as "asset held for sale" is measured at lower of carrying value or fair value less costs to sell. An asset (or a disposal group) is regarded as "asset held for sale" only when the sale is highly probable and the asset (disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively marketed at a price consistent with its fair value.

A discontinued operation is a part of the Bank's business classified as sold or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement. The Bank or its financial affiliates have no discontinued operations.

3.12 GOODWILL AND OTHER INTANGIBLE ASSETS

The intangible assets consist of goodwill, softwares, intangible rights and other intangible assets.

Goodwill and other intangible assets are recorded at cost in accordance with the Turkish Accounting Standard 38 (TAS 38) "Intangible Assets".

The costs of the intangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. The intangible assets purchased after this date are recorded at their historical costs. The intangible assets are amortised by the Bank over their estimated useful lives based on their inflation adjusted costs on a straight-line basis.

Goodwill represents the excess of the total acquisition costs over the shares owned in the net assets of the acquired company at the date of acquisition. The "net goodwill" resulted from the acquisition of the investment and to be included in the consolidated balance sheet, is calculated based on the financial statements of the investee company as adjusted according to the required accounting principles.

TÜRKİYE GARANTİ BANKASI A.Ş. AND ITS FINANCIAL AFFILIATES

CONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

If any goodwill is computed at consolidation, it is recorded under intangible assets on the asset side of the consolidated balance sheet as an asset. It is assessed to identify whether there is any indication of impairment. If any such indication exists, the necessary provision is recorded as an expense in the income statement. The goodwill is not amortized.

Estimated useful lives of the intangible assets except for goodwill, are 3-15 years, and amortisation rates are 6.67-33.3%.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is provided.

3.13 TANGIBLE ASSETS

The cost of the tangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. The tangible assets purchased after this date are recorded at their historical costs.

As of 1 November 2015, changing the existing accounting policy, it has been decided to apply revaluation model for properties recorded under tangible assets instead of cost model in accordance with the Turkish Accounting Standard 16 (TAS 16) "Property, Plant and Equipment". Accordingly, for all real estates registered in the ledger, a valuation study was performed by independent expertise firms.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is provided.

Gains/losses arising from the disposal of the tangible assets are calculated as the difference between the net book value and the net sale price.

Maintenance and repair costs incurred for tangible assets, are recorded as expense.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

Depreciation rates and estimated useful lives of tangible assets are presented below. Depreciation method in use was not changed in the current period.

TANGIBLE ASSETS	ESTIMATED USEFUL LIVES (YEARS)	DEPRECIATION RATES %
Buildings	50	2
Vaults	50	2
Motor Vehicles	5-7	15-20
Other Tangible Assets	4-20	5-25

The depreciation of an asset held for a period less than a full financial year is calculated as a proportion of the full year depreciation charge from the date of acquisition to the financial year end.

Useful lives of buildings are reviewed at least once a year and if current estimates are different than previous estimates, then the revised estimates are considered as accounting policy change in accordance with Turkish Accounting Standard 8 (TAS 8) "Accounting Policies, Changes in Accounting Estimates and Errors".

Investment properties

Land and buildings that are held to earn rentals or for capital appreciation or both rather than for use in production, supply of goods or services, administrative purposes or sale in the ordinary course of business are classified as investment property. As of 1 November 2015, changing the existing accounting policy, it has been decided to apply fair value model for investment properties instead of cost model in accordance with the Turkish Accounting Standard 40 (TAS 40) "Investment Property" Accordingly, for all the investment properties registered in the ledger, a valuation study was performed by independent expertise firms. Fair value changes in investment properties were accounted in the income statement for the period they occurred.

Investment properties accounted at fair value are not depreciated.

3.14 LEASING ACTIVITIES

Leased assets are recognized by recording an asset or a liability. In the determination of the related asset and liability amounts, the lower of the fair value of the leased asset and the present value of leasing payments is considered. Financial costs on leasing agreements are expanded in lease periods at a fixed interest rate.

In cases where leased assets are impaired or the expected future benefits of the assets are less than their book values, the book values of such leased assets are reduced to their net realizable values. Depreciation for assets acquired through financial leases is calculated consistently with the same principle as for the tangible assets.

In operating leases, the rent payments are charged to the statement of operations in equal installments.

3.15 PROVISIONS AND CONTINGENT LIABILITIES

In the financial statements, a provision is made for an existing commitment resulted from past events if it is probable that the commitment will be settled and a reliable estimate can be made of the amount of the obligation. Provisions are calculated based on the best estimates of management on the expenses to incur as of the balance sheet date and, if material, such expenses are discounted for their present values. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

CONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

3.16 CONTINGENT ASSETS

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Bank or its financial affiliates. If an inflow of economic benefits has become probable, then the contingent asset is disclosed in the footnotes to the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

3.17 LIABILITIES FOR EMPLOYEE BENEFITS

Severance indemnities and short-term employee benefits

As per the existing labour law in Turkey, the entities are required to pay certain amounts to the employees retired or fired except for resignations or misbehaviours specified in the Turkish Labour Law.

Accordingly, the Bank and its financial affiliates subject to the labour law, reserved for employee severance indemnities in the accompanying financial statements using actuarial method in compliance with the Turkish Accounting Standard 19 (TAS 19) "Employee Benefits" for all its employees who retired or whose employment is terminated, called up for military service or died. The major actuarial assumptions used in the calculation of the total liability are as follows:

	31 DECEMBER 2015	31 DECEMBER 2014
Net Effective Discount Rate	2.99%	2.36%
Discount Rate	10.30%	8.60%
Expected Rate of Salary Increase	8.60%	7.60%
Inflation Rate	7.10%	6.10%

In the above table, the ranges of effective rates are presented for the Bank and its financial affiliates subject to the labour law, whereas the rates applied for the calculations differ according to the employee's years-in-service.

The Bank provided for undiscounted short-term employee benefits earned during the financial periods as per services rendered in compliance with TAS 19.

The actuarial gains/losses are recognised under shareholders' equity as per the revised TAS19.

Retirement benefit obligations

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee and his/her dependents will receive on retirement.

The Bank's defined benefit plan (the "Plan") is managed by "Türkiye Garanti Bankası Anonim Şirketi Memur ve Müstahdemleri Emekli ve Yardım Sandığı Vakfı" (the Fund) established as per the provisional article 20 of the Social Security Law no.506 and the Bank's employees are the members of this Fund.

The Plan is funded through contributions of both by the employees and the employer as required by Social Security Law no. 506. These contributions are as follows:

	31 DECEMBER 2015	
	EMPLOYER	EMPLOYEE
Pension contributions	15.5%	10.0%
Medical benefit contributions	6.0%	5.0%

The Plan is composed of a) the contractual benefits of the employees, which are subject to transfer to Social Security Foundation ("SSF") as per the Social Security Law no.5754 ("the Law"), and b) other social rights and medical benefits provided by the Bank but not transferable to SSF.

a) Benefits transferable to SSF

The first paragraph of the provisional article 23 of Banking Law no. 5411, published in the Official Gazette on 1 November 2005, no. 25983, which requires the transfer of the members of the funds subject to the provisional article 20 of the Social Security Law no.506, and the persons who are paid under insurance coverage for disablement, old-age and mortality and their right-holders to the SSF within three years following the effective date of the related article was cancelled with the decision of the Constitutional Court dated 22 March 2007, no. 2007/33. The reasoned ruling regarding the cancellation of the Constitutional Court was published in the Official Gazette no. 26731, dated 15 December 2007. The Constitutional Court stated that the reason behind this cancellation was the possible loss of antecedent rights of the fund members.

