

Since ancient times, people have developed many methods to preserve and protect what is important and valuable to them.

Today, for the sustainability of life, as individuals or as institutions, the tool we have adopted, developed and trusted to store and improve our earnings are our banks.

The indicators of trust are being preferred, having employee and customer loyalty, being investors' and shareholders' long-term choice .

As Garanti BBVA, at the top of our most essential concepts, we place trust. If there is trust, if we have been able to create this trust with our work, the best indicator of this is the fact that more than 20 million customers in Türkiye prefer us.

The fact that we are one huge team of 18 thousand people looking in the same direction, and working with the same goals and values.

As life, industries, world and technology change in a dazzling way, the fact that in solution partnership with our stakeholders, we constantly offer innovations that renew confidence.

And the fact that we continue to grow stronger with the ongoing investments of our international shareholders from 33 countries.

With our customers, employees, stakeholders and shareholders who empower us, we continue to inspire confidence, create value and contribute to our country's sustainable development.