Following the publication of the verdict, the Turkish Grand National Assembly ("Turkish Parliament") started to work on the new legal arrangements by taking the cancellation reasoning into account and the articles of the Law no.5754 regulating the principles related with such transfers were accepted and approved by Turkish Parliament on 17 April 2008, and enacted on 8 May 2008 after being published in the Official Gazette no.26870.

As per the Law, the present value of post-employment benefits as at the transfer date for the fund members to be transferred, are to be calculated by a commission composing from the representatives of the SSF, the Ministry of Finance, the Undersecretariat of Treasury, the Undersecretariat of State Planning Organisation, the BRSA, the Savings Deposit Insurance Fund, the banks and the funds, by using a technical discount rate of 9.80% taking into account the funds' income and expenses as per insurance classes and the transferable contributions and payments of the funds including any salary and income differences paid by the funds above the limits of SSF for such payments. The transfers are to take place within the three-year period starting from 1 January 2008. Subsequently, the transfer of the contributors and the persons receiving monthly or regular income and their right-holders from such funds established for employees of the banks, insurance and reinsurance companies, trade chambers, stock markets and unions that are part of these organizations subject to the provisional article 20 of the Social Security Law no.506 to the SSF, has been postponed for two years. The decision was made by the Council of Ministers on 14 March 2011 and published in the Official Gazette no. 27900 dated 9 April 2011 as per the decision of the Council of Ministers no. 2011/1559, and as per the letter no. 150 of the Ministry of Labor and Social Security dated 24 February 2011 and according to the provisional article 20 of the Social Security and Public Health Insurance Law no.5510.

TÜRKİYE GARANTİ BANKASI A.Ş. AND ITS FINANCIAL AFFILIATES

CONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and
Related Disclosures and Footnotes Originally Issued in Turkish)

On 19 June 2008, Cumhuriyet Halk Partisi ("CHP") had applied to the Constitutional Court for the cancellation of various articles of the Law including the first paragraph of the provisional Article 20. At the meeting of the Constitutional Court on 30 March 2011, it was decided that the article 73 and the first paragraph of the provisional Article 20 added to the law no. 5510 are not contradictory to the Constitutional Law, and accordingly the dismissal of the cancellation request has been denied with the majority of votes.

Before the completion of two-years period set by the Council of Ministers on 14 March 2011 as explained above, as per the Article no. 51 of the law no. 6645, published in the Official Gazette no. 29335 dated 23 April 2015, the Article no. 20 of the law no. 5510 was amended giving the Council of Ministers the authority to determine the date of transfer without defining any timeline.

b) Other benefits not transferable to SSF

Other social rights and payments provided in the existing trust indenture but not covered through the transfer of the funds' members and their right-holders to the SSF, are to be covered by the funds and the institutions that employ the funds' members.

The actuarial gains/losses are recognised under shareholders' equity as per the revised TAS19.

The consolidated affiliates do not have retirement benefit plans for their employees. The retirement related benefits of the employees of the consolidated affiliates are subject to the Social Security Institution in case of domestic investees and to the legislations of the related countries in case of foreign investee companies. There are no obligations not reflected in the accompanying consolidated financial statements.

3.18 TAXATION

3.18.1 CORPORATE TAX

In Turkey, effective from 1 January 2006, statutory income is subject to corporate tax at 20%. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes. If there is no dividend distribution planned, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives in Turkey are not subject to withholding tax. As per the decisions no. 2009/14593 and 2009/14594 of the Council of Ministers published in the Official Gazette no. 27130 dated 3 February 2009, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the nonresident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the nonresident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with the Turkish tax legislation, the tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Tax applications for foreign branches

NORTHERN CYPRUS

According to the Corporate Tax Law of the Turkish Republic of Northern Cyprus no.41/1976 as amended, the corporate earnings (including foreign corporations) are subject to a 10% corporate tax and 15% income tax. This tax is calculated based on the income that the taxpayers earn in an accounting period. Tax base is determined by modifying accounting income for certain exclusions and allowances for tax purposes. The corporations cannot benefit from the rights of offsetting losses, investment incentives and amortisation unless they prepare and have certified their balance sheets, income statements and accounting records used for tax calculations by an auditor authorized by the Ministry of Finance. In cases where it is revealed that the earnings of a corporation were not subject to taxation in prior years or the tax paid on such earnings are understated, additional taxes can be charged in the next twelve years following that the related taxation period. The corporate tax returns are filed in the tax administration office in April after following the end of the accounting year to which they relate. The corporate taxes are paid in two equal installments in May and October.

MALTA

The corporate earnings are subject to a 35% corporate tax. This rate is determined by modifying accounting income for certain exclusions and allowances for tax purposes. The earnings of the foreign corporations' branches in Malta are also subject to the same tax rate that the resident corporations in Malta are subject to. The earnings of such branches that are transferred to their head offices are not subject to an additional tax. The taxes payable is calculated by the obligating firm and the calculation is shown at the tax declaration form that is due till the following year's September and the payment is done till this date.

LUXEMBOURG

The corporate earnings are subject to a 21% corporate tax. This rate is determined by modifying accounting income for certain exclusions and allowances for tax purposes. An additional 7% of the calculated corporate income tax is paid as a contribution to unemployment insurance fund. 3% of the taxable income is paid as municipality tax in addition to corporate tax. The municipalities have the right to increase this rate up to 200%-350%. The municipality commerce tax, which the Bank's Luxembourg branch subject to currently is applied as 7.50% of the taxable income. The tax returns do not include any tax amounts to be paid. The tax calculation is done by the tax office and the amount to be paid is declared to corporate through an official letter called Note. The amounts and the payment dates of prepaid taxes are determined and declared by the tax office at the beginning of the taxation period. The corporations whose head offices are outside Luxembourg, are allowed to transfer the rest of their net income after tax following the allocation of 5% of it for legal reserves, to their head offices.

TÜRKİYE GARANTİ BANKASI A.Ş. AND ITS FINANCIAL AFFILIATES

Related Disclosures and Footnotes Originally Issued in Turkish)

Tax applications for foreign financial affiliates

THE NETHERLANDS

In the Netherlands, corporate income tax is levied at the rate of 20% for tax profits up to EUR 200,000 and 25% for the excess part over this amount on the worldwide income of resident companies, which is determined by modifying accounting income for certain exclusions and allowances for tax purposes for the related year. A unilateral decree for the avoidance of double taxation provides relief for resident companies from Dutch tax on income, such as foreign business profits derived through a permanent establishment abroad, if no tax treaty applies. In general, there is an additional dividend tax of 5% computed only on the amounts of dividend distribution at the time of such payments. Under the Dutch taxation system, tax losses can be carried forward to offset against future taxable income for nine years. Tax losses can be carried back to the prior year. Companies must file their tax returns within nine months following the end of the tax year to which they relate, unless the company applies for an extension (normally an additional nine months). Tax returns are open for five years from the date of final assessment of the tax return during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings. The corporate income tax for the Germany branch is 30%.

RUSSIA

The applicable corporate tax rate in Russia is 20% (2% federal and 18% regional). The taxation system in the Russian Federation is relatively new and is characterised by frequent changes in legislation, official pronouncements and court decisions, which are often unclear, contradictory and subject to varying interpretation by different tax authorities. Taxes are subject to review and investigation by a number of authorities, which have the authority to impose severe fines, penalties and interest charges. A tax year remains open for review by the tax authorities during the three subsequent calendar years; however, under certain circumstances a tax year may remain open for a longer period.

ROMANIA

The applicable corporate tax rate in Romania is 16%. The taxation system in Romania is continuously developing and is subject to varying interpretations and constant changes, which may become rarely retroactive. In Romania, tax periods remain open for tax audits for seven years. Tax losses can be carried forward to offset against future taxable income for seven years.

3.18.2 DEFERRED TAXES

According to the Turkish Accounting Standard 12 (TAS 12) "Income Taxes"; deferred tax assets and liabilities are recognized, using the balance sheet method, on all taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base, except for the differences not deductible for tax purposes and initial recognition of assets and liabilities which affect neither accounting nor taxable profit.

If transactions and events are recorded in the income statement, then the related tax effects are also recognized in the income statement. However, if transactions and events are recorded directly in the shareholders' equity, the related tax effects are also recognized directly in the shareholders' equity.

The deferred tax assets and liabilities of the Bank and its consolidated affiliates are reported as net in their individual financial statements.

In compliance with TAS 12, the deferred tax assets and liabilities of the consolidated affiliates are presented on the asset and liability sides of financial statements separately, without any offsetting.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

3.18.3 TRANSFER PRICING

The article no.13 of the Corporate Tax Law describes the issue of transfer pricing under the title of "Disguised Profit Distribution by Way of Transfer Pricing". "The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing" published at 18 November 2007, explains the application related issues on this topic.

According to this Communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm's length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As stated in the "7.1 Annual Documentation" section of this communiqué, the taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Entities and Thin Capitalization" form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices.

3.19 FUNDS BORROWED

The Bank, whenever required, generates funds from domestic and foreign sources in the form of borrowings, syndications, securitizations, and bill and bond issuances in the local and international markets. The funds borrowed are recorded at their purchase costs and valued at amortised costs using the effective interest method.

In cases where such funds are valued at their amortised costs and such application results in measurement or accounting inconsistencies due to having the relevant financial instruments valued using different methods or the related gains or losses are recorded differently, such fundings are valued and recorded at their fair values as per TAS 39 in order to minimise or prevent such inconsistencies.

3.20 SHARES AND SHARE ISSUANCES

None.

3.21 CONFIRMED BILLS OF EXCHANGE AND ACCEPTANCES

Confirmed bills of exchange and acceptances are realized simultaneously with the customer payments and recorded in off-balance sheet accounts as possible debt and commitment, if any.

3.22 GOVERNMENT INCENTIVES

As of 31 December 2015, the Bank or its financial affiliates do not have any government incentives or grants.

3.23 SEGMENT REPORTING

The Bank operates in corporate, commercial, retail and investment banking. Accordingly, the banking products served to customers are; custody services, time and demand deposits, accumulating deposit accounts, repos, overdraft facilities, spot loans, foreign currency indexed loans, consumer loans, automobile and housing loans, working capital loans, discounted bills, gold loans, foreign currency loans, Eximbank loans, pre-export loans, ECA covered financing, letters of guarantee, letters of credit, export factoring, acceptance credits, draft facilities, forfaiting, leasing, insurance, forward, futures, salary payments, investment account (ELMA), cheques, safety boxes, bill payments, tax collections, payment orders. GarantiCard, BonusCard, Miles&Smiles Card, FlexiCard, MoneyCard, BusinessCard under the brand name of Visa and Mastercard, virtual cards and also American Express credit cards and "Paracard" debit cards with Maestro, Electron, Visa and Mastercard brand names, are available.

The Bank provides service packages to its corporate, commercial and retail customers including deposit, loans, foreign trade transactions, investment products, cash management, leasing, factoring, insurance, credit cards, and other banking products. A customer-oriented branch network has been built in order to serve customers' needs effectively and efficiently. The Bank also utilizes alternative delivery channels intensively.

The Bank provides corporate banking products to international and national holdings in Turkey by coordinating regional offices, suppliers and intermediaries, utilizing cross-selling techniques. Mainly, it provides services through its commercial and mixed type of branches to export-revenue earning sectors like tourism and textile and exporters of Turkey's traditional agricultural products.

Additionally, the Bank provides banking services to enterprises and their employees working in retail and service sectors through product packages including overdraft accounts, POS machines, credit cards, cheque books, Turkish Lira and foreign currency deposits, investment accounts, internet banking and call-center, debit cards and bill payment modules.

Retail banking customers form a wide-spread and sustainable deposit base for the Bank. Individual customers' needs are met by diversified consumer banking products through branches and alternative delivery channels.

3.24 OTHER DISCLOSURES

As of 1 November 2015, changing the existing accounting policy, it has been decided to apply fair value model for investment properties instead of cost model in accordance with the Turkish Accounting Standard 40 (TAS 40) "Investment Property". Accordingly, for all the investment properties registered in the ledger, a valuation study was performed by independent expertise firms. Fair value changes in investment properties were accounted in the income statement for the period they occurred.

As of 31 December 2015, changing the existing accounting policy, it has been decided to account for taxation related levies and liabilities in the periods when the events resulting in such liabilities occurred instead of applying accrual basis of accounting as in prior years in accordance with the interpretation of TFRIC 21 "Levies".

As of 31 December 2015, in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets", provisions are calculated and accounted for fees and commissions income recognized in prior years but reimbursed in subsequent periods.

Due to the aforementioned accounting policy changes, the prior years' consolidated financial statements were restated as per the TAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" standard.

The Bank presented the clients' investments in pension funds amounting to TL 6,164,056 thousands (31 December 2013: TL 4,309,289 thousands) accounted under assets of its affiliate in pension business and the corresponding liabilities to those clients amounting to TL 6,164,056 thousands (31 December 2013: TL 4,309,289 thousands) on a net basis as per the requirements of TAS 39 .

The effects of the adjusting entries on the prior years' consolidated financial statements are as follows:

31 DECEMBER 2014	REPORTED	CORRECTION	RESTATED

4 CONSOLIDATED FINANCIAL POSITION AND RESULTS OF OPERATIONS

4.1 CONSOLIDATED CAPITAL ADEQUACY RATIO

As per the revised "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" effective from 1 July 2012, the Bank's consolidated capital adequacy ratio is 13.53% as of 31 December 2015 (31 December 2014: 13.86%) (unconsolidated capital adequacy ratio 15.03% (31 December 2014: 15.23%)).

4.1.1 RISK MEASUREMENT METHODS IN CALCULATION OF CONSOLIDATED CAPITAL ADEQUACY RATIO

Capital adequacy ratio is calculated within the scope of the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks (the "Regulation")", "Regulation on Credit Risk Mitigation Techniques" and "Regulation on Calculation of Risk Weighted Amounts for Securitisations" published in the Official Gazette no.28337 dated 28 June 2012 and the "Regulation on Equities of Banks" published in the Official Gazette no.28756 dated 5 September 2013.

In the calculation of capital adequacy ratio, the data prepared from accounting records in compliance with the current legislation are used. Such accounting data is included in the calculation of credit and market risks subsequent to their designation as "trading book" and "banking book" according to the Regulation.

The items classified as trading book and the items deducted from the equity are not included in the calculation of credit risk. In the calculation of risk weighted assets, the assets subject to amortisation or impairment, are taken into account on a net basis after being reduced by the related amortisations and provisions.

In the calculation of the value at credit risk for the non-cash loans and commitments and the receivables from counterparties in such transactions are weighted after netting with specific provisions that are classified under liabilities and calculated based on the "Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables". The net amounts are then multiplied by the rates stated in the Article 5 of the Regulation, reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in the article 6 of the Regulation and weighted as per Appendix-1 of the Regulation.

In the calculation of the value at credit risk for the derivative financial instruments and the credit derivatives classified in the banking book, the receivables from counterparties are multiplied by the rates stated in the Appendix-2 of the Regulation, reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in the article 6 of the Regulation and weighted as per Appendix-1 of the Regulation.

As per the article 5 of the Regulation, the "counterparty credit risk" is calculated for repurchase transactions, securities and commodities borrowing agreements.

4.1.6 APPROACHES FOR ASSESSMENT OF ADEQUACY OF INTERNAL CAPITAL REQUIREMENTS FOR CURRENT AND FUTURE ACTIVITIES

The Bank's process of internal capital requirements is assessed both on bank-only and consolidated basis separately under the regulation on the "Internal Systems and Internal Capital Adequacy Assessment Processes of Banks" (ICAAP) published in the Official Gazette no. 29057 dated 11 July 2014. The ultimate aim of this internal capital requirements process is to maintain the continuity of capital adequacy under the Bank's strategies, lending growth expectations, asset-liability structure, future funding sources and liquidity, fluctuations in capital depending on dividend distribution policy and economics, in compliance with its risk profile and appetite.

Accordingly, the Bank's prospective internal capital requirements as per its current capital structure and the targets and strategies for the future are assessed considering its operations and risks every year-end covering the next three years and reported to the BRSA in the month of March.

This assessment includes the interest rate risk, liquidity risk, reputational risk, residual risk, concentration risk, strategy risk, and country and transfer risks arising from banking activities besides the market, credit, counterparty and operational risks directly affecting its legal capital adequacy ratio. The assessment methodology of internal capital requirements is a developing process, accordingly the future improvement areas are determined and the working plans are set.

4.2 CONSOLIDATED CREDIT RISK

Credit risk is defined as risks and losses that may occur if the counterparty that the Bank or its consolidated financial affiliates work with, fails to comply with the agreement's requirements and cannot perform its obligations partially or completely on the terms set. In compliance with the legislation, the credit limits are set for the financial position and credit requirements of customers within the authorization limits assigned for Branches, Lending Departments, Executive Vice President responsible of Lending, General Manager, Credit Committee and Board of Directors. The limits are subject to revision if necessary.

The debtors or group of debtors are subject to credit risk limits. Sectoral risk concentrations are reviewed on a monthly basis.

Credit worthiness of debtors is reviewed periodically in compliance with the legislation by the internal risk rating models. The credit limits are revised and further collateral is required if the risk level of debtor deteriorates. For unsecured loans, the necessary documentation is gathered in compliance with the legislation.

Geographical concentration of credit customers is reviewed monthly. This is in line with the concentration of industrial and commercial activities in Turkey.

In accordance with the lending policies, the debtor's creditworthiness is analysed and the adequate collateral is obtained based on the financial position of the company and the type of loan; like cash collateral, bank guarantees, mortgages, pledges, bills and personal or corporate guarantees.

There are control limits on the position held through forwards, options and other similar agreements. Credit risk of such instruments is managed together with the risk from market fluctuations. The risk arising from such instruments are followed up and when necessary, the actions to decrease it are taken.

The liquidated non-cash loans are subject to the same risk weight with the overdue loans.

Foreign trade finance and other interbank credit transactions are performed through widespread correspondents network. Accordingly, limits are assigned to domestic and foreign banks and other financial institutions based on review of their credit worthiness, periodically.

The Bank developed a statistical-based internal risk rating model for its credit portfolio of corporate/commercial/medium-size companies. This internal risk rating model has been in use for customer credibility assessment since 2003. Risk rating has become a requirement for loan applications, and ratings are used both to determine branch managers' credit authorization limits and in credit assessment process.

The concentration table of the cash and non-cash loans for the Bank according to the risk rating system for its customers defined as corporate, commercial and medium-size enterprises is presented below:

	CURRENT PERIOD	PRIOR PERIOD
	%	%
Above Average	39.60	40.26
Average	50.04	53.43
Below Average	10.36	6.31
Total	100.00	100.00

4.2.4 EXPOSURE CATEGORIES

An international rating firm, Fitch Ratings' external risk ratings are used to determine the risk weights of the risk categories as per the Article 6 of the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

The international risk ratings are used for the exposures to central governments and central banks, whereas for central governments and central banks that are not rated by Fitch Ratings, the published country ratings as announced by the Organisation for Economic Cooperation and Development (OECD) are used.

According to the regulation on capital adequacy, external risk ratings are used only for the exposures to banks and brokerage houses and to corporates where the counterparties are resident in abroad, to determine their risk weights. Where the counterparties are domestic, the related exposures are included in the calculation of capital adequacy as unrated.

In the determination of risk weights for items that are not included in trading book; if a relevant rating is available then such rating, but if it is an unrated exposure then the rating available for the issuer is used.

Fitch Ratings' risk ratings as per the credit quality grades and the risk weights according to exposure categories are presented below:

CREDIT QUALITY GRADE	RISK RATING	EXPOSURE CATEGORIES				
		EXPOSURES TO CENTRAL GOVERNMENTS OR CENTRAL BANKS	EXPOSURES TO ADMINISTRATIVE BODIES AND NON-COMMERCIAL UNDERTAKINGS	EXPOSURES TO BANKS AND BROKERAGE HOUSES		EXPOSURES TO CORPORATES

4.2.6 INFORMATION BY MAJOR SECTORS AND TYPE OF COUNTERPARTIES

As per the TAS and TFRS;

Impaired Credits; are the credits that either overdue more than 90 days as of the reporting date or are treated as impaired due to their creditworthiness. For such credits, "specific provisions" are allocated as per the Provisioning Regulation.

Past Due Credits; are the credits that overdue upto 90 days but not impaired. For such credits, "general provisions" are allocated as per the Provisioning Regulation.

CURRENT PERIOD	CREDIT RISKS

(*) Includes foreign exchange differences, mergers, acquisitions and disposals of subsidiaries.

4.3 CONSOLIDATED MARKET RISK

The Bank's risk management activities are managed under the responsibility of the board of directors in compliance with "the Internal Systems and Internal Capital Adequacy Assessment Processes of Banks".

In order to comply with the regulations, the Bank set its activities related with market risk management in accordance with "the Internal Systems and Internal Capital Adequacy Assessment Processes of Banks" published in the Official Gazette no. 29057 dated 11 July 2014.

The top management is responsible for applying risk policies, principles and application procedures approved by the board of directors, ensuring timely and reliable reporting to the board of directors about the important risks identified, assessing internal control, internal audit and risk reports prepared for departments and either eliminating risks, deficiencies or defects identified in these departments or taking the necessary precautions to prevent those, and participating in determination of risk limits.

The board of directors monitors the effectiveness of risk management systems through audit committee, related other committees and top management, and in the light of various risk reports and the assessments made by the audit committee.

The risk policies and application procedures have been approved by the board of directors and regularly revisited. The market risk is also managed by risk mitigations through hedging transactions beside measuring the risks in compliance with international standards, limiting such risk and allocating capital accordingly.

Market risks arising from trading portfolios are measured as per "standard" and "value at risk (VaR)" methods. The measurements as per the standard method are performed on a monthly basis, and taken into consideration in the calculation of capital adequacy. Whereas, the measurements as per VaR method are performed on a daily basis. The Bank takes the historical VaR results as the basis for the internal management of market risk and determination of limits. In the VaR calculation, one year historical market data set is used, and 99% confidence interval and one-day retention period (10 days for legal capital calculation) are taken into account. In order to test the reliability of the VaR model, back tests are performed. Stress tests and scenario analysis are also applied in order to reflect the effects of prospective severe market fluctuations in the VaR calculations. Beside the VaR limits, the limits on transaction, dealer, desk, stop-loss approved by the board of directors for trading portfolio are also applied for limiting the market risk.

Total Value at Risk	481,062	622,064	344,769	298,470	438,172	211,389

4.3.3 QUANTITATIVE INFORMATION ON COUNTERPARTY RISK

For repurchase transactions, security and commodity lendings and derivative transactions, counterparty credit risks are calculated. In counterparty credit risk calculations, the fair value methodology is used according to the Appendix-2 of the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks". In case of derivative transactions, the total of replacement costs and potential credit risks is considered as the exposure amounts. The replacement costs are calculated valuing the contracts at their fair values and the potential credit risks are calculated multiplying the contract amounts with the credit conversion factors set in the appendix of the regulation.

	CURRENT PERIOD(*)(**)	PRIOR PERIOD(*)
Interest-Rate Contracts	12,317	923
Foreign-Exchange-Rate Contracts	404,679	188,844

4.4 CONSOLIDATED OPERATIONAL RISK

The value at operational risk is calculated according to the basic indicator approach as per the Article 14 of "Regulation regarding Measurement and Assessment of Capital Adequacy Ratios of Banks".

The annual gross income is composed of net interest income and net non-interest income after deducting realised gains/losses from the sale of securities available-for-sale and held-to-maturity, extraordinary income and income derived from insurance claims at year-end.

CURRENT PERIOD	31 DECEMBER 2012	31 DECEMBER 2013	31 DECEMBER 2014	TOTAL/ NO. OF YEARS OF POSITIVE GROSS INCOME	RATE (%)	TOTAL
Gross Income	8,588,400	10,180,473	11,163,774	9,977,549	15	1,496,632
Value at Operational Risk (Total x % 12.5)						18,707,904

PRIOR PERIOD	31 DECEMBER 2011	31 DECEMBER 2012	31 DECEMBER 2013	TOTAL/ NO. OF YEARS OF POSITIVE GROSS INCOME	RATE (%)	TOTAL
Gross Income	7,487,310	8,588,400	10,180,473	8,752,061	15	1,312,809
Value at Operational Risk (Total x % 12.5)						16,410,114

4.5 CONSOLIDATED CURRENCY RISK

Foreign currency open position limit is set in compliance with the legal standard ratio of net foreign currency position. As of 31 December 2015, the Bank and its financial affiliates' net 'on balance sheet' foreign currency short position amounts to TL 7,939,559 thousands (31 December 2014: TL 8,520,155 thousands), net 'off-balance sheet' foreign currency long position amounts to TL 9,437,913 thousands (31 December 2014: TL 5,983,223 thousands), while net foreign currency long open position amounts to TL 1,498,354 thousands (31 December 2014: a net foreign currency short open position of TL 2,536,932 thousands).

The foreign currency position risk is measured by "standard method" and "value-at-risk (VaR) model". Measurements by standard method are carried out monthly, whereas measurements by "VaR" are done daily for the Bank. The foreign currency exchange risk is managed through transaction, dealer, desk and stop-loss limits approved by the board of directors for the trading portfolio beside the foreign currency net position standard ratio and the VaR limit.

The Bank's effective exchange rates at the date of balance sheet and for the last five working days of the period announced by the Bank in TL are as follows:

	USD	EURO
THE BANK'S FOREIGN CURRENCY PURCHASE RATE AT BALANCE SHEET DATE	2.9080	3.1671
Foreign currency rates for the days before balance sheet date:		
Day 1	2.9170	3.1826
Day 2	2.9020	3.1703
Day 3	2.9020	3.1809
Day 4	2.8950	3.1703
Day 5	2.8900	3.1672
Last 30-days arithmetical average rate	2.8976	3.1589

4.6 CONSOLIDATED INTEREST RATE RISK

The interest rate risk resulting from balance sheet maturity mismatch presents the possible losses that may arise due to the changes in interest rates of interest sensitive assets and liabilities in the on- and off-balance sheet. Interest sensitivity of assets, liabilities and off-balance sheet items is evaluated during the Weekly Assessment Committee and Assets-Liabilities Committee meetings taking into consideration the developments in market conditions.

The Bank's interest rate risk is measured by using, economic value, economic capital, net interest income, income at risk, market price sensitivity of marketable securities portfolio, duration-gap and sensitivity analysis.

The results are supported by the sensitivity and scenario analysis performed periodically due to the possible instabilities in the markets. Furthermore, the interest rate risk is monitored according to the limits approved by the board of directors.

4.6.3 INTEREST RATE RISK ON BANKING BOOK

4.6.3.1 NATURE OF INTEREST RATE RISK RESULTING FROM BANKING BOOK, MAJOR ASSUMPTIONS ON EARLY REPAYMENT OF LOANS AND MOVEMENTS IN DEPOSITS OTHER THAN TERM DEPOSITS AND FREQUENCY OF MEASURING INTEREST RATE RISK

The interest rate risk resulting from the banking book is assessed in terms of repricing risk, yield-curve risk, base risk and option risk, measured as per international standards and managed through limitations and mitigations through hedging transactions.

The interest sensitivity of assets, liabilities and off balance-sheet items are evaluated at the weekly Asset-Liability Committee meetings considering also the market developments.

The measurement process of interest rate risk resulting from the banking book, is designed and managed by the Bank on a bank-only basis to include the interest rate positions defined as banking book by the Bank and to consider the relevant repricing and maturity data.

Duration gaps, gaps by maturity brackets and sensitivity analysis are used in monitoring of repricing risk resulting from maturity mismatch. The duration gap and sensitivity analysis are carried out every two weeks.

In the duration gap analysis, net present values of the interest-rate sensitive assets and liabilities are calculated by using yield curves developed from the market interest rates. In case of instruments with no maturities, the maturity is determined as per interest rate fixing periods and customer behaviors. Such results are supported by sensitivity and scenario analysis applied periodically for possible fluctuations in the markets.

The interest rate risk resulting from the banking book is measured legally as per the "Regulation on Measurement and Evaluation of Interest Rate Risk Resulting from the Banking Book as per Standard Shock Method" published in the Official Gazette no.28034 dated 23 August 2011, and the legal limit as per this measurement is monitored and reported monthly. The capital level is maintained considering the interest rate risk resulting from the banking book.

The interest rate risk on the interest-rate-sensitive financial instruments of the trading portfolio is evaluated as part of the market risk.

The market risks of branches and business lines are transferred to the Asset Liability Management department through transfer pricing. This department applies a centralised market risk management and uses the balance sheet (long-term borrowing) and off balance sheet (derivative instruments) methods.

4.6.3.2 ECONOMIC VALUE DIFFERENCES RESULTED FROM INTEREST RATE INSTABILITIES CALCULATED ON A BANK-ONLY BASIS ACCORDING TO REGULATION ON MEASUREMENT AND EVALUATION OF INTEREST RATE RISK RESULTED FROM BANKING BOOK AS PER STANDARD SHOCK METHOD

4.8 CONSOLIDATED LIQUIDITY RISK

Liquidity Risk is managed by Asset and Liability Management Department (ALMD) and Asset and Liability Committee (ALCO) in line with risk management policies and risk appetite approved by the board of directors in order to take the necessary measures in a timely and correct manner against possible liquidity shortages that may result from market conditions and balance sheet structure of the Bank. Under stressed conditions, liquidity risk is managed within the Contingency Funding Plan framework.

The board of directors reviews the liquidity risk management strategy, policy and practices, and approves the liquidity strategy and policies within the framework of risk management strategy and policies, ensures the effective of practice of policies and integrations with Bank's risk management strategy. It determines the basic metrics in liquidity risk measurement and monitoring. It establishes risk appetite of the Bank in liquidity risk management and identifies the risk limits in accordance with the risk appetite and reviews it regularly.

ALCO takes necessary decisions which will be executed by related departments by assessing the liquidity risk that the Bank is exposed to and considering the Bank's strategy and conditions of competition and pursues the implementations.

ALMD, performs daily liquidity management by ensuring compliance with regulatory and internal liquidity limits and monitoring related early warning indicators in case of probable liquidity squeezes. The medium and long term liquidity and funding management is performed by ALMD in accordance with ALCO decisions.

Risk Management Department defines the Bank's liquidity risk, measures and monitors the risks with liquidity risk measurement methods that are in compliance with international standards, presents measurement results periodically to related departments, committees and senior management. Risk Management Department coordinates related parties in order to ensure compliance of risk management process in accordance with the Bank's risk profile, operation environment and strategic plan with regulations. Risk Management Department analyses, develops and revises relevant liquidity risk measurement methods and models in accordance with changing market conditions and the Bank's structure. Risk Management Department reviews assumptions and parameters used in liquidity risk analysis.

The liquidity risk analysis and the important early warning signals are reported monthly to related senior management. Additionally, analysis and monitored internal ratios related to liquidity risk are presented in ALCO report. Internal liquidity metrics are monitored with limit and alert levels approved by the board of directors and reported regularly to related parties.

Decentralized management approach is adopted in the Bank's liquidity management. Each subsidiary controlled by the Bank performs daily, medium and long term liquidity management independently from the Bank by the authorities in each subsidiary responsible for managing liquidity risk. In addition, within the scope of consolidated risk management, liquidity and funding risk of each subsidiary in control are monitored via the liquidity risk management methods identified by the Bank by considering the operations, risk profile and regulations of the related subsidiary. Also, in increasing market volatility and liquidity deficit environments, cash flows of especially financial subsidiaries are monitored with the Bank's cash flow on a consolidated basis.

The Bank's funding management is carried out in compliance with the ALCO decisions. Funding and placement strategies are developed by assessing liquidity of the Bank.

In liquidity risk management actions that will be taken and procedures are determined by considering normal economic conditions and stress conditions.

Diversification of assets and liabilities is assured so as to be able to continuously meet the obligations, also taking into account the relevant currencies. Funding sources are monitored actively during identification of concentration risk related to funding. The Bank's funding base of customer deposits, interbank and other borrowing transactions are diversified in order to prevent the concentration of a particular funding source. Factors that could trigger the sudden and significant run off in funds or impair the accessibility of the funding sources are analyzed. Additionally, securities which are eligible as collateral at CBRT issued by Republic of Turkey Treasury and have active secondary market are comprised in the Bank's assets.

In the context of TL and foreign currencies liquidity management, the cash flows regarding assets and liabilities are monitored and the required liquidity in future periods is forecasted. In cash flow analysis, stress is applied to items that affect the liquidity by volume and rate of change from a liquidity management point of view.

Liquidity risk exposed by the Bank is managed by establishing risk appetite, risk mitigation according to the liquidity and funding policies (diversification of funding sources, holding high quality liquid assets reserve) and effective control environment and closely monitoring by limits. For those risks that cannot be reduced, the adoption of the current level of risk, reduction or termination of the activities that cause the risk is considered.

In liquidity risk stress testing framework, the level of the Bank's ability to cover cash outflows in liquidity crisis scenario based on the Bank's current cash flow structure, by high quality liquid assets is calculated. Scenario analysis are performed by assessing changing balance sheet structure, liquidity requirements and market conditions.

The results of liquidity risk stress testing are taken into consideration in the assessment of liquidity adequacy and identification of strategy, policy and procedures regarding liquidity risk and contingency funding plan is prepared within this framework.

There exists "Liquidity Risk Management Contingency Funding Plan" in the Bank including mechanisms to prevent increase in liquidity risk during normal and liquidity crisis scenarios for different conditions and levels. Available liquidity sources are determined by considering the liquidity squeezes. Within the framework of this plan, the Bank monitors liquidity risk in terms of early warning indicators, stress levels determined according to probable scenarios and severity of the crisis and possible actions that can be taken in each stress level. In determination of the stress level in the plan, early warning indicators are taken into consideration.

4.9 CONSOLIDATED SECURITISATION POSITIONS

None.

4.10 CONSOLIDATED CREDIT RISK MITIGATION TECHNIQUES

The parent Bank applies credit risk mitigation according to the comprehensive method that includes risk mitigation calculations considering the volatility-adjusted values of financial collaterals in compliance with the article 34 of the "Regulation on Credit Risk Mitigation Techniques".

In the credit risk mitigation, cash and cash equivalent items and high-credit-quality debt instruments are used.

The volatility adjustments regarding the receivables, collaterals and currency mismatch of the collaterals are made as per the standard volatility-adjustment approach defined in the article 37 of the above mentioned regulation.

In cases where there are maturity mismatches resulting from shorter remaining life of collateral than of receivables, the value of collateral is considered as the volatility-adjusted value.

(*) The mortgages used for the determination of the risk categories as per the article 6 of the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks", are excluded.

(**) Includes total risk amounts before the effect of credit risk mitigation and liquidity conversions.

4.11 RISK MANAGEMENT OBJECTIVES AND POLICIES

The Risk Management Strategy of the parent Bank includes the optimum allocation of the capital and the realisation of growth framework, maintaining risk-return balance, measuring the risks by methods in compliance with international standards and local regulations in parallel with its activities and under its sustainable and value-creating growth strategy.

The parent Bank determines the necessary approaches in order to update, revise, apply and manage its policies set for the proper assessment and management of risks considering changes in conditions.

The top management is responsible of managing, developing the risk management strategies, policies and application principles approved by the board of directors, reporting of major risks that the Bank is facing to the board of directors, assessment of internal control, internal audit and risk reports of departments and either eliminating risks, deficiencies or defects identified in these departments or taking the necessary precautions to prevent those, and participating in determination of risk limits.

The risk management activities are structured under the responsibility of the Bank's board of directors. Monitoring of corporate risk management policies and applications; including capital adequacy, planning and liquidity coverage is under the responsibility of Risk Committee composed of the members of board. The top management is responsible to the board of directors for monitoring and managing of risks. Besides, the following departments participate in monitoring of risks, independent from the departments having operational activities; Internal Control, Risk Management, Compliance and Internal Audit.

The risks are evaluated on a continuously developing structure that is managed by internationally accepted applications and in compliance with the Bank's policies and procedures, and the international and local regulations.

The risks are also managed through risk mitigations using hedging transactions beside measurement, limitation and capital allocation techniques. The data of the Bank and the market are regularly monitored for better risk monitoring and management. As part of limitation of risks, internal limits are also set beside the legal limits. The possible changes in economic conditions and the risks that can be faced under extraordinary conditions are taken into consideration.

(*) Including the balances at the Central Bank of Turkey.

(**) Loans amounting to TL 198,118 thousands (31 December 2014: TL 201,385 thousands) included under Financial Assets at Fair Value through Profit/Loss in the accompanying consolidated financial statements are presented above under "Loans".

Fair values of financial assets available-for-sale and investments held-to-maturity are derived from market prices or in case of absence of such prices, market prices of other securities quoted in similar qualified markets and having substantially similar characteristics in terms of interest, maturity and other conditions.

Fair values of loans are calculated discounting future cash flows at current market interest rates for fixed-rate loans. The carrying values of floating-rate loans are deemed an approximation for their fair values.

Fair values of other financial assets and liabilities represent the total acquisition costs and accrued interest.

The table below analyses the financial instruments carried at fair value, by valuation method:

CURRENT PERIOD	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
Financial Assets Available-for-Sale	18,457,898	5,724,174	573,698	24,755,770

5.1.5.11 LIQUIDATION POLICY FOR UNCOLLECTIBLE LOANS AND RECEIVABLES

Such loans and receivables are collected through legal follow-up and liquidation of collaterals.

5.1.5.12 WRITE-OFF POLICY

The Bank's general policy for write-offs of loans and receivables under follow-up is to write off such loans and receivables that are proven to be uncollectible in legal follow-up process.

5.1.6 FACTORING RECEIVABLES

Valuation Effect	438,096	916,932
Balances at End of Period	21,317,246	20,667,042

In the current period,

(*) As per the exceptions set out in the relevant accounting standards (TAS 39) for the sale or reclassification of securities originally classified under the securities held-to-maturity before maturity, certain credit linked notes with a total face value of USD 300,000,000 were sold.

In the prior period,

(*) The Bank reclassified private sector bonds with "credit linked notes" with a total face value of USD 425,000,000 from financial assets available-for-sale portfolio to investments held-to-maturity portfolio.

(**) As per the regulation on capital adequacy (Basel II) effective from 1 July 2012, the risk weight of securities in foreign currencies issued by the Turkish Treasury increased from 0% to 100%. As allowed by the relevant accounting standards (TAS 39) for the sale or reclassification of securities originally classified under the securities held-to-maturity in cases where the capital requirement increases due to regulatory changes, and as per the letter of the Public Oversight, Accounting and Auditing Standards Authority no. 602 dated 20 February 2013, in the prior period the Bank reclassified its eurobonds with a total face value of USD 248,209,999 to its available-for-sale portfolio.

5.1.11.3 FINANCIAL LEASE AGREEMENTS

Criteria applied for financial lease agreements

The customer applied for a financial lease is evaluated based on the lending policies and criteria taking into account the legal legislation. A "customer analysis report" according to the type and amount of the application is prepared for the evaluation of the customer by the Credit Committee and certain risk rating models such as "customer risk rating" and "equipment rating/scoring" are applied.

In compliance with the legal legislation and the authorization limits of the general manager, credit committee and board of directors, it is decided whether the loan will be granted considering the financial position and the qualitative characteristics of the customer and the criterias mentioned above, if yes, which conditions will be applied. At this stage, collateral such as bank guarantees, mortgages, asset pledges, promissory notes or the personal or corporate guarantees, may be required depending on the creditworthiness of the customer and the characteristics of the product to be sold.

The sectoral, equipment type and pledged asset concentration of the customers are monitored regularly.

Details monitored subsequent to signing of financial lease agreements

Subsequent to granting of loan, the fulfillment of monetary aspects such as lending procedures, timely collection of rental payments are monitored. Furthermore, updated information on the performance of companies is reported by the credit monitoring unit even for the performing customers.

The reports prepared by the credit monitoring unit for the performing companies and the assessments made by the administration follow-up and the legal units for the problematic companies, are presented to the top management following the assessments made by the related internal committees and the necessary actions are taken.

The investment property is held for operational leasing purposes.

As of 31 December 2015, a total gain of TL 25,734 thousands from revaluation of investment property is included in other operating income.

5.1.16 DEFERRED TAX ASSET

As of 31 December 2015, on a consolidated basis the Bank has a deferred tax asset of TL 463,623 thousands (31 December 2014: TL 475,652 thousands) calculated as the net amount remaining after netting of tax deductible timing differences and taxable timing differences in its consolidated financial statements.

As of 31 December 2015, there is a deferred tax asset of TL 701,422 thousands (31 December 2014: TL 606,795 thousands) and deferred tax liability of TL 237,799 thousands (31 December 2014: TL 131,143 thousands) presented as net in the accompanying consolidated financial statements on all taxable temporary differences arising between the carrying amounts and the taxable amounts of assets and liabilities on the financial statements that will be considered in the calculation of taxable earnings in the future periods.

For the cases where the differences between the carrying values and the taxable values of assets subject to tax are related with certain items on the shareholders' equity accounts, the deferred taxes are charged or credited directly to these accounts.

	CURRENT PERIOD		PRIOR PERIOD	
	TAX BASE	DEFERRED TAX AMOUNT	TAX BASE	DEFERRED TAX AMOUNT
Provisions (*)	849,242	170,497	685,084	136,752

Insurance Technical Provisions, Net	251,292	239,160
Provision for Promotion Expenses of Credit Cards (*)	89,757	84,817
Provision for Lawsuits	41,734	31,014
Other Provisions	169,109	132,979
Total	1,122,887	1,036,228

(*) The Bank provides full allowance for the committed promotion expenses of credit cards as of the balance sheet date.

Recognized liability for defined benefit plan obligations

The Bank obtained an actuarial report dated 7 December 2015 from an independent actuary reflecting the principles and procedures on determining the application of transfer transactions in accordance with the Law and it is determined that the assets of the Plan are above the amount that will be required to be paid to transfer the obligation and the asset surplus amounts to TL 2,408,349 thousands (31 December 2014 TL 2,086,877 thousands) at 31 December 2015 as details are given in the table below.

Furthermore, an actuarial report was prepared as of 31 December 2015 as per the requirements of the Law explained in Note 3.17, the accounting policies related with "employee benefits" for the benefits transferable to the SSF and as per TAS 19 for other benefits not transferable to the SSF and arising from other social rights and payments covered by the existing trust indenture of the Fund and medical benefits provided for employees. Based on the actuary's 7 December 2015 dated report, the asset surplus over the fair value of the plan assets to be used for the payment of the obligations also fully covers the benefits not transferable and still a surplus of TL 1,336,959 thousands (31 December 2014: TL 1,287,303) thousands remains as of 31 December 2015 as details are given in the table below.

The Bank's management, acting prudently, did not consider the health premium surplus amounting TL 528,011 thousands (31 December 2014: TL 512,562 thousands) as stated above and resulted from the present value of medical benefits and health premiums transferable to SSF as of 31 December 2015. However, despite this treatment there are no excess obligation that needs to be provided against.

TÜRKİYE GARANTİ BANKASI A.Ş. AND ITS FINANCIAL AFFILIATES

CONSOLIDATED FINANCIAL REPORT AS OF AND FOR THE YEAR ENDED 31 DECEMBER 2015
(THOUSANDS OF TURKISH LIRA (TL))

(Convenience Translation of Financial Statements and

TRANSFERABLE PENSION AND MEDICAL BENEFITS	CURRENT PERIOD	PRIOR PERIOD
Net present value of pension benefits transferable to SSF	(608,796)	(528,752)
Net present value of medical benefits and health premiums transferable to SSF	528,011	512,562
General administrative expenses	(33,702)	(29,290)
Present Value of Pension and Medical Benefits Transferable to SSF (1)	(114,487)	(45,480)
Fair Value of Plan Assets (2)	2,522,836	2,132,357
Asset Surplus over Transferable Benefits ((2)-(1)=(3))	2,408,349	2,086,877
Non-Transferable Benefits:		
Other pension benefits	(592,937)	(538,185)
Other medical benefits	(478,453)	(261,389)
Total Non-Transferable Benefits (4)	(1,071,390)	(799,574)
Asset Surplus over Total Benefits ((3)-(4)=(5))	1,336,959	1,287,303
Net Present Value of Medical Benefits and Health Premiums Transferable to SSF – but not considered acting prudently (6)	(528,011)	(512,562)
Present Value of Asset Surplus/(Defined Benefit Obligation) ((5)-(6))	808,948	774,741

The major actuarial assumptions used in the calculation of other benefits not transferable to SSF in compliance with TAS 19 are as follows:

	CURRENT PERIOD	PRIOR PERIOD
	%	%
Discount Rate (*)	10.30	8.80
Inflation Rate (*)	7.10	6.10
Future Real Salary Increase Rate	1.5	1.5
Medical Cost Trend Rate	40% above inflation	40% above inflation
Future Pension Increase Rate (*)	7.10	6.10

(*) The above rates are effective rates, whereas the rates applied for the calculation differ according to the employees' years in service.

Assumptions regarding future mortality are based on published statistics and mortality tables. The average life expectancy of an individual retiring at age 60 is 17 for males, and at age 58 for females is 23.

5.2.9 TAX LIABILITY

5.3.3 CREDIT DERIVATIVES AND RISK EXPOSURES ON CREDIT DERIVATIVES

As of 31 December 2015, there are commitments for "credit linked notes" of the Bank and its consolidated financial affiliates with a total face value of USD 125,000,000 (31 December 2014: USD 425,000,000) classified under "other irrevocable commitments".

As of 31 December 2014, there is a total return swap of a consolidated financial affiliate with a face value of USD 40,000,000 (31 December 2015: nil) classified under "other derivative financial instruments", where the financial affiliate is on the buying side of the protection.

As of 31 December 2014, there are total return swaps of the Bank with a total face value of EUR 85,000,000 (31 December 2015: nil) classified under "other derivative financial instruments", where the Bank is on the buying side of the protection.

As of 31 December 2015, there are total return swaps of the Bank with a total face value of USD 2,000,000,000 (31 December 2014: USD 2,000,000,000) classified under "other derivative financial instruments", where the Bank is on the selling side of the protection.

5.3.4 CONTINGENT LIABILITIES AND ASSETS

The Bank and its consolidated financial affiliates made a total provision amounting to TL 39,530 thousands (31 December 2014: TL 30,062 thousands) for the lawsuits filed by various customers and institutions which are likely to occur and for which cash outflow might be necessary, and disclosed it under Note 5.2.8.4.2, other provisions. There are various other lawsuits which are unlikely to occur and for which cash outflow is not expected to incur.

It is possible that the parent Bank or its consolidated financial affiliates may be required to provide additional collateral for the derivative transactions involved due to changes in certain financial indicators such as CDS levels, currency exchange rates, interest rates etc. As of 31 December 2015, there was no payment made related with such contingent liabilities.

Foreign Exchange Losses	85,299,950	32,967,042
Total	(830,631)	(60,275)

TL 2,517,983 thousands (31 December 2014: TL 1,486,943 thousands) of foreign exchange gains and TL 2,268,722 thousands (31 December 2014: TL 2,343,579 thousands) of foreign exchange losses are resulted from the exchange rate changes of derivative transactions.

The Bank enters into interest rate swap agreements in order to hedge the change in fair values of its fixed rate financial instruments due to fluctuations in market interest rates. In this respect, the Bank applied fair value hedge accounting for the fixed rate eurobonds issued in 2011 with a total face value of USD 500,000,000, maturity of 10 years and maturity date of 20 April 2021 which were priced at 6.375% originally and had a coupon rate of 6.25%, by designating interest rate swaps with the same face value amount and conditions. In June 2012, the Bank ceased to apply hedge accounting and accordingly fair value calculations for these bonds. The accumulated fair value differences incurred starting from the date of hedge accounting up to the date on which it was ceased, are amortized as per the effective interest-rate method in compliance with TAS 39.

In this respect; the Bank also applied fair value hedge accounting for its fixed-rate loans with a total principal of TL 395,094 thousands, USD 1,002,596,707 and EUR 29,500,000 and for its bonds with a total face value of TL 1,325,000 thousands and USD 167,900,000 and fixed-rate coupons by designating interest rate swaps with the same face values and terms. Accordingly, in the current period, a gain of TL 65,397 thousands and a loss of TL 48,755 thousands (31 December 2014: gains of TL 39,256 thousands and TL 42,104 thousands resulting from outstanding transactions at that date) resulted from the related fair value calculations for the hedged loans and bonds were accounted for under trading income/losses in the income statement, respectively.

In addition; the Bank also entered into cross currency swap agreements in order to hedge its fixed-rate bonds issued for a total principal value of AUD 175,000,000 and RON 85,500,000 with the same face value amount and conditions. Accordingly, in the current period, a loss of TL 13,669 thousands (31 December 2014: total loss of TL 12,511 thousands resulting from outstanding transactions at that date) resulted from the fair value changes of the securities issued and funds borrowed subject to hedge accounting were accounted for under trading income/losses in the income statement.

The Bank also enters into interest rate and cross currency swap agreements in order to hedge the change in cash flows of floating rate financial instruments due to fluctuations in market interest rates. In this respect, the Bank applied cash flow hedge accounting for its eurobonds with a total face value of USD 300,000,000, funds borrowed amounting to USD 95,792,432 and EUR 44,736,844 securitization borrowings amounting to USD 160,416,667 and EUR 203,784,208 by designating cross currency swaps with the same face value amount and conditions, and eurobonds with a total nominal value of USD 10,000,000, and for the collateralised borrowings amounting to TL 900,000 thousands and USD 250,000,000 and borrowings amounting to USD 650,000,000 by designating interest rate swaps with the same face value amount and conditions. Accordingly, in the current period, gains of TL 70,700 thousands and TL 4,946 thousands (31 December 2014: losses of TL 3,051 and TL 3,771 thousands resulting from outstanding transactions at that date) resulting from cross currency and interest rate swap agreements were recognised under shareholders'equity.
